Web Based Educational Program
ADDENDUM #1 Questions & Answers

Questions	Answers
<p>1. Text of passage being questioned: Providing K through 12 graders the opportunity to accelerate learning and/or practice needed skills and to complement k-12 classroom instruction and enhance students' skills.</p> <p>Will the district consider awarding to multiple vendors to allow including a vendor whose solutions serve students in grades 6-12 only?</p>	<p>The district is looking for a K-12, but will consider multiple vendors.</p>
<p>2. I see that this is calling for costs of "a district-wide site license and will be flexible in terms of usage and results data at the discretion of the district."</p> <p>Can you tell me the number of students that would be accessing this? I noted from Christine School District web link that Christina School District serves more than 14,500, but I would like to ensure this number is accurate for licensing purposes.</p>	<p>There are approximately 13,000 students in the district in grades K-12 in our traditional schools. We will not anticipate all students using the software at the same time.</p>
<p>3. Will instructional services be required or wanted for this bid? I see that admin, facilitator and teacher training will be required for Christina District staff and I just want to make sure we cover all costs in our RFP submission.</p>	<p>Instructional services or training would be required.</p>
<p>4. Whether companies from Outside USA can apply for this? (like, from India or Canada)</p>	<p>This RFP is not an international bid. It is limited to USA registered companies only.</p>
