1. BID INVITATION

See "Definitions".

2. PROPOSAL FORMS

The invitation to bid shall contain pre-printed forms for use by the vendor in submitting its bid. The forms shall contain basic information such as description of the item and the estimated quantities and shall have blank spaces for use by the vendor for entering information such as unit bid price, total bid price, etc.

3. INTERPRETATION OF ESTIMATES

The attention of bidders is called to the fact that, unless stated otherwise, any quantities given in the proposal form are to be considered to be approximate only and are given as a basis for the comparison of bids. The Agency may increase or decrease the amount of any item as may be deemed necessary or expedient, during the period of the contract.

An increase or decrease in the quantity for any item is not sufficient ground for an increase or decrease in the unit price.

4. SILENCE OF SPECIFICATIONS

The apparent silence of the specifications as to any detail, or the apparent omission from it of detailed description concerning any point, shall be regarded as meaning that only the best commercial practice is to prevail and only material and workmanship of the first quality are to be used. Proof of specifications compliance will be the responsibility of the vendor.

5. EXAMINATION OF SPECIFICATIONS AND PROVISIONS

The bidder shall examine carefully the proposal and the contract forms for the material contemplated. The bidder shall investigate and satisfy itself as to the conditions to be encountered, quality and quantities of the material to be furnished, and the requirements of the Special Provisions and the contract. The submission of a proposal shall be conclusive evidence that the bidder has made examination of the aforementioned conditions.

6. PREPARATION OF PROPOSAL

- b. The proposal shall show a unit and total bid price for each item bid and the total bid price of the proposal.

7. PRICES QUOTED

The prices quoted are those for which the material will be furnished F.O.B. Ordering Agency and include all charges that may be imposed during the period of the contract. **All prices must be quoted in U.S. Dollars.**

8. DISCOUNT

No qualifying letter or statements in or attached to the proposal, or separate discounts will be considered in determining the low bid except as may be otherwise herein noted. Cash or separate discounts should be computed and incorporated into unit bid price(s).

9. SAMPLES OR BROCHURES

Samples or brochures may be required by the agency for evaluation purposes. They shall be such as to permit the Agency to compare and determine if the item offered complies with the intent of the specifications.

10. PROPOSAL GUARANTY; BID BOND

The Bid Bond has been waived.

11. DELIVERY OF PROPOSALS

Proposals shall be delivered in sealed envelopes, and shall bear on the outside the name and address of the bidder as well as the designation of the contract. Proposals must be delivered to the address listed below. All bids must clearly display the bid number on the envelope.

All proposals will be accepted at the time and place set in the advertisement. Bidder bears the risk of delays in delivery. Proposals received after the time set for public opening will be returned unopened.

A bidder may withdraw its proposal unopened after it has been deposited, if such a request is made prior to the time set for the opening of the proposal.

13. PUBLIC OPENING OF PROPOSALS

The bids shall be publicly opened at the time and place specified by the Agency. Bidders or their authorized representatives are invited to be present.

14. PUBLIC INSPECTION OF PROPOSALS

If the bidder designates a portion of its bid as confidential, it shall isolate and identify in writing the confidential portions. The bidder shall include with this designation a statement that explains and supports the firm's claim that the bid items identified as confidential contain trade secrets or other proprietary data.

15. DISQUALIFICATION OF BIDDERS

Any one or more of the following causes may be considered as sufficient for the disqualification of a bidder and the rejection of its proposal or proposals:

- e. If the unit prices are obviously unbalanced either in excess or below reasonable cost analysis values.
- f. If there are any unauthorized additions, interlineations, conditional or alternate bids or irregularities of any kind which may tend to make the proposal incomplete, indefinite, or ambiguous as to its meaning.
- g. Non-attendance of mandatory pre-bid meetings may be cause of disqualification.

16. ADDENDA TO THE INVITATION TO BID (ITB)

If it becomes necessary to revise any part of this ITB, revisions will be posted at <http://bids.delaware.gov/> . By submitting an offer to the State, vendors have acknowledged receipt, understanding and commitment to comply with all materials, revisions, and addenda related to the Invitation to Bid.

