Quoted prices shall be adjusted on a quarterly basis for the contract term. The first adjustment shall occur no sooner than May 1st 2012 but only after the April 2012 PPI numbers have been released. Future adjustments will occur every three months thereafter. (no sooner than August 1, November 1, and February 1) based on the change in value of the U.S. Department of Labor; Bureau of Labor Statistics; Producer Price Index (series id: PCU324191324191) for lubricating and similar oils.

The change in this index will be used to increase or decrease prices for the products group specified in the Appendix B. The price adjustment method will be to review the PPI index specified and look for the most recent three month non-preliminary index available. The change in the index rate will then determine the change in prices for the contract quarterly period.

The website for the Producer Price Index is <http://data.bls.gov/cgi-bin/srgate> .

The PPI price adjustments will be for commodities listed. There will be no PPI price adjustment for drums or equipment deposit, rental or 'other' services that may be provided under this contract.
