Q #	Question	Answer
2	We have just recently begun dealing with government entities. Will our other years of experience prove enough, or do we need government experience to be seriously considered?	Experience with government entities is part of the rating criteria, but it is not the ONLY criteria being considered. All interested firms are encouraged to apply.
1	We are located in another state. As long as we are pre-registered or make an application for registration with DeIDOT, that is OK, even though we are not physically located in DE?	That is correct.
