of Delaware’s contracting officer. Solicitation of State of Delaware employees by a vendor may result in rejection of the vendor’s proposal.

This paragraph does not prevent the employment by a vendor of a State of Delaware employee who has initiated contact with the vendor. However, State of Delaware employees may be legally prohibited from accepting employment with the contractor or subcontractor under certain circumstances. Vendors may not knowingly employ a person who cannot legally accept employment under state or federal law. Notwithstanding the content of the preceding paragraph, should the State of Delaware subsequently directly hire any individual temporary staff employee(s) provided pursuant to this Solicitation, the aforementioned obligations to hold harmless, indemnify, and defend the State of Delaware shall cease and terminate for the period following the date of hire. Nothing herein shall be deemed to terminate the Vendor’s obligation to hold harmless, indemnify, and defend the State of Delaware for any liability that arises out of compliance with the ACA prior to the date of hire by the State of Delaware. Vendor will waive any separation fee provided an employee works for both the vendor and hiring agency, continuously, for a three (3) month period and is provided thirty (30) days written notice of intent to hire from the agency. a. Termination for Cause

If, for any reasons, or through any cause, the Vendor fails to fulfill in timely and proper manner his obligations, or if the Vendor violates any of the covenants, agreements, or stipulations of this contract, the Agency shall have the right to terminate the P.O. by giving written notice to the Vendor of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Vendor in the performance of the P.O. shall, at the option of the Agency, become its property, and the Vendor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials which is usable to the Agency.

### 46. TERMINATION OF CONTRACT

As a central contract, the contract resulting from this ITB may be terminated as follows by Government Support Services.

a. **Termination for Cause**

If, for any reasons, or through any cause, the Vendor fails to fulfill in timely and proper manner its obligations under this Contract, or if the Vendor violates any of the covenants, agreements, or stipulations of this Contract, the State shall thereupon have the right to terminate this contract by giving written notice to the Vendor of such termination and specifying the effective date thereof, at least thirty (30) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Vendor under this Contract shall, at the option of the State, become its property, and the Vendor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials which is usable to the State.

On receipt of the contract cancellation notice from the State, the Vendor shall have not less than five (5) days to provide a written response and may identify a method(s) to resolve the violation(s). A vendor response shall not effect or prevent the contract cancellation unless the State provides a written acceptance of the vendor response. If the State does accept the Vendor’s method and/or action plan to correct the identified deficiencies, the State will define the time by which the Vendor must fulfill its corrective obligations. Final retraction of the State’s termination for cause will only occur after the Vendor successfully rectifies the original violation(s). At its discretion the State may reject in writing the Vendor’s proposed action plan and proceed with the original contract cancellation timeline.

b. **Termination for Convenience**

The State may terminate this Contract at any time by giving written notice of such termination and specifying the effective date thereof, at least sixty (60) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, models, photographs, reports, supplies, and other materials shall, at the option of the State, become its property and the Vendor shall be entitled to receive compensation for any satisfactory work completed on such documents and other materials, and which is usable to the State.

c. **Termination for Non-Appropriations**

In the event the General Assembly fails to appropriate the specific funds necessary to enter into or continue the contractual agreement, in whole or part, the agreement shall be terminated as to any obligation of the State requiring the expenditure of money for which no specific appropriation is available at the end of the last fiscal year for which no appropriation is available or upon the exhaustion of funds. This is not a termination for convenience and will not be converted to such.
47. CHANGES

Both parties may, from time to time, require changes in the services to be provided by the Vendor under the Scope of Work. Such changes, including any increase or decrease in the amount of the Vendor's compensation, which are mutually agreed upon by and between the Agency and the Vendor shall be incorporated in written amendments to the Purchase Order or contract.

48. AFFIRMATION

The Vendor must affirm that within the past five (5) years the firm or any officer, controlling stockholder, partner, principal, or other person substantially involved in the contracting activities of the business is not currently suspended or debarred and is not a successor, subsidiary, or affiliate of a suspended or debarred business.

