

- EXPERIENCE THE ANGLE FRAME -

EDGE

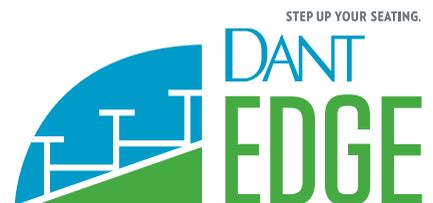

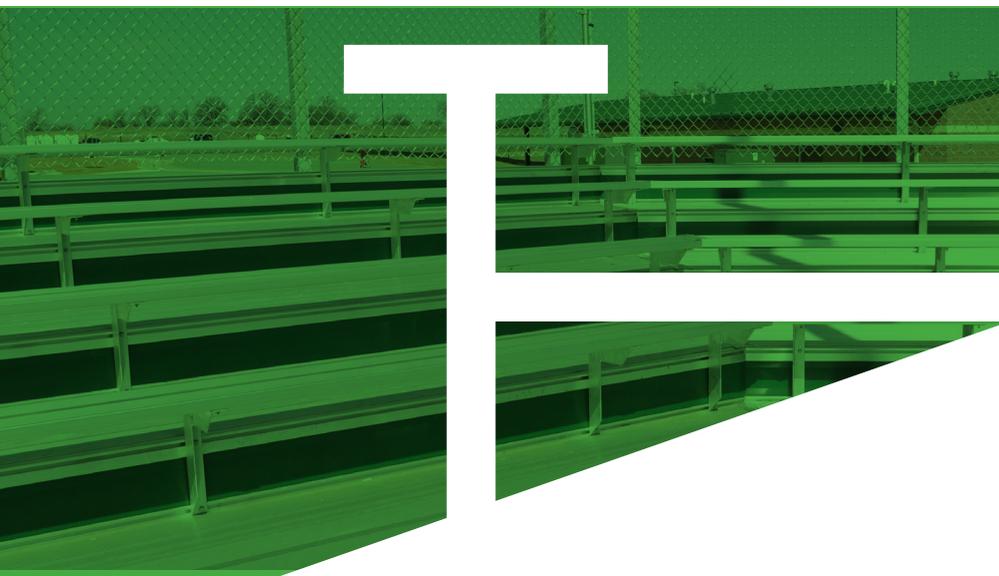

Dant Edge, a division of industry leader Dant Clayton, is a leading designer, manufacturer, fabricator and installer of affordable angle frame bleacher seating for both indoor and outdoor venues such as K-12 schools, colleges and universities, parks and recreational facilities, soccer fields, tennis courts, cities and municipalities, worship spaces, sports clubs, other private spaces, and more.

Dant Edge specializes in angle frame bleachers including a wide selection of elevated and non-elevated sports seating. Our pre-engineered and pre-designed standard bleachers are high-quality and durable, cost-effective to install and maintain, and represent the highest standards in product safety. Configurable options for the elevated and non-elevated bleachers offer a wide range of features to provide your spectators with a safe and comfortable experience including stairs, ramps, and front walkways for easy-access, side and rear fencing for guardrail purposes, mid-aisle railing and railing attachments for security, handicap seating, press boxes, filming platforms and more. For smaller sports seating, we offer tip and roll and transportable kits.

BE DIFFERENT

To differentiate for your team or venue, Dant Edge bleachers can be ordered with powder coated risers and frames in a variety of colors. In compliance with regulations, all bleachers reaching more than 30" in height come standard with galvanized chain link fence guardrail system, but can be ordered with optional black vinyl chain link fence or vertical picket rail.
