Telecaster® 60th Anniversary

THE RICH HISTORY OF FENDER GUITARS BEGINS WITH THE TELECASTER, AN ENDURING MARVEL OF FORM AND FUNCTION; OF STYLE AND SUBSTANCE. STILL ELEGANTLY SIMPLE AFTER SIX DECADES, IT IS THE VERSATILE VOICE OF REMARKABLY DIVERSE AND CREATIVE PLAYERS WORLDWIDE.

Officially named the Telecaster in February 1951, the world's first successful solid-body electric guitar turns 60. It revolutionized guitar playing, changed the sound of music and became a signature instrument for guitarists worldwide. The 60th Anniversary Telecaster blends modern Tele® technology with vintage looks for a best-of-both-worlds, collectible U.S.-made instrument.

CONTROLS:

Volume, tone and pickup switching—that's it. Now as then, Telecaster controls are elegant in their simplicity and solidly reliable in their effect on the sound. Two knurled "chrome-dome" knobs and a three-way pickup selector switch mounted on an original-style chrome control plate. Tone knob features the Delta Tone™ system, in which a detent at the "10" position eliminates all the tone control circuitry and delivers the pure, direct sound of both pickups.

BODY AND FINISH:

Like its 1951 ancestor, the 60th Anniversary Telecaster has an ash body and a nitrocellulose lacquer finish. Fender's new thin-skin "Blackguard Blonde" finish looks smartly stylish while allowing rich sonic resonance.

y

PICKUPS:

From crisp signature sparkle at the bridge to warmth and fullness at the neck, the 60th Anniversary Telecaster® gets its rich depth, definition and dynamics from dual American Vintage Telecaster single-coil pickups.

COMMEMORATIVE NECK PLATE:

To further distinguish it as a special instrument created for a very special occasion, the 60th Anniversary Telecaster bears a commemorative chrome neck plate honoring six decades of enduring Fender legacy.

MODERN HARDWARE:

Classic design with modern hardware, including American Standard deluxe staggered cast/sealed tuners and American Standard bridge with bent steel saddles and stamped brass plate.

Precision Bass® 60th Anniv

CELEBRATE 60 YEARS OF THE BASS GUITAR THAT STARTED IT ALL. THE PRECISION WAS AND STILL IS THE FIRST WORD IN ELECTRIC BASS; AN INSTRUMENT THAT TRANSFORMED POPULAR MUSIC AND CREATED A NEW KIND OF MUSICIAN—THE ELECTRIC BASSIST.

When it was introduced in 1951, Fender's revolutionary Precision Bass guitar liberated musicians from the unwieldy confines of the upright bass, quickly becoming the preferred worldwide standard for tone, power and excellence. The Precision Bass has been booming ever since—six decades later, it's still liberating musicians, still the worldwide standard and still the first word in electric bass.

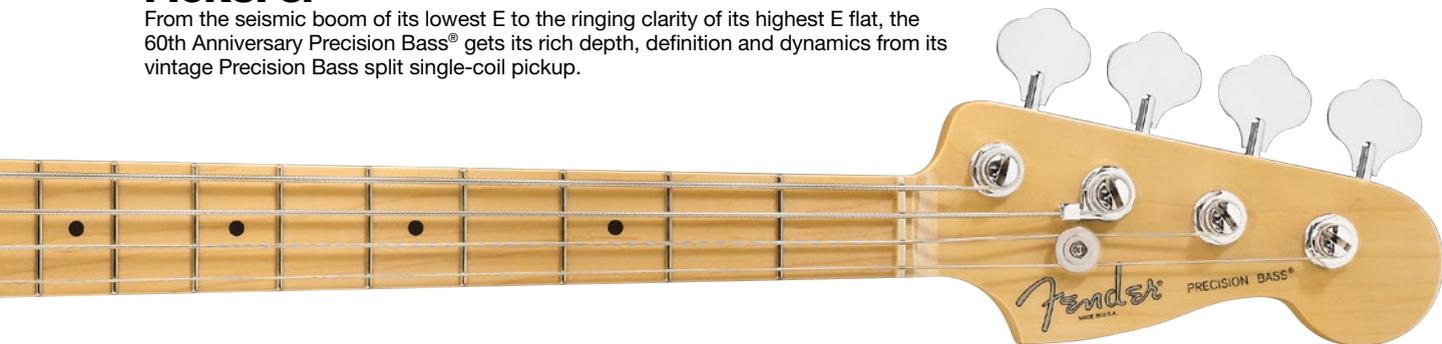

CONTROLS:

Volume and tone—that's it. Now as then, Precision Bass controls are elegant in their simplicity and solidly reliable in their effect on the sound. Two knurled "chrome-dome" knobs mounted on an original-style chrome control plate.