49. AUDIT ACCESS TO RECORDS

The Vendor shall maintain books, records, documents, and other evidence pertaining to this Contract to the extent and in such detail as shall adequately reflect performance hereunder. The Vendor agrees to preserve and make available to the State, upon request, such records for a period of five (5) years from the date services were rendered by the Vendor. Records involving matters in litigation shall be retained for one (1) year following the termination of such litigation. The Vendor agrees to make such records available for inspection, audit, or reproduction to any official State representative in the performance of their duties under the Contract. Upon notice given to the Vendor, representatives of the State or other duly authorized State or Federal agency may inspect, monitor, and/or evaluate the cost and billing records or other material relative to this Contract. The cost of any Contract audit disallowances resulting from the examination of the Vendor's financial records will be borne by the Vendor. Reimbursement to the State for disallowances shall be drawn from the Vendor's own resources and not charged to Contract cost or cost pools indirectly charging Contract costs.

50. ASSIGNMENT

51. NOTICE

Any notice to the State of Delaware required under the contract shall be sent by registered mail to:

State of Delaware
Government Support Services

The awarded vendor(s) shall provide the name(s), telephone, or cell phone number(s) of those individuals who can be contacted twenty four (24) hours a day, seven (7) days a week where there is a critical need for commodities or services when the Governor of the State of Delaware declares a state of emergency under the Delaware Emergency Operations Plan or in the event of a local emergency or disaster where a state
governmental entity requires the services of the vendor. Failure to provide this information could render the proposal as non-responsive.

In the event of a serious emergency, pandemic or disaster outside the control of the State, the State may negotiate, as may be authorized by law, emergency performance from the Contractor to address the immediate needs of the State, even if not contemplated under the original Contract or procurement. Payments are subject to appropriation and other payment terms.

53. SUBCONTRACTS

Subcontracting is permitted under this ITB and contract. However, every subcontractor shall be identified in the Proposal (Attachment D) and agreed to in writing by the State or as are specifically authorized in writing by the Agency during the performance of the contract. Any substitutions in or additions to such subcontractors, associates, or consultants will be subject to the prior written approval of the State.

The Vendor(s) shall be responsible for compliance by the subcontractor with all terms, conditions and requirements of the ITB and with all local, State and Federal Laws. The Vendor shall be liable for any noncompliance by any subcontractor. Further, nothing contained herein or in any subcontractor agreement shall be construed as creating any contractual relationship between the subcontractor and the State.

If a company elects to be a subcontractor for another vendor, the subcontractor may not independently bid on this solicitation.

54. AGENCY’S RESPONSIBILITIES

The Agency shall:

a. Examine and review in detail all letters, reports, drawings and other documents presented by the Vendor to the Agency and render to the Vendor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Vendor.

b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.

c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.

d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible.

Corrective Action Report

55. CONFIDENTIALITY

Subject to applicable law or the order of a court of competent jurisdiction to the contrary, all documents submitted as part of the vendor's proposal will be treated as confidential during the evaluation process. As such, vendor proposals will not be available for review by anyone other than the State of Delaware/Proposal Evaluation Team or its designated agents. There shall be no disclosure of any vendor's information to a competing vendor prior to award of the contract unless such disclosure is required by law or by order of a court of competent jurisdiction.

The State of Delaware and its constituent agencies are required to comply with the State of Delaware Freedom of Information Act, 29 Del. C. § 10001, et seq. (“FOIA”). FOIA requires that the State of Delaware's records are public records (unless otherwise declared by FOIA or other law to be exempt from disclosure) and are subject to inspection and copying by any person upon a written request. Once a proposal is received by the State of Delaware and a decision on contract award is made, the content of selected and non-selected vendor proposals will likely become subject to FOIA's public disclosure obligations.

The State of Delaware wishes to create a business-friendly environment and procurement process. As such, the State respects the vendor community’s desire to protect its intellectual property, trade secrets, and confidential business information (collectively referred to herein as “confidential business information”). Proposals must contain sufficient information to be evaluated. If a vendor feels that they cannot submit their proposal without including confidential business information, they must adhere to the following procedure or their proposal may be deemed unresponsive, may not be recommended for selection, and any applicable protection for the vendor’s confidential business information may be lost.

In order to allow the State to assess its ability to protect a vendor’s confidential business information, vendors will be permitted to designate appropriate portions of their proposal as confidential business information.

