REQUEST FOR PROPOSALS FOR PROFESSIONAL SERVICES  
NEW CASTLE & SUSSEX COUNTY SOBER LIVING RESIDENCES  
HSS-16-016  
ISSUED BY DIVISION OF SUBSTANCE ABUSE & MENTAL HEALTH

**Page 4: Section II; Target Population**

**TARGET POPULATION**

The target population for the Sober Living Houses will be adults, age 18 and older, who are residents of New Castle & Sussex County Delaware. In addition, applicants will have a primary diagnosis of substance abuse. Residents will need to meet National Association of Recovery Residences (NARR) Level II or Level III Support Services.<sup>1</sup> Clients with co-occurring mental health disorders will be eligible for admission. Clients prescribed medications such as Methadone, Buprenorphine and Vivitrol for opioid and alcohol dependency will also be eligible for admission.

**Page 45: Appendix B; Scope of Services, Paragraph 1**

The Contractor will provide services to eligible individuals who due to substance use and or co-occurring conditions require a stable residential setting with services and supports to reach their recovery goals including reintegration into the community. The target population for the Sober Living Houses will be adults, age 18 and older, who are residents of New castle & Sussex County Delaware. In addition, applicants will have a primary diagnosis of substance abuse. Residents will need to meet National Association of Recovery Residences (NARR) Level II or Level III Support Services.<sup>2</sup> Clients with co-occurring mental health disorders will be eligible for admission. Clients prescribed medications such as Methadone, Buprenorphine and Vivitrol for opioid and alcohol dependency will also be eligible for admission.

**Page 45: Appendix B; Scope of Services, Basic Program Design, Paragraph 1**

The residents will be adults who meet the need for services of National Association of Recovery Residence Level II (Monitored)/III (Supervised) Support Services. These residents will have an identifiable history of substance abuse/dependence. The program must be founded on the belief that substance dependence is a disease. Program services will address the biopsychosocial aspects of the disease in a sober and supportive environment. Services also will be designed to develop the skills necessary to become self-supporting and live a substance-free lifestyle.
