5. PRICING

[\(Return to Table of Contents\)](#)

Prices will remain firm for the term of the initial contract year. All pricing can be found on the Award Notice Pricing Spreadsheet.

6. BILLING

The successful vendor is required to "Bill as Shipped" to the respective ordering agency(s). Ordering agencies shall provide at a minimum the contract number, ship to and bill to address, contract name and phone number.

7. PAYMENT

The agencies or school districts involved will authorize and process for payment each invoice within thirty (30) days after the date of receipt. The contractor or vendor must accept full payment by procurement (credit) card and/or conventional check and/or other electronic means at the State's option, without imposing any additional fees, costs or conditions. **The contractor offers a value-added discount of 5% off invoices paid within thirty (30) days.**

8. PRODUCT SUBSTITUTION

All items delivered during the life of the contract shall be of the same type and manufacture as specified unless specific approval is given by Government Support Services to do otherwise. Substitutions may require the submission of written specifications and product evaluation prior to any approvals being granted.

9. ORDERING PROCEDURE

Successful contractors are required to have either a local telephone number within the (302) area code, a toll free (800) number, or agree to accept collect calls. Each agency is responsible for placing their orders and may be accomplished by written purchase order, telephone, fax or computer on-line systems. The contractor or vendor must accept full payment by procurement (credit) card and/or conventional check and/or other electronic means at the State's option, without imposing any additional fees, costs or conditions.

10. REQUIREMENTS

This contract is issued to provide inspection, testing and calibration services for Fire Alarm and Sprinkler systems; cleaning of hoods and vents; and servicing of portable fire extinguishers for all buildings statewide.

11. HOLD HARMLESS

The contractor agrees that it shall indemnify and hold the State of Delaware and all its agencies harmless from and against any and all claims for injury, loss of life, or damage to or loss of use of property caused or alleged to be caused, by acts or omissions of the contractor, its employees, and invitees on or about the premises and which arise out of the contractor's performance, or failure to perform as specified in the Agreement.

12. NON-PERFORMANCE

In the event the contractor does not fulfill its obligations under the terms and conditions of this contract, the ordering agency may purchase equivalent product on the open market. Any difference in cost between the contract prices herein and the price of open market product shall be the responsibility of the contractor. Under no circumstances shall monies be due the contractor in the event open market products can be obtained below contract cost. Any monies charged to the contractor may be deducted from an open invoice.

13. FORCE MAJEURE

Neither the contractor nor the ordering agency shall be held liable for non-performance under the terms and conditions of this contract due, but not limited to, government restriction, strike, flood, fire, or unforeseen catastrophe beyond either party's control. Each party shall notify the other in writing of any situation that may prevent performance under the terms and conditions of this contract.

14. AGENCY'S RESPONSIBILITIES

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings and other documents presented by the Contractor to the Agency and render to the Contractor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Contractor.
- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible.

SCOPE OF WORK

1. Vendor and technicians must be in compliance with current National Fire Protection Association (NFPA) standards and State Fire Marshal Codes.
2. Vendor may offer additional Services but must submit quotes to facility manager and receive approval before commencing work.

I. Fire Alarm Systems

Vendor is required to perform the following services:

- a. Inspect installed equipment, including complete testing of all smoke detectors and pull stations;
- b. Inspect fuses, lamps, LED's, control equipment;
- c. Provide State with test report following each quarterly service;

**Some facilities may not accommodate one inspection per year for all fire alarm systems. This will require the vendor to service a portion of the alarm system each quarter until all systems have been inspected throughout the course the year.

II. Fire Sprinkler Systems

Vendor is required to perform the following services:

- a. Inspect installed equipment, including alarm devices, hose connections, hose racks, and fire department connections; and
- b. Ensure all facilities are in compliance with all existing rules and regulations.

III. Ansul Fire Suppression Systems

Vendor is required to perform the following services:

- a. Ensure that systems are constantly operational for the protection of the kitchen and the safety of all culinary workers; and
- b. Ensure that the facilities are in compliance with all existing rules and regulations.

IV. Fire Extinguisher Service

Service will include, but is not limited to:

- a. Hydrostatic testing of carbon dioxide, wet chemical, and foam fire extinguishers on an as-needed basis;
- b. Vendor will provide users with a receipt for all services performed; and

- c. Fire inspection tags will be attached to all inspected fire extinguishers.

During servicing of existing fire extinguishers, vendor may not remove extinguishers from any occupied building for a longer period of time than it takes to recharge or repair the extinguishers.

Vendor must adhere to the following process for the safety of the staff and/or public when extinguishers are being replaced:

Replace existing extinguisher with an extinguisher that is of the same size and type temporarily while servicing the extinguisher; and

Return the serviced extinguisher to its original location and remove the temporary replacement. It is acceptable to replace the next extinguisher to be serviced at the next location with the newly serviced extinguisher, provided it is of the same size and type, and it may be mounted properly.