Vendor(s) may submit portions of a proposal considered to be confidential business information in a separate, sealed envelope labeled “Confidential Business Information” and include the specific RFP number. The envelope must contain a letter from the Vendor’s legal counsel describing the documents in the envelope, representing in good faith that the information in each document is not “public record” as defined by 29 Del. C. § 10002, and briefly stating the reasons that each document meets the said definitions.

Upon receipt of a proposal accompanied by such a separate, sealed envelope, the State of Delaware will open the envelope to determine whether the procedure described above has been followed. A vendor’s allegation as to its confidential business information shall not be binding on the State. The State shall independently determine the validity of any vendor designation as set forth in this section. Any vendor submitting a proposal or using the procedures discussed herein expressly accepts the State’s absolute right and duty to independently assess the legal and factual validity of any information designated as confidential business information. Accordingly, Vendor(s) assume the risk that confidential business information included within a proposal may enter the public domain.
56. PRICE NOT CONFIDENTIAL

Vendors shall be advised that as a publically bid contract, no Vendor shall retain the right to declare their pricing confidential.

57. NO PRESS RELEASES OR PUBLIC DISCLOSURE

The State of Delaware reserves the right to pre-approve any news or broadcast advertising releases concerning this solicitation, the resulting contract, the work performed, or any reference to the State of Delaware with regard to any project or contract performance. Any such news or advertising releases pertaining to this solicitation or resulting contract shall require the prior express written permission of the State of Delaware.

The State will not prohibit or otherwise prevent the awarded vendor(s) from direct marketing to the State of Delaware agencies, departments, municipalities, and/or any other political subdivisions, however, the Vendor shall not use the State’s seal or imply preference for the solution or goods provided.

58. DRUM DEPOSIT AND CREDITS

The awarded vendor shall pick-up all empty drums as they become available, and have been notified. This includes any drums left over from the previous contract vendor(s). Agencies are to inform the vendor(s) of the quantity of empty drums that shall be picked up. Unless other arrangements are made with the requesting agency, all drums requested for pick-up shall occur within five (5) business days.

Any deposits levied on returnable drums shall be shown as a separate charge on each invoice. All drum deposits shall be credited to the ordering agency at the full value upon pickup of the empty drums. All returned drums shall remain the property of the successful vendor.
III. DEPARTMENT OF CORRECTION SECURITY REQUIREMENTS & PROCEDURES

The Delaware Department of Correction (DDOC) has established criteria for authorized entry into a correctional facility by Vendors/Contractors conducting business with the Department. As a condition of contract award, the selected Vendor/Contractor shall complete a DDOC Security Clearance Application (to be provided prior to contract award) and complete the Prison Rape Elimination (PREA) Acknowledgement Form (to be provided prior to contract award) prior to entering a DDOC facility. This security criterion shall be observed by all professional service visitors, volunteers, vendors, contractors, subcontractors (if any) and any applicable employee providing services in relation to the contract. While working inside the prison facilities, it must be clearly understood that prison security requirements will at all times take precedence over service and/or construction operations. The vendor shall comply with all such regulations and consider the regulations when preparing their bid response.

II. CONTRACTORS PERFORMING CONSTRUCTION/REPAIR SERVICES:

A. Site Security

The following regulations must be observed by all persons having any association with the construction of this project (employees, subcontractors, workmen, service men, manufacturer’s representative, etc.):

1) Prime contractor shall submit a list of all proposed workers who will be working on site to the Regional Maintenance Superintendent or Security Superintendent. The list shall include name, social security number, age, sex, race and date of birth. This list shall include all sub-contractors (if any) and any vendors requiring access to the secure perimeter of the facility.

2) Each trade subcontractor shall notify the Maintenance Superintendent twenty four (24) hours in advance, but not later than 12:00 Noon, on the previous work day before sending men to the project site so an officer can be assigned to accompany all his personnel.

3) Contractors are required to notify the Regional Maintenance Superintendent/or Security Superintendent upon the termination of worker’s services in order that the identification card on file can be pulled and rendered inactive.

4) Contractor must carry a Photo Identification Card.

5) It is essential that construction operation and debris removal be conducted in a manner to assure that materials that may be used as weapons do not fall into the hands of inmates.

6) Anything of unusual nature as loss of a key, identification cards, tools, piping, etc., shall be reported immediately to the escorting officer.

