REQUEST FOR PROPOSAL FOR
THE REGISTRATION AND OPERATION
OF A MEDICAL MARIJUANA COMPASSION CENTER
IN THE STATE OF DELAWARE
FOR
DELAWARE DIVISION OF PUBLIC HEALTH

I. INTRODUCTION

A. BACKGROUND

The mission of the Division of Public Health (DPH) is to protect and enhance the health of the people of Delaware. The Division accomplishes its mission by:

a. Working together with others;
b. Addressing issues that affect the health of Delawareans;
c. Keeping track of the State’s health;
d. Promoting positive lifestyles;
e. Responding to critical health issues and disasters; and
f. Promoting the availability of health services

The accomplishment of this mission will facilitate the Division in realizing its vision of creating an environment in which people in Delaware can reach their full potential for a healthy life.

With the passing of The Delaware Medical Marijuana Act (hereafter referred to as “the Act”), Title 16, Chapter 49A, which took effect on July 1, 2011, Delaware joined the list of now 20 states that have removed state-level criminal penalties from the medical use of marijuana for the health and welfare of its citizens. The purpose of the law is to protect patients with debilitating medical conditions, as well as their physicians and providers, from arrest and prosecution, criminal and other penalties, and property forfeiture if such patients engage in the medical use of marijuana.

Marijuana’s recorded use as a medicine goes back nearly 5,000 years. Modern medical research has confirmed the beneficial uses for marijuana in treating or alleviating the pain, nausea, and other symptoms associated with a variety of debilitating medical conditions, including cancer, multiple sclerosis, and HIV/AIDS, as found by the National Academy of Sciences’ Institute of Medicine in March 1999.

Studies published since the 1999 Institute of Medicine report have continued to show the therapeutic value of marijuana in treating a wide array of debilitating medical conditions. These include relief of the neuropathic pain caused by multiple sclerosis, HIV/AIDS, and other
illnesses that often fail to respond to conventional treatments and relief of nausea, vomiting, and other side effects of drugs used to treat HIV/AIDS and hepatitis C, increasing the chances of patients continuing on life-saving treatment regimens. Specifically, in February 2010, the Center for Medicinal Cannabis Research released a lengthy report that summarized 15 recent studies clearly demonstrating marijuana's medical efficacy for a broad range of conditions. These studies, many of which were double blind, placebo-controlled trials, included neuropathic pain trials published in the *Journal of Pain*, *Neuropsychopharmacology* and *Neurology*, a study on the analgesic efficacy of smoked marijuana published in *Anesthesiology*, a study on the mechanisms of cannabinoid analgesia in rats published in *Pain*, and a study on vaporization as a "smokeless" marijuana delivery system published in *Clinical Pharmacology & Therapeutics*.

Marijuana has many currently accepted medical uses in the United States, having been recommended by thousands of licensed physicians to at least 350,000 patients in states with medical marijuana laws. Marijuana's medical utility has been recognized by a wide range of medical and public health organizations, including the American Academy of HIV Medicine, the American College of Physicians, the American Nurses Association, the American Public Health Association and the Leukemia and Lymphoma Society.

In February 2012, the portion of the law that allowed for the establishment of compassion centers was suspended by the Governor's Office following new guidance from the US Department of Justice. In August 2013, the Governor provisionally lifted the suspension of compassion centers, reducing the number of compassion centers from three (one in each county) to one pilot program compassion center. The Secretary of the Department of Health and Social Services (hereafter referred to as “the Department”) has adopted revised program regulations, effective January 1, 2014. The revisions to the Medical Marijuana Code (hereafter referred to as “the Regulations”) establish standards and address the new scope of the program operating with one compassion center and without an independent testing facility.

The purpose of the Medical Marijuana Program (MMP) is to regulate the medical use of marijuana in Delaware and to minimize the risk of theft and diversion of marijuana to unregistered individuals. The patient and caregiver registry program began accepting applications in July 2012 and has now issued more than 50 registry cards to qualified patients and caregivers. With the compassion center suspension lifted, the Department has now been directed to move forward with the implementation of the program by issuing a registration certificate to one qualified vendor for opening a pilot compassion center in Delaware.
Vendors who wish to be considered as an owner and operator of the pilot center should submit their proposal to the Department in response to this Request for Proposal (RFP). Pending the selection of a qualified bidder, the Department will issue a registration certificate to the winning vendor to begin cultivating marijuana for medical use on July 1, 2014. This effort will allow current and future registered patients in Delaware to buy the drug in a state-regulated center and to be educated on the use of the drug to treat their specific medical condition.