17. LOBBYING AND GRATUITIES

Lobbying or providing gratuities shall be strictly prohibited. Vendors found to be lobbying, providing gratuities to, or in any way attempting to influence a State of Delaware employee or agent of the State of Delaware concerning this ITB or the award of a contract resulting from this ITB shall have their proposal immediately rejected and shall be barred from further participation in this ITB.

The selected vendor will warrant that no person or selling agency has been employed or retained to solicit or secure a contract resulting from this ITB upon agreement or understanding for a commission, or a percentage, brokerage or contingent fee. For breach or violation of this warranty, the State of Delaware shall have the right to annul any contract resulting from this ITB without liability or at its discretion deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee.

Solicitation of State of Delaware employees by a vendor may result in rejection of the vendor's proposal.

This paragraph does not prevent the employment by a vendor of a State of Delaware employee who has initiated contact with the vendor. However, State of Delaware employees may be legally prohibited from accepting employment with the contractor or subcontractor under certain circumstances. Vendors may not knowingly employ a person who cannot legally accept employment under state or federal law. If a vendor discovers that they have done so, they must terminate that employment immediately.

19. INDEPENDENT CONTRACTORS

The parties to the contract shall be independent contractors to one another, and nothing herein shall be deemed to cause this agreement to create an agency, partnership, joint venture or employment relationship between parties. Each party shall be responsible for compliance with all applicable workers compensation, unemployment, disability insurance, social security withholding and all other similar matters. Neither party shall

Successful completion of this form enables the creation of a State of Delaware vendor record. The Taxpayer ID (SSN or EIN) and Applicant (vendor) name are submitted to the Internal Revenue Service for "matching." If the Taxpayer ID and name do not match, the vendor record cannot be approved.

It is the applicant's responsibility to select the appropriate 1099 Withholding Type and Class. If incorporated, a business is not subject to 1099 reporting unless the business is providing legal or medical services.

Any questions about completing this form or specific comments about a form that you have submitted, please contact vendor services by phone at 302-672-5000.

26. VENDOR RESPONSIBILITY

The State will enter into a contract with the successful Vendor(s). The successful Vendor(s) shall be responsible for all products and services as required by this ITB whether or not the Vendor or its subcontractor provided final fulfillment of the order. Subcontractors, if any, shall be clearly identified in the Vendor's proposal by completing Attachment B, and are subject to Agency approval and acceptance.

27. PERSONNEL, EQUIPMENT AND SERVICES

- a. The Vendor represents that it has, or will secure at its own expense, all personnel required to perform the services required under this contract.

- b. All of the equipment and services required hereunder shall be provided by or performed by the Vendor or under its direct supervision, and all personnel, including subcontractors, engaged in the work shall be fully qualified and shall be authorized under State and local law to perform such services.
- c. None of the equipment and/or services covered by this contract shall be subcontracted without the prior written approval of the Agency. Only those subcontractors identified in Attachment B are considered approved upon award. Changes to those subcontractor(s) listed in Attachment B must be approved in writing by the Agency.

28. FAIR BACKGROUND CHECK PRACTICES

Pursuant to 29 Del. C. [§6909B](#) and effective November 4, 2014 the State does not consider the criminal record, criminal history, credit history or credit score of an applicant for state employment during the initial application process unless otherwise required by state and/or federal law. Vendors doing business with the State are encouraged to adopt fair background check practices. Vendors can refer to 19 Del. C. [§711\(g\)](#) for applicable established provisions.

29. LIFE CYCLE COSTING

If applicable, the specifications contained within this ITB have been developed through Life Cycle Cost Analysis that will allow the State to realize the lowest total cost of ownership and operation over the useful life of the equipment

30. ENVIRONMENTAL PROCUREMENT PRODUCTS

- a. Energy Star - If applicable, the Contractor must provide products that earn the ENERGY STAR rating and meet the ENERGY STAR specifications for energy efficiency in order to keep overall event costs to a minimum. The Contractor is encouraged to visit www.energystar.gov for complete product specifications and updated lists of qualifying products.
- b. Green Products – third party certification of green products accepted from GSS w/approved green certification shall be offered wherever available in addition to or as a substitute for non-green products.
- c. Contractors shall report all green items procured during the monthly reporting period using the Usage Report that will be provided to the awarded Vendor(s).
- d. Environmental Procurement Policies of the State shall determine acceptable consideration and credit for environmentally preferred products and services in the performance of this award. The State Environmental Procurement Policies may be found:
<http://gss.omb.delaware.gov/contracting/documents/agencyboilers/espp.pdf>.