7) In the event that construction requires the disruption of plumbing, electrical power, etc., the Regional Maintenance Superintendent must receive at least twenty four (24) hours advance
notice in order to preserve security and not to disrupt routine activities. When temporary shutdown of service is unavoidable, the work shall be completed at night during a time when the institution’s routine will not be interfered.

8) Workers will be denied access to controlled areas should they have relatives or close friends incarcerated in the facility.

9) Workers shall be subjected to all rules and regulations and shall comply with the escorting officers’ instruction accordingly.

10) Construction Personnel Vehicle Parking
   1. Parking spaces for privately owned vehicles operated by construction personnel may be limited.
   2. The Maintenance Superintendent will assign areas within the prison site for parking. Sufficient space will be provided to park privately owned vehicles operated by construction personnel on site.
   3. Parked vehicles must always have the ignition and doors locked.

11) Prison Records - Where a workman or representative visiting the institution has a prison record, the trade subcontractor shall be responsible for obtaining the particulars concerning his record and notifying the institution at least seventy two (72) hours in advance of his visit. The institution will then notify the trade subcontractor and either provide or deny permission for that person to enter the institution. Any workman denied entrance to the institution must be replaced by the trade subcontractor or subcontractor at no additional cost.

12) Workmen Lunch Area/Searches
   1. Workmen are expected to stay in their respective working areas during their lunch period unless leaving the grounds is permitted.
   2. All workmen are expected to submit to a search of themselves, toolboxes, lunch containers, and vehicles at any time if the search is deemed necessary.

13) It is forbidden to aid or abet the escape of any inmate, or to advise, connive or assist in any escape, or to conceal any inmate after escape, or withhold information pertaining thereto. Violation of this prohibition can result in prosecution and the law provides for punishment of fine and imprisonment.

14) It is forbidden to bring into or take out of the prison either for pay, or for favor, for any inmate, any article, without the proper authorization from the Maintenance Superintendent.

15) It is forbidden to roam at will throughout the prison. Workers are restricted to going directly to those places where the work is conducted and remaining away from all areas where they have no business to conduct.

16) It is prohibited to socialize, exchange pleasantries, or conduct business with inmates in traffic areas hallways, center areas, etc. Affectionate or intimate behavior between official visitors and inmates is prohibited.
17) No photographs may be taken without proper authorization. No public news releases may be given without similar authorization.

18) Escorting of any person, not previously approved, onto the prison grounds or into the prison is prohibited.

19) The offering and giving of any tips, gratuities, fees, etc. to any inmates or prison personnel are strictly prohibited.

20) The use of indecent, abusive, or profane language is forbidden anywhere on the prison property.

21) Civilian or other clothing should not be left carelessly in places where it may be acquired and worn by inmates.

22) In the event an acquaintance, friend, or relative of contractor's employee should be an inmate of the institution at which work is being conducted, it is advisable that the contractor communicate this confidentially to the Maintenance Superintendent.

B. Equipment/Tool Inventory

1) Inventory of all tools, equipment and supplies shall be taken by the Contractor at the beginning and end of each workday (to be provided upon award). All unnecessary tools and equipment should be left at the shop. An assigned DDOC employee shall escort the Contractor or other non-employee workers while in the institution. At entry control points, vehicles and personnel will be searched to include any tools or related equipment. No tools will remain on the work sites upon departure. Activities must be performed as authorized with proper security and safety precautions.

2) Restricted Tools: The DDOC classifies a restricted tool as one that can be used by inmates either in effecting an escape or causing death or serious injury. The following tools are typical examples of a tool classified as restricted and shall not be considered all inclusive:

   a. Diamond-point drills
   b. Ice picks
   c. Hones and sharpening stock
   d. Metal cutters, blades
   e. Bolt cutters
   f. Cleaners
   g. Cutting torches
   h. Electric drills, portable
   i. Electric bench and portable grinders
   j. Files
   k. Gear pullers
   l. Diamond point and regular hacksaw blades
3) Flammable Liquids: Maintain flammable liquid (e.g., gasoline, fuels, etc.) in secure containers at all times, in compliance with OSHA regulations.

