

DATE: 3/30/17

TO: ALL OFFERING VENDORS

FROM: John Perotti
Judicial Information Center Project Manager

SUBJECT: ADDENDUM TO INVITATION TO BID - Convert VB 5 Application to VB.Net 2017 -
JUD17001-ASOP

ADDENDUM 2: Functional Requirements (Detailed)

Below is the document with the detailed functional requirements for the ASOP Refresh Project.

All other terms and conditions remain the same.

If you have any questions, please contact me at john.perotti@state.de.us.

DELAWARE ADMINISTRATIVE OFFICE OF THE COURTS JUDICIAL INFORMATION CENTER

THE AUTOMATED SENTENCING ORDER PROGRAM – REFRESH PROJECT FUNCTIONAL REQUIREMENTS DOCUMENT

Creation Date: 2/27/2017

1.0 Introduction

1.1 Document Purpose

This Functional Requirements Document (FRD) describes all of the requirements to be implemented as part of the project. Its purpose is to clearly describe these requirements so they can be understood and validated by business users and other stakeholders as well as be sufficiently detailed to serve as input into system design activities.

The work required to complete this document as well as the document's contents are intended to align with the Judicial Information Center (JIC) System Development Life Cycle (SDLC) as defined in the SDLC Playbook.

1.2 Intended Audience

The target audience for this FRD includes business, technical, and project management stakeholders.

1.3 Document Maintenance

The document will be maintained by the project Business Analysis team and stored in a location with the other major SDLC documents. Once the functional requirements are approved by the project sponsor and / or key stakeholders, they will serve as the baseline against which requests for additional functionality will be assessed. When scope changes are approved that add new requirements, the full set of approved requirements will consist of the baseline reflected in the approved FRD plus all approved requirements related change orders.

1.4 Traceability

All of the requirements within this FRD should be able to be traced to scope defined in the project charter or that are added through approved change requests. The traceability matrix established for the project will map requirements to their respective design, development, and test elements.

2.0 System Overview

2.1 Application Description and Objectives

The Automated Sentencing Order Program (ASOP) Program / Project was initiated in 1992-1993 with the objective of standardizing sentencing order language. By 2000, ASOP was deployed in Superior Court New Castle, Kent and Sussex counties and used as the system for producing almost all sentencing orders (with the exception of probation before judgment orders). The original goal was to create a standard sentencing order simultaneously with a judge's pronouncement. Additionally, the goals included distributing orders electronically within minutes to crucial partner agencies that must effectuate the orders (e.g. Department of Correction (DOC), Treatment Access Center (TASC)). The defendant also receives a complete copy of their sentencing order in the courtroom.

The client server front end of the SC ASOP application is written in Visual Basic (VB) Version 5 which is no longer supported by Microsoft creating the need to perform an application refresh. ASOP data is stored on the Courts mainframe based Case Management System (CMS).

In October 2015, the JIC, with the support of the SC team, completed a project to determine feasible alternative solutions for providing the Courts with ASOP functionality in the case of failure of the current application. JIC conducted an analysis of the current systems including ASOP and presented the results to the SC Team. The analysis determined that there was truly only one solution and that was the "ASOP-LITE" choice. This solution consisted of developing a refreshed system to provide essential sentencing functionality to encompass the ability to produce a sentencing order shortly after issuance of the order by a Judge.

In March 2016, the SC team began developing ASOP-LITE requirements. For this, the SC team completed draft functional requirements for the Calendar Event/Charge Disposition form, Sentence History form, and part of the Sentence Order Entry form.

In May 2016, it was decided that the entire ASOP application would be refreshed, not just the ASOP-LITE sentencing functionality. At this time, funding was secured to use an outside vendor for a project to complete the ASOP requirements and perform implementation planning.

2.2 Scope Definition

- The scope includes functionality associated with the following 3 forms:
 - Calendar Event/Charge Disposition
 - Sentence History
 - Sentence Order Entry Outputs (sentencing orders) are consumed by attorneys, Attorney General's Office, Public Defender's Office, public, Department of Corrections (DOC), Statistical Analysis Center (SAC) and TASC.
- Source data is provided through CMS.

- Also included in the scope of this project are the following:
 - Functions most commonly used by Judges.
 - Defendant Info Search/Add/Update
 - Capias Warrant History Search
 - Criminal History Search
 - Defendant Pending Case List
 - Name Search
 - The balance of the Processes
 - Add Case to Calendar
 - Calendar Case List
 - Calendar Header Mass Add
 - Calendar/Case Participants
 - Address Search/Add/Update
 - Co-defendant List Search
 - Docket Browse Search/Add/Update
 - Representation Search
 - Participant History
- The new system must address the current system's lack of sufficient security. (The current system has one login ID and does not require a password.)
- This project will include a requirement for producing a hard copy sentence order that will ultimately align with the universal sentence order template being developed for all Delaware Courts. A separate AOC project is developing the specifications (data and format) for the universal order template. Then, as part of the ASOP Refresh Implementation project that is planned to follow this project, the project team will work to design the ASOP sentence order document to align with the universal template. The team will align the ASOP order from with the universal template to the extent possible given the data contained in ASOP.
- **The new system will not incorporate any functionality not contained in the existing application other than pre-defined system fixes.** The potential list of fixes is located in Section 3.2.17 below.

2.3 Context

The ASOP server based application serves as a front-end to the JIC/Case Management System (CMS) mainframe application. ASOP allows the user to retrieve information from and enter information into the mainframe files. Contained in later sections of this document are details regarding the mainframe source files.

3.0 Functional Requirements

3.1 Functional Decomposition

The following are the functional components that comprise the ASOP application.

3.1.1 Session Manager Form

1. Display and provide access for all Forms in the application
2. Display all Forms currently in use
3. Provide a means to exit the application

3.1.2 Defendant Information Form

1. Display Any Existing Defendant and Case and Individual Indicators for a particular Defendant and case
2. Add or Update Address Information for the Case
3. Add or Update Case and Individual Indicators

3.1.3 Charge Browse

1. Add or Update Charge Information for a particular Case

3.1.4 Co-Defendant List

1. Display any Co-Defendant associated with a given Case Number

3.1.5 Docket Browse

1. Add or Update Docket Information for a particular Case

3.1.6 Select Printer

1. Provide a means for a user to select the necessary printer for use with their ASOP session

3.1.7 Defendant Personal History

1. Display Any Capias/Warrant History for a selected Defendant
2. Display Any Criminal History for a selected Defendant
3. Display Any Sentencing History for a selected Defendant

3.1.8 Calendar Case List

1. Display all cases for a given Calendar
2. Find specific cases for a given Calendar
3. Display and Create notes for a given case

3.1.9 Calendar/Case Participants

1. Display all Calendar Participants for a given Case and Calendar
2. Display all Event Participants for a given Case and Calendar
3. Display all Case Participants for a given Case and Calendar

3.1.10 Calendar Header Mass Add

1. Create Headers for Calendars for Multiple Dates

3.1.11 Add Case to Calendar

1. Display all Case Scheduled Events for a given Case and Calendar
2. Display the Scheduling History for a given Defendant
3. Update any Case Scheduled Events for a Future Scheduled Event

3.1.12 Defendant Pending Case List

1. Display any Pending Charges for the defendant associated with the entered case number.

3.1.13 Name Search

1. The Name Search Form allows the user to search for case and identification information for the defendant to include information from all courts or by a single court.

3.1.14 Calendar Event / Charge Disposition Form

1. Activate Form
2. Search for Calendar Headers
3. Retrieve Calendar Case information
4. Dispose of the calendar events
5. Select Cases for charge disposition processing
6. Dispose of charges

3.1.15 ASOP Sentencing History Form

1. Retrieve Information on a specific case
2. Create New Orders
3. Work With Existing Orders

3.1.16 ASOP Sentence Order Entry Form

1. **Overall**

- a. Sentencing, Effective, Original Dates
- b. Bundling Orders
- c. DOC Commitment or Release
- d. Charges and Charge Sequencing
- e. List of Charges
- f. Call Charge
- g. Charge Display Grid
- h. Habitual Offender
- i. Fines and Costs – Fees and Surcharges
- j. Restitution
- k. Reporting Facility and Date
- l. Notes
- m. Save Function
- n. Preview Orders
- o. Approve Orders

2. **Custody**

- a. Logical Operators
- b. SENTAC Level
- c. Time – years, months, days
- d. Custody Programs
- e. Credit for Time Served
- f. Probation Requirements
- g. Weekend Custody
- h. Mandatory Time

3. **Special Conditions**

- a. Conditions by Order or Charge
- b. Condition Category, Operator
- c. Customized fields for text input (macros)

4. **Aggravating and Mitigating Factors**

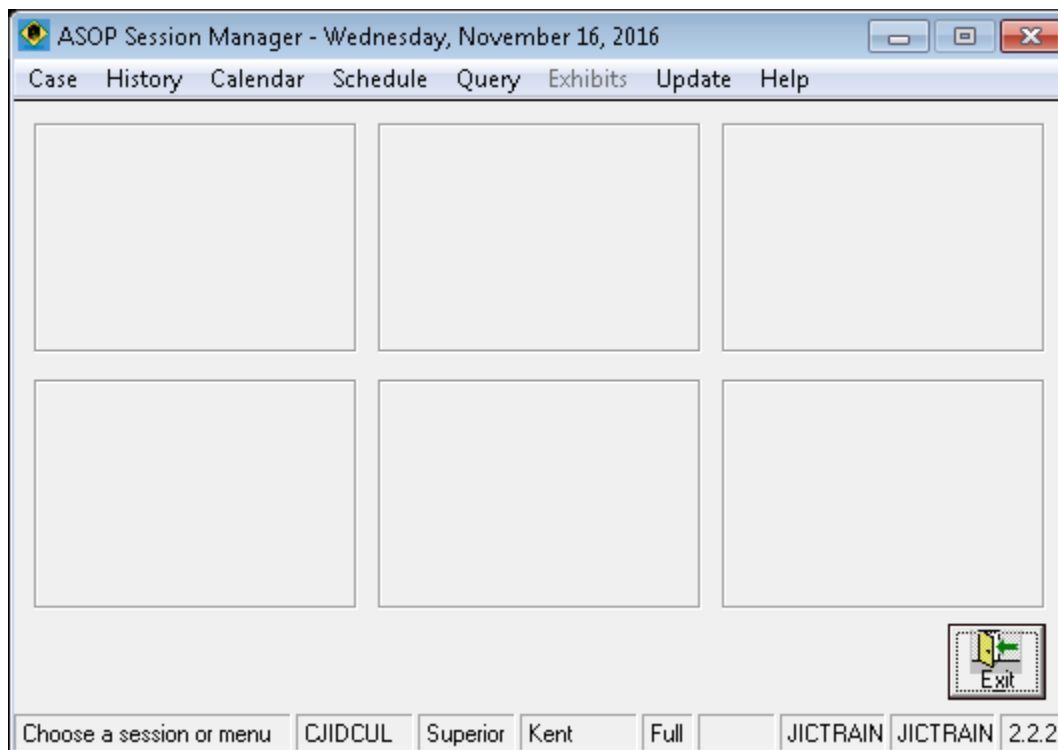

3.2 Requirements Listing

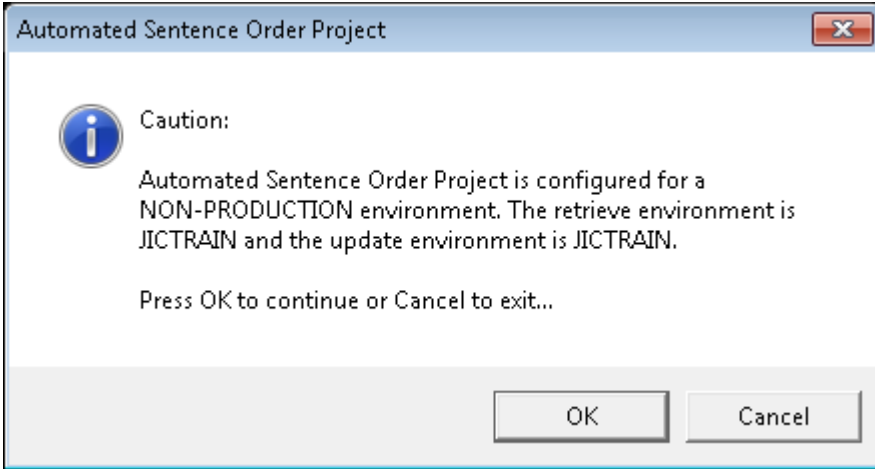

This section describes the ASOP functional requirements in detail. For each of the component listed above, it provides a summary description of the component functionality, shows a graphical images of the component screens, describes screen functionality, and maps screen data fields to their corresponding fields in CMS.

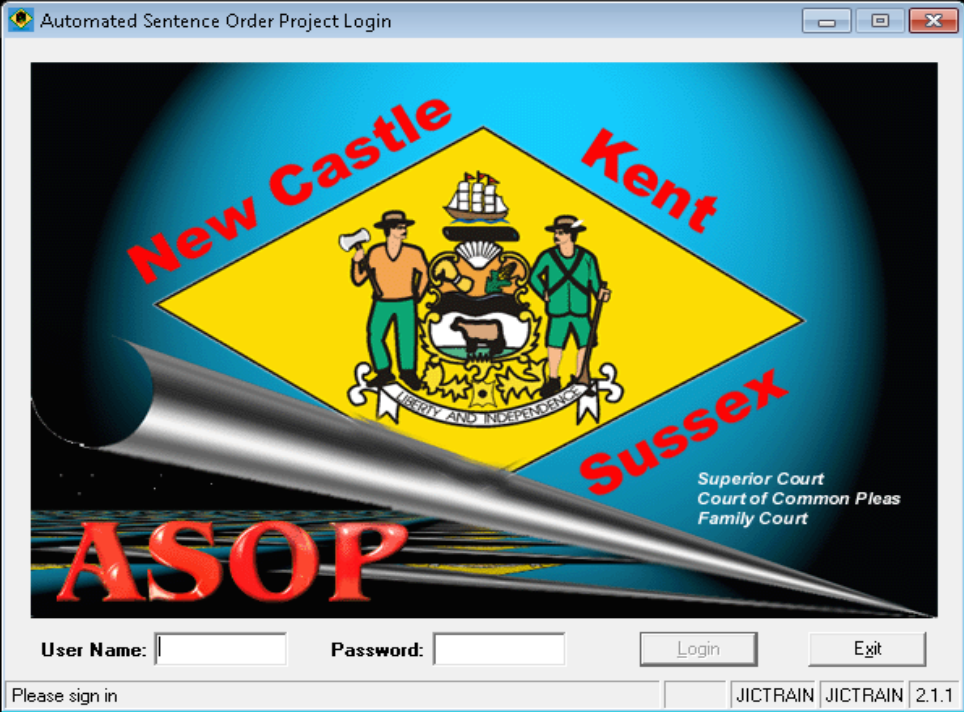

3.2.1 Session Manager

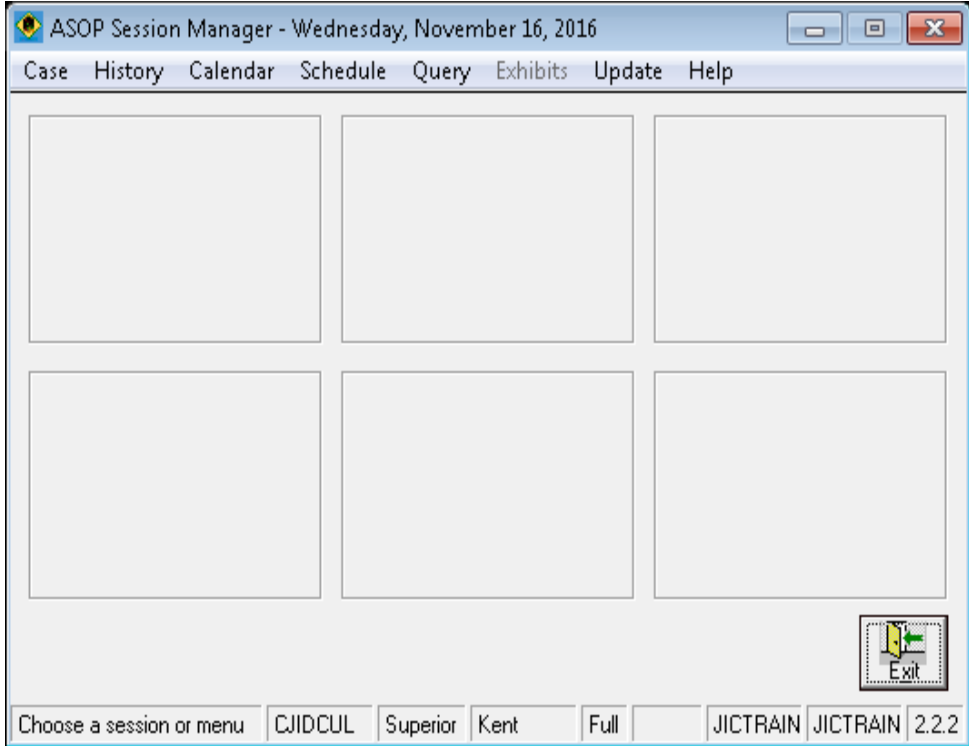

The Session Manager Form is used to:

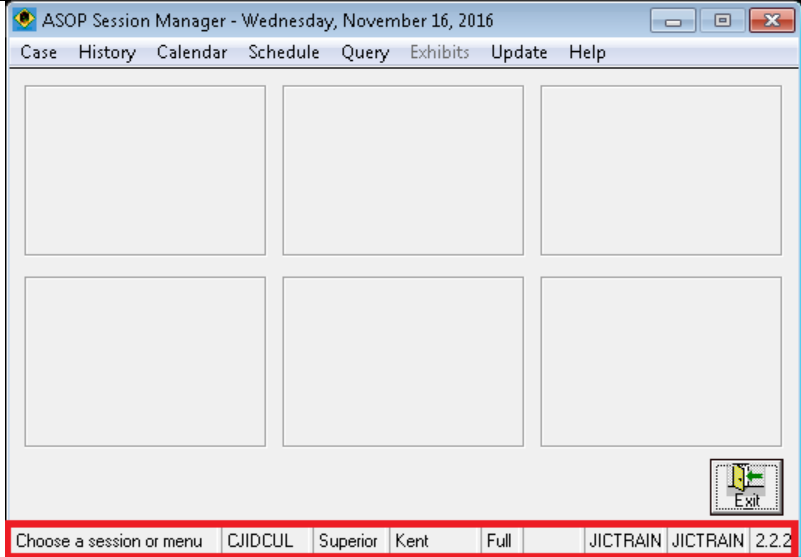

- Display and provide access for all Forms in the application
- Display all Forms currently in use
- Provide a means to exit the application

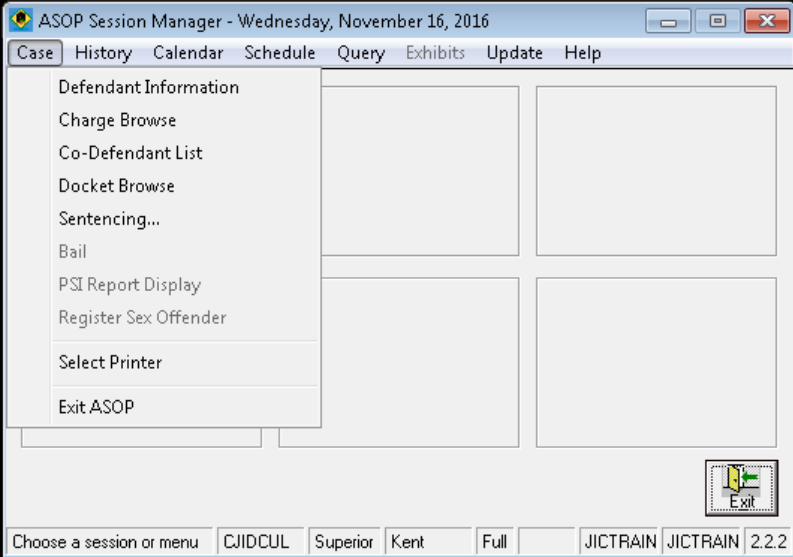

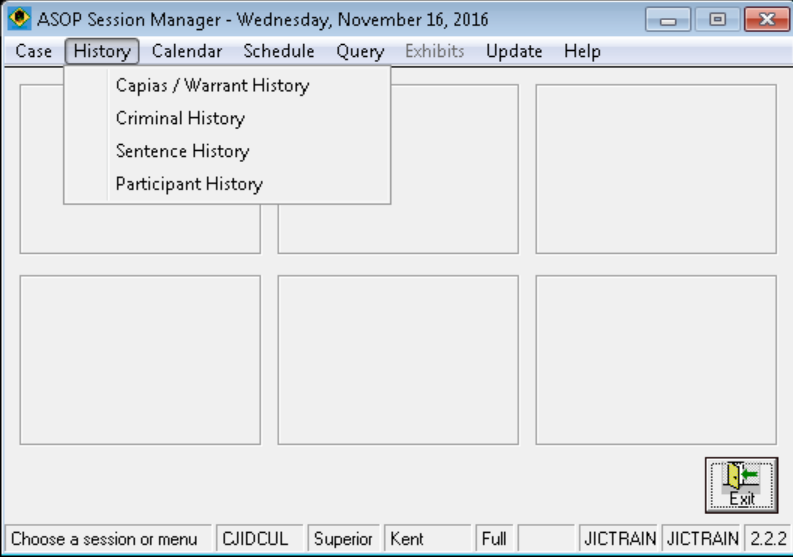

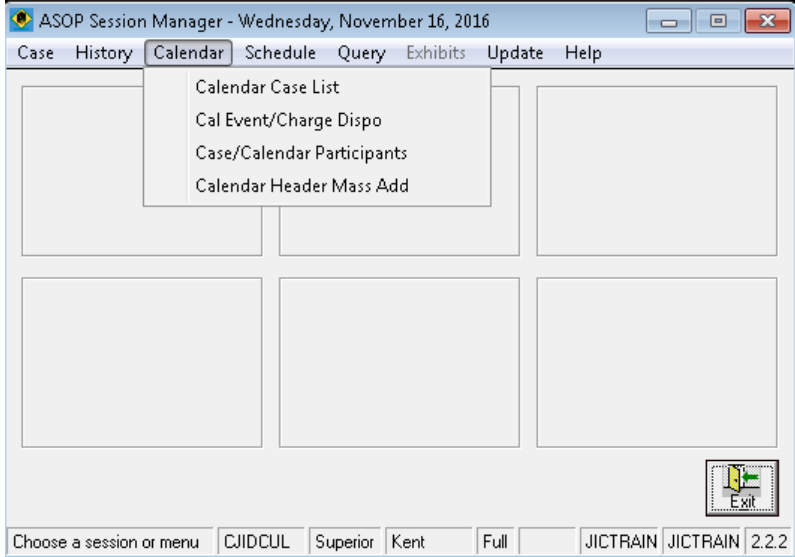

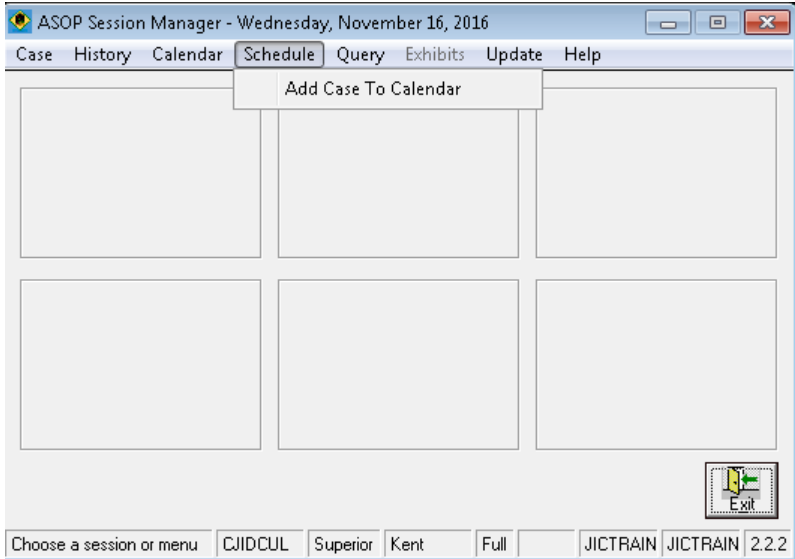

Functional Requirement Number	Description	Reference Number
SM-INIT-001	<p>The ASOP application is accessed from the Desktop by the ASOP TS link:</p>  The image shows a desktop icon for 'ASOP TS'. The icon is a yellow diamond shape with a blue border. Inside the diamond, there is a small graphic of a person in a uniform. Below the diamond, the text 'ASOP TS' is written in black.	
SM-INIT-002	<p>If accessing ASOP in any environment other than Production, the following message is displayed:</p>  The image shows a Windows-style dialog box titled 'Automated Sentence Order Project'. It has a blue header bar with a close button (X) in the top right corner. The main area has a light gray background. On the left, there is a blue circular icon with a white 'i' inside. To the right of the icon, the text reads: 'Caution: Automated Sentence Order Project is configured for a NON-PRODUCTION environment. The retrieve environment is JICTRAIN and the update environment is JICTRAIN. Press OK to continue or Cancel to exit...'. At the bottom right, there are two buttons: 'OK' and 'Cancel'.	
SM-INIT-003	<p>Once accessed, the ASOP Login Screen is displayed:</p>	