To address Federal Justice Department concerns, the Regulations for the compassion center include tight security requirements, including around-the-clock video monitoring, financial accounting controls, random inspections, and a requirement of center employees to verify that patients are registered with the Department before selling them marijuana. The pilot center will only be allowed to cultivate up to 150 marijuana plants, and keep inventory of no more than 1,500 ounces of the drug.

B. PROGRAM GOALS

The goals related to establishing a compassion center in Delaware are in compliance with the Act and the Regulations. The primary goal of the program is assuring the safe and efficient cultivation, harvesting, packaging, labeling, and distribution of marijuana to registered patients. Further, it is the goal of the Office of Medical Marijuana (OMM) to protect the public by preventing diversion of marijuana to individuals who are not qualified and registered with the Delaware MMP.

Bidders selected through this RFP must:

a. Improve and maintain their organization’s knowledge of, and compliance with, the guidelines and policies established in the Act, the Regulations, the Health Information Portability and Accountability Act (HIPAA) and the policies and procedures established by the OMM;

b. Improve and maintain their organization’s knowledge of the medical marijuana industry, including but not limited to a reasonable understanding of current and new strains of marijuana used to treat various debilitating conditions, current and new methods of delivering marijuana to the body, and current or new methods and standards related to testing marijuana for contaminants and potency of active ingredients;

c. Work to improve their organization’s delivery of education to registered patients and their caregivers that are impaneled to their compassion center by the OMM. This education should include, but is not limited to, knowledge of the state and federal laws related to marijuana use and an understanding of the
options available to the patient with regard to specific marijuana strains, products and delivery methods;

d. Work to increase the availability of affordable medical-grade marijuana to registered, qualifying patients enrolled in Medicaid or receiving Supplemental Security Income or Social Security Disability Insurance;

e. Continually evaluate and improve as needed security measures of the compassion center premises and its operations to deter and prevent the theft of marijuana and unauthorized entrance into areas containing marijuana so as to minimize the risk of diversion of marijuana to unregistered individuals;

f. Improve and maintain financial management and accurate recordkeeping of their organization, where revenues are tracked and accounted for, through efficient operations, securing supplies and equipment at the most cost effective pricing, and managing inventory effectively to allow for efficient and thorough audits of the accounting books by the Department and to provide a reasonable price-point on the marijuana products and paraphernalia to patients; and

g. Promote and comply with State Legislative Mandates, Program Priorities and Key Issues as listed in the following:

1. State Legislative Mandates

The compassion center business model should include administrative, fiscal, inventory control, cultivation, harvesting, packaging, labeling and dispensing operations necessary to ensure adherence to these requirements.

a. The registered compassion center shall be operated on a not-for-profit basis. The organization need not be recognized as tax-exempt by the Internal Revenue Service and is not required to incorporate in response to Title 8 of Delaware Code.

b. A physician may not refer patients to a registered compassion center or registered designated caregiver, advertise in a registered compassion center, or, if the physician issues written certifications, hold any financial interest in a registered compassion center.

c. The registered compassion center may not purchase usable marijuana or mature marijuana plants from any person other than another registered compassion center in the state of Delaware.

d. The registered compassion center may not advertise medical marijuana sales in print, broadcast, or by paid in-person solicitation of customers. Appropriate signs on the property of the compassion center, listings in business directories including phone books, listings
in trade or medical publications, or the sponsorship of health or not-for-profit charity or advocacy events will be permitted.
e. The registered compassion center is prohibited from acquiring, possessing, cultivating, manufacturing, delivering, transferring, transporting, supplying, or dispensing marijuana for any purpose except to assist registered qualifying patients, who are impaneled to the center by the OMM, with the medical use of marijuana directly or through the qualifying patients’ designated caregivers.