31. TERMINATION OF INDIVIDUAL ORDERS OR PURCHASE ORDERS

The individual orders may be terminated as follows:

- a. **Termination for Cause:** If, for any reasons, or through any cause, the Vendor fails to fulfill in timely and proper manner his obligations, or if the Vendor violates any of the covenants, agreements, or stipulations of this contract, the Agency shall have the right to terminate the P.O. by giving written notice to the Vendor of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Vendor in the performance of the P.O. shall, at the option of the Agency, become its property, and the Vendor shall be entitled to receive just and equitable

compensation for any satisfactory work completed on such documents and other materials which is usable to the Agency.

b. Termination for Convenience: The Agency may terminate the P.O. at any time by giving written notice of such termination and specifying the effective date thereof, at least sixty (60) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, models, photographs, reports, supplies, and other materials shall, at the option of the department, become its property and the Vendor shall be entitled to receive compensation for any satisfactory work completed on such documents and other materials which are usable to the Agency.

c. Termination for Non-Appropriations: In the event the General Assembly fails to appropriate the specific funds necessary to enter into or continue the contractual agreement, in whole or part, the agreement shall be terminated as to any obligation of the State requiring the expenditure of money for which no specific appropriation is available at the end of the last fiscal year for which no appropriation is available or upon the exhaustion of funds. This is not a termination for convenience and will not be converted to such.

32. TERMINATION OF CONTRACT

The contract resulting from this ITB may be terminated as follows by the Agency:

a. Termination for Cause: If, for any reasons, or through any cause, the Vendor fails to fulfill in timely and proper manner its obligations under this Contract, or if the Vendor violates any of the covenants, agreements, or stipulations of this Contract, the State shall thereupon have the right to terminate this contract by giving written notice to the Vendor of such termination and specifying the effective date thereof, at least thirty (30) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Vendor under this Contract shall, at the option of the State, become its property, and the Vendor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials which is usable to the State.

On receipt of the contract cancellation notice from the State, the Vendor shall have not less than five (5) days to provide a written response and may identify a method(s) to resolve the violation(s). A vendor response shall not effect or prevent the contract cancellation unless the State provides a written acceptance of the Vendor response. If the State does accept the Vendor's method and/or action plan to correct the identified deficiencies, the State will define the time by which the Vendor must fulfill its corrective obligations. Final retraction of the State's termination for cause will only occur after the Vendor successfully rectifies the original violation(s). At its discretion the State may reject in writing the Vendor's proposed action plan and proceed with the original contract cancellation timeline.

b. Termination for Convenience: The State may terminate this Contract at any time by giving written notice of such termination and specifying the effective date thereof, at least sixty (60) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, models, photographs, reports, supplies, and other materials shall, at the option of the State, become its property and the Vendor shall be entitled to receive compensation for any satisfactory work completed on such documents and other materials, and which is usable to the State.

c. Termination for Non-Appropriations: In the event the General Assembly fails to appropriate the specific funds necessary to enter into or continue the contractual agreement, in whole or part, the agreement shall be terminated as to any obligation of the State requiring the expenditure of money for which no specific appropriation is available at the end of the last fiscal year for which no appropriation is available or upon the exhaustion of funds. This is not a termination for convenience and will not be converted to such.

33. CHANGES

Both parties may, from time to time, require changes in the services to be provided by the Vendor under the Scope of Work. Such changes, including any increase or decrease in the amount of the Vendor's compensation, which are mutually agreed upon by and between the Agency and the Vendor shall be incorporated in written amendments to the Purchase Order or contract.