		
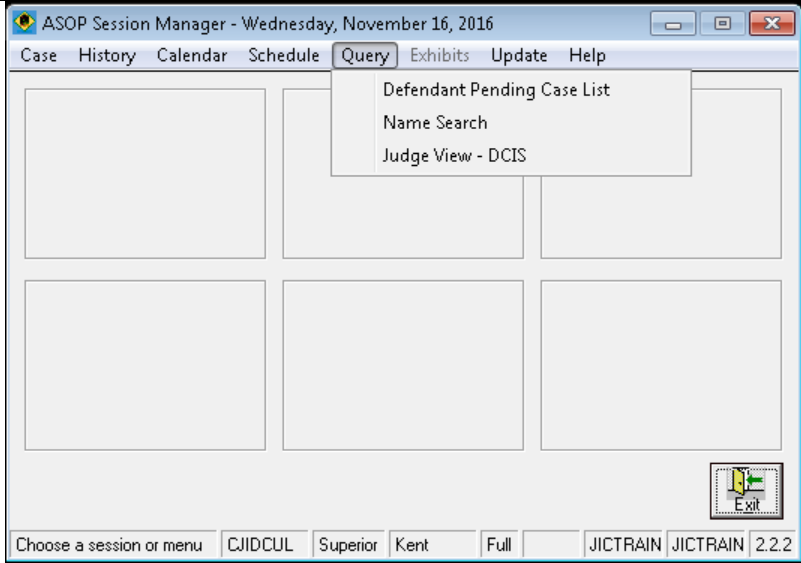

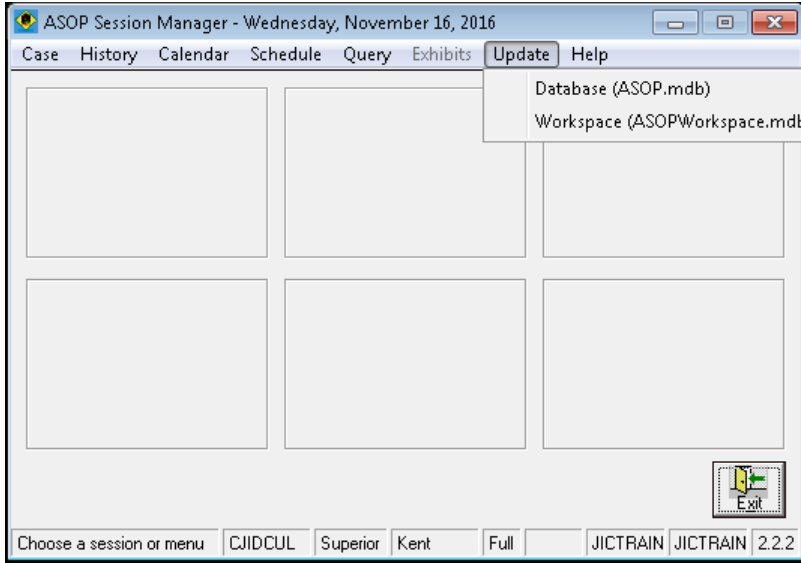

SM-INIT-004	<p>The Login screen indicates what environment a user is logging into, the version of ASOP running, and a message 'Please sign in'. The user has the ability to enter his Mainframe user name and password. When this is complete, the Login Button is clicked, or the user can hit Enter:</p> 	

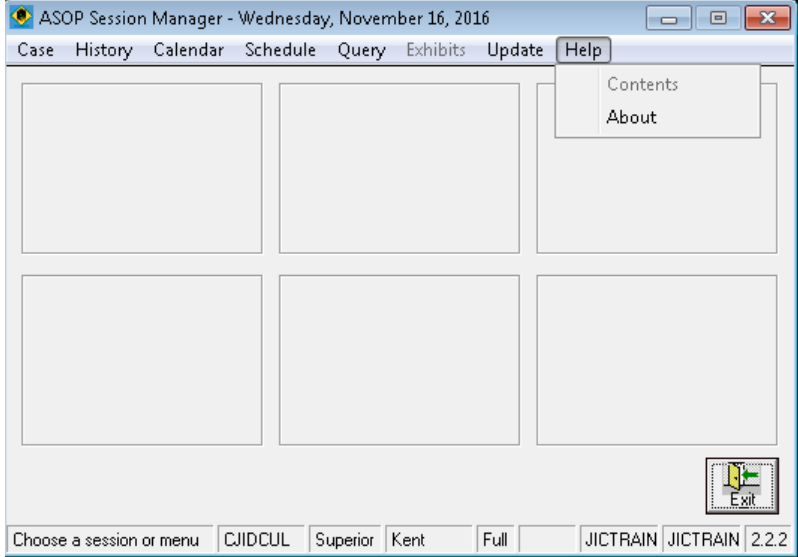

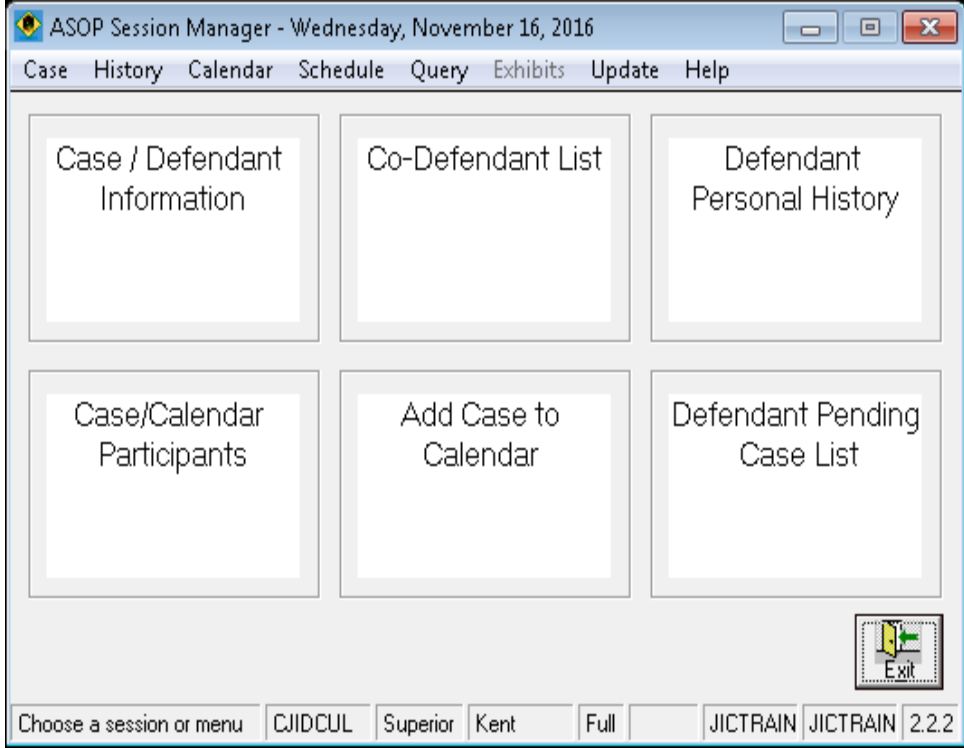

SM-INIT-005	<p>After a successful user login, the ASOP Manager screen is populated:</p> 	
SM-INIT-006	<p>The header for the ASOP Session Manager lists the date:</p> 	
SM-INIT-007	<p>The footer for the ASOP Session Manager lists the user logged in, the court the user is attached, the county that is the current user environment, the user access, the JIC environment, and the version of ASOP:</p>	

		
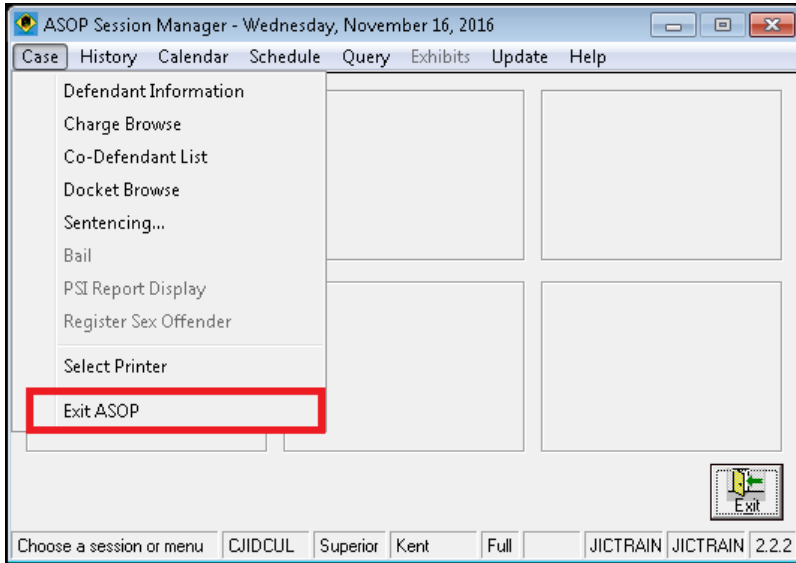

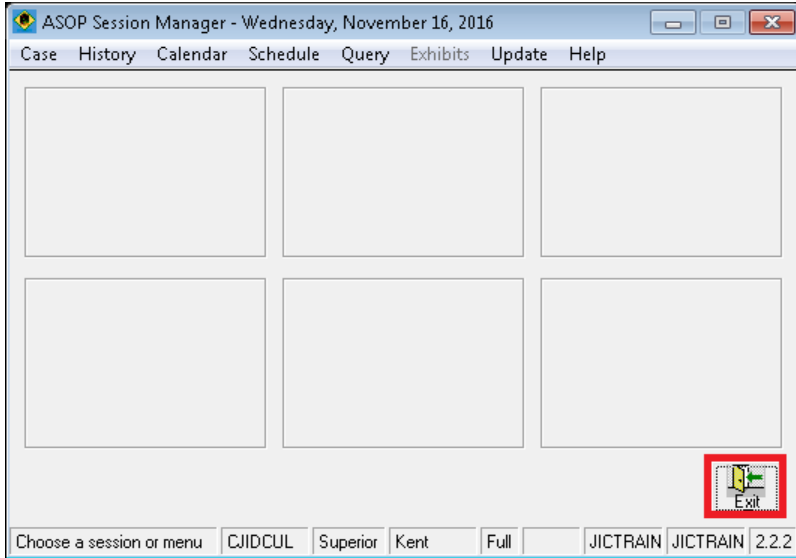

SM-MENU-001	<p>The ASOP Session Manager provides for Seven (7) drop down menus:</p> <ul style="list-style-type: none"> • Case • History • Calendar • Schedule • Query • Exhibits (Not Used) • Update • Help 	
SM-MENU-002	<p>The Case Menu has the following menus:</p> <ul style="list-style-type: none"> • Defendant Information • Charge Browse • Co-Defendant List • Docket Browse • Sentencing • Bail (not used) • PSI Report Display (not used) • Register Sex Offender (not used) • Select Printer • Exit ASOP 	

		
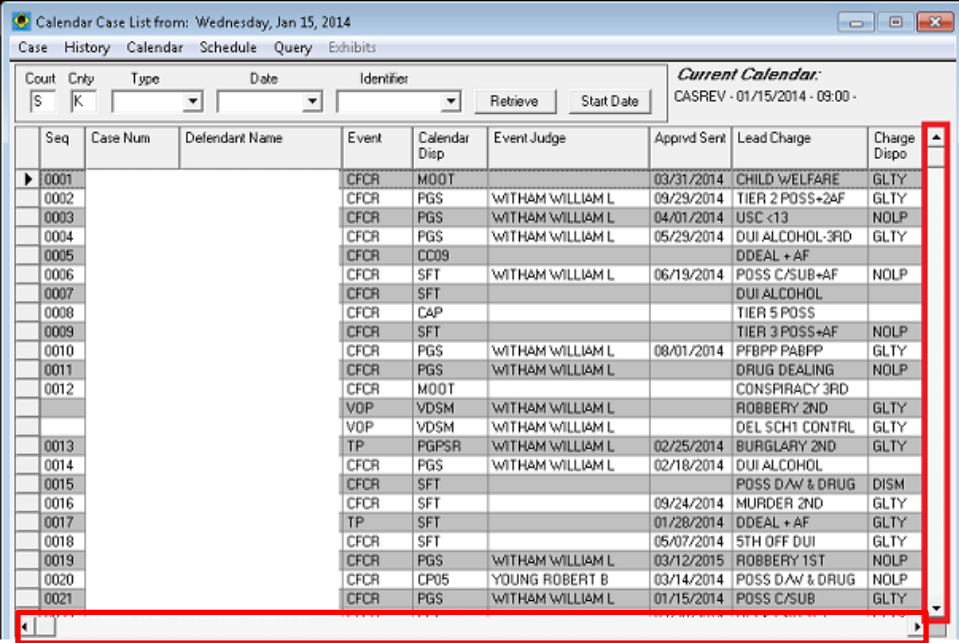

SM-MENU-003	<p>The History Menu has the following menus:</p> <ul style="list-style-type: none"> • Capias/Warrant History • Criminal History • Sentence History • Participant History 	
SM-MENU--004	<p>The Calendar Menu has the following menus:</p> <ul style="list-style-type: none"> • Calendar Case List • Cal Event/Charge Dispo • Case/Calendar Participants • Calendar Header Mass Add 	

		
SM-MENU-005	<p>The Schedule Menu has the following menus:</p> <ul style="list-style-type: none"> Add Case to Calendar 	
SM-MENU-006	<p>The Query Menu has the following menus:</p> <ul style="list-style-type: none"> Defendant Pending Case List Name Search Judge View – DCIS (to be retired) 	

		
SM-MENU-007	<p>The Update Menu has the following menus:</p> <ul style="list-style-type: none"> • Database (ASOP.mdb) • Workspaces (ASOPWorkspace.mdb) 	
SM-MENU-008	<p>The Help Menu has the following menus:</p> <ul style="list-style-type: none"> • Contents • About 	

		
<p>SM-OP-001</p>	<p>When the user chooses a menu, the form launches, and the Session Manager tracks which forms are open. The application can support Six (6) forms being active at any given time:</p> 	
<p>SM-EXIT-001</p>	<p>When a user has completed work in ASOP, the application may be exited in two methods. Under the Case menu, the Exit ASOP selection is available to give the user the ability to end the active session:</p>	

	 <p>The screenshot shows the ASOP Session Manager application window titled "ASOP Session Manager - Wednesday, November 16, 2016". The menu bar includes Case, History, Calendar, Schedule, Query, Exhibits, Update, and Help. The 'File' menu is open, showing options: Defendant Information, Charge Browse, Co-Defendant List, Docket Browse, Sentencing..., Bail, PSI Report Display, Register Sex Offender, Select Printer, and Exit ASOP. The 'Exit ASOP' option is highlighted with a red rectangle. At the bottom of the window, there is a status bar with the text "Choose a session or menu" and several buttons: CJDCUL, Superior, Kent, Full, JICTRAIN, JICTRAIN, and 2.2.2.</p>	
SM-EXIT-002	<p>The user has the ability to end the active session by clicking the Exit Button on the ASOP Session Manager Screen:</p>  <p>The screenshot shows the ASOP Session Manager application window titled "ASOP Session Manager - Wednesday, November 16, 2016". The menu bar includes Case, History, Calendar, Schedule, Query, Exhibits, Update, and Help. The main area of the window is empty. At the bottom of the window, there is a status bar with the text "Choose a session or menu" and several buttons: CJDCUL, Superior, Kent, Full, JICTRAIN, JICTRAIN, and 2.2.2. The 'Exit' button in the bottom right corner is highlighted with a red rectangle.</p>	
ASOP-OP-001	<p>An Up and Down scroll bar and/or a Horizontal scroll bar will be displayed on any form object when the number of listed items exceeds the screen or dropdown box controls limits:</p>	

		
ASOP- OP - 002	<p>NOTE: for all forms where defendants are listed, if the defendant is currently Wanted, their name and other case information will appear in Red.</p>	

3.2.2 Defendant Information

The Defendant Information Form is used to:

- Display Any Existing Defendant and Case and Individual Indicators for a particular Defendant and case
- Add or Update Address Information for the Case
- Add or Update Case and Individual Indicators

Case / Defendant Information

Case History Calendar Schedule Query Exhibits

	Seal Case	Whether to Seal this Case	Must be Determined By Analyzing Program Code During Design / Development	
DI-ADI-007	<p>Right-clicking in any of the fields in the Additional Defendant Information box provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Additional Defendant Information box, only the Right to Left Reading order choice is allowed, except for Case Status, which will allow Select All and Copy.</p> 			

DI-AHT-001

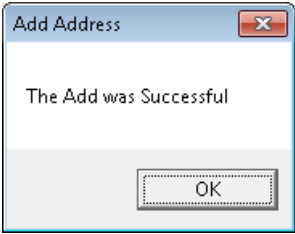

The Add button in the Address History Tab will allow the user to add a new address to the Address History.

The screenshot shows a software window titled "Case / Defendant Information" with a menu bar (Case, History, Calendar, Schedule, Query, Exhibits). The "Defendant Information" section includes fields for Name, DOB, Sex, Race, SBI #, and checkboxes for Crt and Crty. Below this is the "Additional Defendant Information" section with fields for Case Status, DOC Status, License Num, Case Type, and Social Security Num, along with an "Update" button. The "Address History" tab is active, displaying a table with columns: Seq, Crt, Type, Stat, Date, Address Line 1, Address Line 2, Addr Line 3, City, ST, and Zip Code. At the bottom of the table, there is an "Add" button (highlighted with a red box) and an "Update" button. The "Representation" section at the bottom has dropdowns for Defense Att and D.A.G., and a "Close" button.

DI-AHT-002

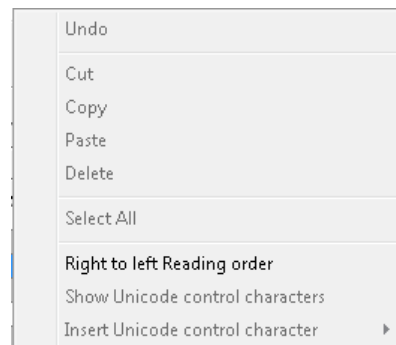

When a user selects the Add button a box will populate Add New Address.

The screenshot shows a dialog box titled "Add New Address". It contains the following fields: "New Type:" with a dropdown menu, "Address:" with two stacked text boxes, "City:" with a text box, "State:" with a dropdown menu, "Zip Code:" with a text box, "Home #:" with a text box, and "Business #:" with a text box. At the bottom, there is a label "Select Address Type to Begin." and two buttons: "Add" and "Close".

DI-AHT-003	This box will allow the user to select a drop down that will allow the user choose a New Address Type, to select the type of address that is needed. The form will not be enabled for input until an Address Type has been selected.	
DI-AHT-004	<p>The user will have the ability to manually enter all pertinent information for the following fields: Address Line 1, Address Line 2, City, State, Zip Code, Home Phone Number, and Business Phone Number (Does not populate or save when entered. Check the "DAYTIME PHONE" field in CMS). The phone numbers fields will contain no dashes, just the 7 digit numbers.</p> <p>All Text fields entered in lower case should be converted to Uppercase prior to saving the information.</p> <p>The new Address Status will default to Active.</p>	
DI-AHT-005	<p>The user can select the ADD button. Selecting the ADD button will add the address information to the Mainframe database. If successful, the message below will be displayed.</p> 	
DI-AHT-006	The user can select the Close Button will close the box form if no action is required. Any information entered on the form will be lost if the Add New Address box is closed prior to hitting the Add button.	

DI-AHT-007

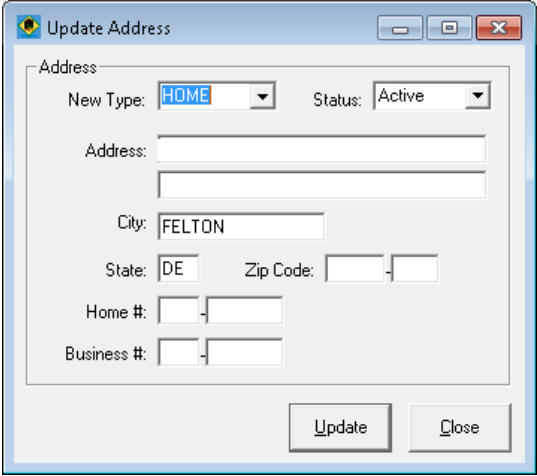

Right-clicking in any of the fields in the Add Button in the Address History Tab provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.

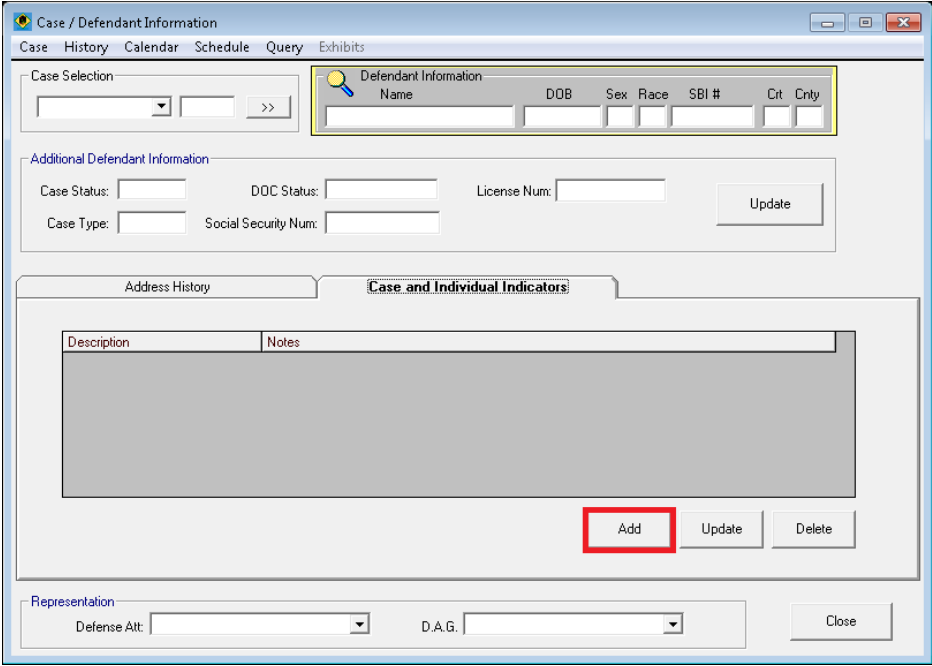

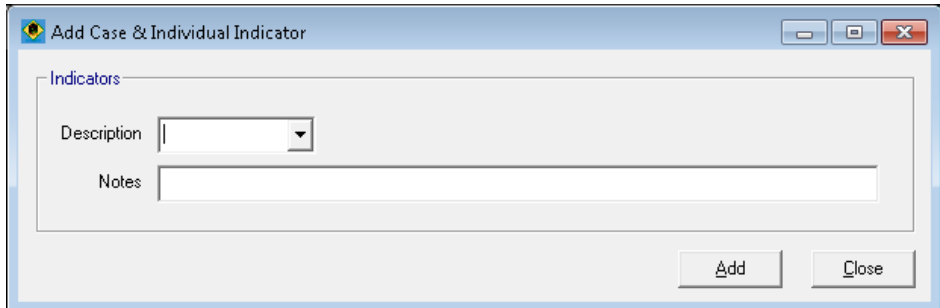

DI-AHT-008

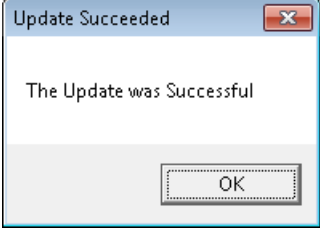

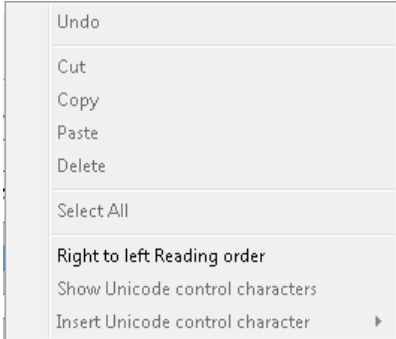

The Update button in the Address History Tab will allow the user to update an address to the Address History.

 A screenshot of a software window titled "Case / Defendant Information". The window has a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". Below the menu bar, there are several sections. The "Defendant Information" section includes fields for Name, DOB, Sex, Race, SBI #, Cit, and Only. Below this is the "Additional Defendant Information" section with fields for Case Status, DOC Status, License Num, Case Type, and Social Security Num, and an "Update" button. The "Address History" tab is selected, showing a table with columns: Seq, Cit, Type, Stat, Date, Address Line 1, Address Line 2, Addr Line 3, City, ST, and Zip Code. Below the table are "Add" and "Update" buttons, with the "Update" button highlighted in red. At the bottom, there is a "Representation" section with fields for Defense Att. and D.A.G., and a "Close" button.

