2. OBJECTIVE OF RFP

The objective of this RFP is to offer experienced professional transportation companies the opportunity to present a thoroughly detailed Proposal of their expertise and qualifications to CSNC. CSNC will also consider, on an equal basis, those CONTRACTORS who identify specialized training, expertise and/or other demonstrated skills in the area of student transportation. This clarification is intended to allow for proposals from associations or partnerships that may have expertise in the desired service area that have yet to be awarded public school transportation contracts; this makes clear that required qualifications and experience may be established in an alternative method other than years of experience. The Proposal will detail the Contractor's experience and expertise in assisting school districts or consortiums of similar size and scope as the CSNC Consortium.

This RFP specifically requests that all Contractors present their **qualifications** and **experience** in student transportation services (please see Proposal Requirements and Proposal Format).

CSNC will select the Proposal(s), if any, that is deemed most qualified to serve the best interests of the school, in its sole discretion. CSNC reserves the right to multi-award the contract based on the need to ensure adequate student transportation services

3. PURPOSE

The purpose of this RFP is to establish a contractual relationship with an experienced and qualified student transportation company or other CONTRACTOR as clarified in 2 above to provide complete transportation services to CSNC in the most efficient and cost-effective manner possible while, at the same time, maintaining the highest level of safety and reliability. CSNC may select one or more experienced and qualified student transportation company (ies) to proceed with the negotiation process from those submitting Proposals. The process will include the review and evaluation of methods and procedures used to provide transportation of students within the scope of this RFP. Past experience will also be judged by the references of each Contractor.

School transportation is not just about getting kids from home to school and back. CSNC are looking to create a partnership with a CONTRACTOR that understands the need for safe, efficient, and effective access to programs as an integral part of the education of children. CONTRACTORS that respond to this RFP must demonstrate /explain how they will be a part of this partnership and how they will carry out the contract to create the best possible experience for our children and be a part of the village that educates them.

20.1 In the event of failure for three (3) consecutive days to transport students as herein provided, this contract may be terminated by CSNC or its legal representative(s), by a notice in writing given to the CONTRACTOR(S), or its legal representative(s), or the assignee(s), of its intentions to terminate this contract, and after two (2) days said notice shall be a termination of this contract and CSNC shall not be liable for any service rendered under this contract for any part of the month when said services ceased or failed to be rendered according to the terms thereof, and the CONTRACTOR(S) shall be liable for all damages suffered by CSNC as a result of the termination of the contract. The CONTRACTOR(S) agrees that, in the event of bankruptcy, insolvency, attachments or liens placed against the CONTRACTOR(S), the contract may be declared null and void at the option of the member charter

school(s).

20.2 In the event of a strike against CONTRACTOR(S) causing interruption services or operations, CSNC has the right to secure such other transportation as may be necessary and charge both the cost of alternative services, as well as any incidental and consequential damages to the CONTRACTOR(S).

In addition, deduction will be made from the monthly payment to the CONTRACTOR(S) for each day of service not provided. These deductions will be based upon one hundred-eighty (168) operating days.

21. CONFIDENTIALITY

Subject to applicable law or the order of a court of competent jurisdiction to the contrary, all documents submitted as part of the vendor's proposal will be treated as confidential during the evaluation process. As such, vendor proposals will not be available for review by anyone other than the State of Delaware/Proposal Evaluation Team or its designated agents. There shall be no disclosure of any vendor's information to a competing vendor prior to award of the contract unless such disclosure is required by law or by order of a court of competent jurisdiction.

The State of Delaware and its constituent agencies are required to comply with the State of Delaware Freedom of Information Act, 29 Del. C. § 10001, et seq. ("FOIA"). FOIA requires that the State of Delaware's records are public records (unless otherwise declared by FOIA or other law to be exempt from disclosure) and are subject to inspection and copying by any person upon a written request. Once a proposal is received by the State of Delaware and a decision on contract award is made, the content of selected and non-selected vendor proposals will likely become subject to FOIA's public disclosure obligations.

The State of Delaware wishes to create a business-friendly environment and procurement process. As such, the State respects the vendor community's desire to protect its intellectual property, trade secrets, and confidential business information (collectively referred to herein as "confidential business information"). Proposals must contain sufficient information to be evaluated. If a vendor feels that they cannot submit their proposal without including confidential business information, they must adhere to the following procedure or their proposal may be deemed unresponsive, may not be recommended for selection, and any applicable protection for the vendor's confidential business information may be lost.

