10. ORDERING PROCEDURE

Successful contractors are required to have either a local telephone number within the (302) area code, a toll free (800) number, or agree to accept collect calls. Each agency is responsible for placing their orders and may be accomplished by written purchase order, telephone, fax or computer on-line systems. 11. REQUIREMENTS

This contract will be issued to cover the Janitorial Services requirements for all State Agencies and shall be accessible to any School District, Political Subdivision, or Volunteer Fire Company.

12. HOLD HARMLESS

The contractor agrees that it shall indemnify and hold the State of Delaware and all its agencies harmless from and against any and all claims for injury, loss of life, or damage to or loss of use of property caused or alleged to be caused, by acts or omissions of the contractor, its employees, and invitees on or about the premises and which arise out of the contractor's performance, or failure to perform as specified in the Agreement.

33. STATE SERVICE CENTER ADDITIONAL REQUIREMENTS

- a. General: The Janitorial Superintendent or his designee responsible for providing a good system of inspection or follow-up necessary to properly control the cleaning operations. Proper procedures and reporting of cleaning inspections will find the problem areas in the building so they can be given special attention in order to: ensure that the cleaning level in the building is meeting the required standard; identify the cleaner who is not doing his/her job properly; determine the people who need additional instruction or training.
- b. Inspection Procedure: The following comments identify and clarify some of the more important inspection procedures. Detailed instructions for recording these inspections are discussed below:

1. Inspections shall be regular and systematic. The contractual inspector shall each day or night do appearance checks to identify problems. In addition, they will perform a thorough inspection every 30 days.
2. Inspect preferably in the presence of the cleaner and the supervisor directly responsible and/or area supervisor. Point out any unsatisfactory cleaning found and explain how it may be corrected. The inspection should provide the employee with constructive assistance in improving his/her work.
3. The area supervisor or counterpart shall inspect a portion of assigned areas each night, in addition to the duties of supplying materials, timekeeping, rescheduling, and other required personnel work.
4. All inspection findings shall be recorded on appropriate forms.
 - a. Notice of Work Required: This form is for use by the inspectors during weekly, monthly and quarterly cleaning assignments. It is used as a record of cleaning inspections.
 - b. Housekeeping Inspection Report: This is a standard inspection form for the use by the inspecting personnel when making and reporting monthly inspections of buildings located within our respective areas. Inspections will be made once a month. Inspection routes shall be varied. A copy is to be left with the supervisor for necessary action.
 - c. Complaints and Requests
5. The Contract Manager shall meet at least weekly with the designated person within each agency and the inspectors during the first month of the contract. Meetings will be as often as necessary thereafter as determined by the Janitorial Superintendent. However, if the contract requests, a meeting will be held whenever a written complaint is received.

2. Interact appropriately with program staff and residents – inappropriate language, horseplay, pilferage, gambling and other inappropriate behavior will not be tolerated.
3. Take the initiative for performing additional obviously needed cleaning services when necessary to ensure that a safe and clean environment exists at all times.
4. Ensure by training, supervision, inspection and any other means necessary that all tasks are completed as required/scheduled/specified and that all rules are followed by all vendor staff. Unacceptable work shall be promptly corrected at the vendor’s expense when identified and reported by DSCYF.
5.