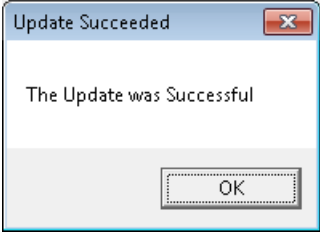

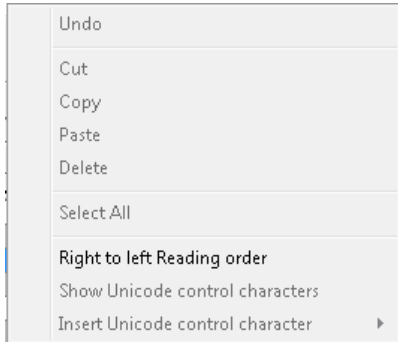

DI-AHT-009	<p>When a user selects the Update button, or double-clicks on any address in a row, a box will populate Update Address.</p> 	
DI-AHT-010	This box will allow the user to select a drop down that will allow the user choose a Status for the type of address that is needed.	
DI-AHT-011	This box will allow the user to select a drop down that will allow the user choose a New Address Type, to select the type of address that is needed.	
DI-AHT-012	The user will have the ability to manually enter all pertinent information for the following fields: Address Line 1, Address Line 2, City, State, Zip Code, Home Phone Number, and Business Phone Number (Does not populate or save when entered. Check the "DAYTIME PHONE" field in CMS).	
DI-AHT-013	The user can select the Update button. Selecting the Update button will add/update the address information to the Mainframe database.	
DI-AHT-014	The user can select the Close button to close the box form if no action is required.	

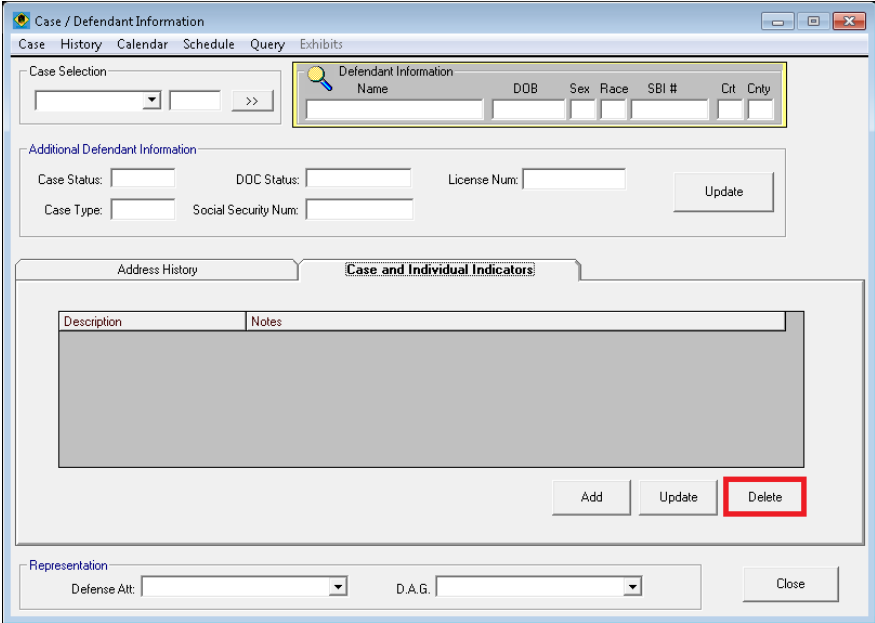

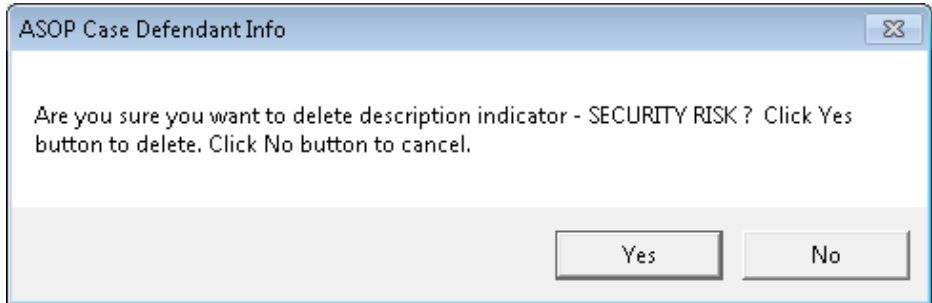

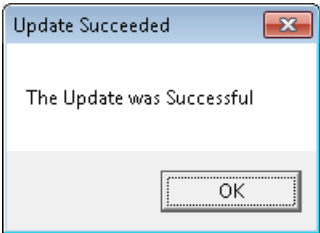

DI-AHT-015	<p>Right-clicking in any of the fields in the Add Button in the Address History Tab provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. DI-INIT-009	The close Button on the Defendant Information form will close the box form.	

3.2.3 Charge Browse

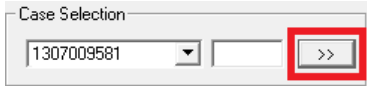

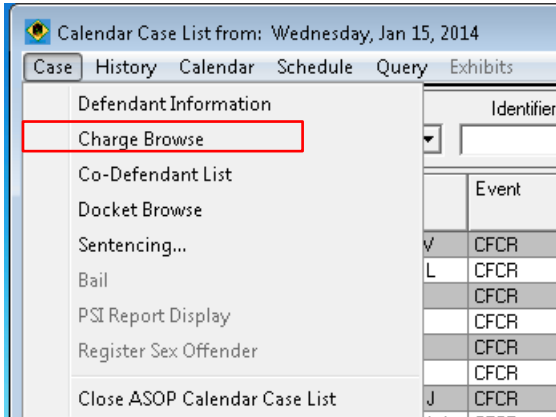

The Charge Browse Form is used to:

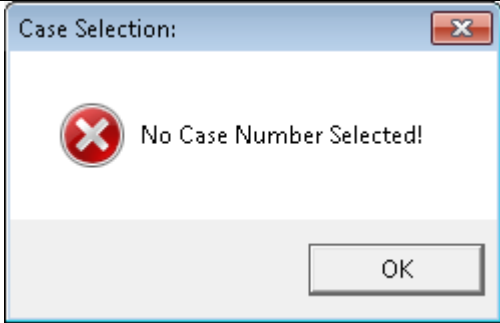

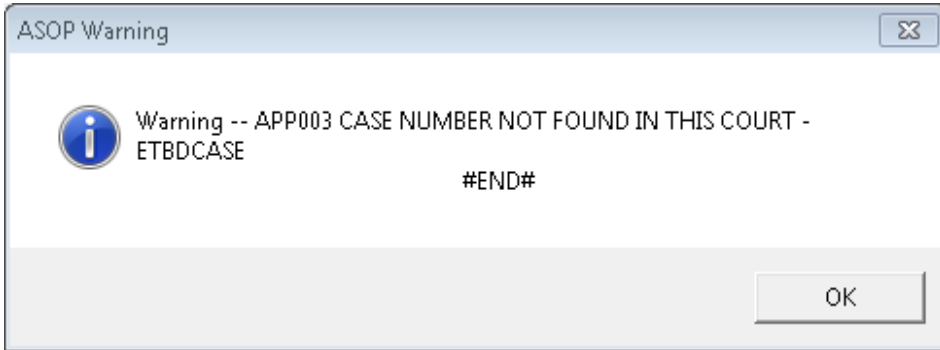

- Add or Update Charge Information for a particular Case

The screenshot shows a software window titled "Charge Browse/Add". At the top, there is a menu bar with options: Case, History, Calendar, Schedule, Query, and Exhibits. Below the menu bar, on the left, is a "Case Selection" section with a dropdown menu and a ">>" button. To the right of this is a "Defendant Information" section, which is highlighted with a yellow box. It contains fields for Name, DOB, Sex, Race, SBI #, Crit, and Cnty. Below these fields are three date input fields: Case Stat, Offense Date, and Arrest Date. The main area of the window is a large table titled "Charge Browse/Add". The table has columns: Seq, Statute, CRA Num, Description, Disp Code, Disp Date, Judge, Reason, V, and T I. The table body is currently empty. At the bottom of the window, there is a text instruction: "Select Charge and 'Right Click' the Mouse to add VOP, Contempt, LIO's or access Benchbook Information". To the right of this text are five buttons: Clear, NOLP, Repeat Disp, Add\Upd, and Close.

Seq	Statute	CRA Num	Description	Disp Code	Disp Date	Judge	Reason	V	T I

CB-LI-004	<p>When the statute is selected, a message box is populated, providing a decision:</p> 	
CB-LI-005	<p>The user will have the ability to click Yes, which will assign the Lessor Offense to the Original Offense. When that has occurred, the new Lessor Offense is added to the Charge/Browse Add field, with the Original Statute and Original Description fields being filled with the Original Offense:</p> 	
CB-LI-006	<p>If the user clicks No, the process cancels.</p>	
CB-LI-007	<p>If the user attempts to select a statute that has an Effective Date that is after the Date of Offense of the Original Charge, an error message is populated:</p> 	
CB-LI-008	<p>If the user attempts to select a Statute that has a Retired Date, an error message is populated:</p>	

An error dialog box titled "ASOP Project" with a red 'X' icon. The message reads: "Offense Date must be between Effective Date and Retired Date." There is an "OK" button at the bottom right.

CB-LI-009 If the user selects cancel on the Lessor Included Offense Statute Lookup box, an error message will populate:

A dialog box titled "Lessor Included Offense Statute Lookup" with a red 'X' icon. It contains a "Charge Information" section with fields for Seq#, Statute, Crim Act Num, Short Desc, Offense Date, Arrest Date, Disp Code, and VDP Lvl. Below this is a table of statutes with columns for Statute, Effective Date, Retired Date, Description, and Seq. At the bottom, there is a "Search Selection" section with a "Statute:" field, a "Search" button, a "Select" button, and a "Cancel" button (highlighted with a red border).

An error dialog box titled "NO LIO SELECTED" with a red 'X' icon. The message reads: "No LIO Statute returned from Statute Lookup". There is an "OK" button at the bottom right.

CB-
ADDC-
000

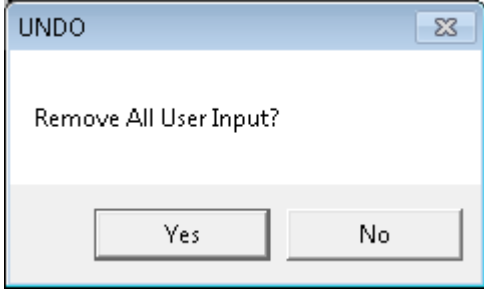

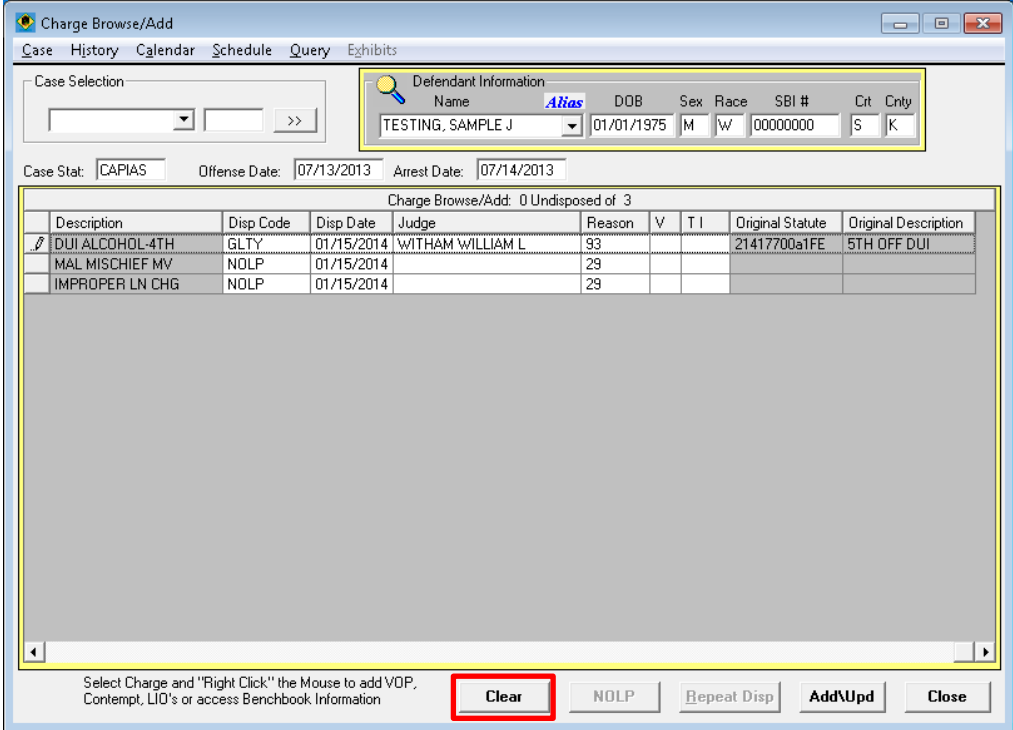

When the user has completed adding a V.O.P/C.O.C charge, or a Lessor Included charge, the user has the ability to select the Add\Upd Button on the Charge Browse/Add screen:

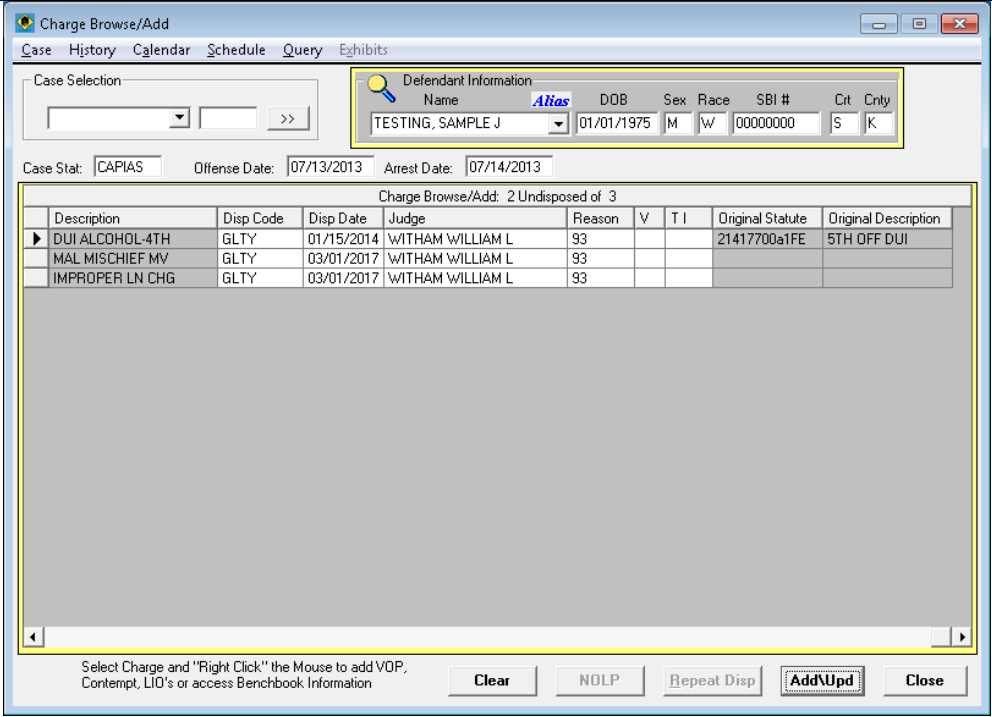

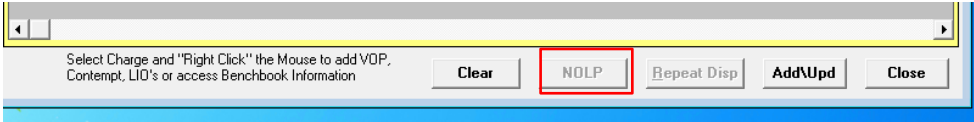

CB-
ADDC-
001

The Mainframe database is then updated with the new information, and a message box is populated:

CB-
CLRC-
000

If the user chooses not to add a V.O.P/C.O.C charge or a Lessor Included charge, the user has the ability to select the Clear Button on the Charge Browse/Add screen:

CB-CLRC-001	<p>A message box is populated, requesting user input:</p>  <p>Clicking Yes will remove all updates the user has made until this point. Clicking No cancels the process.</p>	
CB-RPTD-000	<p>If an Original charge has been disposed and the Add/Update button has been selected, the user will have the ability highlight the charge and any other charges requiring the same disposition and use the Repeat Disp button to Update the dispositions on those selected charges:</p> 	
CB-RPTD-001	<p>This will dispose of the new charges in the same manner as the previously disposed charge:</p>	

		
CB-RPTD-002	<p>The NOLP button is not enabled for this form.</p> 	
CB-INIT-015	<p>The close button on the Charge Browse form will close the box form.</p>	

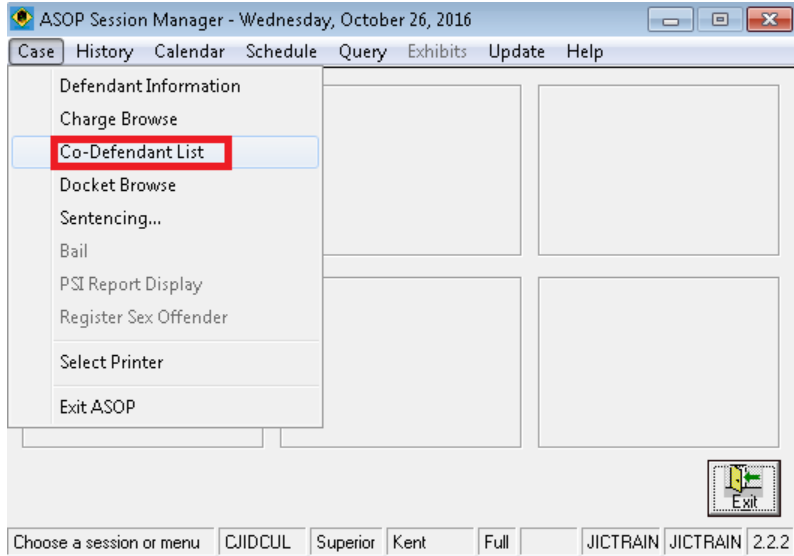

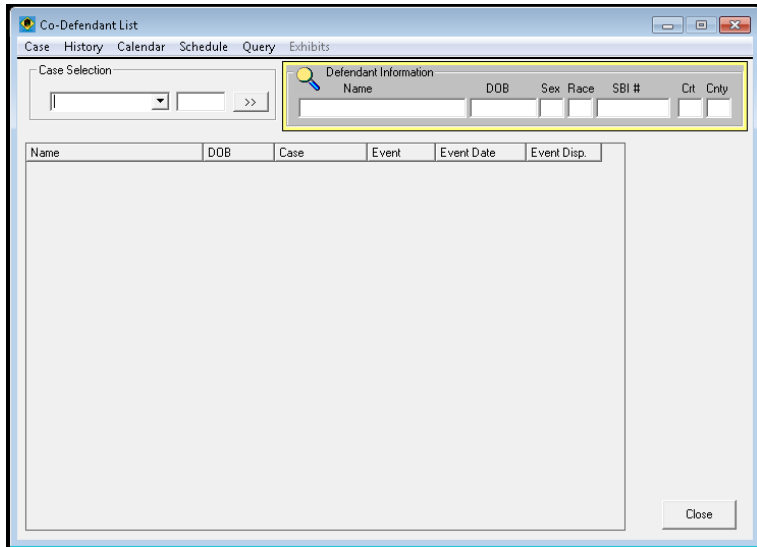

3.2.4 Co-Defendant List

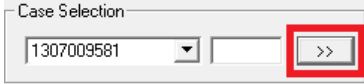

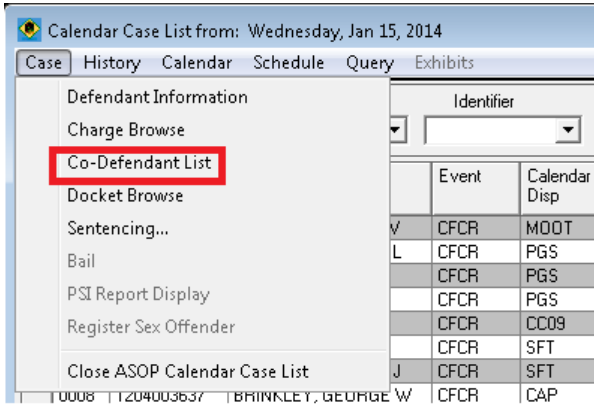

The Co-Defendant List Form is used to:

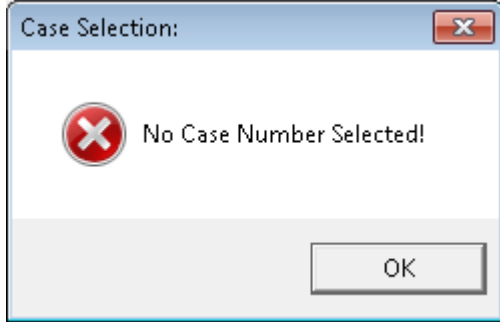

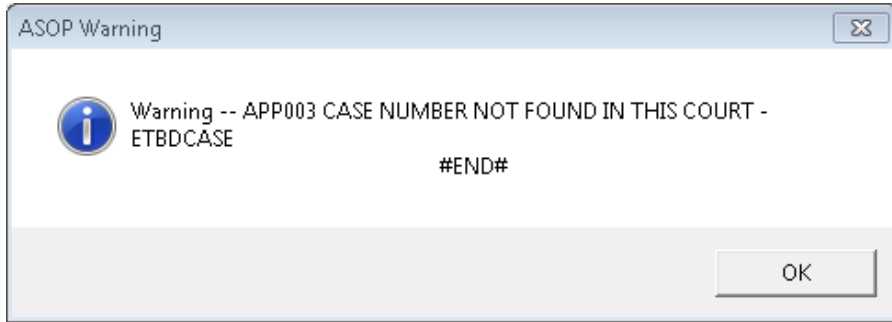

- Display any Co-Defendant associated with a given Case Number

The screenshot shows a software window titled "Co-Defendant List". It features a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". Below the menu is a "Case Selection" section with a dropdown menu, a text input field, and a ">>" button. To the right is a "Defendant Information" section, highlighted with a yellow border, containing fields for "Name", "DOB", "Sex", "Race", "SBI #", "Crt", and "Cnty". The main area of the window is a large table with columns: "Name", "DOB", "Case", "Event", "Event Date", and "Event Disp.". The table is currently empty. A "Close" button is located in the bottom right corner of the window.

Name	DOB	Case	Event	Event Date	Event Disp.

CD-CCL-000

If the Co-Defendant List form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, all cases on the Calendar Case List will be returned to the “Case Selection” grid dropdown list when the drop-down list is accessed. The information returned to the Case Selection drop-down list will be:

- Case Number
- Defendant Name
- Lead Charge
- Calendar Sequence Number

Case Number	Defendant	Lead Charge	Cal
	SAMPLE, TESTING J	ARSON 3RD	
	TESTING, SAMPLE J	DUI	
	TESTING, SAMPLE J	DUI	

The user will have the ability to select any of the cases loaded into the dropdown list control.

CD-CCL-001

When the Co-Defendant List form is initialized, and a case selection is made, either by inputting the information manually, or is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, if the Defendant has any known aliases, the Alias field will be presented, and the user will be able to access the drop-down menu to access all known aliases available in the drop down for the Defendant’s name. The Alias List is for informational purposes only.

Name	DOB	Case	Date
SAMPLE, TESTING J	01/01/1951		

CD-CCL-002

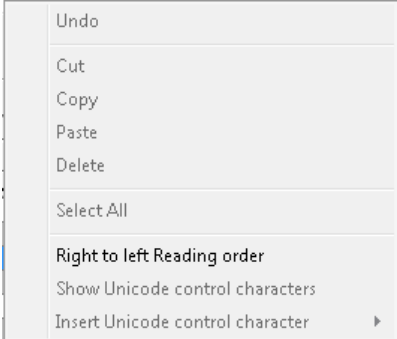

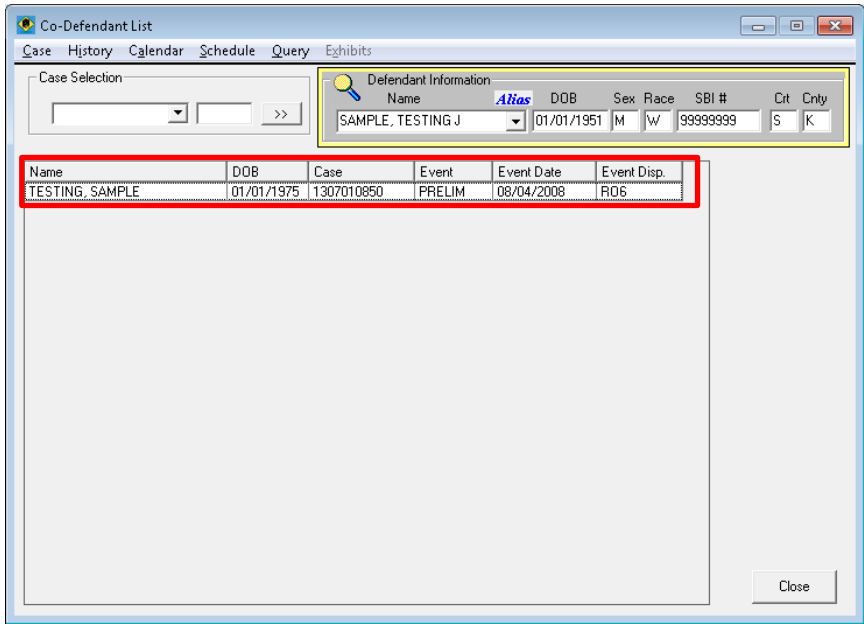

If the user clicks the Looking Glass in the Defendant Information Screen:

the Quick Name Search form will open:

A screenshot of the "Quick Name Search" form. It features a search bar with "Search By:" and "NAME:" labels, and dropdown menus for "Court:", "County:", and "Status:". A "Search" button is located to the right of the search bar. Below the search bar is a table with columns for Case Number, Defendant Name, Court Status - County, Status, DOB, SBI #, Arrest, Number, Date, Lead Charge, and Alias. The table is currently empty. At the bottom of the form, there is a "Shift ->" button, a instruction "Double Click row of Case to select and Close Name Search", and "MORE" and "Cancel" buttons.

