5. DELIVERY

[\(Return to Table of Contents\)](#)

The vendor shall be responsible for all delivery and installation, as required, of all ground surfacing ordered through this contract.

Delivery of ground surfacing shall be made to any location specified on the purchase order. This could include multiple delivery locations on one purchase order.

Under no circumstances will ordering agency personnel assist with unloading ground surfacing.

The vendor must notify the ordering agency by telephone twenty four (24) hours in advance of the scheduled delivery. Additionally, the vendor's driver must provide the ordering agency one (1) hour notice of the delivery. The vendor must immediately notify the ordering agency of any changes to the agreed-upon or anticipated delivery schedule.

No deliveries will be permitted when the ordering agency determines that the weather conditions are unsatisfactory or if the area where material is to be dumped is not in a condition to receive the material.

6. UNLOADING AND MATERIAL ACCEPTANCE

[\(Return to Table of Contents\)](#)

Each load must be accompanied by an accurate load ticket indicating the actual quantity of material being delivered. The load tickets will be given to the ordering agency. The ordering agency will only pay for material actually delivered. Material which is purchased by the cubic yard (volume) cannot be billed by the ton (weight). Lastly, the material cannot be billed by the average truck-load or number of trips unless accurate load tickets supporting the billing are furnished upon delivery.

Drivers will be required to unload material by either dumping it in a pile or by load spreading. The method will be designated by the ordering agency on a per-site basis.

Deliveries are to be made in full, at one time. To further clarify: If three (3) loads are designated to go to one location, then three (3) trucks must be dispatched at the same time. Use of one (1) truck making three (3) round-trip deliveries will not be permitted without prior approval by the ordering agency. Also, if material becomes unavailable, then the Awardee must inform the ordering agency immediately.

Deliveries are generally one load per park but loads split between 2 or more locations may be required.

Delivered material shall not be unloaded or dumped without prior approval or knowledge of the ordering agency. Also, delivered material shall be unloaded from the trucks in locations as directed by the ordering agency. Delivery trucks shall use routes as directed by the ordering agency to avoid damage to property. Should dumping/delivery occur in unapproved locations, the ordering agency may charge for labor/equipment required to move the material against the invoice for that specific delivery.

All deliveries shall be made by dump trucks that have pneumatic tires.

Any material delivered which in any way fails to meet the requirements of these specifications will be rejected. Rejected material must be immediately removed, by the vendor and at no cost to the ordering agency, and arrangements made for the delivery of compliant material. No payments for materials will be made until suitable material has been delivered and accepted. Lastly, frozen material will not be accepted.

- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible. <http://gss.omb.delaware.gov/divisionwide/forms.shtml>.