2. Program Priorities
   a. Assuring the safe cultivation and dispensing of quality, medical grade marijuana to authorized MMP cardholders in a form that is appropriate and effective for the patient and delivers the level of active ingredient needed to treat the patient’s medical condition effectively. This includes making available specific strains of marijuana, and various delivery methods, believed by industry experts to be effective in treating the debilitating medical conditions recognized by the MMP.
   b. Assuring public health and safety by minimizing to all extents possible risks of marijuana theft or diversion of marijuana outside of the state-regulated system or to individuals who are not authorized MMP cardholders.
   c. Addressing Federal Justice Department concerns by developing and implementing strong, effective measures that will:
      a. deter the distribution of marijuana to minors, prohibit access to marijuana by minors, prohibit marijuana in areas that are associated with minors; and prohibit marketing of marijuana to minors;
      b. deter revenue from the sale of marijuana from being diverted to criminal enterprises, gangs and cartels;
      c. prevent diversion of marijuana outside of the state-regulated system and to other states;
      d. prevent state-authorized marijuana activity from being used as a cover or pretext for the trafficking of other illegal drugs or other illegal activity;
      e. prevent violence and the use of firearms in the cultivation and distribution of marijuana;
      f. prevent drugged driving and the exacerbation of other adverse public health consequences associated with marijuana use;
      g. prevent the cultivation of marijuana on public lands and the attendant public safety and environmental dangers posed by marijuana production on public lands; and
h. prevent marijuana possession or use on federal or state property.

3. Key Issues

In addition to the Program Priorities, the following key issues have implications for the compassion center’s continued registration with the program, and should be considered in developing the business plan:

a. Efficiency and effectiveness in management and operations of the compassion center, including accessibility by the Department for audits and site inspections;

b. Management and decision-making through performance measures and accountability for outcomes;

c. Linkages and partnerships with research organizations focusing on increasing the effectiveness of marijuana used to treat debilitating medical conditions and decreasing risks and side effects associated with the drug;

d. Incorporation of research outcomes that focus on the medical use of marijuana to treat specific debilitating medical conditions;

e. Data collection for use in monitoring specific cannabinoid performance in treating specific debilitating medical conditions and using the outcomes to improve services to impaneled patients;

II. SCOPE OF SERVICES

All components listed in this section are mandatory.

This section describes the responsibilities of the selected bidder registered and contracted by the Department to open and operate a compassion center in Delaware. Tasks are associated with a deliverable when appropriate. The Department reserves the right to negotiate the requirements with the selected vendor relative to monitoring tasks listed below.

Compassion centers may only operate if they have been issued a valid registration certificate from the Department. The organization awarded the contract for the pilot compassion center will perform the following:

A. ESTABLISH AND MAINTAIN A MEDICAL MARIJUANA COMPASSION CENTER

This RFP is specifically published to select one vendor for the operation of one pilot compassion center, certified by the Department, to serve the patients registered with the MMP.

A registered compassion center is a not-for-profit entity registered with the MMP that acquires, possesses, cultivates, manufactures, delivers, transfers, transports, sells, supplies, or dispenses marijuana, paraphernalia, or related supplies and educational materials to registered qualifying patients who
have been impaneled to the dispenser to cultivate marijuana for their medical use and the registered designated caregivers of these patients.

Because the pilot compassion center will be operating as an independent safety compliance facility, the selected bidder will need to address items such as training and testing, as appropriate for the scale of the facility and allowed total quantity of marijuana.

1. **Bylaws Establishment and Maintenance**

   The compassion center shall, as part of its initial proposal, provide to the Department a true, correct, and current copy of its bylaws, and shall maintain such bylaws in accordance with the Act and the Regulations. The bylaws shall include, at a minimum:
   a. The ownership structure of the compassion center;
   b. The composition of the board of directors;
   c. Procedures for the oversight of the compassion center;
   d. Procedures to ensure accurate record keeping and security measures;
   e. A description of the enclosed, locked facility where medical marijuana will be grown, cultivated, harvested, packaged, labeled, or otherwise prepared for distribution by the compassion center; and
   f. Such provisions relative to the disposition of revenues to establish and maintain the not-for-profit character of the compassion center.

2. **Physical Location of Compassion Center**

   The physical location of the compassion center shall be selected in compliance with these legislative mandates:
   a. All cultivation of marijuana for registered compassion centers must take place in an enclosed, locked location at the physical address or addresses provided to the MMP during the registration process, which can only be accessed by MMP-registered compassion center agents working or volunteering for the registered compassion center;
   b. The registered compassion center may not be located within 1,000 feet of the property line of a preexisting public or private school.
   c. The registered compassion center may not share office space with nor refer patients to a physician.