Case Number	Defendant Name	S	C	F	M	Ct	Status	DOB	SBI #	Arrest	Number	Date	Lead Charge	Alias
-------------	----------------	---	---	---	---	----	--------	-----	-------	--------	--------	------	-------------	-------

CD-CCL-003	<p>If the user right-clicks in any of the fields in the Defendant Information Screen a message box provides to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p> 	
CD-INIT-008	<p>If there is a Co-Defendant entered into the system for this Case, this information will be retrieved.</p>  <p>This information cannot be updated or modified from this screen.</p>	
CD-CCL-004	The close Button on the Co-Defendant List form will close the box form.	

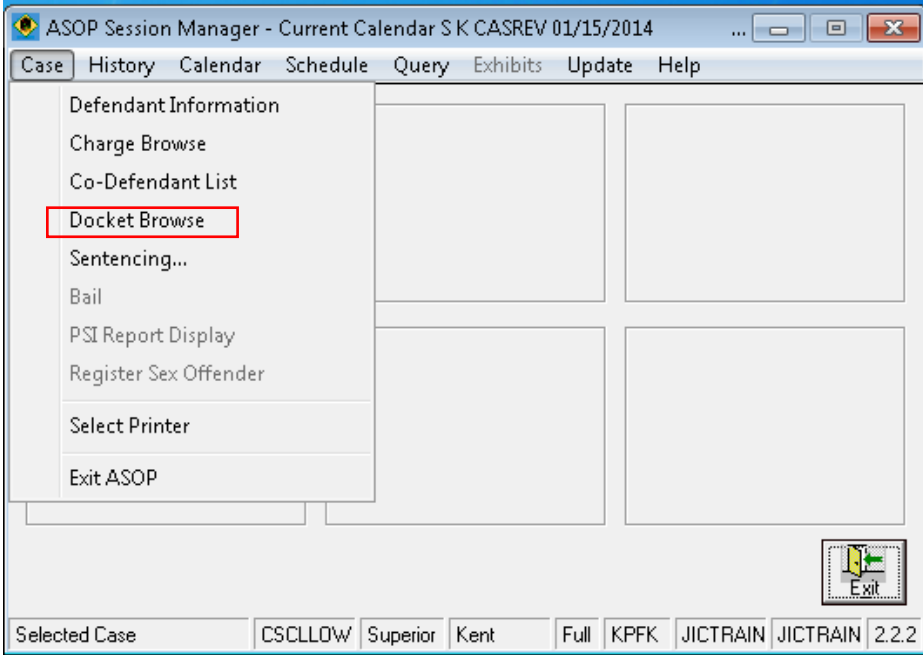

3.2.5 Docket Browse

The Docket Browse Form is used to:

- Add or Update Docket Information for a particular Case

The screenshot shows a software window titled "Docket" with a menu bar containing "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". The interface includes a "Case Selection" section with a dropdown menu and a ">>" button. To the right is a "Defendant Information" section with fields for Name, DOB, Sex, Race, SBI #, Crt, and Cnty. Below these are filters for "Highest Ref:", "Crt:" (dropdown), "Event =" (dropdown), "Date From:" (text), and a "Browse Only" button. The main area is a table with the following headers: Crt, Cty, Event, Action, Date, Ref, Short Description, Add By, Add Date, and Judge. The table body is currently empty. At the bottom, there is a text instruction: "Click 'Add' button to Add a new docket . Double Click on Docket Entry above to Update." and two buttons: "Add" and "Close".

Crt	Cty	Event	Action	Date	Ref	Short Description	Add By	Add Date	Judge
-----	-----	-------	--------	------	-----	-------------------	--------	----------	-------

Functional Requirement Number	Description	Reference Number
DB-INIT-000	<p>The Docket Browse form should be initialized by clicking on the Docket Browse menu option from the Case option on the ASOP Session Manager Form.</p> 	

DB-INIT -
001

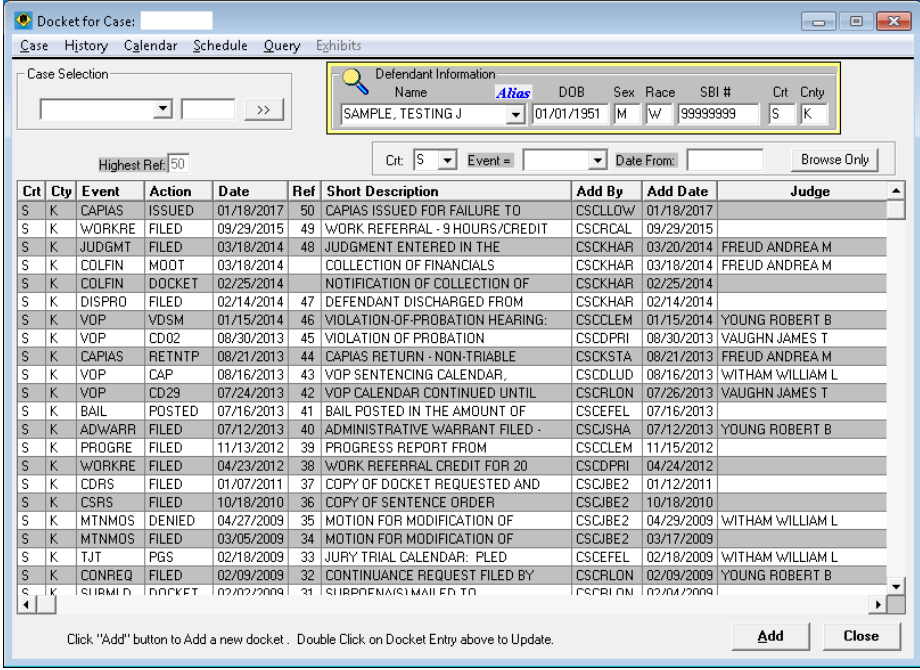

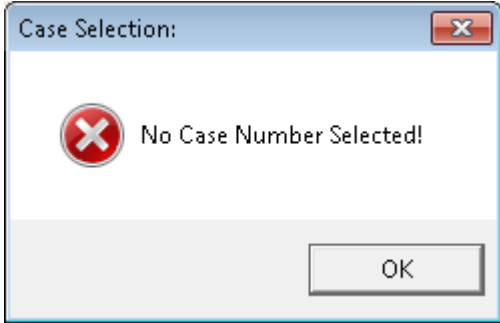

The Docket Browse form will be displayed with no specific Case selected, with the following parts:

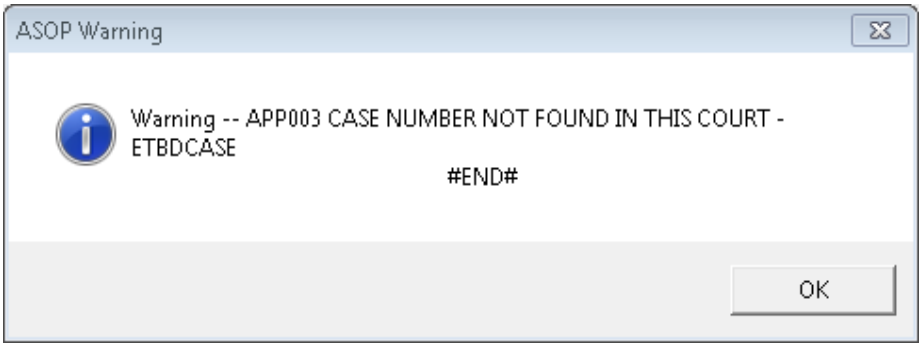

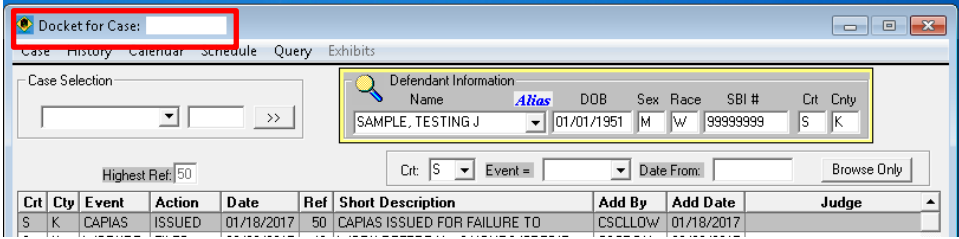

- Defendant Information
- Case Selection
- Docket Information for a specific Case

DB-INIT-
002

A user must have the ability to enter a case number manually by inputting the information, or by accessing the form from the Calendar Case List or the Calendar Event / Charge Disposition Form. If entered manually, the user can retrieve the form data by hitting ENTER, or by clicking the double right angle bracket Button provided:

If the form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, the form will populate the data completely:

DB-INIT-003	If the Form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, the Calendar Case Sequence Number field will automatically be filled.	
DB-INIT-003	<p>The user will have the ability to access the form from any other form after a case selection is made, and the form will populate the data completely.</p>  <p>The screenshot shows a software window titled "Docket for Case:". It has tabs for Case, History, Calendar, Schedule, Query, and Exhibits. The "Case Selection" section has a dropdown menu and a search button. The "Defendant Information" section displays fields for Name (SAMPLE, TESTING J), Alias, DOB (01/01/1951), Sex (M), Race (W), SBI # (99999999), Crt (S), and Cnty (K). Below this is a table of docket entries with columns: Crt, Cty, Event, Action, Date, Ref, Short Description, Add By, Add Date, and Judge. The table lists various events like CAPIAS, WORKRE, JUDGMT, COLFIN, DISPRO, VOP, CAP, BAIL, and MTNMOS. At the bottom, there are "Add" and "Close" buttons and a note: "Click 'Add' button to Add a new docket. Double Click on Docket Entry above to Update."</p>	
DB-INIT-004	<p>If no Case Selection is made prior to trying to access the form from another form, an error message will appear prior to form initialization:</p>  <p>The screenshot shows an error dialog box titled "Case Selection:". It contains a red circle with a white 'X' icon and the text "No Case Number Selected!". There is an "OK" button at the bottom right.</p>	

DB-INIT-005	<p>If an incorrect case number is manually inputted, and the Enter key or the double right angle bracket button clicked, the following error message must appear:</p>  <p>The dialog box is titled 'ASOP Warning' and contains an information icon, the text 'Warning -- APP003 CASE NUMBER NOT FOUND IN THIS COURT - ETBDCASE', the text '#END#' centered, and an 'OK' button at the bottom right.</p>	
DB-INIT-006	<p>The Docket Browse form initializes with the Case Number in the header:</p>  <p>The screenshot shows the 'Docket for Case:' form. A red box highlights the 'Docket for Case:' label. A yellow box highlights the 'Defendant Information' section, which includes fields for Name (SAMPLE, TESTING J), Alias, DOB (01/01/1951), Sex (M), Race (W), SBI # (99999999), Crt (S), and Cnty (K). Below this is a table with columns: Crt, Cty, Event, Action, Date, Ref, Short Description, Add By, Add Date, and Judge. The table contains one row: S, K, CAPIAS, ISSUED, 01/18/2017, 50, CAPIAS ISSUED FOR FAILURE TO, CSCLLOW, 01/18/2017.</p>	

DB-INIT-007

The bottom of the form has a footer containing the message “Click ‘Add’ button to Add a new docket. Double Click on Docket Entry above to Update”:

The screenshot shows a window titled "Docket" with a menu bar (Case, History, Calendar, Schedule, Query, Exhibits). The form contains a "Case Selection" section with a dropdown and a ">>" button. To the right is a "Defendant Information" section with fields for Name, DOB, Sex, Race, SBI #, and two checkboxes for "Crt" and "Only". Below these are filters for "Crt:", "Event =", and "Date From:" with a "Browse Only" button. A table with columns "Crt", "Cty", "Event", "Action", "Date", "Ref", "Short Description", "Add By", "Add Date", and "Judge" is shown. At the bottom, a red-bordered box contains the text: "Click 'Add' button to Add a new docket . Double Click on Docket Entry above to Update." There are "Add" and "Close" buttons at the bottom right.

DB-INIT-008

The Docket Browse form provides for a scroll bar on the bottom of the data field to allow the user to move the Docket/Browse Add screen to the right and to the left:

The screenshot shows a web application window titled "Docket for Case:". It contains several tabs: Case, History, Calendar, Schedule, Query, and Exhibits. The "Case" tab is active. Below the tabs, there is a "Case Selection" section with a dropdown menu and a "Defendant Information" section with fields for Name, Alias, DOB, Sex, Race, SBI #, Crt, and Cnty. Below these sections is a table of docket entries. The table has columns: Crt, Cnty, Event, Action, Date, Ref, Short Description, Add By, Add Date, and Judge. The table contains 20 rows of data. At the bottom of the table, there is a scroll bar. Below the scroll bar, there is a message: "Click 'Add' button to Add a new docket. Double Click on Docket Entry above to Update." and two buttons: "Add" and "Close".

DB-INIT-009

The user will have the ability to **automatically retrieve** all of the Defendant Information, Case Status, and Docket Information after a valid Case Selection is entered at form initialization. The information to be retrieved at form initiation to populate the search grid:

	Grid Column Name	Grid Column Description	Table / Field

DB-INIT- 010	The information returned to the Case Selection drop-down list will be: <ul style="list-style-type: none"> • Case Number • Defendant Name • Lead Charge • Calendar Sequence Number 			

DB-INIT -
011

When the Docket Browse form is initialized, and a case selection is made, either by inputting the information manually, or is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, if the Defendant has any known aliases, the Alias field will be presented, and the user will be able to access the drop-down menu to access all known aliases available in the drop down for the Defendant's name. The Alias List is for informational purposes only.

The screenshot displays a web application interface for 'Defendant Information Case'. At the top, there is a blue header bar with the title 'Defendant Information Case' and a search icon. Below the header is a navigation menu with tabs: 'Case', 'History', 'Calendar', 'Schedule', 'Query', and 'Exhibits'. The main content area is divided into two sections. The top section, 'Case Selection', contains a dropdown menu, a text input field, and a '>>' button. The bottom section, 'Additional Defendant Information', contains a 'Defendant Information' sub-section with a 'Name' field and a dropdown menu. The dropdown menu is highlighted with a red border, and the word 'Alias' is written in blue text next to it, indicating the list of aliases available for selection.

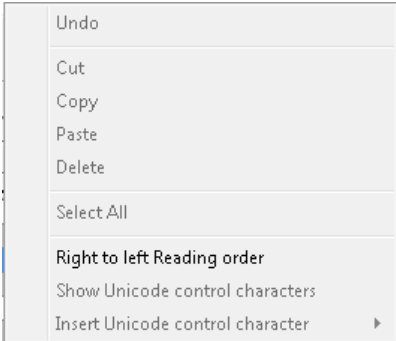

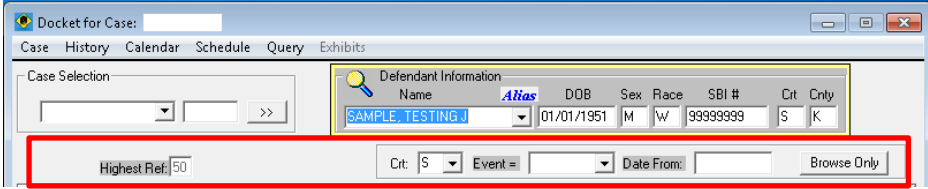

DB-INIT-012

If the user clicks the Looking Glass in the Defendant Information Screen:

the Quick Name Search form populates:

A screenshot of the "Quick Name Search" form. It features a search interface with dropdowns for "Last" and "First" names, a "NAME:" field, and filters for "Court" (S), "County" (K), and "Status" (ALL). A "Search" button is present. Below the search fields is a table with columns for Case Number, Defendant Name, Court Status - County, Status, DOB, SBI #, Arrest Number, Date, Lead Charge, and Alias. The table is currently empty. At the bottom, there are "Shift ->" and "MORE" buttons, and a "Cancel" button. A instruction "Double Click row of Case to select and Close Name Search" is displayed.

DB-INIT-013	<p>If the user right-clicks in any of the fields in the Defendant Information Screen a message box provides to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p> 	
DB-INIT-014	<p>The form provides an information header listing the number of entries for the Docket (Highest Ref), the Court (Crt), a drop down for the Event for the user to select the Event Number, a text box for user input for a Date to search from, and a Browse Only Button: NEED CLARIFICATION on the purpose of the Browse Button - Must be Determined By Analyzing Program Code During Design / Development</p> 	
DB-INIT-015	<p>Browse Only – Must be Determined By Analyzing Program Code During Design / Development</p>	

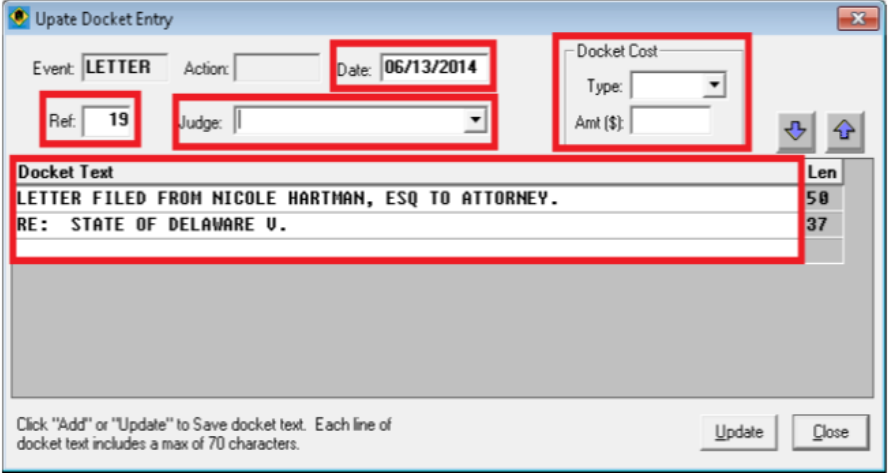

DB-
UPDD-000

Double-clicking an on a selected entry in the Docket Browse screen gives the user the ability to initialize the Update Docket Entry screen:

DB-
UPDD-001

The bottom of the form has a footer containing the message “Click ‘Add’ or ‘Update’ to Save docket text. Each line of docket text includes a max of 70 characters”:

3.2.6 Select Printer

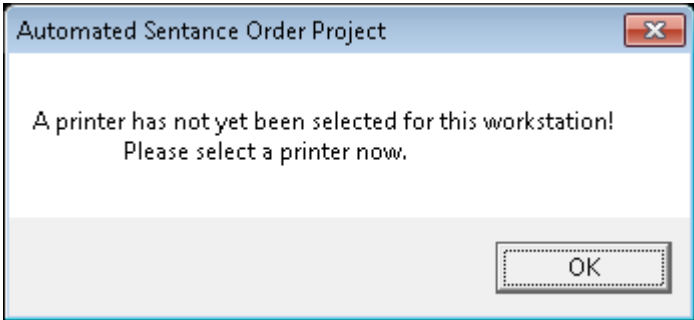

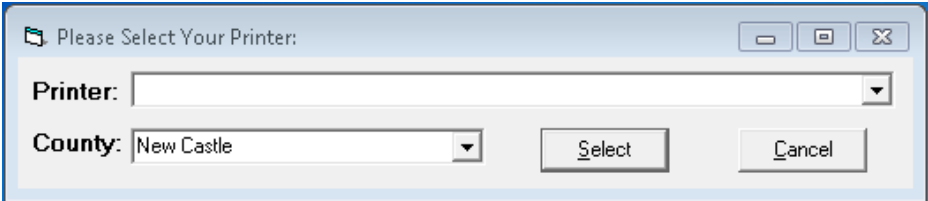

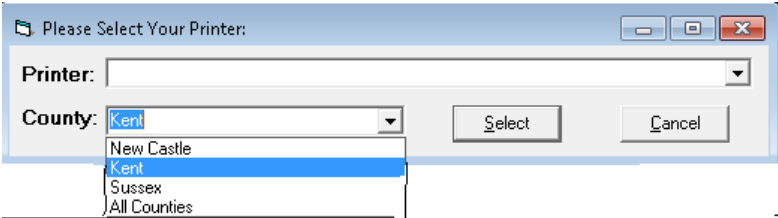

The Select Printer Form is used to:

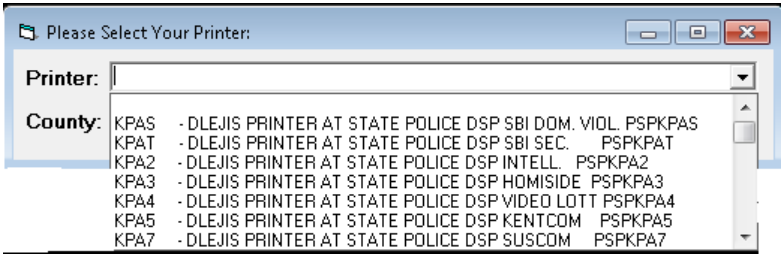

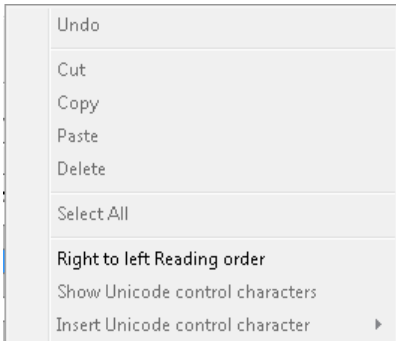

- Provide a means for a user to select the necessary printer for use with their ASOP session

The screenshot shows a Windows-style dialog box titled "Please Select Your Printer:". It contains two dropdown menus: "Printer:" which is currently empty, and "County:" which is set to "New Castle". To the right of the "County:" dropdown are two buttons: "Select" and "Cancel". The dialog box has standard minimize, maximize, and close buttons in the top right corner.

Functional Requirement Number	Description	Reference Number
SP-INIT-000	<p>Select Printer form should be initialized by clicking on the Select Printer menu option from the Case option on the ASOP Session Manager Form.</p> 	

SP-INIT-001	<p>When logging into the ASOP Session Manager, if there is no printer setup for the user in the printer configuration file, a message will indicate the need for configuring a printer:</p>  <p>The Select Printer form will be populated after clicking OK:</p> 	
SP-INIT-002	<p>The user is provided with a Country drop down box to select which county the user is located. There is a selection for All Counties, which lists all the printers in the printer configuration file. The field is initially filled based on the user configuration, and the field needs to be filled to select a printer.</p>  <p>The best method for determining the list of printers will be part of the design phase.</p>	

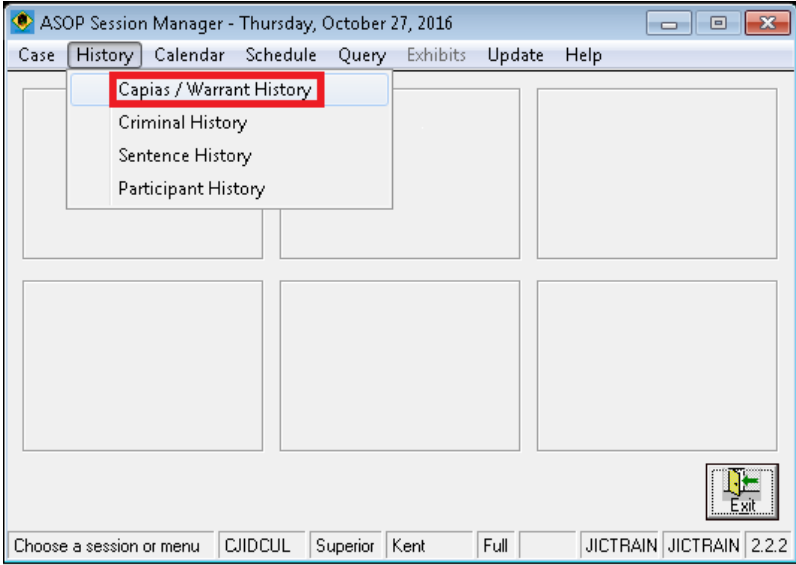

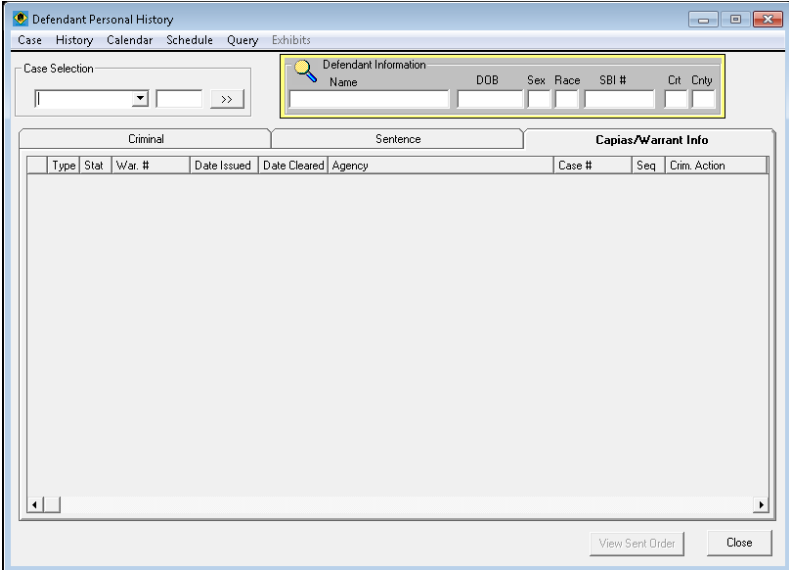

SP-INIT-003	<p>The user is provided with a Printer drop down to allow the user to select a printer from the printer configuration file. The list is to be filtered for the choice in the County drop down box. The list is sorted alphabetically.</p>  <p>The user will have the ability to type in the name of the printer, if known.</p> <ul style="list-style-type: none"> The Select Printer option should allow for ALL mainframe printers to be entered. THE CURRENT PRINTER SELECTION ONLY ALLOWS FOR THE SELECTION OF PRINTER THAT BEGIN WITH THE LETTERS "KP". NO "KQ" PRINTERS CAN BE SELECTED. This program fix description is contained in the 3.2.19 section of this requirements document that lists requested fixes. 	
SP-INIT-004	<p>The user will have the ability to select the Select button, which will select the printer the user highlights. The Cancel Button will close the box form.</p>	
SP-INIT-005	<p>Right-clicking in either of the fields in the Select Printer Screen provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Select Printer Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p> 	

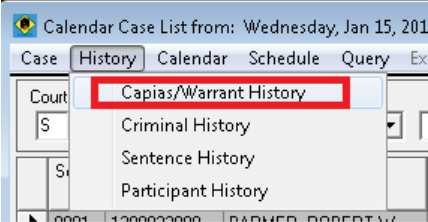

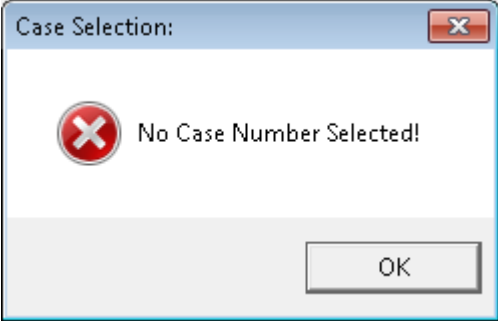

3.2.7 Defendant Personal History – Overall

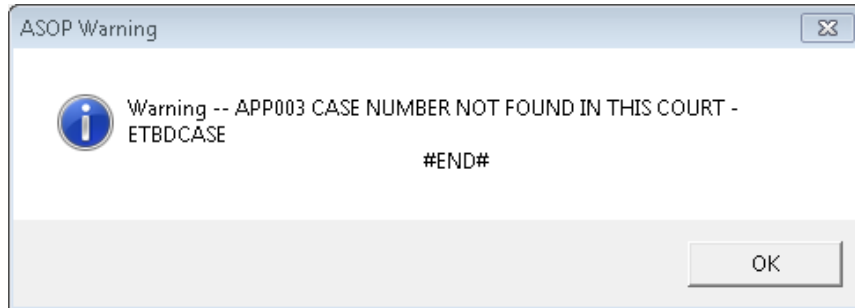

The DEFENDANT PERSONAL HISTORY Form is used to:

- Display Any Capias/Warrant History for a selected Defendant
- Display Any Criminal History for a selected Defendant
- Display Any Sentencing History for a selected Defendant

The screenshot shows a software window titled "Defendant Personal History". It features a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". On the left is a "Case Selection" section with a dropdown menu and a ">>" button. On the right is a "Defendant Information" section, highlighted with a yellow box, containing fields for "Name", "DOB", "Sex", "Race", "SBI #", "Cit", and "Cnty". Below these are three tabs: "Criminal", "Sentence", and "Capias/Warrant Info". The "Criminal" tab is active, displaying a table with columns: "Type", "Stat", "War. #", "Date Issued", "Date Cleared", "Agency", "Case #", "Seq", and "Crim. Action". The table body is currently empty. At the bottom right are two buttons: "View Sent Order" and "Close".