4) Powder Actuated Tools: Comply with Owner’s and Maintenance Superintendent directions for control of powder used and stored.

5) Lost or stolen tools must be reported to security of the Department of Correction immediately.

6) Broken saw blades must be removed from the property (not left or discarded on site).

7) Trucks should be kept clean of debris. Trash within the vehicle increases the amount of time required to inspect the vehicles.

8) Contractors shall include, in their bid, a sufficient amount of time to enter and depart the facility in a given day. As an example, it takes between one half hour to one hour to enter or leave the facility.

9) Proper construction clothing is required. Short pants are not permitted.

10) Contractors are advised that only limited movement will be permitted while inside the compound.

11) Completion of a Security Clearance Form is required for all employees working on the project and will remain on file for one (1) year from clearance date.

C. Special Requirements

1) Materials shall be moved through the buildings using rubber tire vehicles which shall be properly controlled at all times to avoid damage to existing walls, floors, and ceiling surfaces, including doors and door and/or window frames.

2) Water damage will not be tolerated and it is incumbent upon the contractor to take all steps necessary to keep the existing premises dry at all times.

3) All welding and cutting shall be performed by qualified and certified welders. Certificates shall be on file with the Construction Manager prior to commencement of any welding.

4) Existing streets, pavements, lawns, curbs and other finished surfaces disturbed or damaged by excavation or other construction activities shall be repaired and restored to their original conditions to the satisfaction of the Owner and local authorities.

III. CONTRABAND

A. Title 11, Section 1256 of the Delaware Code specifies that “a person is guilty of promoting prison contraband when: (a) The person knowingly and unlawfully introduces any contraband into detention facility; or (b) The person possesses with intent to deliver any contraband to any person confined within
a detention facility; or (c) Being a person confined in a detention facility, he knowingly and unlawfully makes, obtains, or possesses any contraband.”

The oils and lubricant products shall be manufactured in accordance with recognized industry and vehicle/engine manufacturers’ specifications. The Supplier shall inspect each shipment to ensure that each delivered lot meets the specifications and is not contaminated at the time of delivery. Deliveries of product under this specification shall be subject to quality testing by the State to ensure compliance with the specifications. The Supplier may be asked to provide lab analyses of products at its expense, including at a minimum the following information: viscosity, viscosity index, contents of additive package, and fingerprint chemical analysis. During the term of the contract, Supplier shall notify the purchaser of any changes in product formulation within thirty (30) days of the product reformulation.

All metal drums must be contaminant free, new or A-1 reconditioned drums. Reconditioned drums shall meet the most current Class 1 requirements of Federal Specification PPP-D-732C. All containers and drums shall be filled and sealed at suppliers’ refinery. The following information shall be stenciled on each drum unless the vendor has a repacking agreement. If containers are being filled under a repackaging agreement, a copy of the agreement shall accompany your proposal.

1. API Number and S.A.E. Number
2. The proper specification number, military or otherwise, where applicable.
3. Trade name of material
4. Supplier’s name
5. Contents in gallons of oil and contents in pounds of grease

All items submitted shall be the producer’s highest quality. Normal industry-wide manufacturing tolerances will be acceptable. Acceptable manufacturers should have any required licenses with the American Petroleum Institute (API) for current service requirement classifications.

DEFINITIONS

API Certification – The American Petroleum Institute Engine Oil Licensing and Certification System (APIEOLCS) requires that re-refined oils pass the same cold-start, pumpability, rust-corrosion, engine wear & high temperature viscosity tests as virgin oils, so that consistent performance standards for all engine oils are met. Certifications submitted in response to this RFP must be for the finished product(s) to be provided under the contract.

ASTM Standards – The American Society for Testing and Materials specifies the exact way in which a product is to be tested, including the rule, techniques and conditions which must be adhered to in engineering design so that all manufacturers are working with the same procedures and values.
DEF – Diesel Exhaust Fluid is a blended aqueous solution of 32.5% high purity urea and 67.5% deionized water.

ILSAC – The International Lubricant Standardization and Approval Committee, which in 2004 established GF-4 as the minimum performance standard for gasoline-fueled passenger car engine oils.

Recyclability – The ability of a product or material to be recovered from or otherwise diverted from the solid waste stream for the purpose of recycling.

