### Terms and Conditions

For over 45 years, Cedar Forest Products has been designing and creating shelters for parks, camps and recreation facilities. From park shelters, pavilions, gazebos, bridges, to all cedar cabins, and nature centers. Steel or Wood, Cedar Forest products are designed to perform and built to last.

#### **PRICES:**

Prices do not include freight. All prices F.O.B. factory and are subject to change without notice. Current prices apply at time of shipment. We reserve the right to change material specifications with equal or superior material.

#### **TERMS:**

Terms are 25% down balance net 30 from date of invoice to governmental agencies, tax supported and charitable institutions. All others, 25% down, balance due 7 days prior to order shipping. Financial charges of 1.5% per month will be imposed on all past due accounts. Master Card, Visa and American Express accepted. 3-5% service charge will be added to invoice amount.

#### **CANCELLATIONS:**

Cancellations can be made only with the consent of CFP, and on terms which will indemnify CFP against loss.

#### **RETURNS:**

No merchandise is to be returned without first obtaining written authorization from CFP. Please provide invoice number, invoice date, and reason for your return when corresponding. Any authorized merchandise must be carefully packed and in saleable condition to be accepted for return. A 35% re-stocking charge applies on all returned merchandise when error is not the fault of CFP. All returned merchandise must be shipped insured and freight prepaid.

#### **FREIGHT CHARGES:**

CFP will prepay and add freight charges to invoice unless special arrangements are made prior to shipping. Freight prices in effect at time of shipment will apply. Storage charges may be applicable for any order that is not accepted or picked up within two weeks after order is fabricated.

#### **LIMITED WARRANTY:**

CFP provides limited warranties materials for a period of ten years from date of invoicing. During that period, CFP warrants that the material will conform in kind and quality to the specifications and descriptions on drawings approved by the purchaser. The limited warranty covers only structures erected in conformance with CFPs' installation instructions by an installer competent in the construction trades. For the full text of the limited warranty, contact CFP at the address and phone number shown above.

#### **SPECIFICATIONS:**

CFP has a policy of continuous improvement and reserves the right to discontinue or change specifications without notice. The roof system for standard structures and buildings are designed to withstand 30 psf live load and 20 psf (90 mph) wind load. For heavier load requirements, please consult with CFP.

#### **SHIPMENTS:**

The most economical and practical methods will be utilized. Shipments are also governed by ICC regulations.

#### **DRAFTING:**

If plans require a state architect or engineer stamp, please call for cost estimates. Plumbing, heating and electrical schematic plans are not included in our pricing.

<b>PARKAIRE ACTIVITY CENTER -Roof Pitch 3/12 ADA Compliant</b>
--

Call for Snow Loads on Cedar Decking.

**LAMINATED WOOD BRIDGES**

Cedar Forest Bridges are pre-engineered based on 85 PSF live load, 12 PSF dead load with a deflection L/300 for live load. Bridges are available in 4', 6' and 8' deck widths with clear spans ranging from 16' to 80'. The standard Bridge camber is a radius of 800'. All standard bridge wood components (except decking) are Glue Laminated Southern Yellow Pine. Decking is treated 2"x6" Southern Yellow Pine, S4S. Hardware used to connect the glue-laminated components is hot dipped galvanized steel. 4' and 6' bridges up to 60' in length are shipped completely assembled, while bridges 8' wide to 60' in length are shipped with railings assembled, but not attached. The rails will be field applied (bolt on) by the installer.

\* Various railing options are available. Bridges intended for bicycle use shall have 54" rail height, please call for pricing. Railing options may not be glue laminated.

\* Light vehicular bridges are available using standard designs. Light vehicular loads will require additional engineering and alter standard designs. Customer is responsible for specifying maximum vehicular load required.

\* Foundation (abutment, pier or footing) design and construction shall be the responsibility of the Purchaser. Bridge support reactions and anchor bolt location will be supplied by Cedar Forest Products.