3. **Security and Safety Measures**

   The registered compassion center shall implement appropriate security and safety measures to deter and prevent the theft of marijuana and
unauthorized entrance into areas containing marijuana. Such measures shall at least include the following:

a. Exterior of compassion center premises:
   a. Access from outside the premises shall be kept to a minimum and be well controlled.
   b. The outside perimeter of the premises shall be well-lit.
   c. Entry into any area(s) where marijuana is held shall be limited to authorized personnel only.
   d. Marijuana production, packaging, labeling, or distribution shall not be visible from the street or other public area.

b. Alarm System:

The compassion center shall have a fully operational security alarm system at each authorized physical address that will provide suitable protection against theft and diversion. The system shall include, at a minimum:

a. Immediate automatic or electronic notification to alert local or municipal law enforcement agencies to an unauthorized breach of security at the compassion center or at any other authorized physical address;

b. Immediate automatic or electronic notification to alert local or municipal public safety personnel of a loss of electrical support backup system; and

c. When appropriate, the security system shall provide protections against theft or diversion that is facilitated or hidden by tampering with computers or electronic records.

c. Video Surveillance

The compassion center shall provide an appropriate video surveillance system that includes the following areas and access to recorded surveillance:

a. Video surveillance should record access areas, customer service areas, growing areas, and anywhere the marijuana is handled, to include processing and packaging areas;

b. Video footage will be digitally recorded.

c. The compassion center shall provide the Department with access to the video footage (live and recorded) 24-hours a day, seven days a week through a secure internet connection.

d. Inventory Controls

a. Total Allowed Quantity:
The registered compassion center shall possess no more than 150 marijuana plants, irrespective of the stage of growth and shall possess no more than 1,500 ounces of usable marijuana regardless of formulation. These total amounts would be applied to the complete compassion center operations, even if the Department authorizes a separate physical address for the cultivation of the drug.

Every plant should have an accountability of how much marijuana it produced and the end result of that production (distributed to specific patient, stored in retail area, used for testing, destroyed, etc.).

c. Storage of Marijuana

A compassion center shall ensure that usable marijuana is stored in a locked area with adequate security. At a minimum, security should be assessed, established and maintained based on:

(i) The quantity of usable marijuana that will be kept on hand at each authorized location;

I. W-9 INFORMATION SUBMISSION

Effective January 5, 2009, a new vendor process and use of the new Delaware Substitute Form W-9 was implemented by the Delaware Division of Accounting. With the development of the new Delaware Substitute Form W-9, state organizations are no longer responsible for collecting the Form W-9 from vendors. The vendor has the capability of submitting the required Form W-9 electronically and directly to the Delaware Division of Accounting for approval.

Awarded vendors will be required to submit their Form W-9 by accessing this website, http://accounting.delaware.gov/. The vendor will complete the secure form, read the affirmation, and submit the form by clicking the “Submit” button. Delaware Division of Accounting staff will review the submitted form for accuracy, completeness, and standardization. Once all the requirements are met, the form will be uploaded to the vendor file and approved. The vendor is then able to be paid for services provided.

For those vendors that do not have internet access, a printable version of the Delaware Substitute Form W-9 can be faxed or mailed to the vendor. Upon completion, the vendor will then fax or mail the form directly to the vendor staff at the Delaware Division of Accounting. All vendor requests, additions and changes, will come directly from the vendor. Questions for vendors who do not have internet access, contact vendor staff at (302) 734-6827.

This applies only to the successful bidder and should be done when successful contract negotiations are completed. It is not required to be done as part of the submission of the bidder’s proposal.

J. REQUIRED REPORTING

One of the primary goals in administering the contract resulting from this RFP is to keep accurate records regarding its actual value/usage. This
information is essential in order to update the contents of the contract and to establish proper bonding levels if they are required. The integrity of future contracts revolves around our ability to convey accurate and realistic information to all interested Vendors.

