**ADDENDUM NUMBER ONE (1)**

**QUESTION AND ANSWERS AS OF JUNE 26, 2012 ADDED TO THE PROPOSAL:**

1. First, we use a wet paint process that we believe is superior to powder coat. We have the best warranty in the industry, 5 years, on our finish. Is this acceptable?

**No.**

2. Second, you refer to ASTM A595 in forming the shaft, which is done using a mandrel. We use ASTM A572 in our process, using a press brake. Our shaft will be round as you required. Is this acceptable?

**ASTM A572 is acceptable**

**Press brake is acceptable**

All other terms and conditions remain the same.