In order to allow the State to assess its ability to protect a vendor's confidential business information, vendors will be permitted to designate appropriate portions of their proposal as confidential business information.

Vendor(s) may submit portions of a proposal considered to be confidential business information in a separate, sealed envelope labeled "Confidential Business Information" and include the specific RFP number. The envelope must contain a letter from the Vendor's legal counsel describing the documents in the envelope, representing in good faith that the information in each document is not "public record" as defined by 29 Del. C. § 10002, and briefly stating the reasons that each document meets the said definitions.

Upon receipt of a proposal accompanied by such a separate, sealed envelope, the State of Delaware will open the envelope to determine whether the procedure described above has been followed. A vendor's allegation as to its confidential business information shall not be binding on the State. The State shall independently determine the validity of any vendor designation as set forth in this section. Any vendor submitting a proposal or using the procedures discussed herein expressly accepts the State's absolute right and duty to independently assess the legal and factual validity of any information designated as confidential business information. Accordingly, Vendor(s) assume the risk that confidential business information included within a proposal may enter the public domain.

22. PRICE NOT CONFIDENTIAL

Vendors shall be advised that as a publically bid contract, no Vendor shall retain the right to declare their pricing confidential.

23. REQUIRED REPORTING

In accordance with Executive Order 44, the State of Delaware is committed to supporting its diverse business industry and population. The successful Vendor will be required to accurately report on the participation by Diversity Suppliers which includes: minority (MBE), woman (WBE), veteran owned business (VOBE), or service disabled veteran owned business (SDVOBE) under this awarded contract. The reported data elements shall include but not be limited to; name of state contract/project, the name of the Diversity Supplier, Diversity Supplier contact information (phone, email), type of product or service provided by the Diversity Supplier and any minority, women, veteran, or service disabled veteran certifications for the subcontractor (State OSD certification, Minority Supplier Development Council, Women's Business Enterprise Council, VetBiz.gov). The format used for Subcontracting 2nd Tier reporting is shown as Appendix I.

Accurate 2nd Tier reports shall be submitted to the contracting Agency's Office of Supplier Diversity at vendorusage@state.de.us on the 15th (or next business day) of the month following each quarterly period. For consistency quarters shall be considered to end the last day of March, June, September and December of each calendar year. Contract spend during the covered periods shall result in a report even if the contract has expired by the report due date

NOW, THEREFORE, for and in consideration of the mutual promises and covenants herein, Vendor and Customer hereby agree as follows:

I. Definitions:

- A. “Student Transportation” is defined as the provision of all pupil transportation services required by Customer. Provision of pupil transportation requirements includes the provision of maintenance, supplies, routing, driver, supervision, related equipment and record keeping as further described in this agreement so as to provide the entire pupil transportation services for Family Foundations Academy Middle School.
- B. “Customer” refers to collectively or individually Family Foundations Academy.

- E. “Vehicles” refers to buses used for Student Transportation owned and operated by Vendor as required by this Agreement.

II. Scope of Work

- A. Vendor shall provide all student transportation services, and maintain all Vehicles in compliance with this Agreement and all applicable provisions of Delaware law and regulations including any laws and regulations specifically applicable to students governing the operations of school buses and the transportation of Students pertaining to Student Transportation, field trips, athletic contests, and extra-curricular trips as well as the reporting and handling of Student discipline incidents. No person other than Students, supervisors, Company employees, Customer employees, approved chaperones or drivers in training shall be permitted to use the vehicles without the written approval of Customer.
- B. Such transportation may be on any day or days during the term of the Agreement.
- C. Vendor shall supply enough buses to meet the transportation needs of the Customer, whose enrollment for the 2018-2019 year is expected to be 770 students for 170 days through the end of the basic school term on June 7, 2018. The contract price specified in XI A is based on 16 buses and _____ bus aides for the basic school term. Bus aides will be assigned to routes _____.

III. Drivers

- A. Vendor shall employ drivers for the Vehicles used in providing Student Transportation. Drivers shall be carefully chosen based upon their driving skill and character.
 - 1. All drivers will be qualified, competent, and trained in the operation of the buses that they drive and in dealing and handling Students with whom they will interact (including Students with special needs).

5. Vendor shall maintain copies of references on all drivers, all of which shall be made available to Customer upon request.
6. The vendor shall file with the school's Principal or designee the names of all bus drivers who will operate buses and the identification number of the assigned buses before the opening of school each year.
