CENTRAL BIDDING DEPARTMENT

ADDENDUM No. 3

Architectural/Engineering Services – William Penn High School – RFQ #4-14-33
Colonial School District

Date of Addendum: March 5, 2014

OPENING DATE: **March 12, 2014 at 2:00 PM**

To all prospective bidders under the specifications and contract documents described above, this Addendum to Bid is being issued to:

To answer the following questions:

1. Under Required Information 111.A.1. GSA Forms 254 & 254 were replaced by Form 330. Are we permitted to submit the information in another format that better suits the RFQ and describes our company, expertise, projects and staff?

Yes.

2. Section III.A.1 – Required Information / Minimum Requirements / GSA Forms 254 and 255, SF 330 or equivalent – The 330 form allows for a maximum of 10 example projects which is 5 more than what is requested in Section III.D.1 - Required Information / Relevant Experience. Can we provide 10 in the 330 but then provide the additional information requested in III.D.1 for 5 of those? Or should we restrict our 330 project examples to only 5 – the same ones we will be listing in III.D.1?

Either option stated will be acceptable.

3. Section III.B – Required Information / Understanding of the Project – this section requires that we state our teams understanding of issues related to the delivery of a major mechanical, electrical, addition and architectural/engineering renovations... – yet Section II – Scope of Services does not say anything about major mechanical and electrical renovations or additions. I'm assuming the scope is as described in Section II – Scope of Services and, while it will undoubtedly include associated mechanical and electrical renovations, it will not include MAJOR mechanical and electrical renovations or additions. Please confirm.

There are no major mechanical or electric renovations involved.
