**WESTERN SUSSEX BYWAY
CORRIDOR MANAGEMENT PLAN**

PROJECT DESCRIPTION

The purpose of this process is to develop a Corridor Management Plan (CMP) for the Western Sussex Byway (WSB) following the guidelines for developing CMPs as set forth by the Federal Highway Administration (FHWA) and the Delaware Department of Transportation (DelDOT) under its Byways Program. This project, among other things, will identify ways to interpret, promote and enhance the WSB.

CONSULTANT SERVICES REQUIRED

Services include but are not limited to the following:

- Assist in the development and facilitation of the WSB CMP Committee and Subcommittees and provide leadership and technical assistance to these committees.
- Conduct public meetings to present the CMP to the public for comments.
- Develop vision and goal statements with objectives and strategies for achieving the goals.
- Develop a plan for the stewardship of the Byway's intrinsic qualities. This plan should discuss resource preservation, enhancement of existing development and accommodating new development in a complementary manner. This plan should also include strategies for maintaining and enhancing the Byway's intrinsic qualities.
- Develop and maintain a project website for the Byway to include information on the CMP progress, meeting dates, links to DelDOT Byway website, and others related to the byway in collaboration with Sussex County Information Technology Department.
- Develop Tourism and Marketing Plan. The plan will include an explanation of the tourism potential of the corridor and how the visitor's experience will be maximized and enhanced. It should also include a plan on how to market the Byway and a signage plan supportive of the visitor experience and activities to do when visiting the Byways. The CMP will need to identify what is public and private, what are visitor hours for public sites, etc.
- Develop a strong Interpretive Plan. The plans should include a description to interpret the significant resources of the Byway including recommended locations for distributing information.
- Develop a plan for outdoor advertising control. This should include a demonstration of compliance with all existing local, state, and federal laws on the control of outdoor advertising.
- Develop a Short-term Action Plan for implementation. This involves an action plan covering the first two (2) years of implementation of the CMP.
- Develop a medium (2 – 5 years), long term (10 years and out), and on-going Action Plan of projects for future implementation.
- Publish Corridor Management Plan.
- Provide renderings of demonstration projects along the route to offer “before” and “after” images to be used for future planning.

OVERVIEW OF SELECTION PROCESS

The Expressions of Interest will be used to determine a reduced candidate's list/short list and also will be used for reference material during the actual selection process. Once a short list has been determined, a mandatory pre-proposal meeting may be established for a briefing and to provide an opportunity for the short-listed candidates to ask questions. Once the Pre-proposal Meeting has been completed, there may be a written submission and/or oral interview sessions scheduled, after which the committee will determine the successful candidate. The Department's Professional Services Procurement Manual may be viewed [here](#).

After the selection process has been completed, applicable price information will be requested from the successful candidate; i.e. salary rates for various classifications of personnel, and an indirect cost derivation for the most current accounting period. Firms responding to this RFQ should be aware that the Department will not entertain direct cost charges for items needed to perform the work required. It is expected that all firms submitting are prepared for the work and include necessary work materials in their overhead rates. If an interested firm is requested to submit a priced proposal, the proposal should substantially reflect the same composition and area of involvement as the Expression of Interest submission.

Payroll burden and overhead will be computed on direct salary costs only (not including overtime) at the consultant's audited rate, as per Federal Acquisition Regulations Part 31, and Department policies. Computer and CADD costs are not allowable as a direct cost to this project. Rate determination and applicability is subject to audit by the Department. Additionally, candidates should be prepared for the Department to work with your current accounting firm to provide information and backup documentation. Full and immediate cooperation is required to avoid delays in execution of an agreement. Failure to cooperate may result in breaking off of negotiations and moving to the next ranked firm.