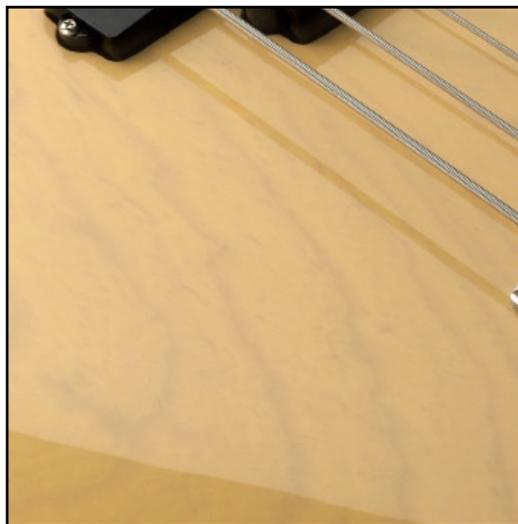

PICKUPS:

From the seismic boom of its lowest E to the ringing clarity of its highest E flat, the 60th Anniversary Precision Bass® gets its rich depth, definition and dynamics from its vintage Precision Bass split single-coil pickup.

COMMEMORATIVE NECKPLATE:

To further distinguish it as a special instrument created for a very special occasion, the 60th Anniversary Precision Bass bears a commemorative chrome neck plate honoring six decades of enduring bass legacy.

BODY AND FINISH:

Like its 1951 ancestor, the 60th Anniversary Precision Bass has an ash body and a nitrocellulose lacquer finish. Fender's new thin-skin "Blackguard Blonde" finish looks smartly stylish while allowing rich sonic resonance.

Humbucking Equipped

FOR FULL-THROATED THICKNESS AND HEAVY HIGH-GAIN CRUNCH, FENDER HAS A HUGE SELECTION OF HUMBUCKING PICKUP-EQUIPPED GUITARS AT PRICES THAT ARE RIGHT FOR EVERYBODY.

When Fender players want to transform the classic tones of their beloved guitars with hotter, heavier, full-bodied power, their favorite modification has always been to install humbucking pickups. Fender first outfitted its own guitars with humbucking pickups in the early 1970s; today we offer an entire range of humbucking pickup-equipped Stratocaster® and Telecaster® guitars in a variety of versatile pickup configurations that are perfect for any player at any price.

Alternating Current

DECIDEDLY DIFFERENT BUT UNMISTAKABLY FENDER®, THESE GUITARS ALWAYS SEEM TO FIND THEIR WAY INTO THE HANDS OF INNOVATORS, RULE BREAKERS AND PLAYERS WITH AN ALTERNATIVE EDGE.

The early 1960s were years of bold innovation for Fender. The era gave birth to a stable of innovative guitars and amps that remain solid performers. The Jaguar®, Jazzmaster®, Mustang® and Duo-Sonic™ guitars in particular have stayed strong in the hands of tonal trendsetters. Many players who led surf, punk, grunge and alt-rock movements did it with these guitars in their hands.

Low-Wattage Tube Amps

FENDER® HAS THE BEST SELECTION OF LOW-WATTAGE TUBE AMPS, AT A PRICE FOR EVERY PLAYER.

The real beauty of low-power tube amps is that they're easily overdriven at lower volumes. And when cranked up, players get the gutsy natural power amp distortion that is so satisfying. It's all about dynamics – sparkling clean to hot and dirty with a twist of the volume knob or some extra muscle in the pick attack. Visit www.fender.com for more information on low-wattage tube amps.

Fender® FUSE™

THE AMAZING AMP SOFTWARE THAT COMES FREE WITH ALL G-DEC® 3 AND MUSTANG™ AMPLIFIERS.

