

STATE OF DELAWARE  
EXECUTIVE DEPARTMENT  
OFFICE OF MANAGEMENT AND BUDGET

April 20, 2015

TO: ALL OFFERORS

FROM: MARIA FRY  
STATE CONTRACT PROCUREMENT OFFICER

SUBJECT: ADDENDUM TO REQUEST FOR PROPOSAL NO.: GSS15599-BLDG\_SECURE, Building  
Access Security Services

**ADDENDUM # 2**

This addendum is issued to provide greater clarity in responding to vendor questions related to the stated mandatory requirement addressing Honeywell Prowatch. The standardizing of system configurations is intended to ensure an environment most advantageous to State, not to arbitrarily limit competition.

1. By way of background, the statewide standard for [Building Access Security Standards](#) is formally created in conjunction with DSHS, OMB Facilities and DTI as directed by section 41 of epilogue in the FY 2015 bond bill which reads:

*Section 41. Card Access Security Systems. Notwithstanding the provisions of any law to the contrary, the Office of Management and Budget, Department of Safety and Homeland Security and the Department of Technology and Information shall jointly develop and maintain specifications and standards for card access security systems for all state facilities. Security system communications using state infrastructure will observe enterprise standards and policies as defined by Department of Technology and Information pursuant to 29 Del. C. c. 90. The specifications and standards shall enable a single-card security solution for all state-owned facilities, require the ability for concurrent central and local administration of card access functions and shall include a registry of approved card readers and associated hardware required to implement card access security systems. It is the intent of this section to authorize Office of Management and Budget, Department of Safety and Homeland Security and Department of Technology and Information to jointly select a single supplier, manufacturer or technology of access cards and security management software for use by all state agencies. The Office of Management and Budget, Department of Safety and Homeland Security and Department of Technology and Information shall develop procedures and standards required for the evaluation and approval of agency requests for new or modified security systems of any type. Before a state agency may install a new security system or modify an existing system, the agency shall obtain the approval of the Office of Management and Budget, Department of Safety and Homeland Security and Department of Technology and Information.*

All other terms and conditions remain the same.
