Each officer or employee of any person to whom returns or return information is or may be disclosed shall be notified in writing by such person that returns or return information disclosed to such officer or employee can be used only for a purpose and to the extent authorized herein, and that further disclosure of any such returns or return information for a purpose or to an extent unauthorized herein constitutes a felony punishable upon conviction by a fine of as much as \$5,000 or imprisonment for as long as five years, or both, together with the costs of prosecution. Such person shall also notify each such officer and employee that any such unauthorized future disclosure of returns or return information may also result in an award of civil damages against the officer or employee in an amount not less than \$1,000 with respect to each instance of unauthorized disclosure. These penalties are prescribed by IRCs 7213 and 7431 and set forth at 26 CFR 301.6103(n)-1.

Each officer or employee of any person to whom returns or return information is or may be disclosed shall be notified in writing by such person that any return or return information made available in any format shall be used only for the purpose of carrying out the provisions of this contract. Information contained in such material shall be treated as confidential and shall not be divulged or made known in any manner to any person except as may be necessary in the performance of this contract. Inspection by or disclosure to anyone without an official need-to-know constitutes a criminal misdemeanor punishable upon conviction by a fine of as much as \$1,000.00 or imprisonment for as long as 1 year, or both, together with the costs of prosecution. Such person shall also notify each such officer and employee that any such unauthorized inspection or disclosure of returns or return information may also result in an award of civil damages against the officer or employee [United States for Federal employees] in an amount equal to the sum of the greater of \$1,000.00 for each act of unauthorized inspection or disclosure with respect to which such defendant is found liable or the sum of the actual damages sustained by the plaintiff as a result of such unauthorized inspection or disclosure plus in the case of a willful inspection or disclosure which is the result of gross negligence, punitive damages, plus the costs of the action. The penalties are prescribed by IRCs 7213A and 7431 and set forth at 26 CFR 301.6103(n)-1.

Additionally, it is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a(i)(1), which is made applicable to contractors by 5 U.S.C. 552a(m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position, has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

Granting a contractor access to FTI must be preceded by certifying that each individual understands the agency's security policy and procedures for safeguarding IRS information. Contractors must maintain their authorization to access FTI through annual recertification. The initial certification and recertification must be documented and placed in the agency's files for review. As part of the certification and at least annually afterwards, contractors must be advised of the provisions of IRCs 7431, 7213, and 7213A (see Exhibit 4, Sanctions for Unauthorized Disclosure, and Exhibit 5, Civil Damages for Unauthorized Disclosure). The training provided before the initial certification and annually thereafter must also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches. (See Section 10) For both the initial certification and the annual

certification, the contractor must sign, either with ink or electronic signature, a confidentiality statement certifying their understanding of the security requirements.

c. Inspection

The IRS and the Agency, with 24 hour notice, shall have the right to send its inspectors into the offices and plants of the contractor to inspect facilities and operations performing any work with FTI under this contract for compliance with requirements defined in IRS Publication 1075. The IRS' right of inspection shall include the use of manual and/or automated scanning tools to perform compliance and vulnerability assessments of information technology (IT) assets that access, store, process or transmit FTI. On the basis of such inspection, corrective actions may be required in cases where the contractor is found to be noncompliant with contract safeguards.

52. ASSIGNMENT

This contract shall not be assigned except by express prior written consent from the Agency.

53. NOTICE

Any notice to the State of Delaware required under the contract shall be sent by registered mail to:

**State of Delaware
Government Support Services
100 Enterprise Place, Suite 4
Dover, DE 19904-8202**

54. VENDOR EMERGENCY RESPONSE POINT OF CONTACT

The awarded vendor(s) shall provide the name(s), telephone, or cell phone number(s) of those individuals who can be contacted twenty four (24) hours a day, seven (7) days a week where there is a critical need for commodities or services when the Governor of the State of Delaware declares a state of emergency under the Delaware Emergency Operations Plan or in the event of a local emergency or disaster where a state governmental entity requires the services of the vendor. Failure to provide this information could render the proposal as non-responsive.

In the event of a serious emergency, pandemic or disaster outside the control of the State, the State may negotiate, as may be authorized by law, emergency performance from the Contractor to address the immediate needs of the State, even if not contemplated under the original Contract or procurement. Payments are subject to appropriation and other payment terms.

