Subject: Former Dover HS Building - Asbestos Abatement - Notice To Proceed

Warren,

The Capital School District school board approved the asbestos abatement project at the Former Dover High School building. Congratulations on being the successful bidder. The field work portion of the project is scheduled to start on January 8, 2015. Prior to the start of the project, we need to gather the following items:

1. Signed Contract: Your signed contract was forwarded today to the school district for signature.
2. Payment and Performance Bonds: Please send us these bonds as soon as possible.
3. Certificate of Liability Insurance: Please send us written in accordance with the specifications.
4. EPA/DNREC Ten-Day Notification: Please send us a copy of the notification when available.

We would like to schedule a Pre-Construction meeting at the project site for Tuesday, January 6 at 9:30 am. Does this date/time work for your schedule?

We are looking forward to working with you on this project. Please call me if you have any questions.

Val
