**Request for Proposals for Local Education Agency - School District**  
**CBITS and Functional Family Therapy: FFT**

The State of Delaware's Department of Services for Children, Youth & Their Families (DSCYF), Division of Prevention and Behavioral Health Services (DPBHS) is seeking proposals for **an agency to provide the following evidenced-based practices to students:** Cognitive Behavioral Intervention for Trauma in School: CBITS and Functional Family Therapy: FFT. These services are funded by a grant that has been awarded to the Department of Education (DOE) by SAMHSA. The grant is for a period of 5 years, pending continued funding by the federal Substance Abuse and Mental Health Services Agency (SAMHSA). **SAMHSA required in its RFP that all mental health treatment provider organizations participating in the DelAWARE have been providing CBITS and FFT for a minimum of two years. DSCYF is ONLY accepting proposals from agencies.**

The Delaware Department of Education (DOE) has been awarded a SAMHSA grant to integrate mental health services into three participating school districts. The grant is for a period of 5 years, pending continued funding by SAMHSA. The Division of Prevention and Behavioral Health Services (DPBHS), Department of Services for Children, Youth and Their Families is collaborating with DOE in implementing this grant, called Project DelAWARE. The grant abstract follows:

Delaware's Project AWARE State Education Grant or Project DelAWARE proposes to build on existing collaboration between the state's Department of Education (DOE) and child mental health system (Division of Prevention and Behavioral Health Services: DPBHS) to improve access to effective mental health services in three of the state's LEAs and improve outcomes, both emotional and academic, for youth with serious emotional disturbance (SED) or serious mental illness (SMI). More specifically, the aims of Project DelAWARE are to (1) implement evidence-based mental health services in school settings within the context of integrated, systems model; (2) increase student access to mental health services through the addition of new staff and resources; (3) educate relevant staff in public school settings about how to access mental health services for students that need them; (4) reduce the stigma associated with mental health and increase recognition of mental health problems through alliance-building with state and local programs that promote mental health wellness and care; (5) build alliances between newly implemented services with more established school mental health programs and initiatives to promote integration and efficiency; (6) engage school-aged youth and families (including those with lived experience) and community programs as active partners in the development, implementation and maintenance of behavioral health services in schools; (7) engage local businesses and a community organizations as added supports for children and parents struggling with mental health problems, and (8) develop and implement a plan to sustain improvements to behavioral health services after grant funds end.

To achieve the aims listed above, DOE, in partnership with DPBHS, and other identified community agencies will use the Multi-Tiered System of Support (MTSS: (<https://www.pbis.org/school/mtss>)) as a general framework for organizing outreach, awareness, family engagement, and behavioral health services in 3 LEAs across the state.

It is anticipated that the contractual agreement with the successful bidder will begin in December 2018/January 2019 and extend through September 30, 2023, pending continued funding for the full five year period. There is no guarantee of continued funding beyond that period.
