The grant is for a period of 5 years, pending continued funding by the federal Substance Abuse and Mental Health Services Agency (SAMHSA). DPBHS is responsible for coordinating services with three (3) participating districts and their identified schools, DOE, mental health professionals, community program managers, and the agency providing clinical services. The Behavioral Health Co-Coordinator will be responsible for ensuring that all care coordination and clinical services are implemented, monitored, and data collected as outlined in the grant application. To provide oversight to these activities, Project DelAWARE is contracting for a Behavioral Health Project DelAWARE Co-Coordinator who will work closely with DOE’s Project Coordinator. DSCYF is **NOT accepting proposals from agencies. DSCYF is ONLY accepting proposals from individuals.**

The Delaware Department of Education has been awarded a SAMHSA grant to integrate mental health services into three participating school districts. The grant is for a period of 5 years, pending continued funding by SAMHSA. The Division of Prevention and Behavioral Health Services (DPBHS), Department of Services for Children, Youth and Their Families is collaborating with DOE in implementing this grant, called Project DelAWARE. The grant abstract follows:

Delaware’s Project AWARE State Education Grant or Project DelAWARE proposes to build on existing collaboration between the state’s Department of Education (DOE) and child mental health system (Division of Prevention and Behavioral Health Services: DPBHS) to improve access to effective mental health services in three of the state’s Local Education Agencies (LEAs) and improve outcomes, both emotional and academic, for youth with serious emotional disturbance (SED) or serious mental illness (SMI). More specifically, the aims of Project DelAWARE are to (1) implement evidence-based mental health services in school settings within the context of an integrated, systems model; (2) increase student access to mental health services through the addition of new staff and resources; (3) educate relevant staff in public school settings about how to access mental health services for students that need them; (4) reduce the stigma associated with mental health and increase recognition of mental health problems through alliance-building with state and local programs that promote mental health wellness and care; (5) build alliances between newly implemented services with more established school mental health programs and initiatives to promote integration and efficiency; (6) engage school-aged youth and families (including those with lived experience) and community programs as active partners in the development, implementation and maintenance of behavioral health services in schools; (7) engage local businesses and a community organizations as added supports for children and parents struggling with mental health problems, and (8) develop and implement a plan to sustain improvements to behavioral health services after grant funds end.

To achieve the aims listed above, DOE, in partnership with DPBHS, and other identified community agencies will use the Multi-Tiered System of Support (MTSS:
(https://www.pbis.org/school/mtss) as a general framework for organizing outreach, awareness, family engagement, and behavioral health services in 3 participating school districts across the state.

It is anticipated that the contractual agreement with the successful bidder will begin in early 2019 and extend through September 30, 2020, with optional extensions pending satisfactory performance and continued federal funding for up to a five-year period. There is no guarantee of continued funding beyond that period.