PH-INIT-010	<p>The close button on the Participant History form will close the box form.</p>	

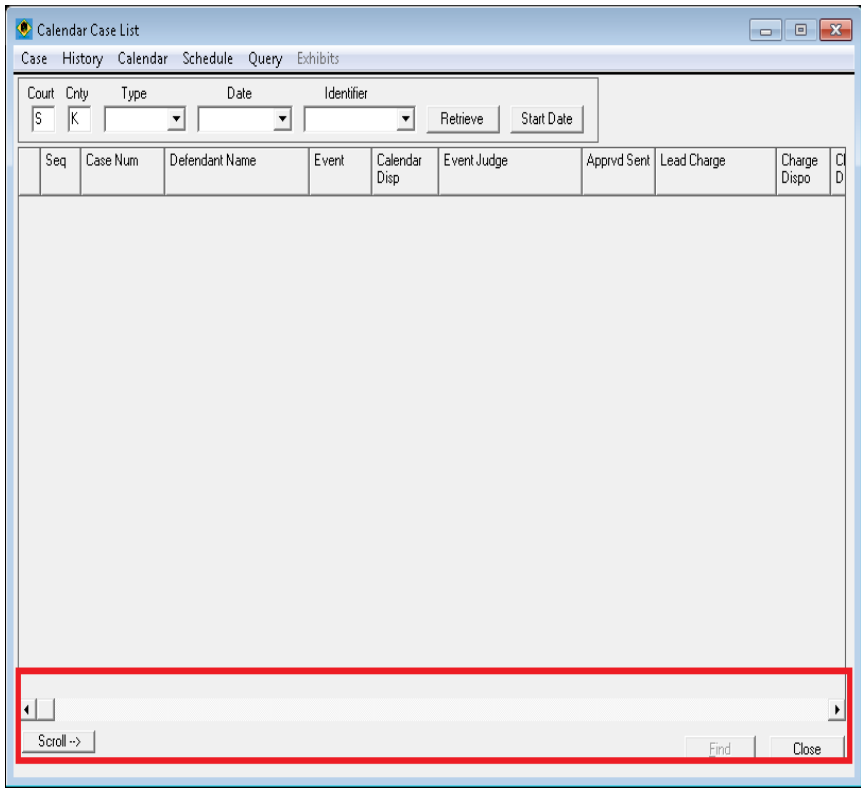

3.2.8 Calendar Case List

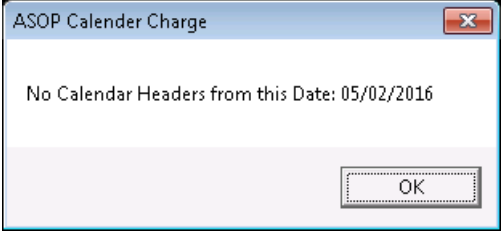

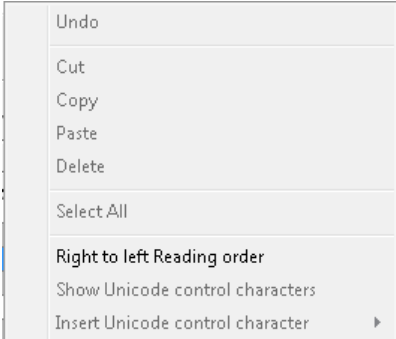

The CALENDAR CASE LIST Form is used to:

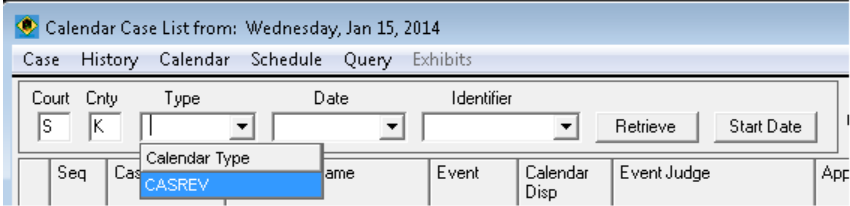

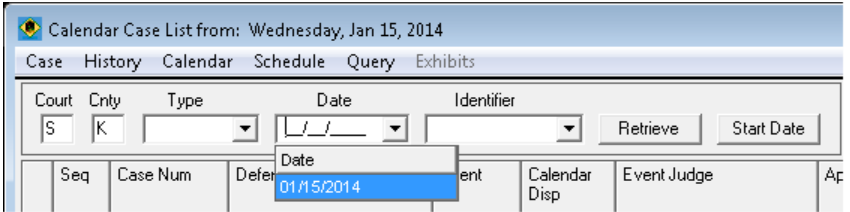

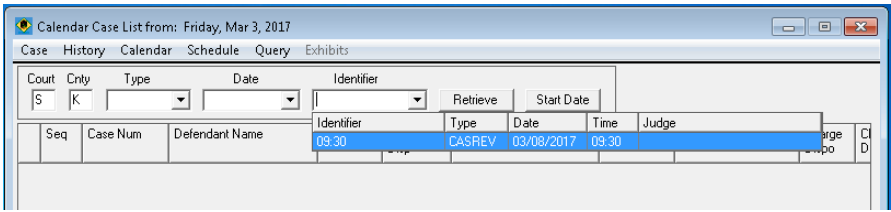

- Display all cases for a given Calendar
- Find specific cases for a given Calendar
- Display and Create notes for a given case

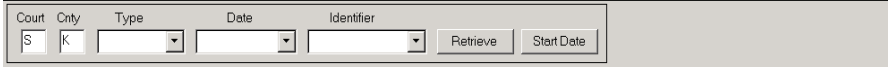

The screenshot shows a software window titled "Calendar Case List". It features a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". Below the menu bar is a search area with fields for "Court" (containing 'S'), "Cnty" (containing 'N'), "Type" (a dropdown), "Date" (a date picker), and "Identifier" (a dropdown). There are "Retrieve" and "Start Date" buttons. Below the search area is a table with the following headers: "Seq", "Case Num", "Defendant Name", "Event", "Calendar Disp", "Event Judge", "Apprvd Sent", "Lead Charge", "Charge Dispo", and "C D". The table body is currently empty. At the bottom left, there is a "Scroll -->" button. At the bottom right, there are "Find" and "Close" buttons.

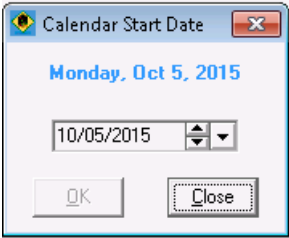

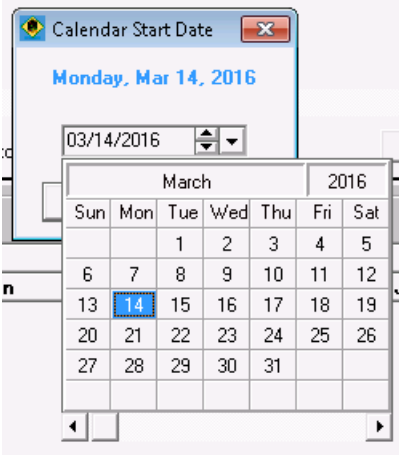

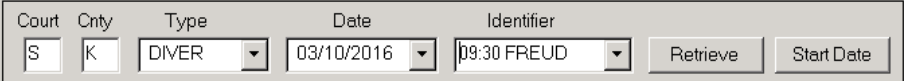

Functional Requirement Number	Description	Reference Number
CCL-INIT-000	<p>The Calendar Case List form should be initialized by clicking on the Calendar Case List menu option from the Calendar option on the ASOP Session Manager Form</p>  <p>The screenshot shows the ASOP Session Manager application window titled 'ASOP Session Manager - Thursday, October 27, 2016'. The menu bar includes 'Case', 'History', 'Calendar', 'Schedule', 'Query', 'Exhibits', 'Update', and 'Help'. The 'Calendar' menu is open, showing a list of options: 'Calendar Case List' (highlighted with a red box), 'Cal Event/Charge Dispo', 'Case/Calendar Participants', and 'Calendar Header Mass Add'. The main window area is divided into several empty rectangular panels. At the bottom, there is a status bar with the text 'Choose a session or menu' and several buttons: 'CJIDCUL', 'Superior', 'Kent', 'Full', 'JICTRAIN', and 'JICTRAIN 2.2.2'. An 'Exit' button is also visible in the bottom right corner.</p>	

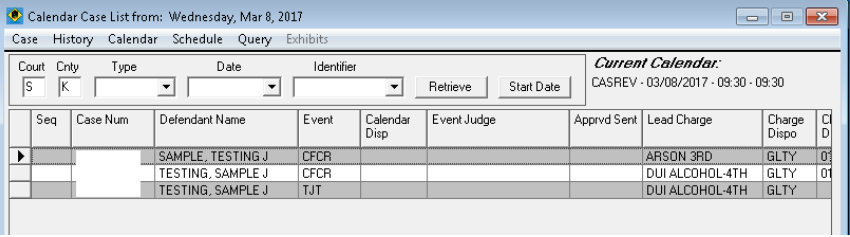

CCL-INIT-001	<p>The Calendar Case List form provides for a scroll bar and a Scroll button on the bottom of the data field to allow the user to move the Calendar Case List screen to the right and to the left. The Scroll button will scroll right when depressed until the far-right screen is reached, and then will switch to left scroll until the far-left screen is reached:</p>												
													
CCL-INIT-002	<p>The user must have the ability to automatically retrieve all of the calendar header information for the calendars within the current date and the next 5 calendar days and load the information into the Search Grid at form initialization. The information to be retrieved at form initiation to populate the search grid:</p>												
	<table><tr><th>Grid Column Name</th><th>Grid Column Description</th><th>Table / Field</th></tr><tr><td>Type</td><td>Calendar Type</td><td>JIC-CALENDAR-HEADER.CALENDER-TYPE</td></tr><tr><td>Date</td><td>Date of Scheduled Hearing</td><td>JIC-CALENDAR-HEADER.CALENDER-DATE</td></tr><tr><td>Identifier</td><td>Calendar Identifier</td><td>JIC-CALENDAR-HEADER.CALENDER-CONTROL</td></tr></table>	Grid Column Name	Grid Column Description	Table / Field	Type	Calendar Type	JIC-CALENDAR-HEADER.CALENDER-TYPE	Date	Date of Scheduled Hearing	JIC-CALENDAR-HEADER.CALENDER-DATE	Identifier	Calendar Identifier	JIC-CALENDAR-HEADER.CALENDER-CONTROL
Grid Column Name	Grid Column Description	Table / Field											
Type	Calendar Type	JIC-CALENDAR-HEADER.CALENDER-TYPE											
Date	Date of Scheduled Hearing	JIC-CALENDAR-HEADER.CALENDER-DATE											
Identifier	Calendar Identifier	JIC-CALENDAR-HEADER.CALENDER-CONTROL											

CCL-INIT-003	<p>Display a message box if there are no calendars available for the current day and the next 5 calendar days.</p> 	
CCL-INIT-004	<p>Ability to only retrieve calendar header information for the <u>specific Court and Location</u> associated with the user logged into the application. The Court and Location are taken from global variables set at application startup.</p>	
CCL-INIT-005	<p>Right-clicking in either of the Court or Location fields provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For the fields of the Court or Location, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p> 	
CCL-INIT-006	<p>Ability to pre-fill the calendar “Type”, “Date” and “Identifier” drop-down form objects with the corresponding calendar header information returned at form startup. The user can use this pre-filled information for calendar selection.</p>	

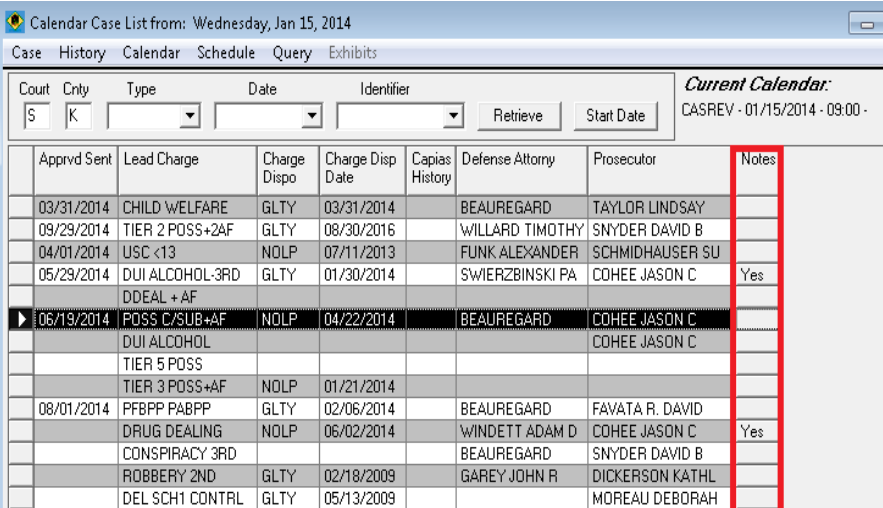

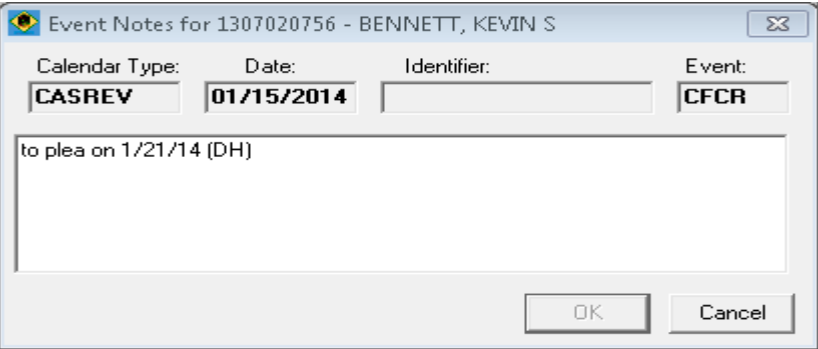

CCL-INIT-007	<p>The “Type” dropdown box form object will only pre-fill with the calendar Types which are contained in the calendar header data that is returned to the form at startup. If a particular Calendar Type is not present in the data returned, it will not display in the Type field.</p> 	
CCL-INIT-008	<p>The “Date” dropdown box form object will only pre-fill with the calendar Dates for the Current System Date and the next 5 calendar dates. If a particular Calendar Date contains no calendar headers in the data returned, the date will not display in the list of dates. Example below found no calendars for the 12th or 13th.</p> 	
CCL-INIT-009	<p>The “Identifier” dropdown box form object will only pre-fill with the calendar control data that is returned to the form at form startup.</p> 	

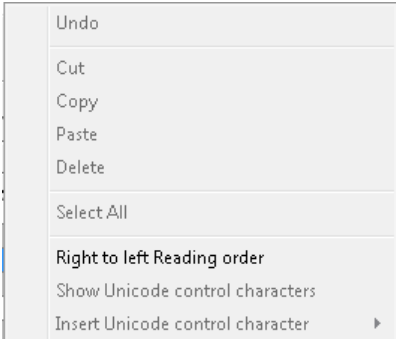

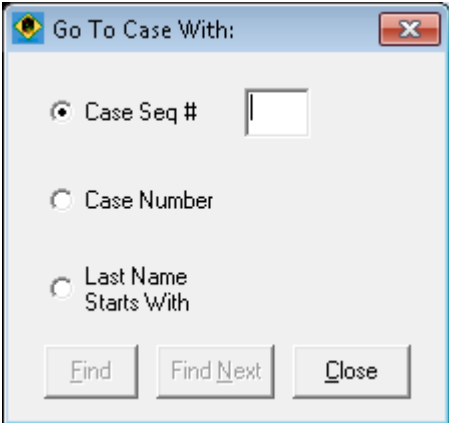

CCL-INIT-010	<p>The Calendar Search form object is displayed at the top of the Calendar Case List form and is used to search of the calendar header to be used to populate the Calendar Case List.</p> 	
CCL-INIT-011	<p>Ability to input the specific calendar “Date” or select the calendar “Date” from a pre-filled list of the current date and the next 5 calendar dates returned at form startup.</p>	
CCL-INIT-012	<p>Ability to input the specific calendar “Identifier” or select the calendar “Identifier” from a pre-filled drop-down box with the available calendar types listed for the calendars returned at form startup.</p>	

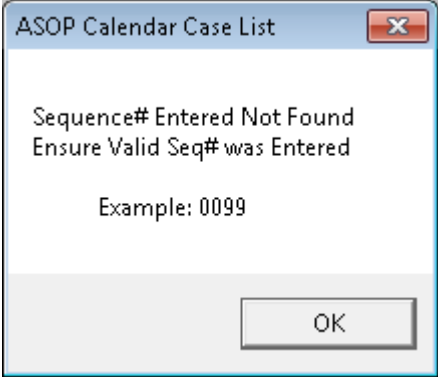

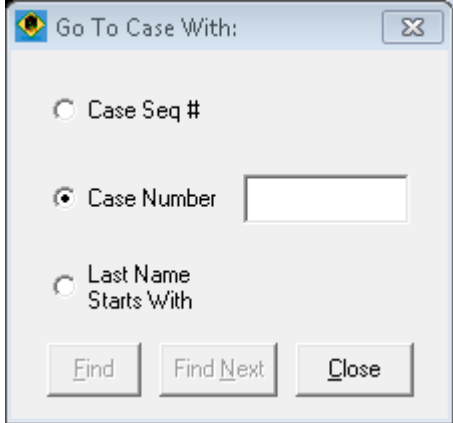

CCL-INIT-013	<p>The user will have the ability to display a list of available calendars based on a “Start Date” selected using the “Start Date” form object which will display the available calendars for the input calendar “Start Date” and the next 5 calendar days.</p> <ul style="list-style-type: none"> By clicking on the “Start Date” form object, the “Calendar Start Date” Calendar Control Object will be invoked and displayed on the screen.  <ul style="list-style-type: none"> By clicking on the “Month” down arrow, the Calendar Control will display a calendar from which the desired date can be selected. 	
CCL-INIT-014	<p>The user will have the ability to select a “Start Date” that is in the past or future and to display available calendar header information for calendars from the “Start Date” and the next 5 calendar days.</p>	
CCL-INIT-015	<p>The user will have the ability to populate the “Type”, “Date” and “Identifier” with the Calendar Header data for the desired calendar.</p> 	

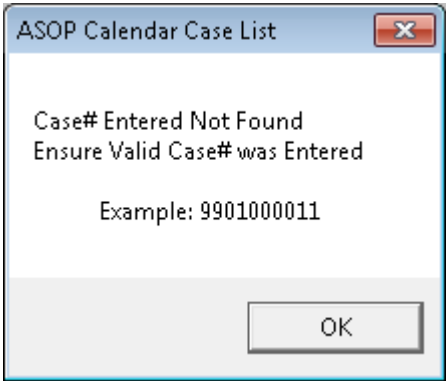

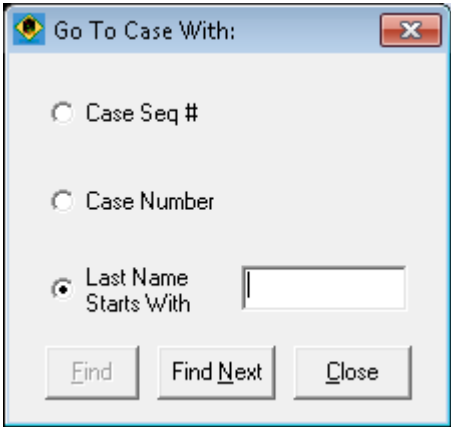

CCL-INIT-016	<p>The user will have the ability to display the Calendar Header Information for the <i>selected calendar</i> on the form after the calendar has been selected.</p> <ul style="list-style-type: none"> • Calendar Type • Calendar Date • Calendar Identifier • Presiding Judge (if available) 																									
CCL-INIT-017	<p>Clicking on the Retrieve command control will make a call to the JIC Mainframe Database to retrieve the specific case information for cases which are scheduled to the selected calendar and populate the Calendar Case List grid with the following data.</p> 																									
	<table border="1"> <thead> <tr> <th>Grid Column Name</th><th>Grid Column Description</th><th>Table / Field</th></tr> </thead> <tbody> <tr> <td>Seq</td><td>Calendar Sequence Number</td><td>JIC-EVENT-SCHEDULE.CALENDAR-SEQ (calculated in ETB946N)</td></tr> <tr> <td>Case Number</td><td>Calendar Case Number</td><td>JIC-EVENT-SCHEDULE.CT-CASE-NUM</td></tr> <tr> <td>Defendant Name</td><td>Defendant Name</td><td>JIC-INDIVIDUAL.LAST-NAME JIC-INDIVIDUAL.FIRST_NAME JIC-INDIVIDUAL.MIDDLE-INITIAL</td></tr> <tr> <td>Event</td><td>Type of Event</td><td>JIC-EVENT-SCHEDULE.EVENT</td></tr> <tr> <td>Calendar Disp</td><td>Disposition of Event</td><td>JIC-EVENT-SCHEDULE.EVENT-DISP</td></tr> <tr> <td>Event Judge</td><td>Name of the hearing Judge</td><td>JIC-CALENDER-HEADER.COURT-JUDGE</td></tr> <tr> <td>Apprvd Sent</td><td>Date the Approved Charge sent to Court</td><td>JIC-SENTENCE-OVERALL.SENTENCE-DATE</td></tr> </tbody> </table>	Grid Column Name	Grid Column Description	Table / Field	Seq	Calendar Sequence Number	JIC-EVENT-SCHEDULE.CALENDAR-SEQ (calculated in ETB946N)	Case Number	Calendar Case Number	JIC-EVENT-SCHEDULE.CT-CASE-NUM	Defendant Name	Defendant Name	JIC-INDIVIDUAL.LAST-NAME JIC-INDIVIDUAL.FIRST_NAME JIC-INDIVIDUAL.MIDDLE-INITIAL	Event	Type of Event	JIC-EVENT-SCHEDULE.EVENT	Calendar Disp	Disposition of Event	JIC-EVENT-SCHEDULE.EVENT-DISP	Event Judge	Name of the hearing Judge	JIC-CALENDER-HEADER.COURT-JUDGE	Apprvd Sent	Date the Approved Charge sent to Court	JIC-SENTENCE-OVERALL.SENTENCE-DATE

If entered manually, the user can retrieve the form data by hitting ENTER, or by clicking the double right angle bracket button provided. The box to the right of the Case Selection is the sequence number for the Case:</p>  <p>If the form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, the form will populate the data completely:</p> 	
CCP-INIT-017	<p>The user will have the ability to access the form from any other form after a case selection is made, and the form will populate the data completely.</p>	

CCP-INIT-018

Clicking on the Retrieve command control will make a call to the JIC Mainframe Database to retrieve the specific case information for cases which are scheduled to the selected calendar and populate the Calendar Case List grid with the data.