34. AUDIT ACCESS TO RECORDS

The Vendor shall maintain books, records, documents, and other evidence pertaining to this Contract to the extent and in such detail as shall adequately reflect performance hereunder. The Vendor agrees to preserve and make available to the State, upon request, such records for a period of five (5) years from the date services were rendered by the Vendor. Records involving matters in litigation shall be retained for one (1) year following the termination of such litigation. The Vendor agrees to make such records available for inspection, audit, or reproduction to any official State representative in the performance of their duties under the Contract. Upon notice given to the Vendor, representatives of the State or other duly authorized State or Federal agency may inspect, monitor, and/or evaluate the cost and billing records or other material relative to this Contract. The cost of any Contract audit disallowances resulting from the examination of the Vendor's financial records will be borne by the Vendor. Reimbursement to the State for disallowances shall be drawn from the Vendor's own resources and not charged to Contract cost or cost pools indirectly charging Contract costs.

35. VENDOR EMERGENCY RESPONSE POINT OF CONTACT

The awarded vendor(s) shall provide the name(s), telephone, or cell phone number(s) of those individuals who can be contacted twenty four (24) hours a day, seven (7) days a week to meet a critical need for commodities or services when the Governor of the State of Delaware declares a state of emergency under the current Delaware Emergency Operations Plan. Failure to provide this information could render the bid as non-responsive.

36. SUBCONTRACTS

Subcontracting is permitted under this ITB and contract. However, every subcontractor shall be identified in the Proposal (Attachment B) and agreed to in writing by the State or as are specifically authorized in writing by the Agency during the performance of the contract. Any substitutions in or additions to such subcontractors, associates, or consultants will be subject to the prior written approval of the Agency.

The Vendor(s) shall be responsible for compliance by the subcontractor with all terms, conditions and requirements of the ITB and with all local, State and Federal Laws. The Vendor shall be liable for any noncompliance by any subcontractor. Further, nothing contained herein or in any subcontractor agreement shall be construed as creating any contractual relationship between the subcontractor and the State.

If a company elects to be a subcontractor for another vendor, the subcontractor may not independently bid on this solicitation.

37. AGENCY'S RESPONSIBILITIES

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings and other documents presented by the Vendor to the Agency and render to the Vendor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Vendor.

STATE OF DELAWARE
Department of Transportation
Contract No. DOT1904-SURFTRET_STONE

- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible. <http://gss.omb.delaware.gov/divisionwide/forms.shtml>.

38. CONFIDENTIALITY

All documents submitted as part of the vendor's proposal will be deemed confidential during the evaluation process. Vendor proposals will not be available for review by anyone other than the State of Delaware/Proposal Evaluation Committee or its designated agents. There shall be no disclosure of any vendor's information to a competing vendor prior to award of the contract.

The State of Delaware is a public agency as defined by state law, and as such, it is subject to the Delaware Freedom of Information Act, 29 *Del. C.* Ch. 100. Under the law, all the State of Delaware's records are public records (unless otherwise declared by law to be confidential) and are subject to inspection and copying by any person. Vendor(s) are advised that once a proposal is received by the State of Delaware and a decision on contract award is made, its contents will become public record and nothing contained in the proposal will be deemed to be confidential except proprietary information.

Vendor(s) shall not include any information in their proposal that is proprietary in nature or that they would not want to be released to the public. Proposals must contain sufficient information to be evaluated and a contract written without reference to any proprietary information. If a Vendor feels that they cannot submit their proposal without including proprietary information, they must adhere to the following procedure or their proposal may be deemed unresponsive and will not be recommended for selection. Vendor(s) must submit such information in a separate, sealed envelope labeled "Proprietary Information" with the ITB number. The envelope must contain Attachment D describing the documents in the envelope, representing in good faith that the information in each document is not "public record" as defined by 29 *Del. C.* § 10002, and briefly stating the reasons that each document meets the said definitions.

Upon receipt of a proposal accompanied by such a separate, sealed envelope, the State of Delaware will open the envelope to determine whether the procedure described above has been followed.

If the Vendor does not have any documents it declares confidential or proprietary, Attachment D should be completed by checking the appropriate box found at the top of the attachment.