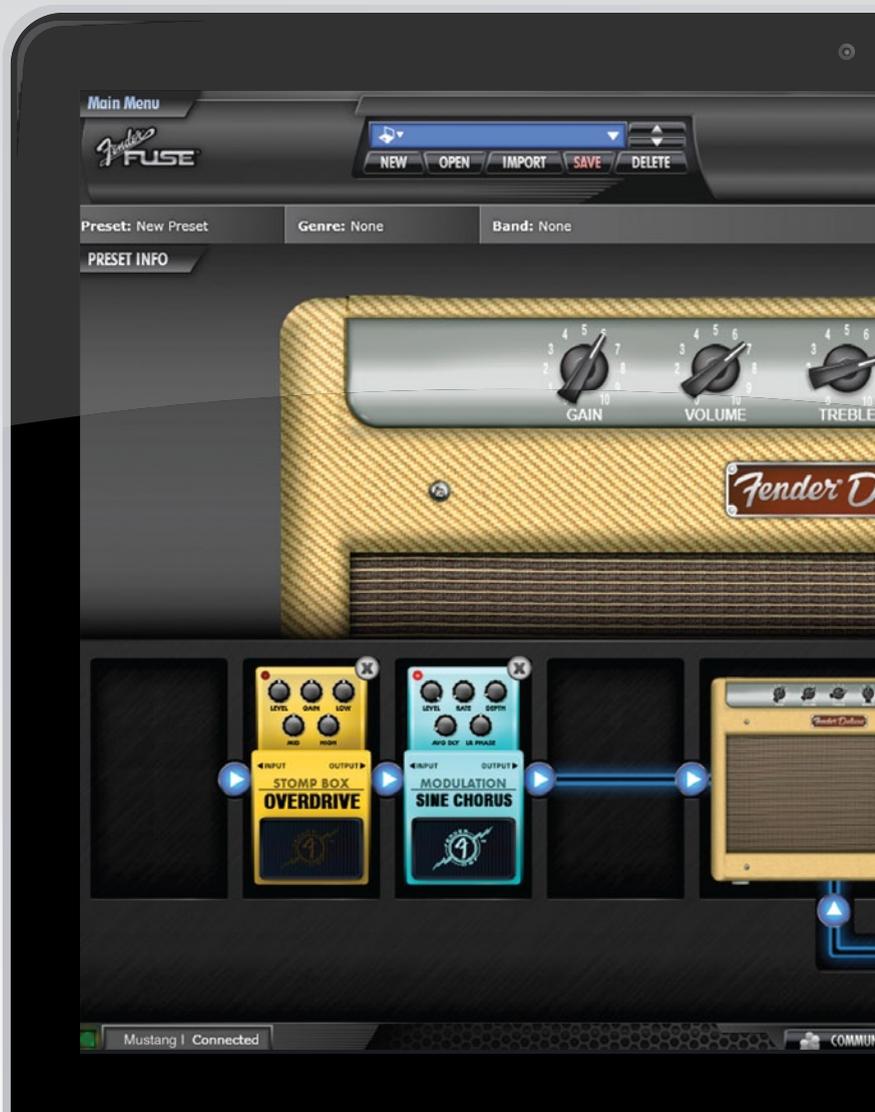

The acclaimed and popular G-DEC 3 and Mustang amps include the exclusive Fender FUSE software. It lets players create their own sounds, do deep editing, custom configure their amp and connect to an online community of players. Fender FUSE is compatible with Mac and PC platforms.

AMP PRESET EDITING:

Fender FUSE expands your control over your Mustang or G-DEC's parameters. Each amp has an authentic control panel; dial in tones just like a real amp and save them as presets. Create and store a virtually unlimited collection of tone presets. Connect via USB to your G-DEC 3 or Mustang amp and customize your onboard preset selection.

EFFECTS:

Fender FUSE gives you a vast array of effects, including dozens of modulation, delay and reverb sounds. Each effect operates like a traditional foot pedal and can be arranged before or after the amp circuit for a multitude of sounds. Add effects to the amp presets and the sonic possibilities are endless.

For more, go to: fuse.fender.com

ONLINE COMMUNITY:

Fender FUSE lets G-DEC 3 and Mustang amp users worldwide connect and trade amp presets, tips and tricks. Players are able to download new presets, backing tracks (for G-DEC 3), and exclusive artist content free from Fender.

**TUNER:**

Stay in tune with the Fender FUSE built-in guitar tuner.

MEDIA LIBRARY:

Once you start creating and acquiring tone presets, it can be hard to stop. No worries, store a virtually unlimited collection in the Fender FUSE Media Library. Easy to use with its search function, you can access saved presets and swap them in and out of your G-DEC 3 or Mustang amp with ease.

FENDER FORUM:

Fender FUSE connects players to the Fender Forum, which contains a collection of discussion pages related to guitars, basses, amps, modifications and repairs, performing, recording, and a wide variety of other topics of interest to musicians.

American Standard Stratocaster® HSS

(Black)

Among the new American Standard Stratocaster® guitars, the HSS model is the hot rod of the bunch, with more output and warmth from its Tex Mex™ single-coil pickups and Diamondback™ humbucking pickup. The S-1™ switch is removed to keep it simple, but don't worry - we kept key features such as the hand-rolled fingerboard edges and staggered tuning machines, and we added several new features, including an improved bridge with bent-steel saddles and a copper-infused high-mass block for increased resonance and sustain. Other features include tinted neck, high-gloss maple or rosewood fretboard, satin-finished neck back, thinner finish undercoat that lets the body breathe and improves resonance, and Fender-exclusive SKB® molded case.

Road Worn™ '50s Stratocaster®

(Black)

Few things in this world have gotten cooler with age than the Stratocaster® guitar. Born in the '50s, they became even cooler after years of use (and abuse) on the road; morphing over time to look appealingly battered and feel even better than when they were brand-new. Fender's maple-fretboard Road Worn™ '50s Stratocaster delivers that aged look and feel - built to look, sound and feel like it has more than just a few miles on it. Designed with 1950s specs, including a nitrocellulose-lacquer finish, and supercharged with Tex-Mex™ pickups and 6105 frets.

Part #	Description	MSRP
013-1012-303	Road Worn™ '50s Stratocaster®, Maple Fretboard, 2 Tone Sunburst	\$1,199.99
013-1012-306	Road Worn™ '50s Stratocaster®, Maple Fretboard, Black	\$1,199.99

Road Worn™ '60s Stratocaster®

(Olympic White)

The Stratocaster® really came into its own in the 1960s, with players coaxing unbelievable sounds from it amid punishing stage shows and grueling tours. Beaten, bruised and even burned, they only got better as the years wore on - looking even cooler and feeling even more comfortable. Fender's new rosewood-fretboard Road Worn™ '60s Stratocaster delivers that aged look and feel - built to look, sound and feel like it has more than just a few miles on it. Designed with 1960s specs, including a nitrocellulose-lacquer finish and 6105 frets, and supercharged with Tex-Mex™ pickups.

