Q #	Question	Answer
1	On the RFP, it states minority businesses are encouraged to respond. Would you confirm there's no set DBE goal for this procurement?	Correct. There is no DBE goal for this procurement.
2	Does DelDOT require that proposed subconsultants be identified and Part II of the SF 330 be completed for each subconsultant?	Yes, proposed subconsultants should be identified. Prepare a separate Part II for each firm that will be part of the team proposed in Part I.
3	For Section H, Is the current workload included in the 4 page limit? Or is this to be presented on a separate page in addition to the 4 pages?	No, the current workload is not included in the four page limit.
4	Per service item #13 Geotechnical design, we understand DelDOT wants firms to be able to handle soils analysis, geotechnical review, soils reports, etc. Does DelDOT expect all teams to also have a soil boring driller on their team or is it acceptable to add a drilling subconsultant later if needed?	Soil boring drillers can be added later if needed by selected firms.
5	Will you accept submitting firm's "branded 330 forms" or only the "official Standard Form 330 (REV. 8/2016)" linked in the RFP?	Yes, as long as the correct version of the form is being used.
6	Verifying that the "Rating Criteria Support Information" Section is limited to 4 pages, not the entire Section H.	Correct.
7	Is there any page limit for Section H?	No.