55. SUBCONTRACTS

Subcontracting is permitted under this ITB and contract. However, every subcontractor shall be identified in the Proposal (Attachment D) and agreed to in writing by the State or as are specifically authorized in writing by the Agency during the performance of the contract. Any substitutions in or additions to such subcontractors, associates, or consultants will be subject to the prior written approval of the State.

STATE OF DELAWARE
Office of Management and Budget
Government Support Services

The Vendor(s) shall be responsible for compliance by the subcontractor with all terms, conditions and requirements of the ITB and with all local, State and Federal Laws. The Vendor shall be liable for any noncompliance by any subcontractor. Further, nothing contained herein or in any subcontractor agreement shall be construed as creating any contractual relationship between the subcontractor and the State.

If a company elects to be a subcontractor for another vendor, the subcontractor may not independently bid on this solicitation.

56. AGENCY'S RESPONSIBILITIES

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings and other documents presented by the Vendor to the Agency and render to the Vendor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Vendor.
- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible.
[Corrective Action Report](#)

57. CONFIDENTIALITY

Subject to applicable law or the order of a court of competent jurisdiction to the contrary, all documents submitted as part of the vendor's proposal will be treated as confidential during the evaluation process. As such, vendor proposals will not be available for review by anyone other than the State of Delaware/Proposal Evaluation Team or its designated agents. There shall be no disclosure of any vendor's information to a competing vendor prior to award of the contract unless such disclosure is required by law or by order of a court of competent jurisdiction.

The State of Delaware and its constituent agencies are required to comply with the State of Delaware Freedom of Information Act, [29 Del. C. § 10001, et seq. \("FOIA"\)](#). FOIA requires that the State of Delaware's records are public records (unless otherwise declared by FOIA or other law to be exempt from disclosure)

STATE OF DELAWARE

and are subject to inspection and copying by any person upon a written request. Once a proposal is received by the State of Delaware and a decision on contract award is made, the content of selected and non-selected vendor proposals will likely become subject to FOIA's public disclosure obligations.

The State of Delaware wishes to create a business-friendly environment and procurement process. As such, the State respects the vendor community's desire to protect its intellectual property, trade secrets, and confidential business information (collectively referred to herein as "confidential business information"). Proposals must contain sufficient information to be evaluated. If a vendor feels that they cannot submit their proposal without including confidential business information, they must adhere to the following procedure or their proposal may be deemed unresponsive, may not be recommended for selection, and any applicable protection for the vendor's confidential business information may be lost.

In order to allow the State to assess its ability to protect a vendor's confidential business information, vendors will be permitted to designate appropriate portions of their proposal as confidential business information.

Vendor(s) may submit portions of a proposal considered to be confidential business information in a separate, sealed envelope labeled "Confidential Business Information" and include the specific RFP number. The envelope must contain a letter from the Vendor's legal counsel describing the documents in the envelope, representing in good faith that the information in each document is not "public record" as defined by 29 Del. C. § 10002, and briefly stating the reasons that each document meets the said definitions.

Upon receipt of a proposal accompanied by such a separate, sealed envelope, the State of Delaware will open the envelope to determine whether the procedure described above has been followed. A vendor's allegation as to its confidential business information shall not be binding on the State. The State shall independently determine the validity of any vendor designation as set forth in this section. Any vendor submitting a proposal or using the procedures discussed herein expressly accepts the State's absolute right and duty to independently assess the legal and factual validity of any information designated as confidential business information. Accordingly, Vendor(s) assume the risk that confidential business information included within a proposal may enter the public domain.

58. PRICE NOT CONFIDENTIAL

Vendors shall be advised that as a publicly bid contract, no Vendor shall retain the right to declare their pricing confidential.

59. NO PRESS RELEASES OR PUBLIC DISCLOSURE

The State of Delaware reserves the right to pre-approve any news or broadcast advertising releases concerning this solicitation, the resulting contract, the work performed, or any reference to the State of Delaware with regard to any project or contract performance. Any such news or advertising releases pertaining to this solicitation or resulting contract shall require the prior express written permission of the State of Delaware.