39. NUMBER OF COPIES WITH MAILING OF PROPOSAL

To be considered, all proposals must be submitted in writing and respond to the items outlined in this ITB. The State reserves the right to reject any non-responsive or non-conforming proposals. Each proposal must be submitted with one (1) paper copy of the Bid Form. Paper copies must contain original signatures in all locations requiring signatures.

40. NO PRESS RELEASES OR PUBLIC DISCLOSURE

The State of Delaware reserves the right to pre-approve any news or broadcast advertising releases concerning this solicitation, the resulting contract, the work performed, or any reference to the State of Delaware with regard to any project or contract performance. Any such news or advertising releases pertaining to this solicitation or resulting contract shall require the prior express written permission of the State of Delaware.

The State will not prohibit or otherwise prevent the awarded vendor(s) from direct marketing to the State of Delaware agencies, departments, municipalities, and/or any other political subdivisions, however, the Vendor shall not use the State's seal or imply preference for the solution or goods provided.

III. TECHNICAL SPECIFICATIONS

By reference, the following specifications are incorporated herein:

The specifications entitled "Delaware Standard Specifications, for Road and Bridge Construction, August 2016, hereinafter referred to as the Standard Specifications, Supplemental Specifications, the Special Provisions, notes on the Plans, this Bid Proposal, and any addenda thereto shall govern the work to be performed under this contract.

The full Website Link is:

https://www.deldot.gov/Publications/manuals/standard_specifications/index.shtml

The attached clauses relate in particular to furnishing of material and represent modifications to and/or clarification of the specifications noted above.

VERIFICATION OF DELIVERED WEIGHT

The Department may require the delivering vehicle be weighed at a local scale for any delivery location on an occasional basis. Any cost for the scale will be paid by the Department if the weights are comparable to the shipper's tendered weight. The Department shall not give the contractor prior notice of its intent to weigh. This is done to spot-check the accuracy of shipper weights. For deliveries that are weighed, the local scale weight shall be used as the billing weight if the local scale is certified. If incorrect tendered weights are discovered, the Department may require a meeting with the contractor to discuss how the problem will be addressed by the contractor. If the Department is not satisfied with the contractor's response, the Department has the right to cancel the contract as provided within.

QUALITY AND SERVICE

Samples of the materials furnished on this contract shall be tested by the Materials and Research Section and/or certified analysis shall be furnished by the manufacturer.

Upon award of this contract, the contractor shall promptly notify the Engineer of their proposed sources of materials and make any other related product submissions.

The Materials and Research Engineer or their representative may take samples from any shipments received for analysis. The results of such tests shall be final and binding upon all parties concerned in these contracts and subject to the conditions contained herein. The material shall be delivered to the location(s) designated and unloaded. Material damaged by mishandling by supplier will not be accepted.

REJECTION OF MATERIAL

If material specifications are not met, the Engineer has the right to accept the material at a pro-rated payment. The method for determining payment will be based upon the review of the test results and determining the amount of variance of the material in question. Material rejected by the Department that cannot be used due to its specification shall be removed from the Department's property by the contractor within seven (7) days of notification by the Engineer. If the rejected material contaminated other material, said material shall also be removed immediately by the contractor. Contractor is liable for all costs incurred by the Department in dealing with the issue, including lost material, freight, lab fees, new procedures to avoid recurrence, etc. The Department has the option to accept an agreed upon settlement it determines is in the best interest of the Department. If the Department is not satisfied with the contractor's handling of the rejected material, the

STATE OF DELAWARE
Department of Transportation
Contract No. DOT1904-SURFTRET_STONE

Department may declare the contractor in default of the contract, cancelling the contract and jeopardizing the contractor's ability to bid contracts with the Department.

REGULATORY CHANGES

It is distinctly understood by and between the parties hereto that in the event any U.S. Government or state code or codes affecting this contract, now in existence or that come into existence during the lifetime of this contract and become operative, that all said parties herein shall adhere to the regulations contained in said code or codes and the failure to do so shall be a breach of contract by the party failing to comply as above.