Road Worn™ '50s Telecaster®

(Blonde)

The first Fender workhorse; the original road warrior guitar. Fender's long road begins with the Telecaster®, a guitar that amazingly looked even cooler and handled even better the more players heaped wear-and-tear on it - great when brand-new but positively phenomenal with a few thousand miles on it. Fender's new maple-fretboard Road Worn™ '50s Telecaster delivers that aged look and feel - built to look, sound and feel like it has survived half a century, designed with 1950s specs, including a nitrocellulose-lacquer finish, and supercharged with Tex-Mex™ pickups and 6105 frets.

Classic Series '50s Stratocaster®

(Fiesta Red)

The Classic Series '50s Stratocaster® guitar epitomizes the vibe of the '50s. The color selection alone - Surf Green, Daphne Blue and Fiesta Red - takes you back to the era of diners, Ike and cars with fins. With a maple fretboard, tinted neck, single-ply pickguard and aged plastic parts, it's authentically retro, and the three single-coil pickups with staggered alnico magnet pole pieces deliver that unmistakable '50s Stratocaster sound.

Classic Series '69 Telecaster® Thinline

(3-Color Sunburst)

The semi-hollow body design of 1968's Telecaster® Thinline guitar was originally an attempt to reduce the weight of ash-body Telecasters. With its f hole and re-shaped pickguard, it was a truly distinctive take on Fender's first great instrument. The Classic Series '69 Telecaster Thinline brings it all back, with features including a lightweight semi-hollow mahogany body with f hole, U-shaped maple neck with 7.25" radius maple fretboard, vintage-style single-coil Telecaster pickups and vintage-style bridge and tuners.

Victor Bailey Jazz Bass®

(Natural)

The beautifully crafted Victor Bailey Jazz Bass® guitar incorporates the finest in design and electronics as specified by Bailey himself. The sleek, exotic-looking body has koa and rosewood over mahogany; the maple neck has a rosewood fingerboard with Posiflex™ graphite neck support rods, abalone dot inlays, rolled fingerboard edges and highly detailed nut and fret work. Special Design Noiseless™ pickups add warmth and low end, complementing the hardwood body's natural clarity and brightness and producing an extremely dynamic tonal range. The circuitry has been tweaked at the input stage (pre-shape, boost and EQ settings) to enhance the unique sonic nature of the woods. Bass EQ is centered at 40Hz at +/- 12dB with a 4dB per-octave slope; treble is centered at 8 kHz at +/- 10dB with a 2dB per-octave slope (treble cut serves more as a passive control for warm organic tones); mid-control is centered at 500Hz and +10dB and -15dB with a wide-band slope creating a distinctive voice. For maximum headroom, the circuit has an 18-volt power supply. Other features include gold-plated hardware, Fender®/Schaller® deluxe lightweight tuners, and a Bailey caricature graphic on the headstock.

Mark Hoppus Jazz Bass®

(Surf Green Transparent)

Fender's Mark Hoppus Jazz Bass® guitar is the perfect punk-pop bass—as powerful and addictive as a blink-182 hit. Distinctive since its 2002 introduction as a Jazz Bass with a split single-coil Precision Bass® pickup, it now has a new sonic formula. For the updated version of his signature model, Mark has reversed the pickup, with the upper half now on the treble side, delivering supercharged throat and fullness from the D and G strings; and the lower half now on the bass side, adding focused snap and brightness to the E and A strings. A unique modification for nonconformists.

Features include an ash body, maple neck with modern “C” shape and 1.625” nut width (wider than the 1.5” standard for Jazz basses), rosewood fretboard with 9.5” radius and medium jumbo frets, reversed Seymour Duncan® Basslines SPB-3 Quarter Pound split-coil Precision Bass pickup, single chrome control knob (volume), combination string-through-body bridge with American series plate and Standard series saddles and screws, and one-piece Jazz Bass pickguard (four-ply white pearlloid on Surf Green model, four-ply tortoise shell on White Blonde model). Road Worn™ '50s Precision Bass®

(Fiesta Red)

The original was born in the '50s and produced the sound of bass. On the road, the more you punished a Precision Bass® guitar, the more it gave back as a virtually indestructible bass that took a beating and laughed while it asked for more, becoming even cooler looking and more comfortable-feeling than when it was brand-new. Fender's Road Worn™ '50s Precision Bass delivers that aged look and feel. Designed with '50s specs, including a nitrocellulose-lacquer finish, and built to look, sound and feel like it's got more than just a few miles on it.