The State will not prohibit or otherwise prevent the awarded vendor(s) from direct marketing to the State of Delaware agencies, departments, municipalities, and/or any other political subdivisions, however, the Vendor shall not use the State's seal or imply preference for the solution or goods provided.

Items that are available through these 'other' GSS contracts may be duplicated in Auto Parts and Batteries contractor catalogs; however, **MUST** be purchased from the referenced contracts below. B. VENDOR REQUIREMENTS

1. CUSTOMER SERVICE

The Vendor(s) should provide each of the State and the Contract Users a single, local point of contact (and a backup) to handle questions or problems that may arise. At least one Customer Service Representative must be available during Supplier's operating hours. All service representatives must have on-line access to information to provide immediate response to inquiries concerning the status of orders (shipped or pending), delivery information, back-order information, State contract pricing, contracted product offerings/exclusions, contract compliance requirements, and general product information. Primary method for order submissions will be through the State's eMarketplace system. Vendor should also be able to accept orders through phone, fax, and email.

2. SERVICE CENTERS

- **Batteries:** To be eligible for our award on batteries the bidder must have a location in each zone or a truck that will call on agencies at least twice a week.
- **All Other Parts:** To be eligible for award, bidder must have at least one (1) auto parts service facility doing business in the zone(s) bid.
- ***A list of service facilities and addresses must be included with the proposal.*** All bidders, if representing multiple franchise or dealer locations, shall ensure that all locations listed in the ITB

STATE OF DELAWARE
Office of Management and Budget

response have agreed to participate. Following the award, refusal by Contractor's location(s) to participate may be considered cause for removing bidder from the contract.

3. AUTHORIZED DEALER

All bidders, other than parts manufacturer are asked to provide signed authorization that the bidder is an authorized distributor, dealer or service representative, and is authorized to sell the manufacturer's parts.

C. PRICING

1. APPENDIX A

Appendix A is an Excel spreadsheet to be completed electronically by the bidding vendor. The purpose of the workbook is to submit contract pricing for both the "market basket" items and all other relevant product offerings the bidding vendor wishes to offer. The workbook set up is a version of the price file vendors will be expected to use for loading the offerings into the State's eMarketplace system.

Appendix A includes detailed instructions on what information needs to be presented in each column. Unless specified in the instruction tab, each column and cell highlighted in yellow **MUST** be completed.

The net price is the Manufacturers' List Price less a quoted part discount. The discount applied to the parts sample pricing should be the same as the quoted catalog discount listed in the Appendix A pricing, and any variance must be explained in the Exceptions tab.

This sample pricing list is only a sample of the items to be purchased on this contract and will be used to aid the evaluation and award process.

2. MINIMUM ORDERS

There shall be no minimum requirements for over the counter purchases. If the vendor requires a minimum order for delivery it should be so noted and the penalty for less than minimum orders. Minimum requirements and penalties, depending upon the amount, may impact on determining the award.

3. DISCOUNT OFFERING

Vendors will be required to identify a minimum discount offering for each category on the Appendix A, "category discounts" tab. The proposed discount percentage must not exceed 2 digits to the right of the decimal point. Awarded Vendor is not prohibited from offering a better discount on products services offered under the resulting contract.

Items added to the covered categories throughout the contract must follow the minimum discount identified on Appendix A.

Vendor(s) must provide the most recently published manufacturer's price lists with the bid response.

4. CORE CREDITS

All core credits shall be issued the same day as received.

STATE OF DELAWARE
Office of Management and Budget
Government Support Services

5. INTENT TO LOAD CATALOGS IN STATE EPROCUREMENT SOLUTION

Bidders will be required to provide catalog(s) and the corresponding price list(s) for all awarded goods that are being offered to the State for purchase, and shall include all applicable and awarded price tiers available for each product in the pricing format required of this of this solicitation. These documents may be required and supplied by the vendor in an electronic format as determined by the State over the life of the contract. The prices listed therein will be the prices paid by the State for purchases during the contract term.