MATERIALS

All Surface Treatment Stone shall conform to the requirements of Section 302 of the Standard Specifications dated August 2016. Gradation requirements for the type specified shall be in accordance with those provided in Section 1004 and these requirements.

Acceptance samples shall be taken from the District's Maintenance Yards.

All stone utilized for surface treatment shall have a maximum of 1.0% passing the #200 sieve when tested according to AASHTO T11. If the test results show greater than 1.0% passing the #200 sieve, the material may be accepted based upon the provisions in the BASIS OF PAYMENT.

All stone shall have a LA Abrasion (AASHTO T96) maximum % loss of no greater than 30%.

The material will be tested in 500 ton lots (minimum). The minimum sampling lots will not be based upon individual delivery loads but 500 ton combined piles.

Flat and elongated particles will be tested and measured in accordance with ASTM D4791. A maximum 5% of a 5:1 aspect ratio will be allowed.

#8 Special Stone Additional Requirements

#8 Special Stone shall meet the specified gradations below:

Sieve	#8 Special Stone
	% Passing
1/2"	100
3/8"	80-90
1/4"	0-90
#4	0-6
#8	0-3
#16	0-2
#200	0.0-1.0

Where applicable, the following Flakiness Index test will be used for acceptance testing:

METHOD FOR DETERMINING AGGREGATE FLAKINESS INDEX

Objectives:

The Flakiness Index of an aggregate is determined using a gauge with slots of appropriate dimensions. Individual size fractions are separated and each particle that passes through the appropriate slot is considered a flaky particle.

Definition:

The Flakiness Index of an aggregate is the mass of particles in that aggregate which will pass the appropriate slot or slots for the individual size fraction expressed as a percentage of the total mass of that aggregate. The width of the slots is determined by multiplying the mean of upper and lower sieve size for the slot by nominal 0.6.

Equipment:

Gauge: metal 1/16" thick, with slots that comply with the tolerances given in columns 3 and 4 of Table 1, labeled to indicate individual size fraction appropriate to that slot, scale or balance of sufficient capacity and accurate to 0.1 percent of sample mass, or 0.1 gram conforming to the requirements of AASHTO M 231
Sieves conforming to the requirements of AASHTO M 92 Other apparatus as required by AASHTO T27/T11.

Procedure:

Preparation of test sample:

Sample Size conforming to AASHTO T 27 Sieve Analysis of Fine and Coarse Aggregate. Perform AASHTO T 11, Materials Finer than #200 Sieve in Mineral Aggregate by Washing in conjunction with AASHTO T 27. Separate aggregates into specified individual size fractions, Table 1. Material coarser than the 1/2" sieve and finer than the #4 sieve is discarded.

Note 1: If an individual size fraction mass exceed the masses given in Table 1, the fraction may be reduced according to AASHTO T 248. The correction calculation, given below, is applied to proportionally determine the mass of flaky particles that would have been obtained had the whole of the original size fraction been gauged. Determine and sum the masses of the individual size fractions, designate as M1. Using the slot gauge: Select the slot appropriate to the individual size fraction under test (see Table 1). Gauge each particle by hand. A particle is considered flaky if it passes through the appropriate slot. Combine and determine the mass of all particles passing through the slots and designate as M2.

Note 2: It is sometimes necessary to determine the flakiness of a particular fraction(s). In such cases the material larger and smaller than the fractions concerned is screened out and discarded. The test is then carried out as described above.

Calculation:

Calculate the Flakiness Index as follows:

$$FI = (M2/M1) \times 100$$

Where: FI = Flakiness Index

M1= Total mass of all fractions

M2= Total mass of particles passing the slots

Correction Calculation as per Note 1.:

$$m_i = m_f \times f_r / m_r$$

STATE OF DELAWARE
Department of Transportation
Contract No. DOT1904-SURFTRET_STONE

Where: m_i = Corrected mass of flaky particles in fraction(i).

f_r = Mass of flaky particles in reduced fraction

m_r = Mass of reduced fraction

m_f = Mass of fraction

All m_i , are then added to the mass of particles passing through the slots from all uncorrected fractions in obtaining M_1 .