A Usage Report (Appendix G) shall be furnished on the 15th (or next business day after the 15th day) of each month by the successful Vendor **electronically in Excel format** detailing the purchasing of all items on this contract. The reports (Appendix G) shall be submitted electronically in EXCEL and sent as an attachment to Paul Hyland at paul.hyland@state.de.us. It shall contain the six-digit department and organization code. Any exception to this mandatory requirement may result in cancellation of the award. Failure to provide the report with the minimum required information may also negate any contract extension clauses. Additionally, vendors who are determined to be in default of this mandatory report requirement may have such conduct considered against them, in assessment of responsibility, in the evaluation of future proposals.

Contracted organizations are to submit regular reports listing retail sales and inventory status. Report frequency may be either monthly or quarterly, but must be submitted timely to allow program staff to closely monitor compliance with the program regulations.

All empaneled patients receiving dispensed medical marijuana from the compassion center must be reported by the compassion center on their regular usage reports. Patients are reported for all income levels, as well as, patients who paid on a sliding fee or reduced fee scale. Details about the report are included as an attachment to your provider contract.

a) If a contractor is under the regulation of any Department entity and has been assessed Civil Money Penalties (CMPs), or a court has entered a civil judgment against a Contractor or vendor in a case in which DHSS or its agencies was a party, the Contractor or vendor is excluded from other DHSS contractual opportunities or is at risk of contract termination in whole, or in part, until penalties are paid in full or the entity is participating in a corrective action plan approved by the Department.

a. Not less than 30 calendar days written notice of intent to terminate; and
b. An opportunity for consultation with the terminating party prior to termination.

This Contract may be terminated in whole or in part by Delaware for its convenience, but only after Contractor is given:

a. Not less than 30 calendar days written notice of intent to terminate; and
b. An opportunity for consultation with Delaware prior to termination.

If termination for default is effected by Delaware, Delaware will pay Contractor that portion of the compensation which has been earned as of the effective date of termination but:

a. No amount shall be allowed for anticipated profit on performed or unperformed services or other work, and
b. Any payment due to Contractor at the time of termination may be adjusted to the extent of any additional costs occasioned to Delaware by reason of Contractor’s default.
c. Upon termination for default, Delaware may take over the work and prosecute the same to completion by agreement with another party or otherwise. In the event Contractor shall cease conducting business, Delaware shall have the right to make an unsolicited offer of employment to any employees of Contractor assigned to the performance of the Contract, notwithstanding any provisions in this document to the contrary.

If after termination for failure of Contractor to fulfill contractual obligations it is determined that Contractor has not so failed, the termination shall be deemed to have been effected for the convenience of Delaware.

The rights and remedies of Delaware and Contractor provided in this section are in addition to any other rights and remedies provided by law or under this Contract.

In the event of termination, all finished or unfinished documents, data, studies, surveys, drawings, models, maps, photographs, and reports or other material prepared by Contractor under this contract shall, at the option of the Department, become the property of the Department.

In the event of termination, the Contractor, upon receiving the termination notice, shall immediately cease work and refrain from purchasing contract related items unless otherwise instructed by the Department.

The Contractor shall be entitled to receive reasonable compensation as determined by the Department in its sole discretion for any satisfactory work completed on such documents
and other materials that are usable to the Department. Whether such work is satisfactory and usable is determined by the Department in its sole discretion.

Should the Contractor cease conducting business, become insolvent, make a general assignment for the benefit of creditors, suffer or permit the appointment of a receiver for its business or assets, or shall avail itself of, or become subject to any proceeding under the Federal Bankruptcy Act or any other statute of any state relating to insolvency or protection of the rights of creditors, then at the option of the Department, this Contract shall terminate and be of no further force and effect. Contractor shall notify the Department immediately of such events.

12. Delaware may suspend performance by Contractor under this Contract for such period of time as Delaware, at its sole discretion, may prescribe by providing written notice to Contractor at least 30 working days prior to the date on which Delaware wishes to suspend. Upon such suspension, Delaware shall pay Contractor its compensation, based on the percentage of the project completed and earned until the effective date of suspension, less all previous payments. Contractor shall not perform further work under this Contract after the effective date of suspension. Contractor shall not perform further work under this Contract after the effective date of suspension until receipt of written notice from Delaware to resume performance.

In the event Delaware suspends performance by Contractor for any cause other than the error or omission of the Contractor, for an aggregate period in excess of 30 days, Contractor shall be entitled to an equitable adjustment of the compensation payable to Contractor under this Contract to reimburse for additional costs occasioned as a result of such suspension of performance by Delaware based on appropriated funds and approval by Delaware.

