HAZMAT Environmental Services
1641 Request for Qualifications
Friday, January 25, 2013**

Q #	Question	Answer
1	<p>Item #2 of the Submission Requirements (page 3 of RFQ) states that the Prime must be registered in Environmental Studies Item #13. The next sentence says the firm must also have knowledge and experience in Soil Engineering and Geologic and Hydro-Geologic services. On the registration form there is a category for Soil Engineering and Geologic Studies (Item #6). Do we also need to be Registered in category #6 or just show experience in that area in the Expression of Interest?</p>	<p>You do not need to be registered in Soil Engineering; however, you should have someone as part of your project team that has knowledge & experience in those areas (i.e. Soil Engineering and Geologic and Hydro-Geologic services).</p>