1/4"	#4	3/4"	1/8" ± 1/64"	1 (0.5)

The Flakiness Index shall be max of 15.

METHOD OF MEASUREMENT

The quantity of material to be paid for shall be the number of TONS of material conforming to all the requirements furnished in accordance with these provisions.

Where applicable, weights will only be accepted as showing the actual amount of material delivered if verified by certified and stamped weight slips signed by a certified weigh master on a computer generated delivery ticket.

BASIS OF PAYMENT

The material will be paid for at the unit prices as contained in the Contract, which price and payment shall constitute full compensation for furnishing the material, F.O.B. point of delivery, as ordered.

GRADATION PENALTIES

If the Engineer accepts surface treatment material outside of specification gradation ranges, the contract bid price for aggregate will be reduced 1.0% for each 1.0% outside of the requirements for every sieve except the #200 sieve, which will have a 2.0% price reduction for each 0.1% outside of the specification requirement. The Engineer will not accept any Surface Treatment Stone that has greater than 1.20% on the #200 sieve.

PAYMENT

The Contractor shall submit their vendor identification number and shall be required to have established their W-9 with the Division of Accounting prior to contract execution.

Payment for the material will be made upon presentation of triplicate billing certified to the Engineer and acceptance of the material furnished, and mailed as follows:

DELIVERY PROVISIONS (TIME IS OF THE ESSENCE)

Time is of the essence for delivery by the contractor. Delivery must be made after receipt of either written or electronic mail notification and shall be made during normal business hours of the delivery locations, typically Monday – Friday, 7:00am – 3:00pm. If the material is not delivered in the time allotted, or the specified minimum delivery quantity is not met, the Engineer reserves the right to purchase the needed material on the open market to meet their needs. Costs of open market purchases in excess of those which would have resulted from contract purchases will be back charged to the contractor. Failure to deliver the full order of material by the delivery deadline constitutes default on the part of the Contractor.

Delivery may be required to any highway maintenance yard listed. The unit price bid for delivery shall include all charges for equipment and manpower required to deliver and unload the materials to the designated location(s) within the time period specified.

It is the intent of the Department to issue a Notice to Proceed such that work starts soon after contract execution.

DELIVERY DEADLINE & LIQUIDATED DAMAGE

The entire quantity of requested materials ordered by the Engineer shall be delivered to the specified Maintenance Yard(s) as specified above or as requested by the Engineer.

For each calendar day which passes without the full quantity of ordered material being delivered in full beyond 30 calendar days from the Issuance of each Purchase Order, the sum(s) specified in the chart below will be deducted from any money due to the Vendor. This sum shall not be considered and treated as a penalty, but as liquidated damages due to the Department by reason of inconvenience to the public, added cost of engineering and supervision, and other costs to the Department due to the Vendor's failure to complete the work on time.

If there is a delay in the delivery of critical materials as specified in Special Provision paragraph 17, Force Majeure, a time extension shall be allowed for such delays. Each case will be independently evaluated to determine if the delays were, in fact, beyond the control of the Vendor or fabricator and delayed the Project completion. Satisfactorily supported time extension requests shall be made concurrently with the delay and not after the fact.

Requests for time extensions shall be subject to review by the Engineer, and the Engineer will determine the amount of time extension allowed.

There will be no acceptance of unsupported claims of delays in delivery of material as a basis for time extensions. The Vendor is presumed to have included in its Contract price, allowance for any anticipated delays in procurement of materials, for which procurement is its sole responsibility. Unless some unusual market condition such as an industry-wide strike, natural disaster, or area-wide shortage arises after bids are taken and prevents procurement of materials within the allowable time limitations, delays in delivery of such materials do not provide sufficient reason for suspending time charges.

Payment of liquidated damages will be deducted from payments otherwise due the Vendor or be made by direct payment by the Vendor in the event that the total liquidated damages due exceed said deductions.

Days After Issuance of Purchase Order	Amount of Liquidated Damages (\$/ton/day)
31-60	\$0.05
61-90	\$0.25
91-364	\$0.50
