Fluorescent Bulb Recycling**

1. REQUIREMENTS

The correctional facility has issued regulations to be observed by all contractors, their subcontractors (if any) and employees and other firms providing services for or otherwise assigned to or working on the project in order to minimize disruption to prison operations, maintain security and facilitate the construction process. While working inside the prison facilities on a regular or occasional basis, it must be clearly understood that prison security requirements will at all times take precedence over construction operations. The contractor shall comply with all such regulations and consider the regulations when preparing his/her bid.

2. WORKING AT A DEPARTMENT OF CORRECTION FACILITY

- a. In order for the Department of Correction (DOC) to ensure security on the job site, the prime contractor shall submit a list of all proposed workers who will be working on the site to the DOC including name, social security number, age, sex, race and date of birth. This list shall include all sub-contractors (if any) and any vendors requiring access to the secure perimeter of the facility.
- b. Workmen will not be permitted on the campus without approval.
- c. All tools, equipment, supplies, etc., shall be removed from the compound building daily.
- d. A list of tools must be supplied with each truck. Inventory shall be taken by the contractor at the beginning and end of each workday. Correctional Officers reserve the right to inspect and inventory all toolboxes, workmen and trucks. Report all missing tools immediately. Leave all unnecessary tools at the shop.
- e. Trucks should be kept clean of debris. Trash within the vehicle increases the amount of time required to inspect the vehicles.
- f. Proper construction clothing is required. Short pants are not permitted.
- g. Contractors shall include, in their bid, a sufficient amount of time to enter and depart the facility in a given day. As an example of previous projects at a Department of Correction site, it takes between one half hour to one hour to enter or leave the facility.
- h. Contractor is advised that only limited movement will be permitted while inside the compound.
- i. Contractors are requested to notify the Director of Custody of Operations upon the termination of worker's services in order that the identification card on file can be pulled and rendered inactive.
- j. Completion of Security Clearance Application is required for all employees (see page 44 for application).

3. CONTRABAND/TOOL CONTROL

- a. Title 11, Section 1256 of the Delaware Code specifies that “a person is guilty of promoting prison contraband when: (1) they knowingly and unlawfully introduces any contraband into detention facility, or (2) being a person confined in a detention facility, he knowingly and unlawfully makes, obtains, or possesses any contraband.”