At the discretion of the State, all awarded items will need to be provided in an electronic format for use in a hosted catalog offering which will be presented in the State's eProcurement solution. All single items listed must reflect one (1) price, at the discounted rate as offered by the vendor in their proposal and as accepted by the State. Volume discounts offered for multiple units or multi-unit packaging shall be listed as a separate line item(s) in any catalog submitted for posting to the State's eProcurement solution.

The awarded vendor(s) will be directed to supply the catalog file to an identified state representative and/or the State's designated eProcurement vendor at any time after execution of the contract, but no later than 45 days after the contract execution.

A zero-dollar catalog shall be submitted to the eProcurement solution vendor no later than 30 days prior to the end of the contract term, and shall be the final catalog update provided under the agreement. The State will approve this catalog, after the contract end date, to remove all items and pricing from the eProcurement Solution. The zero-dollar catalog serves as a correcting entry to maintain system integrity of valid and currently awarded items. The failure by the Vendor to comply and submit this correcting entry will be viewed as a major performance deficiency and may prevent the State from awarding the Vendor on a future contract opportunity.

At any time during the contract term, (1) the vendor shall remove individual or categories of items from the catalog offering if requested by the State; (2) consider expanding the catalog offering with additional items or categories if requested and accepted by the State; and/or (3) the State may take unilateral action on the items listed in the eProcurement solution to hide or otherwise make unauthorized any items the State believes is outside the scope of the awarded categories.

The failure and/or inability to comply with this hosted catalog requirement may subject the awarded vendor to corrective action, up to and possibly including termination of the contract.

A hosted catalog is defined as a vendor supplied electronic catalog of all awarded items, including item descriptions, attributes and the award prices, which will be stored and publicly visible in the State's eProcurement solution. At the sole discretion of the State, the contract team will consider implementation and use of a punchout catalog solution in lieu of the hosted catalog option. A punchout catalog uses the eProcurement system to access to the Vendor's electronic catalog. Users can then shop, select and retrieve items back into the eProcurement system, allowing the original to execute an order.

D. PRODUCT EXPECTATIONS

1. PRODUCT AVAILABILITY

Once an out of stock part item has been identified, the ordering agencies shall have the right to the following remedies:

- Request back order

STATE OF DELAWARE
Office of Management and Budget

4. OEM PARTS

As indicated, the State intends to utilize competitively bid contracts to purchase replacement and OEM parts for State and agency vehicles on an "as needed" basis.

There may be occasions that specific OEM only parts will be required for use in vehicles. For example, the State has determined that OEM supplied Chrysler and Dodge oxygen sensors have performed with less frequent malfunctions. Accordingly, the State intends to purchase these parts from licensed manufacturer parts departments.

The State reserves the right to identify other individual parts or categories where OEM parts perform better and with fewer malfunctions over time. All parts designated in this manner shall be identified to the contracting department and must be approved by the contracting department before agencies have permission to purchase outside the central contract.

This requirement is being put in place to protect the best interests of the State and its agencies and identify to potential bidders that limited exceptions to the mandated contract usage may exist.

5. RECALLS

The Contractor(s) shall provide timely product recall notification to each order agency. Notices shall include, at a minimum, a complete product description and/or product identification, contract number, delivery number and disposition instructions.

Contractor(s) shall pick up, test, destroy or return recalled products to the manufacturer at no cost to the State or ordering agencies. The Contractor(s) will issue a replacement of product or credit for any product removed or recalled. Each ordering agency shall have the option of accepting either replacement product or credit in exchange for recalled items.

8. RETURNS

Bidder(s) agrees that all parts purchased on this contract are supplied with a 100% satisfaction guarantee. All parts not meeting the form, fit and/or functional requirements by the purchaser will be provided a full refund including the return shipping charges.

Contractor(s) agree to accept returns for all products purchased at no cost to the State within 30 calendar days of delivery and shall credit the customer in full. NOTE: All products returned for credit should be in the original packaging as delivered and include all documentation.

All returns shall be picked up within seven (7) working days of notification. For return authorization, notice shall be in writing, email or by facsimile.

The Contractor(s) shall not impose a restocking fee on the ordering agencies for the following situations:

- Item(s) returned that were damaged upon receipt
- Incorrect items shipped
- Items that are returned within 30 calendar days of delivery (except special orders)
- Items that are returned, but exchanged for other items