SECTION 3 - SPECIFICATIONS FOR DOC

I. ADDITIONAL DOC SECURITY REQUIREMENTS AND PROCEDURES

1. REQUIREMENTS

The correctional facility has issued regulations to be observed by all Contractors, their subcontractors (if any) and employees and other firms providing services for or otherwise assigned to or working on the Project in order to minimize disruption to prison operations, maintain security and to facilitate the construction process. While working inside the prison facilities on a regular or occasional basis, it must be clearly understood that prison security requirements will at all times take precedence over construction operations. The Contractor shall comply with all such regulations and consider the regulations when preparing their bid.

2. WORKING AT A DEPARTMENT OF CORRECTION FACILITY

- a. In order for the Department of Correction (DOC) to ensure security on the job site, the Prime Contractor shall submit a list of all proposed workers who will be working on the site, to the Food Service Director including their name, social security number, age, sex, race and date of birth. This list shall include all sub-contractors (if any), and any vendors requiring access to within the secure perimeter of the facility.
- b. Workmen will not be permitted on the campus without approval.
- c. All tools, equipment, supplies, etc., shall be removed from the compound building daily.
- d. Proper construction clothing is required. Short pants are not permitted.
- e. Contractors shall include, in their bid, a sufficient amount of time to enter and depart the facility in a given day. As an example of past projects at a Department of Correction site, it takes between one half to one hour to enter or leave the facility.
- f. Contractor is also advised that only limited movement will be permitted while inside the compound.
- g. Contractors are requested to notify the Director of custody of Operations upon the termination of worker's services in order that the identification card on file can be pulled and rendered inactive.
- h. Completion of background check, Security Clearance Application, is required for all employees who will be working in any DOC facility (see next page for Security Clearance Application).

 3. Inmates are not permitted to franchise with the public or contractors.
- d. Private Contract Repair and Maintenance Workers: Private contracted or contract maintenance workers by, or under contract to perform services, maintenance repair or construction within the institution must complete an inventory listing of all tools, tool boxes and related equipment prior to admittance into the Institution. A staff member as so assigned must escort tradesmen or other non-employee workers while in the facility. At entry control point's vehicles and personnel will be searched, to include any tools or relating equipment. No tools will remain on the work sites upon departure. Activities must be performed as authorized with proper security and safety precautions.
- e. Classification of Tools: It is difficult to classify every specific tool. However, the classification of tools can be determined according to the following categories.

SECTION 3 - SPECIFICATIONS FOR DOC

II. SPECIAL PROVISIONS (continued)

1. Restricted tools are items that can be used by inmates either in effecting an escape or causing date or serious injury. The following tools are typical examples:
 - a. Diamond-point drills
 - b. Ice picks
 - c. Hones and sharpening stock.
 - d. Metal cutters, blades
 - e. Bolt cutters
 - f. Cleaners
 - g. Cutting torches
 - h. Electric drills, portable
 - i. Electric bench and portable grinders
 - j. Files
 - k. Gear pullers
 - l. Diamond point and regular hacksaw blades.
- f. Lost or stolen tools must be reported to security of the Department of Correction.
- g. Broken saw blades must be removed from the property (not left or discarded on site.)

4. GENERAL REQUIREMENTS

- a. When workers are finished for the day, all tools will be accounted for by the worker and escorting officer.
- b. Workers, once entering controlled areas, are not permitted to wander from the work area. Should a worker need to go to another area, he/she will be escorted by an officer.
- c. Should work require more than one day to complete the job, permission to construct and use temporary storage facilities is solely at the discretion of the prison authorities. The facility will not accept responsibility for any loss or damage to materials left on site. All tools and equipment should be removed daily.
- d. It is essential that construction operation and debris removal be conducted in a manner to assure that materials which might be used as weapons do not fall into the hands of inmates.
- e. Anything of unusual nature as loss of key, identification cards, tools, piping, etc., shall be reported immediately to the escorting officer.
- f. In the event that construction requires the description of plumbing, electrical power, etc., the Director of Custody of Operations must receive at least twenty four (24) hours advance notice in order to preserve security and not to disrupt routine activities. When temporary shutdown of service is unavoidable, the work shall be complete at night during a time when the institution's routine will not be interfered with.
- g. Workers shall be subjected to all rules and regulation and shall comply with the escorting officers' instruction accordingly.

SECTION 3 - SPECIFICATIONS FOR DOC

II. SPECIAL PROVISIONS (continued)

5. SPECIAL REQUIREMENTS

- a. Materials shall be moved through the buildings using rubber tire vehicles which shall be properly controlled at all times to avoid damage to existing walls, floors, and ceiling surfaces, including doors and door and/or window frames.
- b. Water damage will not be tolerated and it is incumbent upon the contractor to take all steps necessary to keep the existing premises dry at all times.