Calendar Participants Tab

The screenshot displays the 'Calendar Case List' application window for Wednesday, Mar 8, 2017. The window has tabs for Case, History, Calendar, Schedule, Query, and Exhibits. The 'Calendar' tab is active. At the top, there are input fields for Court (S), Cnty (K), Type, Date, and Identifier, along with a 'Retrieve' button and a 'Start Date' field. To the right, it shows the 'Current Calendar' as 'CASREY - 03/08/2017 - 09:30 - 09:30'. Below these fields is a 'Case Selection' dropdown and a '>>' button. A 'Defendant Header Information' section is highlighted with a yellow border, containing fields for Name (SAMPLE, TESTING), Alias, DOB (19510101), Court (S), Cnty (K), Sex (M), Race (W), and SBI # (99999999). The main area of the window is divided into three tabs: 'Calendar Participants' (selected), 'Event Participants', and 'Case Participants'. Under the 'Calendar Participants' tab, there is a section for 'CFCR Event Participants' with input fields for Judge, DAG, PD/Attny, Clerk, Reporter, and Case Manager/CSO. To the right of these fields is a 'Select a Judge Name' button. A 'Cancel' button is located to the right of the 'Select a Judge Name' button. A 'Close' button is at the bottom right of the window.

CCP-INIT-019

Event Participants Tab

The screenshot shows the 'Event Participants' tab in a web application. The interface includes a header with navigation tabs: Case, History, Calendar, Schedule, Query, and Exhibits. Below the header, there are filters for Court (S), Cnty (K), Type, Date, Identifier, and a Retrieve button. A 'Current Calendar' section shows 'CASREV - 03/08/2017 - 09:30 - 09:30'. A 'Defendant Header Information' section displays details for 'SAMPLE, TESTING', including DOB (19510101), Court (S), Cnty (K), Sex (M), Race (W), and SBI # (99999999). The main area is divided into three tabs: Calendar Participants, Event Participants (selected), and Case Participants. The 'Event Participants' tab contains fields for Judge, Prob Off, DAG (DICKERSON, KATHLEEN), Bondsman (STELLIES, BRENDA), PD/Attny (GAREY, JOHN), Legal Rep, Clerk, Other, Reporter, Tape Num, Case Manager/CSO, and a 'Create Case Participant' checkbox. A 'Select a Judge Name' button is also present. The interface includes 'Deactivate' and 'Cancel' buttons on the right and a 'Close' button at the bottom right.

CCP-INIT-020

Case Participants Tab

The screenshot shows the 'Case Participants' tab in a web application. The interface is similar to the previous one, with navigation tabs: Case, History, Calendar, Schedule, Query, and Exhibits. Filters for Court (S), Cnty (K), Type, Date, Identifier, and a Retrieve button are present. The 'Current Calendar' section shows 'CASREV - 03/08/2017 - 09:30 - 09:30'. The 'Defendant Header Information' section displays details for 'SAMPLE, TESTING', including DOB (19510101), Court (S), Cnty (K), Sex (M), Race (W), and SBI # (99999999). The main area is divided into three tabs: Calendar Participants, Event Participants, and Case Participants (selected). The 'Case Participants' tab contains fields for Judge, Prob Off, DAG (DICKERSON, KATHLEEN), Bondsman, PD/Attny (GAREY, JOHN), Legal Rep, Clerk, Other, Reporter, Case Manager/CSO, and a 'Create Event Participant' checkbox. A 'Select a Judge Name' button is also present. The interface includes 'Deactivate' and 'Cancel' buttons on the right and a 'Close' button at the bottom right.

3.2.10 Calendar Header Mass Add

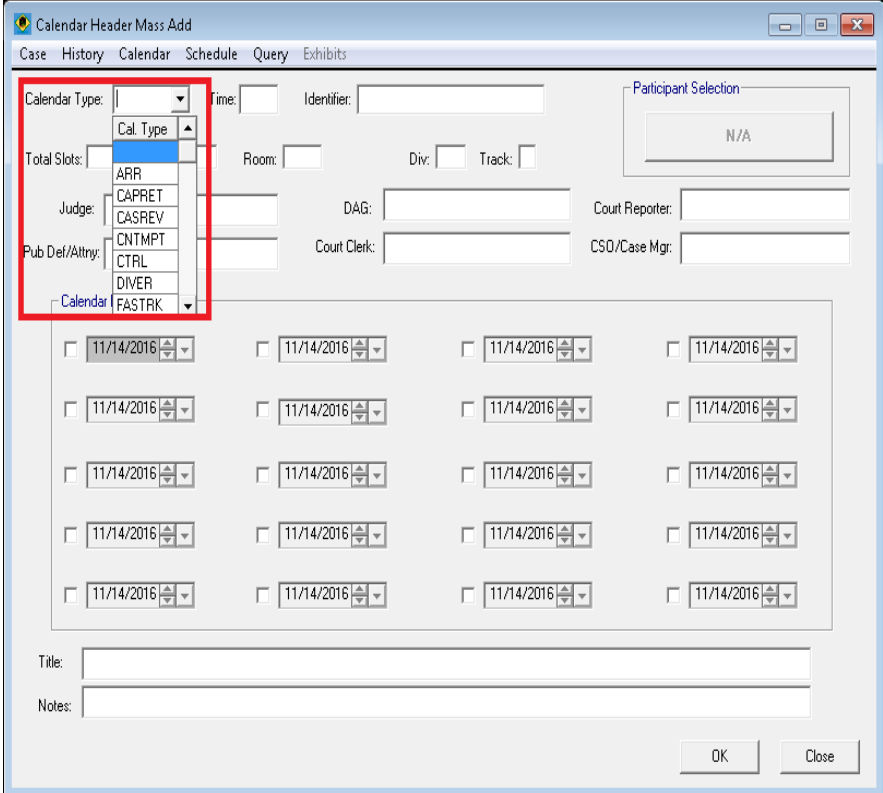

The Calendar Header Mass Add Form is used to:

- Create Headers for Calendars for Multiple Dates

The screenshot shows a software window titled "Calendar Header Mass Add" with a menu bar containing "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". The form is divided into several sections:

- Calendar Type:** A dropdown menu.
- Time:** A text input field.
- Identifier:** A text input field.
- Participant Selection:** A box containing "N/A".
- Total Slots:** A text input field.
- Incarc:** A text input field.
- Room:** A text input field.
- Div:** A text input field.
- Track:** A text input field.
- Judge:** A text input field.
- DAG:** A text input field.
- Court Reporter:** A text input field.
- Pub Def/Attny:** A text input field.
- Court Clerk:** A text input field.
- CSO/Case Mgr:** A text input field.
- Calendar Date:** A section containing a 5x4 grid of checkboxes, each followed by a date "10/25/2016" and a small calendar icon.
- Title:** A text input field.
- Notes:** A text input field.
- Buttons:** "OK" and "Close" buttons at the bottom right.

CMA-INIT-002	<p>The Calendar Type field provides a drop down to allow the user to select the Calendar Type to add. This selection is required:</p> 			

CMA-INIT-003

The Title text box provides the user with the ability to name the Calendar being added. Filling this field is required:

The screenshot shows the 'Calendar Header Mass Add' dialog box. It has tabs for Case, History, Calendar, Schedule, Query, and Exhibits. The 'Calendar' tab is active. The dialog contains several input fields: Calendar Type (dropdown), Time (text), Identifier (text), Total Slots (text), Incarc (text), Room (text), Div (text), Track (text), Judge (text), DAG (text), Court Reporter (text), Pub Def/Attry (text), Court Clerk (text), and CSO/Case Mgr (text). There is a 'Participant Selection' section with an 'N/A' button. Below these is a 'Calendar Date' section with a grid of date pickers, each showing '11/14/2016'. At the bottom, there is a 'Title' text box (highlighted with a red rectangle) and a 'Notes' text box. 'OK' and 'Close' buttons are at the bottom right.

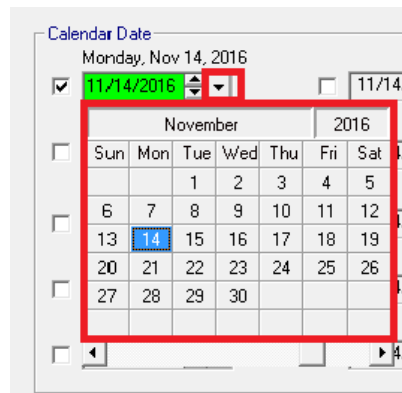

CMA-INIT-004

The Calendar Date filed provides the user with Twenty (20) possible date selections to create the Calendars. At least one date filed needs to be checked, and a date entered:

The screenshot shows the 'Calendar Date' section of the dialog. It displays 'Monday, Nov 14, 2016'. Below this is a grid of date pickers. The first picker is checked and shows '11/14/2016'. Below the grid is a calendar view for November 2016. The date '14' is highlighted in blue. The calendar shows days of the week (Sun, Mon, Tue, Wed, Thu, Fri, Sat) and dates from 1 to 30.

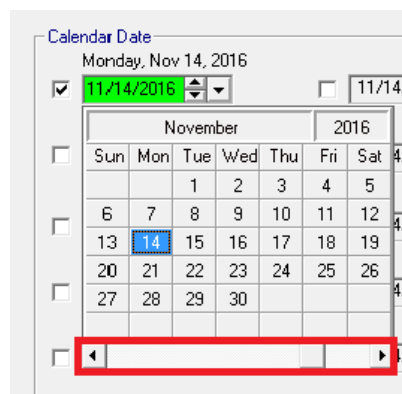

CMA-INIT-005

By clicking on the “Month” down arrow, the Calendar Control will display a calendar from which the desired date can be selected:

CMA-INIT-006

A scroll bar on the Calendar allows for the user to change the month one month at a time:

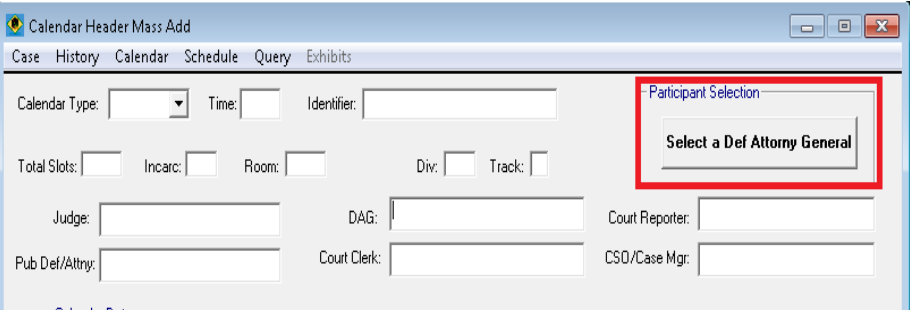

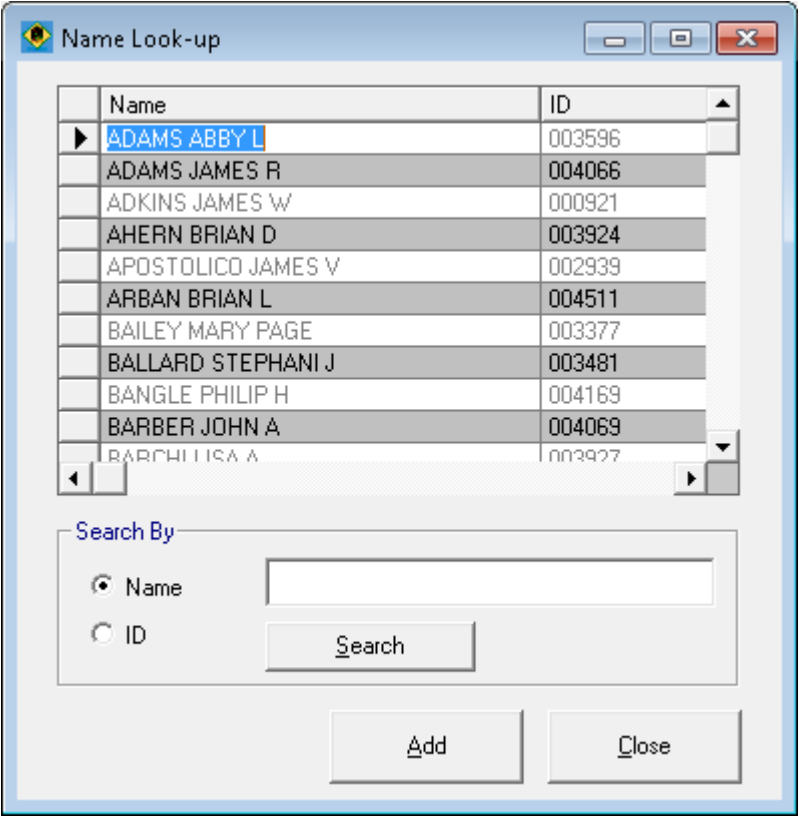

CMA-
JUDG-000

If the user is selecting a Judge for the Calendar, the cursor is placed in the Judge text box, which initializes the Participant Selection tab. The user has the ability to manually add the Judge name, or can click the Participant Selection tab, populating a Name Look-Up selection box:

Name	ID
ABLEMAN PEGGY L	100004
ADAMS STEPHANI L	100944
ALLS JERI LYNN	700012
AMBRO THOMAS L	000677

ACC-INIT-009

If the Add Case to Calendar form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, all cases on the Calendar Case List will be returned to the “Case Selection” grid dropdown list when the drop-down list is accessed. The information returned to the Case Selection drop-down list will be:

- Case Number
- Defendant Name
- Lead Charge
- Calendar Sequence Number

The user will have the ability to select any of the cases loaded into the dropdown list control.

ACC-INIT-010

When the Add Case to Calendar form is initialized, and a case selection is made, either by inputting the information manually, or is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, if the Defendant has any known aliases, the Alias field will be presented, and the user will be able to access the drop-down menu to access all known aliases available in the drop down for the Defendant’s name. The Alias List is for informational purposes only.

ACC-INIT-011

If the user clicks the Looking Glass in the Defendant Information Screen:

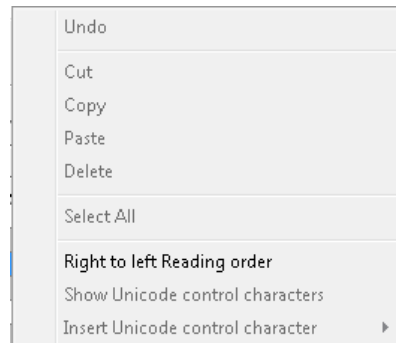

the Quick Name Search form populates:

A screenshot of a "Quick Name Search" window. It features search filters for "Last" and "First" names, "Court" (S), "County" (K), and "Status" (ALL), with a "Search" button. Below the filters is a table with columns for Case Number, Defendant Name, Court Status - County (S, C, F, M, Ct), Status, DOB, SBI #, Arrest (Number, Date, Lead Charge), and Alias. The table is currently empty. At the bottom, there are "Shift ->" and "MORE" buttons, and a "Cancel" button. A tooltip text "Double Click row of Case to select and Close Name Search" is visible near the bottom left.

Case Number	Defendant Name	S	C	F	M	Ct	Status	DOB	SBI #	Arrest	Number	Date	Lead Charge	Alia
-------------	----------------	---	---	---	---	----	--------	-----	-------	--------	--------	------	-------------	------

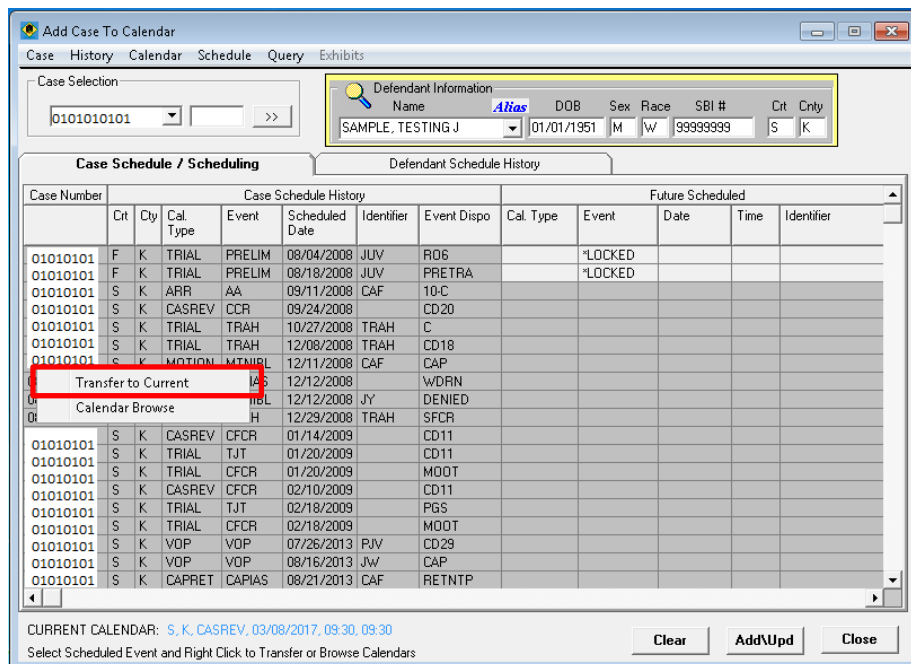

ACC-INIT-012

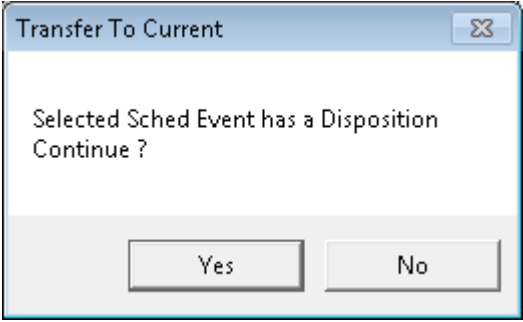

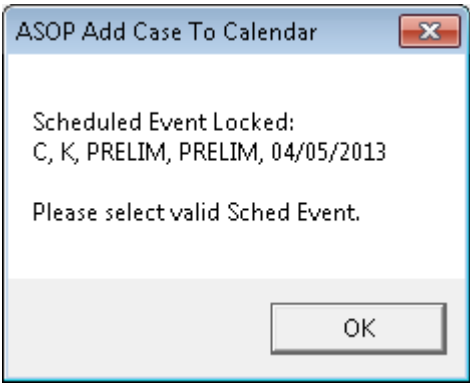

If the user right-clicks in any of the fields in the Defendant Information Screen a message box provides to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.

ACC-SCHD-000

Clicking on Transfer to Current transfers the selected event to the Future Scheduled to allow the re-scheduling of the event to another calendar:

ACC-SCHD-001	<p>If the Event already has a disposition, a warning box is populated:</p> <div data-bbox="461 298 980 617"></div> <p>Clicking Yes will transfer the Event; Clicking No will cancel the operation.</p>	
ACC-SCHD-002	<p>If the Event is locked in the database, a warning box will populate:</p> <div data-bbox="461 865 928 1247"></div>	

ACC-
SCHD-003

After an Event has been transferred to the Future Scheduled Field, the user has the ability to fill the rest of the fields. The Calendar Type is what is transferred, the Event field is a drop down of available events for this Calendar Type, and the Date, Time, and Identifier are filled in manually:

ACC-INIT-013	<p>Right-clicking in any of the fields in the Defendant Information Screen provides a message box to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p> 	
ACC-INIT-014	The close tab will close the Add Case to Calendar box form.	

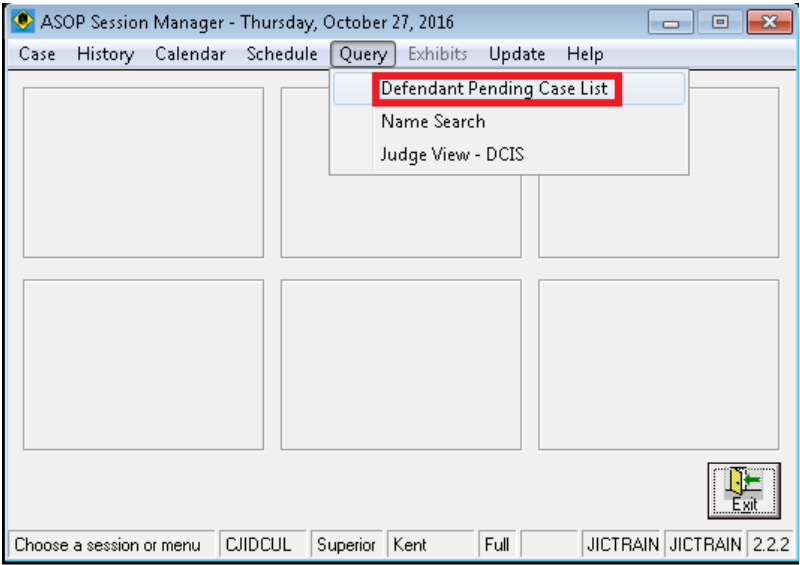

3.2.12 Defendant Pending Case List

The Defendant Pending Case List Form is used to:

- Display any Pending Charges for the defendant associated with the entered case number.

The screenshot shows a software application window titled "Defendant Pending Case List". It features a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". Below the menu is a "Case Selection" section with a dropdown menu and a ">>" button. To the right is a "Defendant Information" section with fields for Name, DOB, Sex, Race, SBI #, Crt, and Cnty. The main area is a table titled "JIC Pending Charges" with columns for Case (Case Number, Loc, Stat, Seq), Charge (Indict Date, Offense, Statute, Description, CRA Num), and Disposition (Code, Date, Crt, Loc). The table is currently empty. At the bottom right are "CJIS Pend" and "Close" buttons.

JIC Pending Charges												
Case				Charge					Disposition			
Case Number	Loc	Stat	Seq	Indict Date	Offense	Statute	Description	CRA Num	Code	Date	Crt	Loc

Functional Requirement Number	Description	Reference Number
DPC-INIT-000	<p>The Defendant Pending Case List form should be initialized by clicking on the Defendant Pending Case List menu option from the Schedule option on the ASOP Session Manager Form</p> 	

DPC-INIT-001

The Defendant Pending Case List form will be displayed with no specific Case selected, with the following parts:

- Defendant Information
- Case Selection
- JIC Pending Charges
- CJIS Pending Charges

Case		Charge						Disposition				
Case Number	Loc	Stat	Seq	Indict Date	Offense	Statute	Description	CRA Num	Code	Date	Cit	Loc

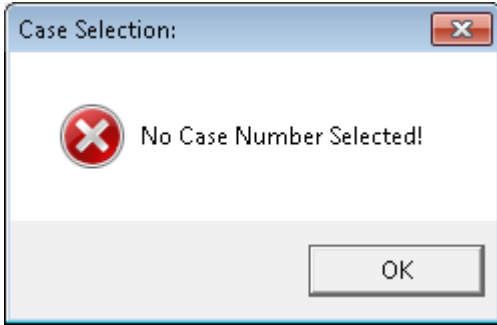

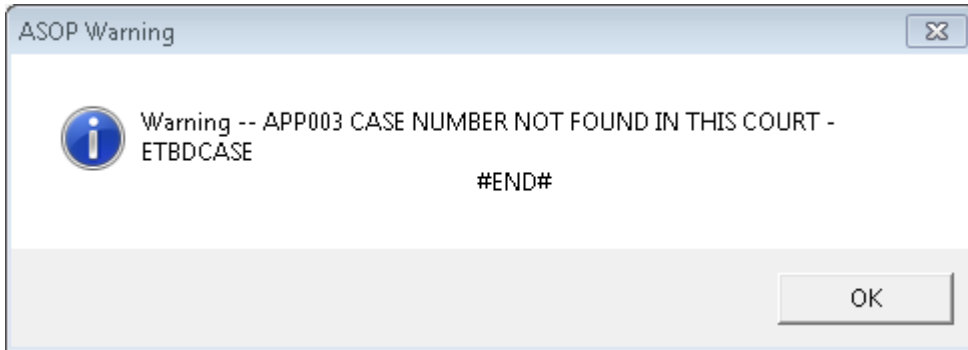

DPC-INIT-002

A user must have the ability to enter a case number manually by inputting the information, or by accessing the form from the Calendar Case List or the Calendar Event / Charge Disposition Form. If entered manually, the user can retrieve the form data by hitting ENTER, or by clicking the double right angle bracket tab provided. The box to the right of the Case Selection is the sequence number for the Case:

If the form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, the form will populate the data for the selected case completely:

DPC-INIT-009

If the Defendant Pending Case List form is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, all cases on the Calendar Case List will be returned to the “Case Selection” grid dropdown list when the drop-down list is accessed. The information returned to the Case Selection drop-down list will be:

- Case Number
- Defendant Name
- Lead Charge
- Calendar Sequence Number

The screenshot shows the 'Defendant Pending Case List' form. The 'Case Selection' dropdown is highlighted with a red box. Below it is a table with columns: Case Number, Defendant, Lead Charge, and Cal. The table contains three rows of data. To the right of the table is the 'Defendant Information' section, which includes fields for Name, Alias, DOB, Sex, Race, SBI #, Crt, and Only. The 'Alias' field is highlighted with a red box.

