GALVANIZED TELESCOPING STEEL SIGN POST
Thursday, July 13, 2017

Q #	Question	Answer
2	Although we are submitting bids for an estimated annual quantity of pieces for use at the 3 locations, is there any typical frequency or amount that we might expect, for instance, the New Castle County location typically orders 10% of the total on a once per quarter basis? Or perhaps the entire annual quantity is ordered at one time? I'm just trying to get an idea of how much, how often.	Typically when an order is placed all 3 locations are included. We may place 2-4 orders per year. The quantities vary as needed and each location can constitute 25-40% of the order. We would not order the entire annual quantity at one time.