Road Worn™ '60s Jazz Bass®

(3-Color Sunburst)

A veritable racecar of a bass, the Jazz Bass® guitar was born in the '60s and became the favorite of players who put as many miles on the instrument as they did on their tour buses. The more it was used (and abused), the more it growled back and became even more comfortable. Fender's Road Worn™ '60s Jazz Bass guitar delivers that aged look and feel. Designed with '60s specs, including a nitrocellulose-lacquer finish, and built to look, sound and feel like it's got more than just a few miles on it.

'60s Jazz Bass®

(3-Color Sunburst)

Our '60s Jazz Bass® captures the essence of the decade - an instrument as tuneful and groundbreaking as the era it debuted in. Many of the period-correct details that made the original Jazz® basses so great are meticulously replicated in this classic vintage-vibe beauty, which features the original offset waist, ultra-slim neck and pair of vintage-style alnico magnet Jazz Bass single-coil pickups. Whether it's early '60s Motown, British Invasion, American garage or later-'60s heavy rock and soul, this bass embodies a fantastic era in music.

Mustang® Bass

(Vintage White)

Fender's popular Mustang® Bass guitar was introduced in 1966 as a cool short-scale alternative to its illustrious long-scale big brothers. This thoroughbred reissue captures the original instrument's feisty mid-'60s vibe, and is perfect for players who prefer a shorter scale (30") or have smaller hands. Guitar players and younger musicians will find it especially comfortable to play. Features include a solid alder body, split single-coil pickup and a maple neck with a rosewood fingerboard, dot inlays and nickel/silver frets.

Classic Vibe Stratocaster® '50s

(Lake Placid Blue)

The Classic Vibe Stratocaster® '50s provides unmistakable '50s-era Fender® vibe and tone. The alder body has a Two-Color Sunburst, Lake Placid Blue or Olympic White finish. The vintage-tint gloss-maple neck (Two-Color Sunburst and Olympic White models only) has a maple fingerboard with 21 medium-jumbo frets and a modern 9.5" radius. That long-familiar tone comes from a custom set of alnico III single-coil pickups, clear and bright, with terrific sustain even in crunch mode. Custom staggered polepieces provide improved string-to-string balance.

Part #	Description	MSRP

Classic Vibe Stratocaster® '60s

(3-Color Sunburst)

The rough-and-tumble Classic Vibe Stratocaster® '60s evokes that musically adventurous decade, with a few modern features added. The alder body has a Three-Color Sunburst or Candy Apple Red finish; the '60s-era vintage-tint gloss-maple neck has a rosewood fingerboard with 21 medium-jumbo frets and a modern 9.5" radius. The thick tone comes from the alnico V single-coil pickups--quick attack with a bit more midrange force and a knockout bridge pickup. Custom staggered polepieces provide improved string-to-string balance.

Classic Vibe Telecaster® '50s

(Vintage Blonde)

Squier's Classic Vibe Telecaster® '50s puts classic "blackguard" Telecaster vibe into a gorgeous Vintage Blonde-finished pine-body guitar--you'll be hard-pressed to tell whether or not you are holding a premium ash-body instrument. The vintage-tint gloss-maple neck has a maple fingerboard with 21 medium-jumbo frets and a modern 9.5" radius. Distinctive Telecaster tone rings from the custom alnico III single-coil pickups, giving clear note separation even when distorted, strong midrange dynamic response and plenty of solo high-end bite.

J5 Telecaster®

(Black)

John 5 is a self-described "Fender® fanatic" with a jaw-dropping collection of his favorite instrument, the Telecaster® ("the greatest guitars ever built, by far," in his words). His Squier® signature model, the J5 Telecaster®, is a double-bound beauty based on his oft-modded workhorse Telecaster®, which was pieced together at the Fender® Custom Shop. Features include John 5's distinctive black-and-chrome look, a double-bound alder body with a gloss black polyester finish, a polished stainless steel pickguard and chrome hardware. The one-piece maple neck has a modern "C" shape, a matching black Telecaster® headstock and a 12"-radius rosewood fingerboard with 22 medium jumbo frets. The custom-designed humbucking pickups use a special dual-volume setup with the bridge pickup control in the front position and the neck pickup control in the back position (5 prefers this setup because he spends much time giving the bridge pickup a workout). Rapid toggling the upper-bout three-way pickup switch gives you 5's signature "kill" effect by turning off the neck pickup volume and leaving the bridge control full up.

Vintage Modified Jaguar® HH

New

(Fiesta Red)

With its offset waist, contoured body and 24" scale "fast action" neck the new Vintage Modified Jaguar® HH gives a nod to its iconic forbearer but has other things going for it that make it truly 'modified'. The unique top-loading hard tail bridge features string saddles which are adjustable for intonation and designed to have a 9.5" radius when sitting flat on the bridge plate. The bridge is anchored at the rear of the plate while the front sits atop height adjustment screws which can be raised or lowered to achieve desired string height/action while subtle adjustment at the rear (anchor) achieves the correct bridge angle. The Jaguar HH is quipped with a set of Duncan Designed™ pickups which offer a multitude of "hot-rodded" humbucking tones. Other features include '62 Jazz Bass® concentric volume/tone controls, vintage style tuners and a comfortable one-piece maple neck with rosewood fingerboard.