Case Number	Defendant	Lead Charge	Cal
000009	SAMPLE, TESTING J	ARSON 3RD	
000008	TESTING, SAMPLE J	DUI	
000008	TESTING, SAMPLE J	DUI	

The user will have the ability to select any of the cases loaded into the dropdown list control.

DPC-INIT-010

When the Defendant Pending Case List form is initialized, and a case selection is made, either by inputting the information manually, or is accessed from the Calendar Case List or the Calendar Event / Charge Disposition Form, if the Defendant has any known aliases, the Alias field will be presented, and the user will be able to access the drop-down menu to access all known aliases available in the drop down for the Defendant’s name. The Alias List is for informational purposes only.

The screenshot shows the 'Defendant Pending Case List' form. The 'Case Selection' dropdown is highlighted with a red box. Below it is the 'Defendant Information' section, which includes a field for Name and a dropdown menu for Alias. The Alias dropdown menu is highlighted with a red box.

DPC-INIT-011

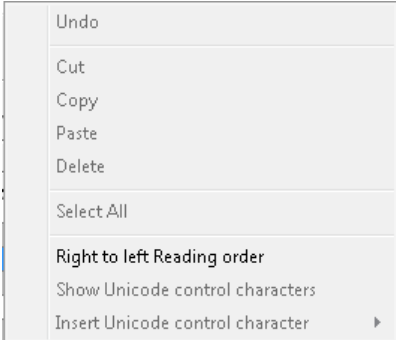

If the user clicks the Looking Glass in the Defendant Information Screen:

the Quick Name Search form populates:

A screenshot of a "Quick Name Search" dialog box. It features search filters for "Last" and "First" names, "Court" (set to S), "County" (set to K), and "Status" (set to ALL). A "Search" button is present. Below the filters is a table with columns: Case Number, Defendant Name, Court Status - County (with sub-columns S, C, F, M, Ct), Status, DOB, SBI #, Arrest (with sub-columns Number, Date, Lead Charge, and Alias). The table is currently empty. At the bottom, there is a "Shift ->" button, a text instruction "Double Click row of Case to select and Close Name Search", and "MORE" and "Cancel" buttons.

Case Number	Defendant Name	Court Status - County					Status	DOB	SBI #	Arrest			
		S	C	F	M	Ct				Number	Date	Lead Charge	Alias

DPC-INIT - 012	<p>If the user right-clicks in any of the fields in the Defendant Information Screen a message box provides to allow a user the following options: Undo, Cut, Copy, Paste, Delete, Select All, Right to Left Reading order, Show Unicode control characters, Insert Unicode control characters. For all fields in the Defendant Information Screen, only the Right to Left Reading order, the Copy, and the Select All choice is allowed.</p>

3.2.13 Name Search

The Name Search Form allows the user to search for case and identification information for the defendant to include information from all courts or by a single court.

The screenshot shows a web application window titled "Name Search". It features a menu bar with "Case", "History", "Calendar", "Schedule", "Query", and "Exhibits". Below the menu is a "Search By" section with input fields for "Last" and "First" names, and dropdown menus for "Court" (set to "ALL"), "County" (set to "ALL"), and "Status" (set to "ALL"). A "Search" button is located to the right of these fields. Below the search section is a large table with a header row containing the following columns: "Case Number", "NAME: Last, First MI", "Court Status - County" (subdivided into "S", "C", "F", "M", "Ct"), "Status", "DOB", "SBI #", "Arrest" (subdivided into "Number", "Date", "Lead Charge", and "A"). The table body is currently empty. At the bottom of the window, there are three buttons: "Shift -->", "MORE", and "Close".

Functional Requirement Number	Description	Reference Number
NS-INIT 0000	<p>The Name Search form should be initialized by clicking on the Name Search menu option from the Query option on the ASOP Session Manager Form.</p> 	
NS-INIT 0001	<p>The Search By section of the form should include input for a Last and First Name.</p>  <p>The user will have the ability to enter a Last name or a Last and First name to search by.</p>	

NS-INIT 0002	<p>The Search By section of the form should include a selection box for the Court, a selection box for the County and a selection box for the Status.</p>  <p>All selection box values should default to ALL.</p> <p>The values in the Court selection box should be:</p> <ul style="list-style-type: none"> • C (COURT OF COMMON PLEAS) • F (FAMILY COURT) • S (SUPERIOR COURT) • ALL <p>The values for the County selection box should be:</p> <ul style="list-style-type: none"> • N (NEW CASTLE) • K (KENT) • S (SUSSEX) • ALL <p>The values for the Status selection box should be:</p> <ul style="list-style-type: none"> • A (ACTIVE) • C (CLOSED) • ALL <p>Ability to narrow the search by selecting specific values in the selection boxes above.</p>																
NS-INIT 0003	The user must have the ability to automatically retrieve the Case Information that matches the search criteria and load the information into the Search Grid. Currently the form will return 23 rows at a time.																
NS-INIT 0004	The form must have the ability to return more than just the 23 rows of data that match the search criterial

NS-INIT 0006	The ability to horizontally scroll – either by using the Scroll Bar at the bottom of the Grid Control or the Shift→ key.			
NS-INIT 0007	The ability to close the form.			

3.2.14 CAL - Calendar Event / Charge Disposition Form

The Calendar Event / Charge Disposition Form is used by the staff as a tool for disposing of calendar events on calendars while the events are being heard in the courtroom. The staff will search for the desired hearing calendar headers, select the desired calendar and retrieve the information for the cases that are scheduled to that calendar. Once the data has been retrieved the user will have the ability to dispose of calendar events and, if required, dispose of any charges on any of the cases scheduled to the selected calendar.

CAL-CBA-013

Lesser Included Offense Statute Lookup 3rd Section allows the user to search for the LIO Statute or the ability to call the specific statute which was listed on the plea agreement by the Deputy Attorney General. The user enters the desired Statute in the “**Statute:**” field and selects the Search button. This gives the user the ability to go directly to the statute entered and lists the other statutes related to the entered statute. There is also a Select tab which allows the user to select the statute. The Cancel button allows the user to close the Lesser Included Offense Statute Lookup form without saving the selection.

Days At Level: [input] Add Cancel

The user will need to fill in the **VOP Sequence Number** for the charge. This information will be stored as part of the Criminal Action Number (the “01” outlined above).

The Criminal Action Number assigned to the new VOP charge will consist of:

- V – in the Classification field
- S, K, N – in the County field
- The Original Charge Number in the Number field
- The Sequence Number of the VOP Charge in the Category field (01, 02, etc).

The Criminal Action Number for the sample above will be:

VK1310046701.

If additional VOP Charges are added to the SAME Original Charge, the sequence number in the Category field will be incremented by 1 – 02 for the 2nd VOP, 03 for the 3rd, etc.

The user will also need to add the **Date Filed** for the date the VOP was filed. This field defaults to the current system date. The field should be updateable.

The user should also enter the SENTAC Level – the level of the probation that has been violated.

CAL-CBA-033

Ability to add the Contempt Charge by selecting the desired Contempt Charge Statute from the drop-down box prefilled with the statutes for the VOP and Contempt Charges.

Violation of Probation / Contempt of Court - Add VOP

Violation of Probation

Days At Level: Add Cancel

The user will need to fill in the **Contempt Charge Sequence Number** for the charge. This information will be stored as part of the Criminal Action Number (the "01" outlined above).

The Criminal Action Number assigned to the new Contempt charge will consist of:

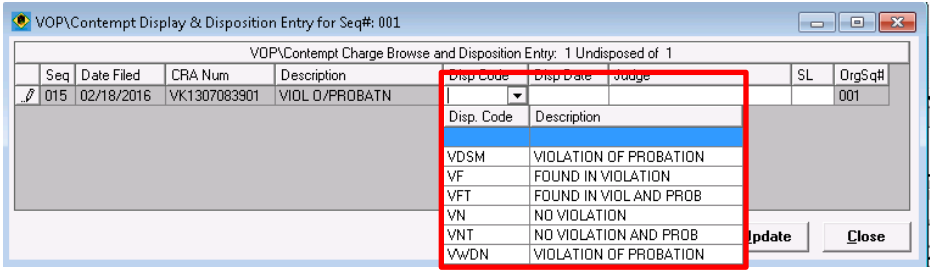

- C – in the Classification field
- S, K, N – in the County field
- The Original Charge Number in the Number field
- The Sequence Number of the Contempt Charge in the Category field (01, 02, etc).

The Criminal Action Number for the sample above will be:

CK1310046701.

If additional Contempt Charges are added to the SAME Original Charge, the sequence number in the Category field will be incremented by 1 – 02 for the 2nd Contempt, 03 for the 3rd Contempt, etc.

The user will also need to add the **Date Filed** for the date the VOP was filed. This field defaults to the current system date. The field should be updateable.

3.2.16 SOE-ASOP Sentence Order Entry Form

The ASOP Sentence Order Entry Form is used by the staff as the tool for creating the actual Sentence Order document. The form can only be initiated by a call from another form, such as the ASOP Sentencing History Form. All information entered into the form is used to generate a Superior Court Sentence Order document.

The form can only be opened by specific case numbers. No blank form can be opened.

	Ability to make the charge the “Active” charge by selecting the charge from the list.			
SOE-CHG - 004	Ability to designate the defendant as a Habitual Offender. The Habitual Offender designation is Order/Defendant Based. <div> Habitual Offender <div> <input type="checkbox"/> A Discretion <input type="checkbox"/> B Mandatory </div> </div>			

	<p>The value selected will determine the Statute under which the offender is to be sentenced.</p> <p>Habitual Offender designation can be either:</p> <ul style="list-style-type: none"> • A – Discretion – the language below is added to the Sentence Order: <div data-bbox="386 405 1305 638"> <p>NOW THIS 23RD DAY OF JUNE, 2016, IT IS THE ORDER OF THE COURT THAT:</p> <p>The defendant is adjudged guilty of the offense(s) charged.</p> <p>The defendant is to pay the costs of prosecution and all statutory surcharges.</p> <p>The defendant is declared a habitual offender pursuant to DE 114214000AFA</p> </div> <p>The statute reflects</p> <ul style="list-style-type: none"> • B – Mandatory – The language below is added to the Sentence Order: <div data-bbox="386 768 1305 982"> <p>NOW THIS 23RD DAY OF JUNE, 2016, IT IS THE ORDER OF THE COURT THAT:</p> <p>The defendant is adjudged guilty of the offense(s) charged.</p> <p>The defendant is to pay the costs of prosecution and all statutory surcharges.</p> <p>The defendant is declared a habitual offender pursuant to DE 114214000BFA</p> </div> 	
SOE-CHG - 005	<p>Ability to perform functions based on option boxes located at top of sentence order entry form</p> <div data-bbox="331 1104 1224 1180">  </div>	
SOE-CHG - 006	<p>Ability to save the current entries on the sentence order entry form by pressing the Save control</p>	
SOE-CHG - 007	<p>Ability to change the sequence of the charges as it appears on the sentence order.</p> <p>All sentenceable charges will be listed on the left. Of those charges, only the ones on the right will print. They will also print in the sequence that is listed in the “Charge Print Order box”. To make changes, use the arrow buttons in the middle section. The arrow buttons move charges from left or right. The last button with the two arrow keys pointing left will remove everything from the left side. The left side is the print sequence of the charges and how they will appear on the order. You may re-sequence the charges as often as necessary to produce the order in the proper charge sequence until it has been approved.</p>	

	 <p>Setting the order of the charges will be captured in the JIC-SENTENCE-ORDER-CHARGE-SEQ.CHARGE-SENT-SEQ field.</p>	
SOE-CHG - 008	<p>This holds all the sentenceable charges under the case(s). Once a charge is highlighted it can be moved from right or left to appear in the “Charge Print Order box” using the arrow buttons in the middle section.</p> 	
SOE-CHG - 009	<p>If the sequence is incorrect, this screen allows you to remove charges in order to put them in the proper sequence. The other methods of changing the sequence is to use the up and down arrows on the right side. Once a case number is highlighted the arrows become active.</p>  <p>When the charges appear in the proper sequence, click on the save button</p>	

	Close takes you out of the charge sequence screen and brings you back to the sentence order entry page.	
SOE-CHG - 010	<p>When saving the correct sequence, a confirmation window will appear. When the order is previewed or printed, it will list the charges in the new sequence.</p> 	
SOE-NOT - 000	<p>Notes: this allows specific conditions not available in the drop down, or programs to be entered here pronounced by the Judge or Commissioner. This is a free flow format. There is no spell check or grammar check available. It includes word wrap. The data entered in the Notes section will appear on the same page as the Special Conditions by Order.</p>  <p>You may change or add to existing notes simply by typing the new data or correcting the displayed data and clicking "OK".</p>	

	<p>The Reset key will remove any added data and refresh the form with the last note from the stored order.</p> <p>The Notes are captured in JIC-NOTES file.</p>	
SOE – PP - 000	 <p>Preview allows the user to preview the printed document as well as approve the sentence order from this screen. Users may scroll through the order by using the up and down scroll bar on the right side of the document display. At the top of the display, the Order Origin, Order Type, Order Version and Order Status is displayed. The level of security is displayed at the top right corner.</p> <p>The lower left hand corner is the “Enter Approval”. The drop down will list the Judges in alphabetical order allowing the user to select the appropriate Judge. The user may also type the name or code number of the Judge in the box which will also select the appropriate Judge.</p> <p>After the Judges name appears in the box, the Gavel icon is selected to approve the order and print a specified number of copies.</p> <p>The “Cancel” button will cancel this display process</p>	

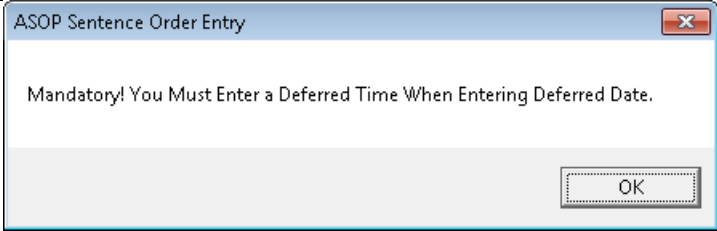

SOE – PP - 001	 <p>Print allows the user to print the order. One copy of the order will print.</p>	
SOE – PP - 002	<p>Approve allows the user to approve the order while in the edit mode.</p> <p>When the approval button is selected it will display the actual order on the screen.</p> <p>The lower left hand corner is the “Enter Approval”. The drop down will list the Judges in alphabetical order allowing the user to select the appropriate Judge. The user may also type the name or code number of the Judge in the box which will also select the appropriate Judge.</p> 	
SOE – PP - 003	<p>After the Judges name appears in the box, the Gavel icon is selected. This allows the system to first approve the order.</p>	
SOE – PP - 004	<p>It will then change the status from UNA to APP as indicated on the displayed order form in the upper section</p>	

		
SOE – PP - 005	<p>A newly generated order will be created and displayed. The system will ask if you wish to print the defaulted 2 copies of the order. (If you respond with no, nothing will print).</p> <p>On the bottom of the screen is the printer icon which allows the user to chose how many copies of the order to be printed at one time</p> <p>To close out of this screen and continue in ASOP, click on the cancel or the “X” at the upper right corner of the form</p>	
SOE – BO - 000	<p>Bundle allows the Judge or Commissioner to sentence one defendant with more than one case but the cases are not consolidated, the orders are bundled. Both cases will appear on the sentence order.</p> <p>After clicking on the “Bundle” icon the following window will appear:</p> 	
SOE – BO - 001	<p>In this field, the other case number that is to be bundled is entered and then the o.k. button is selected.</p> <p>The screen will refresh with the new case number and charges displayed to allow for entering of sentence data.</p>	
SOE – BO - 008		

	This drop down box that appears at the top left side of the ASOP Sentence Order Entry screen shows all the case numbers that are part of a bundled order. When clicking on a case number, the sentencing data will be displayed for that case allowing the user to enter and edit sentencing information.	
SOE – BB - 000	<p>Bench – this is the Benchbook Look up. The Benchbook is designed to assist sentencing judges, prosecutors and defense attorneys in creating sentences consistent with the goals of sentencing reform promulgated by the Delaware Sentencing Accountability Commission (SENTAC).</p> 	
SOE – BB - 001	The Benchbook form opens with the information for the selected charge on the Sentence Order Entry form.	

		
SOE – BB - 002	<p>The ability to call up the Benchbook information for any entered statute by entering the complete statute into the Statute Field and pressing the Retrieve Button</p> 	
Deferred Reporting Section		
SOE – DR - 000	<p>The “DEFERRAL” section at the bottom of the form is used to designate a deferred reporting Date, Time and reporting Facility if the reporting is delayed by pronouncement.</p> 	

	Grid Column Name	Grid Column Description	Table / Field	
	Deferral Date	Date Offender Reports to Facility	JIC-SENTENCE-OVERALL.REPORT-DATE-TIME	
	Deferral Time	Time Offender Reports to Facility	JIC-SENTENCE-OVERALL.REPORT-DATE-TIME	
	Facility	Facility Where the Defendant is to Report	JIC-SENTENCE-OVERALL.REPORTING-FACILITY	
SOE – DR - 001	<p>Ability to select the Reporting Facility from a drop-down box pre-filled with the available reporting Facilities.</p>  <p>It is not mandatory that a Deferred Reporting Facility be selected or entered if a Date and Time are entered.</p>			
SOE – DR - 002	<p>Ability to enter the Deferred Reporting Date an offender is to report to a facility.</p> 			
SOE – DR - 003	<p>Ability to enter the Deferred Reporting Time the offender is to report to a facility.</p> 			
SOE – DR - 004	<p>It must be mandatory that if a Deferred Reporting Date is entered that a Deferred Reporting Time also be entered. If the user attempts to tab out of the Deferral section without entering a Deferred Reporting Time, the message below will be displayed.</p>			

	 <p>Clicking on OK will return the focus to the Deferred Reporting Time field.</p>

Costs from Docket																																																									
Description	Amount																																																								

	<p>This area located in the bottom center section of the form summarizes the costs entered on the docket and cannot be changed here. If any changes are made to the docket while creating the sentence order, the user must “refresh the docket” by clicking on the “Refresh Button”(as shown below). The system will then reread the docket and calculate the costs loading the new amounts to the cost grid.</p>	
SOE – FC - 006	<p>- Costs:</p>  <p>These three buttons on the bottom right corner have distinct functions.</p> <p>The “Refresh” button will search the docket for any costs and populate the “Costs from Docket” grid.</p> <p>The “Suspend” button will allow will suspend all costs on the case. The total amount in the costs grid under the column “Costs” will be replicated in the “Sus Amt” column, leaving zero dollars owed on costs.</p> <p>The “Total” button will calculate all imposed costs/fees/fines/Penalties/surcharges and restitution and display the total. It will also indicate a separate total without the restitution as shown below</p> 	
SOE–RES - 000	<p>Restitution is usually imposed at the charge level. However, if the restitution is unclear or unknown, the Judge may request additional information prior to imposing an amount or victim. This normally involves the Investigative Services of the Attorney General’s office to identify the victims and dollars owed for restitution.</p>	

		
SOE-RES - 001	 <p>In order to identify the appropriate agency to determine restitution, a drop down box is available for the “To be Determined by” field.</p>	
SOE-RES - 002	<p>This box also includes an area to enter the number of days that the Judge states the restitution recommendation is to be completed by.</p> 	
SOE-RES - 003	<p>This box also includes an area to enter known amounts for known victims by clicking on the detail button.</p> 	

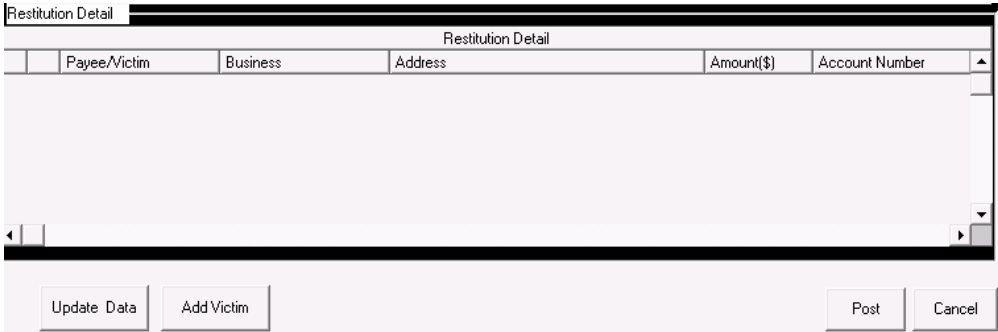

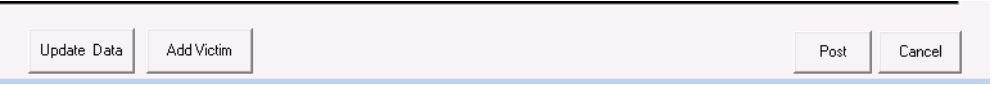

SOE-RES -
004

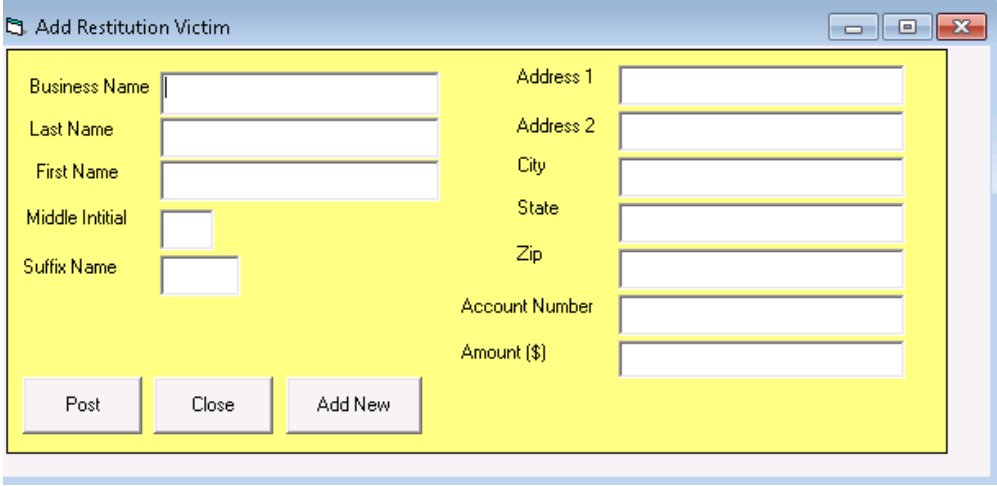

By clicking on the previous form's "Detail" button in the restitution section, the following form appears allowing entry of individual victims, addresses and amounts.

SOE-RES - 008	<p>The final section of data is the “Restitution Detail”.</p> 	
SOE-RES - 009	 <p>If the victim’s name and address has been entered by the Attorney General’s Office, that information would appear on this form. Also any previous entered victim information would appear here. If the victim’s name and address are correct but the amount or the account number is incorrect, adjustments may be made on this form. This would be done by clicking on the appropriate form and making the changes as well as clicking on the “Post” button to save your changes.</p> <p>If the address must be modified or the name corrected, you must update the detail information by highlighting the victim and clicking on the “Update Data” button on the bottom left corner.</p> <p>To add a victim, click on the “Add Victim” Button.</p> <p>The “Cancel” Button takes you out of the restitution form and returns the user back into the Sentence Order Entry form</p> 	
SOE-RES - 010	<p>The add victim information and update information are completed on the same form. If you update an entry, the data will roll into this form. If you are adding, it will appear blank when first selected. To add a new victim, click on the “Add Victim” Button. This form will allow victim data to be entered as applicable.</p>	

		
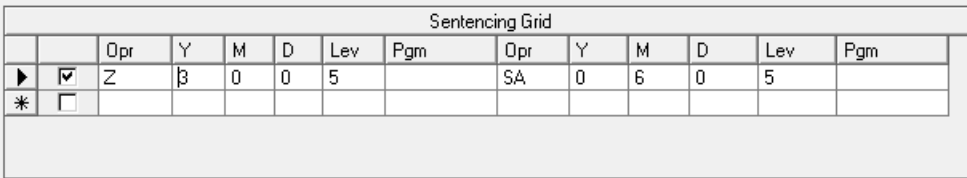

SOE-RES - 011	Business Name – This field allows entry of an organization’s formal name that restitution is to be paid. This field does not allow entry of Last name, First Name, Middle Initial and Suffix Name fields. If the check requires a “c/o” or an “Attn”, that information should be entered in the Address 1 Field.	
SOE-RES - 012	Last name – This field is entry of victim’s last name that is to be paid restitution	
SOE-RES - 013	First name – This field is entry of victim’s first name that is to be paid restitution	
SOE-RES - 014	Middle Initial – This field is entry of victim’s middle initial that is to be paid restitution	
SOE-RES - 015	Suffix Name – This field is entry of victim’s suffix that is to be paid restitution	
SOE-RES - 016	Address 1 – This field is entry of restitution victim’s address in which payment is to be sent, also allows entry of “c/o” or an “Attn” if the check requires this information	
SOE-RES - 017	Address 2 – This field is entry of restitution victim’s address if “Address 1” was used as “c/o” or an “Attn” or a second address is needed	
SOE-RES - 018	City – This field is entry of city of restitution victim’s address	
SOE-RES - 019	State – This field is entry of state of restitution of victim’s address	
SOE-RES - 020	Zip – This field is entry of zip code of restitution of victim’s address	

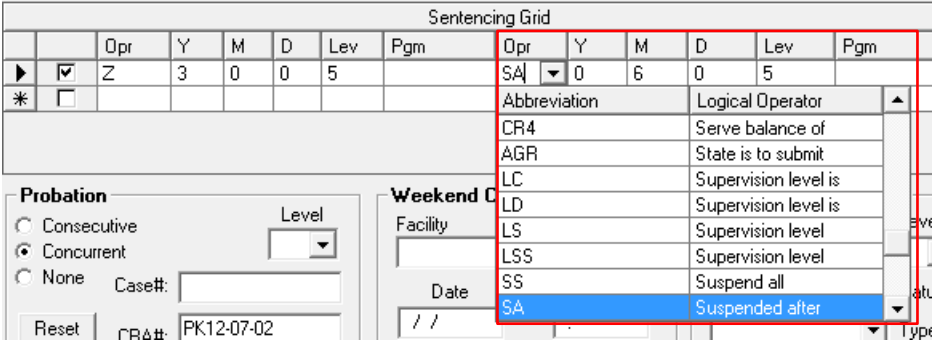

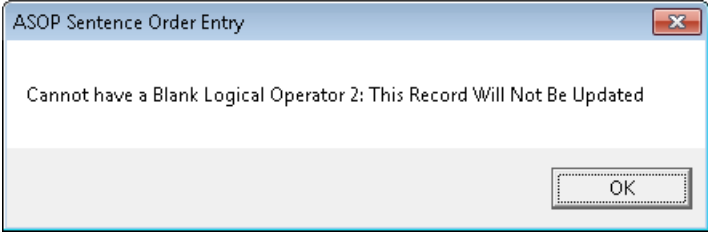

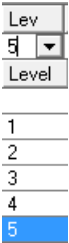

SOE-RES - 021	Account Number – This field is for entry of any information that will identify this reimbursement to the receiptant including but not limited to Account Number, Claim Number, File Number, incident, data, etc.	
SOE-RES - 022	Amount – The amount should be the total amount due to the victim from this defendant	
SOE-RES - 023	Post – When finished entering the restitution victim's information and this is the last victim to be entered, press the "post" button" to save the data	
SOE-RES - 024	Add New – if additional restitution victims are to be added, click on the "Add New" button and this form will continue to be displayed. In that case you do not need to click on the "Post " button after each victim.	
SOE-RES - 025	Close – The close button will simply close this form	
SOE-RES - 026	The previous gray form will appear. Once you have confirmed the data, click on the "Post " button to save the data.	