Re-Refined Oil – In the context of this RFP refers to the base oil stock derived from waste oil which has undergone a series of mechanical and chemical processes, including, but not limited to, contaminant removal, dehydration, vacuum distillation and hydro-treating in order to produce a product consistent in properties and quality (see Section J for more details on the requirements of this process).

SAE – The Society of Automotive Engineers works with API and ASTM in developing and maintaining testing and licensing requirements for various oils and lubricants.

Synthetic Blend Motor Oil – In the context of this RFP, synthetic blend motor oil consists of a base minimum 30% synthetic composition with the remainder consisting of mineral oil.

Urea – is a compound of nitrogen that turns to ammonia when heated. It is used in a variety of industries, including as a fertilizer in agriculture.

Virgin – Virgin products are those made with 100% new/raw materials and contain no recycled content.

M. RE-REFINED OIL

Bidders shall submit documentation from the re-refiner, which demonstrates that the re-refined motor oil products being PROPOSED have undergone the following process.

1. Vacuum distillation to remove contaminants such as dirt, water, fuel and used additives from the oil.
2. Hydro-finishing to remove the remaining chemicals and contaminants from the base oil and restore it original condition.
3. Blending of the highest quality additives into the base product to fortify and bring the oil to the desired performance standards.
4. Offer only motor oil that is certified by the American Petroleum Institute (API) and meet ILSAC requirements.
5. Submit copies of such API certification, ILSAC compliance and related warranties with Proposal response that clearly indicate the manufacturer and brand name of the finished product(s) being offered.
6. Agree to offer warranties that provide for the full-cost replacement of all equipment that is damaged as a direct result of oil which does not meet the required performance specifications when used appropriately: copies of these warranties shall be included with the response.
7. Offer only re-refined motor oil products that contain a minimum of 50% re-refined base stock that meets the standards and specifications designated in this RFP.
8. Offer at a minimum, re-refined oil in grades 5W30, 10W30, and 15W40 that meet automobile/equipment manufacturer’s specifications and warranty requirements as follows:
   - Multi-grades 5W30 and 10W30 shall meet the performance and warranty requirements of a broad range of passenger and light truck gasoline engines of major automobile manufacturers and the most current API service requirements classifications.
   - Multi-grade universal 15W40 shall meet the performance and warranty requirements of virtually all diesel and gasoline engine manufacturers, including, but not limited to Caterpillar, Cummins, Detroit Diesel, John Deere, Massey Ferguson and Mack and meet the most current API service requirements classifications.
9. Offer only motor oil products that are formulated using the re-refined base stock specified above and commercial additive packages blended as precise percentage to provide finished products that meet industry standards.

10. Offer motor oil products that are available in cases of 12 quarts and 55 gallon drums.

**N. ANTIFREEZE – PERMANENT**

4) Submit certification that the products meet the standards and specifications established in this RFP.

5) Submit certification that the recycling method used complies with all current local, state, and federal Regulations and that they are capable of recycling used antifreeze feedstock contaminated with incidental amounts of engine oil, brake fluid, transmission fluid, hydraulic fluid, solvent, gasoline, diesel fuel, heating oil, and/or propylene glycol.

P. **DIESEL EXHAUST FLUID (DEF)**

In order to meet new more stringent EPA requirements to reduce diesel exhaust emissions, many manufacturers have introduced Selective Catalytic Reduction (SCR), a technology that reduces nitrogen oxides in diesel exhaust emissions to two safer byproducts, nitrogen and water vapor. To be effective, the DEF mixture needs to meet specific performance standard. The standard published by ISO (International Organization for Standardization) is intended to confirm that DEF products used in SCR equipped vehicles meets the exacting standards necessary.

Therefore, any DEF products bid in response to the State contract solicitation will need to be API certified to be considered. API certification confirms that the DEF supplied meet the ISO 22241 compliance standards established. Additionally, lab samples and test data have previously been submitted to API to ensure the specific standard adherence. By selecting this standard, the State does not have to independently judge or review submitted sample tests and reports.

All DEF products bid shall be on the API list of approved Diesel Exhaust Fluid brands, and if necessary, provide documentation which confirms adherence to the API certification standards.