Classic Vibe Precision Bass® '50s

(Lake Placid Blue)

Squier's Classic Vibe Precision Bass® '50s delivers an authentic '50s-era bass experience in sound, look and feel. The basswood body has an eye-catching Lake Placid Blue finish, and its custom "original" single-coil pickup delivers warm, earthy old-school Precision Bass tone. The gloss-maple neck has wider (1.65") string spacing, a 20-fret fingerboard with a modern 9.5" radius and open-gear tuning machines. The four-saddle HiMass™ bridge makes the instrument easily user-friendly for setup and playability.

Classic Vibe Jazz Bass® '60s

(Olympic White)

Squier's Classic Vibe Jazz Bass® '60s has all of the "deluxe" elements its Fender® big brother had when it was introduced in the 1960s--a groovy offset waist, a narrow fast-action maple neck with a rosewood fingerboard, two custom single-coil pickups, individual volume controls that let players "solo" either pickup or blend them, and a master tone control for overall sound shaping. The look is pure Fender--a classic Olympic White finish on a basswood body with a tortoise shell pickguard, thumb rest and HiMass™ bridge with brass barrel saddles. The vintage-tint gloss-maple neck has a rosewood fingerboard with 20 vintage-style frets and a modern 9.5" radius. Tonal versatility and clarity with a quick, punchy up-front sound.

Ukulele Pa'ina- Solid Mahogany w/ Electronics

(Natural)

Fender® brings you the authentic sound of the Hawaiian Islands with its first-ever series of ukulele models. Ukuleles are enjoying renewed popularity, with exquisite sounds and designs that are a far cry from mere musical toys. Originally built by Portuguese immigrants to the Hawaiian Islands in the 1880s, the small guitar-like instruments produced a lilting sound that instantly evoked the lush South Pacific atmosphere of their island homeland. Fender's three new tenor-style ukulele models offer finely crafted sound and construction; they too instantly evoke the sound and spirit of Hawaii. Each features the distinctive Fender Telecaster® guitar headstock shape, unique body shapes and bracing patterns designed exclusively for Fender and a Fender ukulele gig bag to get you started. This one is the Fender Ukulele Pa'ina, a top-line model that gets its name from the Hawaiian word for party. Made of solid mahogany, with satin finish and passive electronics that let you plug it in and turn it up at the next luau.

‘57 Twin-Amp™

The ‘57 Twin-Amp™ is one of the most collectible amps of all time, with harmonically rich clean tones that are great for vintage rock, blues and country. Or it can be cranked up for full, sophisticated distortion. This all-tube combo amp has hand-wired circuitry; even reproducing the 1955-‘57 edition “low powered” 5E8A circuit, which puts 40 watts into a pair of 12” alnico-magnet speakers. Power comes from dual GT6L6 output tubes and Fender’s seldom-seen mid-‘50s dual rectifier arrangement (using 5U4 rectifier tubes). With this design, power amp compression (“sag”) is more subtle than in many Fender® tweed designs. The Twin’s preamp contains four high-gain 12AX7 tubes, three of which may be substituted with 12AY7s for the original ‘50s low-gain sound. An internal bias pot allows easy substitution of various 6L6 types. Control panel details include normal and bright volumes, four inputs (two normal; two bright), treble, bass and presence knobs. Finger-joined solid pine cabinet resonates with a warm, woody tone. Also features genuine lacquered tweed covering, vintage-style brown/gold grille cloth, top leather strap handle and fitted cover.

814-0500-000	‘57 Twin-Amp™, 120V	\$3,999.99

‘57 Deluxe™

The original Fender® Deluxe™ amp of the 1950s was a medium-powered unit that found its way onto countless smoking-hot live and recorded performances. Over the past 50 years, players of every conceivable style have prized this awesome tone machine for its unmistakable warm and rich tube tone. An authentic recreation of one of the most beloved guitar amplifiers of all time, the ‘57 Deluxe is a 12-watt hand-wired tube amp with a 12” Jensen® P12Q speaker. Dual 6V6 output tubes, acclaimed 5E3 circuit and solid pine cabinet all contribute to the Deluxe amp’s resonant touch-sensitive performance. Vintage-style fitted cover included.

815-0500-000	‘57 Deluxe™, 120V	\$2,699.99

‘57 Champ®

The Fender® Champ® amp of the late 1950s is well known as the small-but-mighty 5-watt tone machine that belongs in every serious guitarist’s collection. The tweed Champ is a terrific practice amp, and has been a prized possession of countless pro players for its great sounding, low output, easy-to-record capabilities. Most players like to turn its volume all the way up and manipulate the guitar’s controls for a variety of sounds from pristine clean to swampy overdrive. It’s a uniquely inspiring and complex reed-like voice. This faithful hand-wired recreation of the 1957 Champ Amp is not only for collectors or retro-minded guitarists - any guitarist seeking the ultimate in low-powered, top-quality tube performance need look no further.

