UPC PARKS IS COMMITTED TO PROVIDING QUALITY,
DURABLE PARKS AND PLAYGROUNDS THAT ARE FUN,
INNOVATIVE AND AFFORDABLE.

CAVES! LEDGES! CRAWL-THROUGHS!

UPC PARKS USES A REVOLUTIONARY BLEND OF LIGHTWEIGHT MATERIALS CALLED POLYFIBERCRETE®, WHICH RETAINS THE STRENGTH AND VALUE OF CONCRETE WHILE OFFERING:

- **GREAT SHAPES:** Caves, ledges, crawl-throughs and handholds that other hollow materials can't match. Silhouettes and shapes are unique, distinct, and non-boxy.
- **SOLID DURABILITY:** Material is solid, meaning that any chips and damage only create new hand and footholds.
- **CLIMBING GRIP:** The tactile yet non-abrasive texture is the same on the surface as it is 8 inches deep, which means your safe climbing grip can never wear off!