13. Any notice required or permitted under this Contract shall be effective upon receipt and may be hand delivered with receipt requested or by registered or certified mail with return receipt requested to the addresses listed below. Either Party may change its address for notices and official formal correspondence upon five (5) days written notice to the other.

14. In the event of amendments to current Federal or State laws which nullify any term(s) or provision(s) of this Contract, the remainder of the Contract will remain unaffected.

15. This Contract shall not be altered, changed, modified or amended except by written consent of all Parties to the Contract.

16. The Contractor shall not enter into any subcontract for any portion of the services covered by this Contract without obtaining prior written approval of the Department. The approval requirements of this paragraph do not extend to the purchase of articles, supplies, equipment, rentals, leases and other day-to-day operational expenses in support of staff or facilities providing the services covered by this Contract.

17. The term "Contract Documents" shall mean the documents listed in this Section. Each of the Contract Documents is an essential part of the agreement between the Parties, and a requirement occurring in one is as binding as though occurring in all. The Contract Documents are intended to be complementary and to describe and provide for a complete agreement. This entire Contract between the Contractor and the Department is composed of these several pages and the attached Appendices. In the event of any conflict among the Contract Documents, the order of precedence shall be as set forth below:

   Standard Department Contract (pages 1 – 10 of this contract)

   Appendix B – Service and Budget Description
   Appendix C – Name of Appendix, if necessary
   Appendix D – Name of Appendix, if necessary

18. This Contract shall be interpreted and any disputes resolved according to the Laws of the State of Delaware. Except as may be otherwise provided in this contract, all claims, counterclaims, disputes and other matters in question between the Department and Contractor arising out of or relating to this Contract or the breach thereof will be decided by arbitration if the parties hereto mutually agree, or in a court of competent jurisdiction within the State of Delaware.

19. In the event Contractor is successful in an action under the antitrust laws of the United States and/or the State of Delaware against a vendor, supplier, subcontractor, or other party who provides particular goods or services to the Contractor that impact the budget for this Contract, Contractor agrees to reimburse the State of Delaware, Department of Health and Social Services for the pro-rata portion of the damages awarded that are attributable to the goods or services used by the Contractor to fulfill the requirements of this Contract. In the event Contractor refuses or neglects after reasonable written notice
by the Department to bring such antitrust action, Contractor shall be deemed to have assigned such action to the Department.

20. Contractor covenants that it presently has no interest and shall not acquire any interests, direct or indirect, that would conflict in any manner or degree with the performance of this Contract. Contractor further covenants that in the performance of this contract, it shall not employ any person having such interest.

21. Contractor covenants that it has not employed or retained any company or person who is working primarily for the Contractor, to solicit or secure this agreement, by improperly influencing the Department or any of its employees in any professional procurement process; and, the Contractor has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working primarily for the Contractor, any fee, commission, percentage, gift or any other consideration contingent upon or resulting from the award or making of this agreement. For the violation of this provision, the Department shall have the right to terminate the agreement without liability and, at its discretion, to deduct from the contract price, or otherwise recover, the full amount of such fee, commission, percentage, gift or consideration.

22. The Department shall have the unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, any reports, data, or other materials prepared under this Contract. Contractor shall have no right to copyright any material produced in whole or in part under this Contract. Upon the request of the Department, the Contractor shall execute additional documents as are required to assure the transfer of such copyrights to the Department.

If the use of any services or deliverables is prohibited by court action based on a U.S. patent or copyright infringement claim, Contractor shall, at its own expense, buy for the Department the right to continue using the services or deliverables or modify or replace the product with no material loss in use, at the option of the Department.

23. Contractor agrees that no information obtained pursuant to this Contract may be released in any form except in compliance with applicable laws and policies on the confidentiality of information and except as necessary for the proper discharge of the Contractor’s obligations under this Contract.

24. Waiver of any default shall not be deemed to be a waiver of any subsequent default. Waiver or breach of any provision of this Contract shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the Contract unless stated to be such in writing, signed by authorized representatives of all parties and attached to the original Contract.

