| Half Dollars - | \$500 or \$1,000 |
| Dollar Coins - | \$1,000 or \$2,000 |

NOTE:

In response to 11-15:

****Currency:** Our toll collectors strap their 1s into bundles of \$100, they then package the balance of 1s, 5s, 10s, 20s, 50s and 100s together by denomination with a rubber band. No clips are allowed. The collector puts their deposit into a bag (bank refers to it as an envelope) the bags are then put together into a transfer bag and whatever is in the transfer bag becomes the deposit, the deposit is then visible on the outside of the transfer bag and we receive a credit automatically for the deposit, it is then verified and any changes to the deposit are debited or credited the following day.

**** Coin:** Our toll collectors run their coin and deposit it into a small bag (envelope), the envelopes are combined into a coin transfer bag which then becomes the deposit, the deposit is then visible on the outside of the transfer bag and ditto on the above.
