<b>Q #</b>	<b>Question</b>	<b>Answer</b>
3	Brush Control Line Item- when selecting herbicides for Brush Control, is browning of the foliage a concern to Del Dot.	Brownout is a minor concern, but can be controlled by herbicide selection and timing of application. DelDOT will forward brush treatment locations in a timely manner so that the contractor will be able to apply at the most strategic time to minimize any brownout.
2	What is the or does the Initial Expense Cover on attachment E (pricing page)	SECTION 763 INITIAL EXPENSE 763.01 Description. This work consists of all operations necessary for the assembling and setting up of the Project, including the initial movement of personnel and equipment to the Project site, the establishment of the Contractor's offices, shops, plants, storage areas, and sanitary facilities, any other activities required by the Contract documents and by local or State law and regulation, and all other work and operations which must be performed prior to beginning work on compensable items of work at the Project site. This work also includes obtaining the required insurance and bonds, and all other items required for the start of work.

1	Are all personnel required to have the State of Delaware Commercial Pesticide Applicator's License? We have one employee with this license, and it is our understanding that other employees can apply pesticides under the license holder's supervision. If one license holder qualifies our Company for this work, please let us know.	All applicator personnel, including vehicle operator must be certified in accordance with the specification and Delaware Department of Agriculture regulations. One license holder will not qualify.