25. If the amount of this contract listed in Paragraph C2 is over $25,000, the Contractor, by their signature in Section E, is representing that the Firm and/or its Principals, along with its subcontractors and assignees under this agreement, are not currently subject to either
suspension or debarment from Procurement and Non-Procurement activities by the Federal Government.

C. Financial Requirements

1. The rights and obligations of each Party to this Contract are not effective and no Party is bound by the terms of this contract unless, and until, a validly executed Purchase Order is approved by the Secretary of Finance and received by Contractor, *if required by the State of Delaware Budget and Accounting Manual*, and all policies and procedures of the Department of Finance have been met. The obligations of the Department under this Contract are expressly limited to the amount of any approved Purchase Order. The State will not be liable for expenditures made or services delivered prior to Contractor's receipt of the Purchase Order.

2. Total payments under this Contract shall not exceed $_____ in accordance with the budget presented in Appendix ___. Payment will be made upon receipt of an itemized invoice from the Contractor in accordance with the payment schedule, if any. The contractor or vendor must accept full payment by procurement (credit) card and or conventional check and/or other electronic means at the State’s option, without imposing any additional fees, costs or conditions. Contractor is responsible for costs incurred in excess of the total cost of this Contract and the Department is not responsible for such costs.

3. The Contractor is solely responsible for the payment of all amounts due to all subcontractors and suppliers of goods, materials or services which may have been acquired by or provided to the Contractor in the performance of this contract. The Department is not responsible for the payment of such subcontractors or suppliers.

4. The Contractor shall not assign the Contract or any portion thereof without prior written approval of the Department and subject to such conditions and revisions as the Department may deem necessary. No such approval by the Department of any assignment shall be deemed to provide for the incurrence of any obligations of the Department in addition to the total agreed upon price of the Contract.

5. Contractor shall maintain books, records, documents and other evidence directly pertinent to performance under this Contract in accordance with generally accepted accounting principles and practices. Contractor shall also maintain the financial information and data used by Contractor in the preparation of support of its bid or proposal. Contractor shall retain this information for a period of five (5) years from the date services were rendered by the Contractor. Records involving matters in litigation shall be retained for one (1) year following the termination of such litigation. The Department shall have access to such books, records, documents, and other evidence for the purpose of inspection, auditing, and copying during normal business hours of the Contractor after giving reasonable notice. Contractor will provide facilities for such access and inspection.

6. The Contractor agrees that any submission by or on behalf of the Contractor of any claim for payment by the Department shall constitute certification by the Contractor that the
services or items for which payment is claimed were actually rendered by the Contractor or its agents, and that all information submitted in support of the claims is true, accurate, and complete.

7. The cost of any Contract audit disallowances resulting from the examination of the Contractor's financial records will be borne by the Contractor. Reimbursement to the Department for disallowances shall be drawn from the Contractor's own resources and not charged to Contract costs or cost pools indirectly charging Contract costs.

8. When the Department desires any addition or deletion to the deliverables or a change in the services to be provided under this Contract, it shall so notify the Contractor. The Department will develop a Contract Amendment authorizing said change. The Amendment shall state whether the change shall cause an alteration in the price or time required by the Contractor for any aspect of its performance under the Contract. Pricing of changes shall be consistent with those prices or costs established within this Contract. Such amendment shall not be effective until executed by all Parties pursuant to Paragraph B.14.

D. Miscellaneous Requirements

1. If applicable, the Contractor agrees to adhere to the requirements of DHSS Policy Memorandum # 46, (PM # 46, effective 3/11/05), and divisional procedures regarding the reporting and investigation of suspected abuse, neglect, mistreatment, misappropriation of property and significant injury of residents/clients receiving services, including providing testimony at any administrative proceedings arising from such investigations. The policy and procedures are included as Appendix to this Contract. It is understood that adherence to this policy includes the development of appropriate procedures to implement the policy and ensuring staff receive appropriate training on the policy requirements. The Contractor’s procedures must include the position(s) responsible for the PM46 process in the provider agency. Documentation of staff training on PM46 must be maintained by the Contractor.

2. The Contractor, including its parent company and its subsidiaries, and any subcontractor, including its parent company and subsidiaries, agree to comply with the provisions of 29 Del. Code, Chapter 58: “Laws Regulating the Conduct of Officers and Employees of the State,” and in particular with Section 5805 (d): “Post Employment Restrictions.”
