from the workshops of:

SCHERL & ROTH®

Glaesel 

WM. LEWIS & SON

from the workshops of:

The string specialists at Conn-Selmer strive to produce instruments that take into consideration a wide range of player skills: from the beginning student thru high school, college and more experienced performer levels. To that end we offer 2 levels of shop adjustment.

Models described as **SET-UP IN OUR SHOP** are entry level student instruments that combine the benefits of imported makers with domestic inspection and minor adjustments in our shop to produce an instrument that is both affordable and playable.

SET-UP IN OUR SHOP means:

1. Fingerboard inspected for proper curve and angle.
2. Bridge inspected and height adjusted for string compatibility.
3. Sound post placement adjusted for superior sound quality.
4. String nut fitted for proper string height and spacing.
5. Peg function checked and properly lubricated.
6. Tailpiece and chinrest inspected and adjusted as necessary.
7. Instrument cleaned, strung, labeled and packed in outfit if required.

Models described as **PROFESSIONALLY ADJUSTED IN OUR SHOP** are better student and step-up instruments that provide the more experienced player with the full musical capabilities a fine instrument offers. These models crafted from high quality spruce, maple, and ebony receive the advantages that a skilled domestic shop adjustment can provide.

PROFESSIONALLY ADJUSTED IN OUR SHOP means:

1. Fingerboard dressed to proper curve and angle.
2. Bridge curve shaped, notched, feet fitted to top and height adjusted for proper string clearance over fingerboard.
3. Quality spruce sound-post fitted and installed for superior sound quality.
4. String nut fitted for proper height and notch spacing.
5. Peg holes drilled and reamed for precision peg fit.
6. Quality pegs shaped, fitted, crowned, drilled and lubricated.
7. Tailpiece and chinrest installed and precision adjusted.
8. Instrument cleaned, strung, labeled and packed in outfit if required.

Silver Series

Crafted for the student, instruments in the Silver Series possess a forgiving nature and a ready response that encourages student progress.

Gold Series

Instruments with superior tone and response take the student into higher levels of performance in secondary school and community orchestras.

Platinum Series

Bold and beautiful, Platinum Series instruments reflect and magnify individual technique. These instruments provide superior tone and response and can serve well in more demanding performance situations. Platinum Series instruments are also an excellent precursor to an artist's first old master instrument.