'57 Champ®

'59 Bassman® LTD

In early 1952, the Fender® Bassman® amplified a great new invention - the Fender Precision Bass® guitar. At 50 watts, it competed easily with the common instrumentation of the day: horns, piano, small drum kit, and maybe even an electric guitar through a new 10-watt amp. Through the '60s and '70s, the original all-tube tweed 4x10" Bassman® was popular with rock, country and blues guitarists as a reliably great-sounding and easy-to-use guitar amp. In the '90s, Fender released an affordable '59 Bassman reissue amplifier to great acclaim. Many guitarists, tired of experimenting with preamps, equalizers and effects racks, rediscovered the simple pleasure of plugging into a Fender tube amp. The reissue Bassman's wide stage coverage, touch-sensitive dynamics and full-frequency swirl make it perfect for building great tone with almost any guitar or effect, and it remains a staple of the Fender guitar amp line to this day.

'65 Super Reverb®

This faithful recreation of the legendary Blackface™ Super Reverb® of 1963-1968 is a must-have for vintage enthusiasts and Stratocaster® guitar slingers, but players of all styles enjoy its shimmering tone. The 45-watt Super Reverb's medium output and stage-filling sound make it the perfect amp to crank up for club gigs or the concert stage. Features include dual 6L6 Groove Tubes® output tubes, one 5AR4 rectifier tube, four 12AX7 preamp tubes, two 12AT7 tubes, four 10" 8-ohm Jensen® P10R speakers with alnico magnets, dual channels (normal and vibrato), tube-driven Fender® reverb, tube vibrato, two-button footswitch for reverb and vibrato on-off, black textured vinyl covering with silver grille cloth, and tilt-back legs.

'65 Twin Reverb®

This amp has seen action in every imaginable venue and remains indispensable to this day. Be it rock, jazz, country or anything else, this is what a clean electric guitar sounds like - or add an upside-down Stratocaster® guitar and a fuzz box ...

The 85-watt (at 4 ohms) reissue '65 Twin Reverb® features four 6L6 Groove Tubes® output tubes, four 12AX7 preamp tubes, two 12AT7 preamp tubes, two 12" 8-ohm Jensen® C-12K speakers, dual channels (normal and vibrato), Fender® reverb, vibrato, two-button reverb and vibrato on-off footswitch, tilt-back legs, black textured vinyl covering and silver grille cloth.

'65 Twin Custom™ 15

The '65 Twin Custom™ 15 is an all-tube combo amp that pairs an 85-watt reissue '65 Twin Reverb® chassis with an enlarged cabinet and single 15" speaker instead of the usual pair of 12s. The Twin's vibrato, reverb and crystal clean tones are great as always, and the 15's extra-fat clear bottom end, smooth treble and high power handling are fantastic. We designed an updated speaker with Eminence® based on the now-collectible JBL® D130F model Fender used in the '60s and '70s; its cast frame, shallow cone, high flux density, large voice coil and aluminum center cap deliver clean, precise performance for players in all genres, with amazing 3-D bass and treble separation. Other features include a metal badge on the grille, two-button reverb/vibrato footswitch, removable casters, nickel hardware, heavy-duty textured black vinyl covering with silver grille cloth, and an embroidered cover.

217-3000-010	'65 Twin Custom™ 15, 120V	\$1,989.99

'65 Deluxe Reverb®

The 22-watt '65 Deluxe Reverb® amp is for rock, country or blues players who want a moderately powered amp they can crank up at the gig or in the studio. The full, snappy guitar tones heard on many famous recordings from Memphis to Abbey Road were made using the Deluxe™ amp. Features include dual 6V6 Groove Tubes® output tubes, one 5AR4 rectifier tube, four 12AX7 preamp tubes, two 12AT7 tubes, one 12" 8-ohm Jensen® C-12K speaker, dual channels (normal and vibrato), tube-driven Fender® reverb, tube vibrato, two-button footswitch for reverb and vibrato on-off, black textured vinyl covering and silver grille cloth.

Super-Sonic™ 60 Head

Super-Sonic™ amplifiers are the favorite tool of pro guitarists in many different musical genres who love to create glorious Fender® clean tones and expressive modern high-gain tones with one no-nonsense tube amp. The vintage channel is based on two legendary Fender favorites, and the awesome burn channel ignites musical inspiration with overdrive flavors ranging from bluesy to flame-throwing. The Super-Sonic 60 delivers increased bass response and fatter tone, and its heavily saturated tube overdrive and sustain can be fine-tuned without masking the tonal character of your guitar. And by popular demand, the new Super-Sonic 60 models are available in two classic cosmetic treatments - Black/Silver and 1961-style Blonde/Oxblood, both with ivory "radio" knobs and flowing 1960s script logo. Cover and 3-button foot switch included.

