3	The RFQ lists inspection, design, and construction services for the viaduct but the title of the agreement only mentions inspection services. Can you confirm that the agreement includes all three aspects – inspection, design, and construction?	Yes, the RFQ is intended to procure a consultant to perform engineering services related to a design level inspection of the viaduct and associated ramps, the development of rehabilitation plans and contract documents based on the inspection, and support during construction.
2	Under <i>Expression of Interest Requirements, 2. D. (2) d</i> Does the guidance mean 5 total projects, each 1 page in length, for a total of 5 pages?	Up to five (5) similar projects may be submitted, with one project per page or all five (5) projects on one page.
1	Are any plans or related documents available for review?	All documents available for review can be found on the GSS website at bids.delaware.gov .
