In the event that a delivery is late at the fault of the vendor, the ordering agency at its option may request that the invoice reflect the daily index price for the promised delivery date rather than the actual delivery date had the index gone up during that time period.

NOTE: If delivery is made on a weekend, and the weekend is a holiday, the price per gallon shall be based on the previous day.

Your invoiced price **SHALL** be exclusive of all Federal and State taxes, with the exception of the Following:

The National Oilheat Research Alliance (NORA) Tax. The fee is only due on fuel used for oil heat that is defined in the law as being used for non industrial commercial or residential space or hot water heating. The fee is due on sales to consumers who use the fuel to heat space, whether by forced air or boilers, or water. The tax is on the per gallon price. The tax shall be billed as a separate line item on all invoices. The current rate is \$.002 (2/10 of a cent or twenty points). (.002 x per gal. price)

This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