Deluxe™ VM

Fender® tube combos are considered the most treasured guitar amplifiers ever. Popular models like the Deluxe Reverb® and Hot Rod Deluxe™ are easily as desirable now as they were when they were introduced. Countless guitarists reach for some version of a Fender Deluxe™ amp when they do a session or a gig, thanks to its grab-and-go 1x12" combo portability, ease of use and great tone. The Deluxe VM amplifier takes the sought-after Deluxe formula into a new era of "Vintage Modified" performance by combining a real tube amp with several essential effects. The 40-watt tube design provides a great tonal foundation; the versatile tube preamp offers a wide range of tone and gain settings, from world-standard Blackface™ Fender clean to aggressive overdrive with post-gain EQ. DSP effects include reverb, chorus/vibrato, and delay, with the convenience and adjustability of standard stomp boxes and without the need for extra cables or power supplies.

TB-1200 Head

TBFS-4 Footswitch Included.

The PRO series TB-1200 combines 1,200 watts of earth-shaking power with total tonal finesse and versatility to produce thick, natural and balanced bass tone that sits perfectly in the mix onstage and in the studio. Based on the acclaimed TBP-1 tube bass preamp, the key to its sound is the passive tone stack - the backbone of classic Fender guitar and bass amps - in which each control knob setting affects the sound of the other controls, producing big, warm notes. The overdrive section (gain, volume, blend) sits on top of the clean channel, letting you dial in tones from subtle grind to full-on overdrive. Vari-Q™ is a smart semi-parametric EQ with a user-selectable frequency and 15 dB cut/boost. When boosting frequencies, it automatically widens the focus of the Q for a broader, more musical boost. When cutting frequencies, it automatically narrows the focus of the Q for a well-defined cut (notch). Room Balance is a global EQ shift for cabinets/stage response. A clockwise turn cuts low-end frequencies while raising upper frequencies. A counter-clockwise turn boosts low-end frequencies while cutting upper frequencies. This knob does not affect the XLR out, so you can dial in your stage sound while giving the soundman an unaltered signal. Four-button TBFS-4 footswitch included.

TB-600C Combo

TBFS-4 Footswitch sold separately.

The TB-600C Combo provides thick, natural and balanced tone that sits perfectly in the mix onstage and in the studio. Based on the critically acclaimed TBP-1 tube bass pre-amp, the key to its powerful tone is its passive tone stack, which is the backbone of classic Fender guitar and bass amps. In a passive tone stack, the working of each knob affects the others, resulting in big, warm notes. The TB 600C combo delivers 400 watts to its internal 8-ohm load; 600 watts when paired with any 8-ohm external cabinet.

MB 1200 Power Amp

The MB-1200 is a powerful 1200-watt mono-block power amplifier designed to be part of a discreet system, with each component dedicated to a single task - thus creating a versatile expandable bass rig easily able to accommodate large venues. A dedicated preamp (such as our acclaimed TBP-1 Tube Bass Preamp) sends a signal to the MB-1200, which amplifies it efficiently and sends it to a variety of speaker cabinet configurations, with tight focus and seemingly endless headroom. Its six speaker outputs, running at 2 ohms, allow cabinet configurations such as two 810 PRO cabinets or a combination of the 610 and 215 PRO cabinets.

810 PRO Cabinet

The 810 PRO is the biggest cabinet a bass player can take into battle. Features include four chambered and ported sections that each contain two 10" Fender® Special Design Eminence® cast-frame drivers that deliver a pulverizing punch across the largest stages. High-frequency compression driver horn can be adjusted with the attenuator on the back. Handle and wheel placement and rear slide rails make maneuvering and vehicle loading easier. Rated at 2,000 watts program (1,000 watts continuous).

Part #	Description	MSRP
221-7200-010	810 Pro Speaker Cabinet, Cast Frame Speakers, Horn w/ Attenuator	\$1,899.99

610 PRO Cabinet

Stadium power with around-the-town portability. The 610 PRO cabinet takes its cue from our popular 810 PRO cabinet, with similar sonic power in a package small enough to transport in most vehicles and preferred by bassists who find an 8x10" too large for medium-size venues. Three chambered and ported sections each contain two 10" Fender® Special Design Eminence® cast-frame drivers that deliver powerful, focused tone. High-frequency compression driver horn can be adjusted with the attenuator on the back. Handle and wheel placement and rear slide rails make maneuvering and vehicle loading easier. Rated at 1,600 watts program (800 watts continuous).

215 PRO Cabinet

Powerful, focused and deep tone at your fingertips. The 215 PRO cabinet takes its design cues from the popular 810 PRO cabinet, delivering the giant wallop of two 15" Fender® Special Design Eminence® cast-frame drivers for the big, round sound of old-school rock. High-frequency compression driver horn adds brilliance and can be adjusted with the attenuator on the back. Handle and wheel placement and rear slide rails make maneuvering and vehicle loading easier. Rated at 1,600 watts program (800 watts continuous).

115 PRO Cabinet

The 115 PRO cabinet delivers the giant wallop of a large 15" Fender® Special Design Eminence® cast-frame driver for the big, round sound of old-school rock. The high-frequency compression driver horn adds brilliance and can be adjusted with the attenuator on the back. This cabinet works great by itself and with the TB-600C Combo - together, the two deliver the 600 watts as a serious full-range rig. Handle and wheel placement is ideal for moving the cabinet easily. Rated at 800 watts program (400 watts continuous).
