FROM: Justin Lontz
Laboratory Manager II

SUBJECT: Questions and Answers
CONTRACT NO. AGR19927-COMBUINSTR
Combustion Instrument

ADDENDUM #1

1. Will components such as a laboratory balance, regulators, computer, and consumables kit be required?

Please include a balance and consumables kit. We will purchase the computer separately through the state. We have He and O2 regulators where the current instrument is, so they will be sufficient unless the new instrument would have different requirements.

2. Can you tell me if carbon is important or are you only interested in nitrogen and protein?

Carbon is important as well. We have clients who want to know the carbon and carbon/nitrogen ratio results.

All other terms and conditions remain the same.

If you have any questions, please contact me at 302-698-4526