6. SITE SECURITY

- a. The following regulations must be observed by all persons having any association with the construction of this project (employees, subcontractors, workmen, service men, manufacturer's representative, etc.):

1. Photo Identification Card

- a. Each trade subcontractor shall submit a list of workers who will be on site. The list will contain the following information on each employee:

- 1.Name;
- 2.Date of Birth;
- 3.Badge or ID Number;
- 4.Address

- b. Each trade subcontractor will pick up the photo identification cards at the Main Gate (where they will be secured when not in use). He will transport the identification cards and issue the identification card upon arrival of the construction workers (after identifying the worker). The cards will be collect at the end of the day and returned to the Main Gate.

2. Assigning Men to the Site

- a. Each trade subcontractor shall notify the Maintenance Superintendent twenty four (24) hours in advance, but not later than 12:00 Noon, on the previous work day before sending men to the project site, so an officer can be assigned to accompany all his personnel.

SECTION 3 - SPECIFICATIONS FOR DOC

II. SPECIAL PROVISIONS (continued)

3. Tools and Materials

- a. No tools or materials shall be left unguarded at any time, and they shall be removed from the working areas at the end of each working day or at anytime the workmen and assigned officer leave the area.

4. Prison Records

- a. Where a workman or representative visiting the institution has a prison record, the trade subcontractor shall be responsible for obtaining the particulars concerning his record, and notifying the institution at least seventy two (72) hours in advance of his visit. The institution will then notify the trade subcontractor and give or deny permission for that person to enter the institution. Any workman denied entrance to the institution must be replaced by the trade subcontractor or subcontractor at no additional cost.

5. Workmen Lunch Area/Searches

- a. Workmen will be expected to stay in their respective working areas during their lunch period, unless leaving the grounds is permitted.
- b. All workmen will be expected to submit to a search of themselves, their toolboxes, lunch containers, and/or their vehicles at any time, if the search is deemed necessary.

6. Prohibited Items

- a. The following items are prohibited from being brought onto the prison grounds and construction site:
 1. Alcoholic beverages and drugs;
 2. Tobacco Products
 3. Explosive and firearms.

SECTION 3 - SPECIFICATIONS FOR DOC

II. SPECIAL PROVISIONS(continued)

7. Working Dress and Workmen

a. Workmen will maintain proper attire while working at the institution.

8. It is forbidden to aid or abet the escape of any inmate, or to advise, connive or assist in any escape, or to conceal any inmate after escape, or withhold information pertaining thereto. Violation of this prohibition can result in prosecution and the law provides for punishment of fine and imprisonment.

9. It is likewise strictly forbidden to bring into or take out of the prison either for pay, or for favor, for any inmate, any article, without the proper authorization from the Maintenance Superintendent.

10. It is forbidden to roam at will throughout the prison. Workers are restricted to going directly to those places where the work is conducted and remaining away from all areas where they have no business to conduct.

11. It is prohibited to socialize, exchange pleasantries, or conduct business with inmates in traffic areas (hallways, center areas, etc.). Also no affectionate or intimate behavior between official visitors and inmates is permitted.

12. All automobiles are to be parked in a location designated by the Maintenance Superintendent. Parked vehicles must always have the ignition and doors locked.

13. No photographs may be taken without proper authorization. No public news releases may be given without similar authorization.

14. Escorting of any person, not previously approved, onto the prison grounds or into the prison is prohibited.

15. The offering and/or giving of any tips, gratuities, fees, etc. to any inmate and/or prison personnel is strictly prohibited.

16. The use of indecent, abusive, or profane language is forbidden anywhere on the prison property.

17. Civilian or other clothing should not be left carelessly in places where it may be acquired and worn by inmates.

18. In the event an acquaintance, friend, or relative of contractor's employee should be an inmate of the institution at which work is being conducted, it is advisable that you communicate this confidentially to the Maintenance Superintendent.

SECTION 3 - SPECIFICATIONS FOR DOC

II. SPECIAL PROVISIONS (continued)

19. Tools and Equipment Safety

- a. Flammable Liquids: Maintain flammable liquid (e.g., gasoline, fuels, etc.) in secure containers at all times, in compliance with OSHA regulations.
- b. Tools: Maintain tools and related equipment (e.g. sprinkler heads, hydrants, wires, cables, ducts, manholes, posts, signals, alarm boxes, etc.) at all times.
- c. Powder Actuated Tools: Comply with Owner's Maintenance Superintendent direction for control of powder used and stored.

20. Construction Personnel Vehicle Parking

- a. Parking spaces for privately owned vehicles operated by construction personnel may be limited.
- b. The Maintenance Superintendent will assign areas within the prison site for parking. Sufficient space will be provided to park privately owned vehicles operated by construction personnel on site.

SECTION 3 - SERVICE SPECIFICATIONS FOR DOC

At the time of each servicing, a written report in triplicate shall be submitted to the using activity, which will include:

- 1. Name and address of agency or activity.
- 2. Date of Call.

The successful vendor must provide a Technical Service Representative who must be able to respond within 24 hours after a call (out of town calls will be made collect).
