| 3 | What is the format for the "brief interview session"? | Further information will be distributed following receipt of the Expressions of Interest. We do ask that candidate firms be available during the week noted in the RFQ. |
| 2 | We received the email below from Contract Administration noting potential DBE subconsultants that could be considered for this agreement. However, the RFQ states that "...potential subconsultants are not to be listed; are not considered during the evaluation process; and do not become part of the initial agreement." Could you please confirm that subconsultants are NOT to be referenced in our expressions of interest? | That is correct. Subconsultant information should not be included at this stage. A statement of commitment to put for a "Good Faith Effort" to achieve any DBE goals assigned will be sufficient. |
| 1 | Please confirm that for this letter of interest the present DELDOT workload and a listing of contracts with DelDOT for the past five (5) years are NOT required. | Correct. That information is not being requested at this time. |
