Questions and Answers:

1. Q. In response to the addendum 1; A #9 it states that the contractor shall provide all drawings from a registered Delaware A/E firm in their proposal so that DTCC can submit the stamped drawings to the code officials for their review separately. Include com check calculations and 3rd party certifications for Modular structures. Can you please confirm whether the stamped drawings are required in our proposal or upon award, as there is a significant cost to supply the drawings.
A. No stamped drawings are not required at the time of bid. However, a layout set of drawings and pictures if existing. are required to confirm layout and size of proposed structure. The stamped drawings will need to be provided within 10 working days of the bid, so that permit drawings can be submitted to New Castle County.
