

POCKET GUIDES

PRICING INFORMATION FOR POCKET GUIDES

Our pricing is based on the format of the guide. Our guides consist of two page types:

Laminated pages:	Laminated pages printed in full color or non-laminated synthetic paper printed in full color
Log pages:	Non-laminated pages printed in one-color to facilitate note-taking

Our guide formats are represented by the format code, as follows: **XX-YY**

Where	XX = Number of laminated pages	YY = Number of log pages
--------------	---------------------------------------	---------------------------------

Our guides contain a varying number of laminated pages in increments of 4 pages, from a possibility of 12 to 60 pages. The number of laminated pages within a guide is represented by the first 2 digits in our format code:

24-YY	= 24 laminated pages
28-YY	= 28 laminated pages

Our guides can also contain a varying number of log pages in increments of 12 pages, from a possibility of 12 to 72 pages. The number of log pages within a guide is represented by the last 2 digits in our format code:

XX-12	= 12 log pages
XX-24	= 24 log pages

Our guides sometimes combine laminated and log pages. For example, a guide with 24 laminated pages combined with 12 log pages would have the following format code:

24-12	= 24 laminated pages + 12 log pages
--------------	-------------------------------------

A guide containing only 48 laminated pages, without any log pages would have the following format code:

48-00	= 48 laminated pages + no log pages
--------------	-------------------------------------

A guide containing only 36 log pages, without any laminated pages would have the following format code:

00-36	= 36 log pages + no laminated pages
--------------	-------------------------------------

WHERE IS THE FORMAT CODE?

The format code, which is equivalent to our price code, can be found on the first line of each product description, right after the product dimensions.

QUICKSERIES eGUIDES (ELECTRONIC GUIDES)

eGuides are compatible with all major smartphone platforms. After installing the QuickSeries Mobile Reader, downloading an eGuide (or eGuide library) is as simple as entering a purchase code (Account ID).

QUICK AND EASY DOWNLOAD WITH AN ACCOUNT ID

QuickSeries provides unique, confidential Account IDs that users can enter in the QuickSeries Mobile Reader application to download their purchased eGuides. QuickSeries can issue as many eGuides or Account IDs as needed to meet a program's requirements, distribution complexities, and security level.

ACCOUNT ID ON A BUSINESS CARD

For orders of 500 units or more, QuickSeries can produce individual business cards with download instructions and individual Account IDs. The cards can be distributed to each user, who can then activate the eGuide (or eGuide library) by entering the Account ID in the QuickSeries Mobile Reader application.

How to Enter Account IDs

Please get your free reader at:
www.quickseries.com/reader

1. Launch the Reader.
2. From the **HOMEPAGE**, tap on **BOOKSTORE**.
3. **iPhone® users:** Tap on **ACCESS WEB ACCOUNT**.
Android™ users: Tap on **ENTER ACCOUNT ID**.
4. Enter your Account ID in the provided field.
5. Tap on **SUBMIT**.
6. Follow the download instructions as provided.
7. Go to **MY LIBRARY** to access your new eGuide(s).

PLEASE SEE NOTE BELOW

eGUIDES

For orders of more than 100,000 units, all units **after** the first 100,000 units are priced at a fixed rate of \$0.25 per unit.

For example:

Order of 250,000 units for an eGuide of 50 screens

Unit Range	Quantity	Price per Unit	Cost
Units 1 to 100,000	100,000 units	\$0.91	\$91,000
Units 100,001 to 250,000	150,000 units	\$0.25	\$37,500
Total Order	250,000 units	\$0.51 (average)	\$128,500

Calculating the Cost and Average Price per Unit:

$$\text{Cost for Units 1 to 100,000} = 100,000 \text{ units} \times \$0.91 = \$91,000$$

$$\text{Cost for Units 100,001 to 250,000} = 150,000 \text{ units} \times \$0.25 = \$37,500$$

$$\text{Cost for Total Order} = \$91,000 + \$37,500 = \$128,500$$

$$\text{Average Price per Unit} = \$128,500 / 250,000 \text{ units} = \$0.51$$