DEF is a relatively new product required for State and agency vehicles. Due to the lack of history, there is no reasonable way to determine the quantities that will be used during any given period. At the time of RFP posting, several agencies have expressed needs for DEF including DelDOT and school districts.
Since DEF requires product specific equipment to pump from the drums and totes, the State requests the awarded vendor supply one (1) hand pump for each ordering location. The awarded vendor may require a refundable deposit to protect against misuse, theft or damage.

Q. BULK PRODUCTS

1) ORDERING PROCEDURE

Ordering for bulk products may be on a “will call” basis or an “automatic delivery” system may be set up. Vendors will not be required to accept orders for product on a “will call” basis if the order is for less than 50% of the capacity of the tank. Automatic deliveries shall be established between the vendor and the ordering agency only after specific information regarding the account has been realized.

2) DELIVERY RESPONSE REQUIREMENT

i. Normal Delivery - All deliveries shall be completed within five (5) business days after receipt of an order. If a vendor can respond more quickly to the State or agencies address this improved capability in your response to the bid solicitation.

EXCEPTION: The State Police (DSP) will require deliveries for bulk motor oil to be completed within two (2) business days of the order receipt. After an award selection is made, the State will allow submission of alternative delivery procedures that will meet DSP’s shortened delivery response time and will allow for better vendor resource management.

ii. Automatic Delivery – Keeping the tank filled shall be the responsibility of the vendor.

R. SPILLAGE

All spillages must be corrected on an immediate basis to the satisfaction of the ordering agency. All associated cost including materials and labor shall be borne by the vendor. Damage resulting from a spillage shall be the responsibility of the vendor. The vendor shall immediately notify the below listed office of all spillages:

Division of Air and Waste Management
24 hour Hotline
In State Phone No.: 800-662-8802
In/Out of State Phone No.: (302) 739-5072

S. INTENT TO LOAD CATALOGUE

Bidders will be required to provide catalog(s) and the corresponding price list(s) for all awarded goods that are being offered to the State for purchase, and shall include all applicable and awarded price tiers available for each product in the pricing format required of this of this solicitation. These documents may be required and supplied by the vendor in an electronic format as determined by the State over the life of the contract. The prices listed therein will be the prices paid by the State for purchases during the contract term.
At the discretion of the State, all awarded items will need to be provided in an electronic format for use in a hosted catalog offering which will be presented in the State’s eProcurement solution. All single items listed must reflect one (1) price, at the discounted rate as offered by the vendor in their proposal and as accepted by the State. Volume discounts offered for multiple units or multi-unit packaging shall be listed as a separate line item(s) in any catalog submitted for posting to the State’s eProcurement solution.

The awarded vendor(s) will be directed to supply the catalog file to an identified state representative and/or the State’s designated eProcurement vendor at any time after execution of the contract, but no later than 45 days after the contract execution.

A zero dollar catalog shall be submitted to the eProcurement solution vendor no later than 30 days prior to the end of the contract term, and shall be the final catalog update provided under the agreement. The State will approve this catalog, after the contract end date, to remove all items and pricing from the eProcurement Solution. The zero dollar catalog serves as a correcting entry to maintain system integrity of valid and currently awarded items. The failure by the Vendor to comply and submit this correcting entry will be viewed as a major performance deficiency, and may prevent the State from awarding the Vendor on a future contract opportunity.

At any time during the contract term, (1) the vendor shall remove individual or categories of items from the catalog offering if requested by the State; (2) consider expanding the catalog offering with additional items or categories if requested and accepted by the State; and/or (3) the State may take unilateral action on the items listed in the eProcurement solution to hide or otherwise make unauthorized any items the State believes is outside the scope of the awarded categories.

The failure and/or inability to comply with this hosted catalog requirement may subject the awarded vendor to corrective action, up to and possibly including termination of the contract.

A hosted catalog is defined as a vendor supplied electronic catalog of all awarded items, including item descriptions, attributes and the award prices, which will be stored and publically visible in the State’s eProcurement solution. At the sole discretion of the State, the contract team will consider implementation and use of a punchout catalog solution in lieu of the hosted catalog option. A punchout catalog uses the eProcurement system to access to the Vendor’s electronic catalog. Users can then shop, select and retrieve items back into the eProcurement system, allowing the original to execute an order.