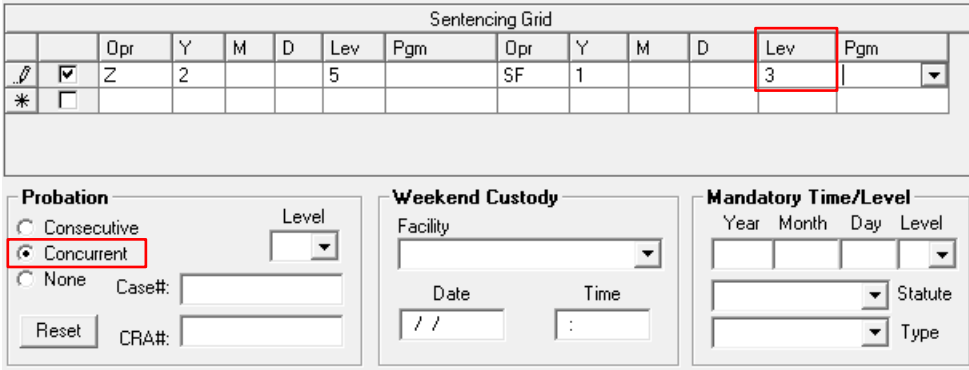

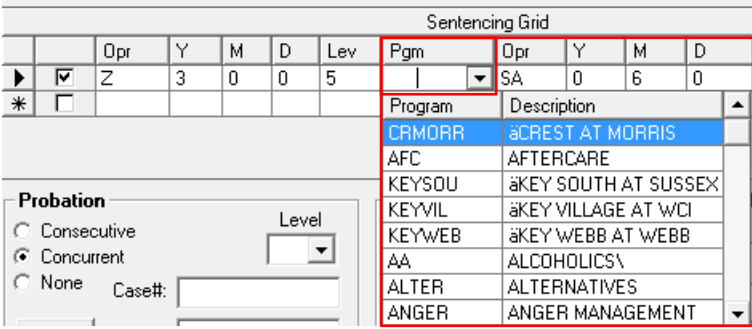

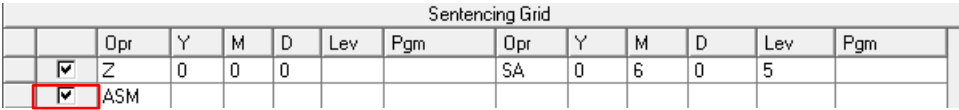

2 CUSTODY TAB

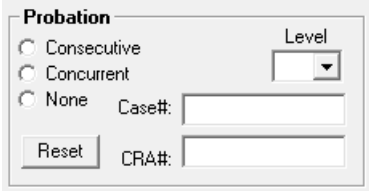

SOE-CUS - 000	<p>The Custody Tab on the Sentence Order Entry form is used to enter the information for the pronounced Custody the offender is sentenced to serve.</p> 			
SOE-CUS - 002	<p>When opening the Custody Tab for a new Order, the Sentence Grid will be populated with only the "Z" operator in the 1st Opr Column of the 1st row. This is the default Logical Operator to begin Sentencing.</p>			
	Grid Column Name	Grid Column Description	Table / Field	
	Sentencing Grid			
	Opr	Logical Operator	JIC-SENTENCE-CUSTODY.LOGICAL-OPERATOR

	Type		JIC-SENTENCE-CUSTODY- MANDATORY-TYPE	
SOE-CUS - 003	<p>The "Sentencing Grid" section of the form should allow the user to enter the specific sentence information as it relates to Time to be spent, the level at which it is to be spent and any programs which the offender must attend while on the specific level of incarceration or probation.</p>  <p>The information entered will be used on the sentence form to build the section of the Sentence Order that outlines the specific Custody for each of the charges to be sentenced.</p> <p>AS TO PK12-07-0292- : TIS TIER 1 POSS</p> <p>- The defendant is placed in the custody of the Department of Correction for 3 year(s) at supervision level 5</p> <p>- Suspended after 6 month(s) at supervision level 5</p> <p>Probation is concurrent to criminal action number PK12-07-02 .</p>			
SOE-CUS - 004	<p>Ability to select the charge to be sentenced from the Charge Selection control.</p> 			

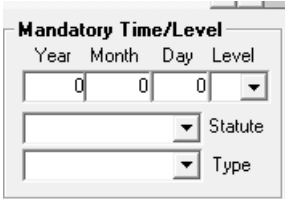

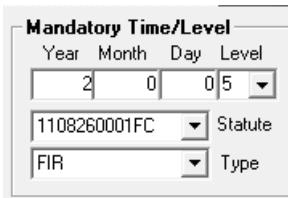

SOE-CUS - 005	<p>Ability to enter or select the Logical Operators. There is a drop-down control available from which can be used to select the Logical Operator or if the user knows the Opr code, it can be entered directly.</p>  <p>The Opr field must be populated in the specific section of the grid where custody options are to be entered. You can't enter Y, M, D, Lev or Pgm options unless an Opr is selected, but only the Opr is mandatory for a Sentence Grid option, the other fields are optional.</p>	
SOE-CUS - 006	<p>Ability to display a warning message when attempting to enter information on a Sentencing Grid section where no Opr has been selected.</p>  <p>Clicking OK above will return the user to the Sentencing Grid.</p>	
SOE-CUS - 007	<p>Ability to input the amount of Time to be spent for each level of Custody entered. The Time is set in Years (Y column), Months (M column) and Days (D column). The Y, M and D fields are optional.</p>	
SOE-CUS - 008	<p>Ability to enter or select from the drop-down control the Sentac Level at which the custody is to be served. There are 5 levels of custody. There is a drop-down control available from which can be used to select the Sentac Level or the Level can be entered directly. The Lev field is optional</p> 	

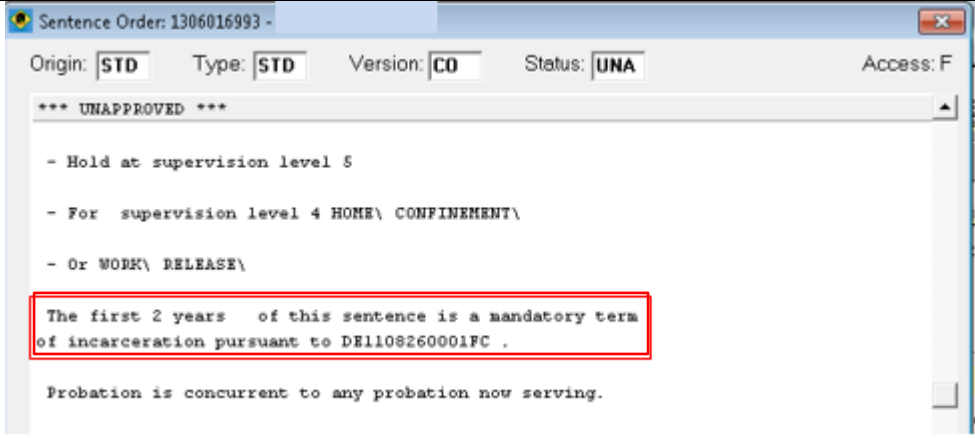

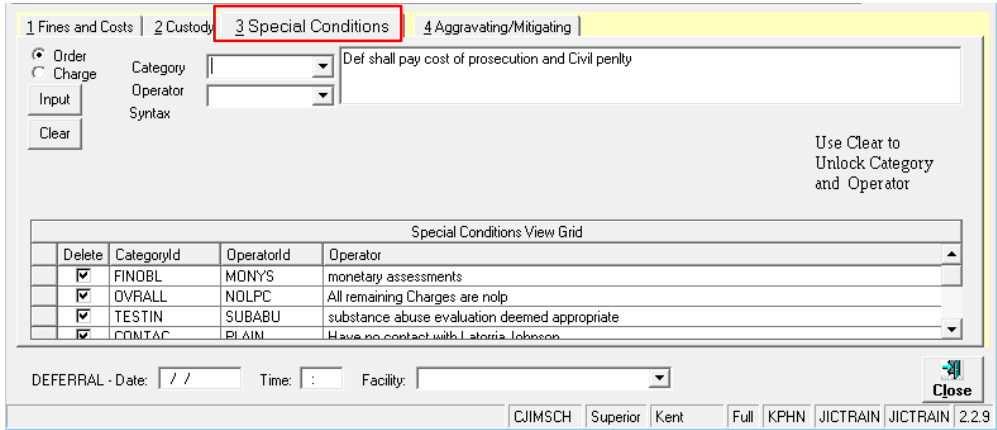

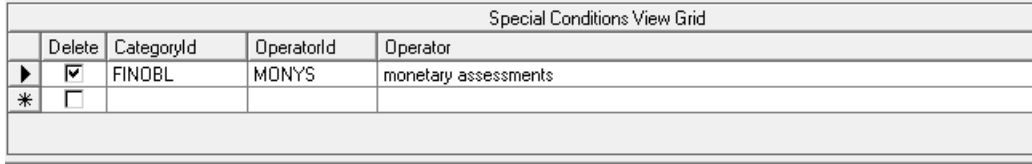

SOE-CUS - 009	<p>If the Sentac Level entered is not Level 5, once the user tabs past the Lev field, the Probation “Concurrent” option will be automatically selected. This is mandated by statute.</p> 	
SOE-CUS - 010	<p>Ability to enter or select any Custody Programs the offender must complete while serving at the specific Sentac Level. There is a drop-down control available from which can be used to select the Custody Program or if the user knows the Program code, it can be entered directly. The Pgm field is optional.</p> 	
SOE-CUS - 011	<p>Ability to delete an entire row of Custody by de-selecting the check box in the 1st column of the Sentencing Grid control.</p> 	
SOE-CUS - 012	<p>The “Credit for time Served” section of the Custody Tab is used to specify any credits the offender should receive as part of a period of incarceration the offender served prior to the adjudication for which this Sentence Order is being created.</p>	

	 <p>The users should have the ability to select the “Any” option.</p> <p>The user should have the ability to select the “Charge”</p> <p>The user should have the ability to enter the Year (Y), Month (M) and Day (D) to indicate the amount of time the offender is being credited for.</p> <p>The 3 options above are mutually exclusive.</p> <p>The “Reset” button will remove any current or previous section entries.</p> <p>**NOTE: THIS FUNCTIONALITY HAS BEEN DISABLED IN THE MAINFRAME PROGRAM THAT CONTROLS THE DATA. WE STILL NEED TO PROGRAM FOR THE POSSIBLE FURTHER USE OF THE OPION.</p>	
SOE-PRO - 000	<p>The “Probation” section of the form will allow for the entry of information on the Probation to be served.</p>  <p>The information to be captured is:</p> <ul style="list-style-type: none"> • Probation to be served Consecutive, Concurrent or None • Which Level the probation is to be served against • The Sentac Level that the Probation will be served against • The Case number that the Probation will be served against • The Criminal Action Number that the Probation will be served against 	
SOE-PRO - 001	<p>Ability to select one of 3 options for the Probation to be served – Consecutive, Concurrent, None – by selecting the corresponding radio button.</p>	
SOE-PRO - 002	<p>Ability to select the Level to which any Probation served is to be served against. There is a drop-down control available from which can be used to select the Sentac Level or the Level can be entered directly.</p> <p>The Probation Consecutive, Concurrent must be selected prior to entering a Level.</p>	

	 <p>The Level, Case# and CRA# fields will not be enabled if the Probation None option is selected.</p>	
SOE-PRO - 003	<p>Ability to enter in a Case Number that the Probation will be served against. If a Criminal Action Number (CRA#) has been entered, the program will not allow a Case Number to be entered.</p> 	
SOE-PRO - 004	<p>Ability to enter a Criminal Action Number (CRA#) that the Probation will be served against. If a Case Number has been entered, the program will display a warning message and the user will not be permitted to enter a CRA#.</p> 	
SOE-PRO - 005	<p>Ability to Reset the entire probation entry by pressing the Reset Button. All options will be cleared from the Probation Section.</p>	
SOE-PRO - 006	<p>The “Weekend Custody” section of the Custody Tab will allow the user to enter information for when and where an offender is to report for any weekend custody ordered.</p> 	

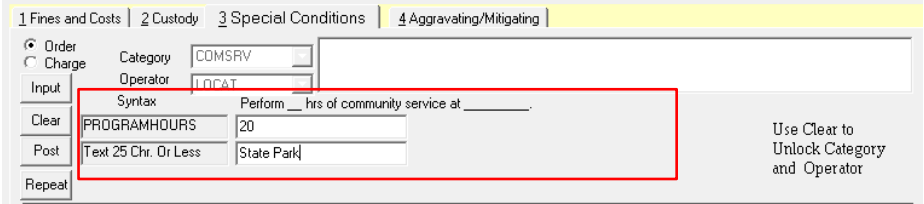

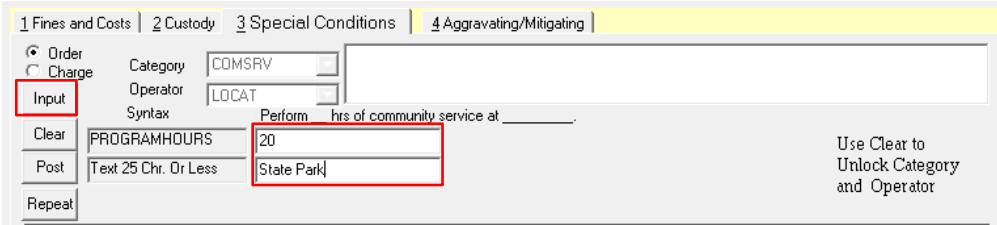

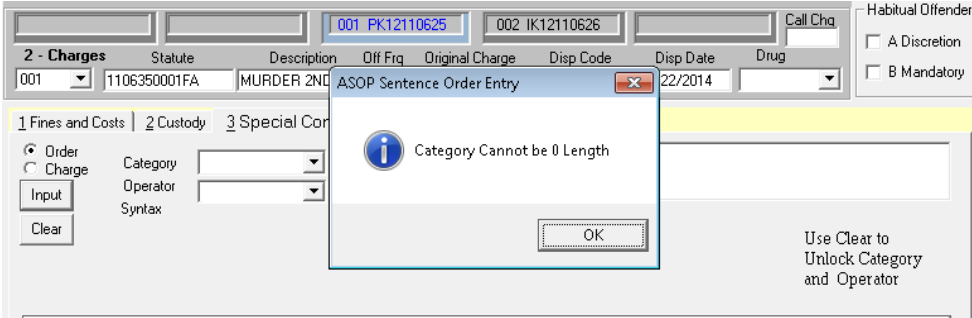

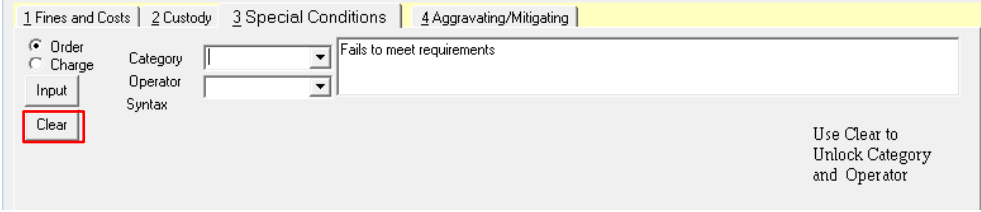

SOE-WE - 000	<p>Ability to select the Weekend facility from a drop-down control.</p>  <p>The Facility must be selected prior to inputting the Reporting Date or Time for the Weekend Custody section.</p> 	
SOE-WE - 001	<p>Ability to add the Date for the offender to report to the selected facility.</p> <p>Once the Facility has been selected, the user must enter the Reporting Date to the Date field in order to move out of the section.</p>  <p>Clicking OK will return the focus to the Date field and the user must enter the reporting date.</p>	
SOE-WE - 002	<p>Ability to add the Time for the offender to report to the selected facility.</p> <p>Once the Date has been entered, the user must enter the Reporting Time to the Time field in order to move out of the section.</p>	

	 <p>Clicking OK will return the focus to the Time field and the user must enter the reporting time.</p>	
SOE-MAN - 000	<p>The Mandatory Time/Level Section of the form will allow for the entry to the Time to be served (M, D, Y), the Sentac Level at which the Mandatory Time applies, the Statute that the Mandatory Time pertains to and the Type depicting how the time is to be served. Mandatory Time for a charge must be served by the defendant.</p> 	
SOE-MAN - 001	Ability to input the Mandatory Time (Year, Month, Day) for the charge being sentenced.	
SOE-MAN - 002	Ability to enter or select the Sentac Level at which the mandatory time is to be served. The drop-down control for Level will contain the Blank, 1, 2, 3, 4, 5.	
SOE-MAN - 003	The ability to enter the Statute which conveys the mandatory time. This Statute can be typed in by the user or selected from the list of statutes that convey mandatory times.	
SOE-MAN - 004	Ability to type in or select the Type of mandatory time to be served. The options are Blank, FIR (First), MAND (Mandatory) and AS (After Serving).	
SOE-MAN - 005	<p>Filling in the various options in the Mandatory Time/Level section will determine the verbiage that prints on the Sentence Order.</p> 	

											
3 Special Conditions Tab											
SOE-SC - 000	<p>The Special Conditions tab allows the user to enter conditions to the imposed sentence as the Judge orders.</p> <p>These conditions deal with various requirements the offender must meet as part of the successful completion of their sentence.</p> 										
SOE-SC - 001	<p>The program must have the Special Condition FINOBL MONYS default into the Special Conditions section when a STD STD OR order is created.</p> 										
	<table border="1"> <thead> <tr> <th>Grid Column Name</th><th>Grid Column Description</th><th>Table / Field</th></tr> </thead> <tbody> <tr> <td>Order / Charge</td><td>Condition basis</td><td>JIC-SENTENCE-CONDITIONS.CONDITION-CLASS</td></tr> <tr> <td>Category</td><td>Category of the condition</td><td>JIC-SENTENCE-CONDITIONS.PROGRAM-NAME</td></tr> </tbody> </table>	Grid Column Name	Grid Column Description	Table / Field	Order / Charge	Condition basis	JIC-SENTENCE-CONDITIONS.CONDITION-CLASS	Category	Category of the condition	JIC-SENTENCE-CONDITIONS.PROGRAM-NAME	
Grid Column Name	Grid Column Description	Table / Field									
Order / Charge	Condition basis	JIC-SENTENCE-CONDITIONS.CONDITION-CLASS									
Category	Category of the condition	JIC-SENTENCE-CONDITIONS.PROGRAM-NAME									

	Operator	Special Condition code	JIC-SENTENCE- CONDITIONS.CONDITION	
SOE-SC - 002	<p>Ability to set the Special Condition on an Order Basis or a Charge Basis.</p>  <p>The Default should be "Order".</p> <p>The user should have the ability to change the Basis to "Charge".</p> <p>Selecting "Order" will add the Special Condition to the Special Conditions Section of the Sentence Order and will apply to all charges on the order.</p> <p>Selecting "Charge" will set the Special Condition to apply to only the specific charge that has been selected.</p>			
SOE-SC - 003	<p>Special Conditions selected at the Order Level will print under the Special Conditions section of the Sentence Order.</p> 			
SOE-SC - 004	<p>Special Conditions selected at the Charge Level will print under the specific selected Charge Custody Section of the Sentence Order.</p>			

		
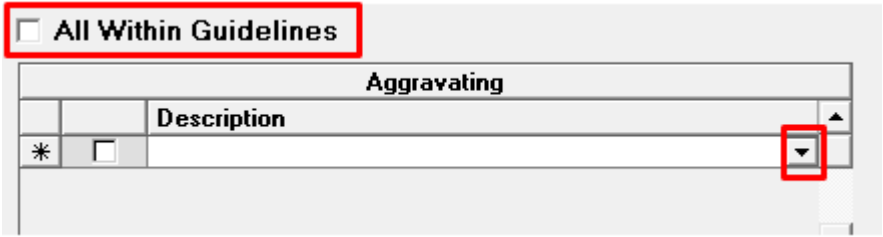

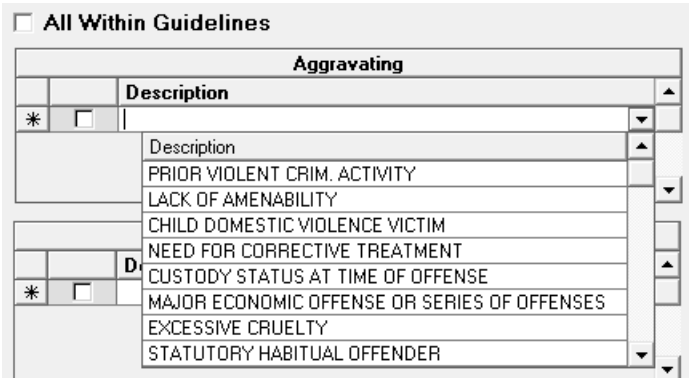

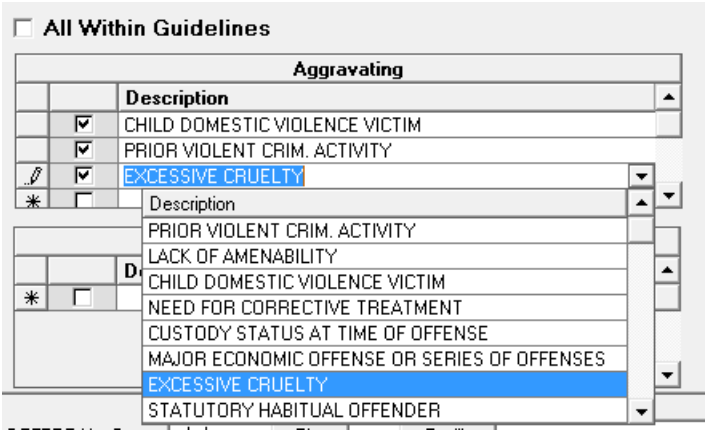

SOE-SC - 005	<p>Ability to select the Category and Operator for the Special Condition(s) to be included on the Sentence Order.</p>  <p>A Category must be selected in order to see the list of Conditions available for that specific Category.</p>	
SOE-SC - 006	<p>Ability for the user to enter directly into the Category and Operator fields a valid entry to retrieve the Special Condition without having to use the drop-down feature of these fields to select a Special Condition.</p>	
SOE-SC - 007	<p>Ability to enter specific information to be included in the verbiage of the Special Condition. There are a set number of entry fields which can be included as part of a Special Condition. These fields will be populated with input from the user.</p>	

		
SOE-SC - 008	<p>Pressing the Input button will allow the user the ability to clear any User Input entered for the selected Special Condition.</p>  <p>A message will appear if the Input button is pressed when no Special Condition has been selected.</p>  <p>Pressing the OK button will close the message box.</p>	
SOE-SC - 009	<p>Pressing the Clear button will clear the Category and Operator box of any selected or entered Special Condition codes prior to Posting the selection to the Special Conditions View Grid.</p> 	
SOE-SC - 010	<p>Ability to Post the selected Special Condition with any User Input to the Special Conditions View Grid control. All Special Conditions contained in this grid control will be included on the Sentence Order.</p>	

	 	
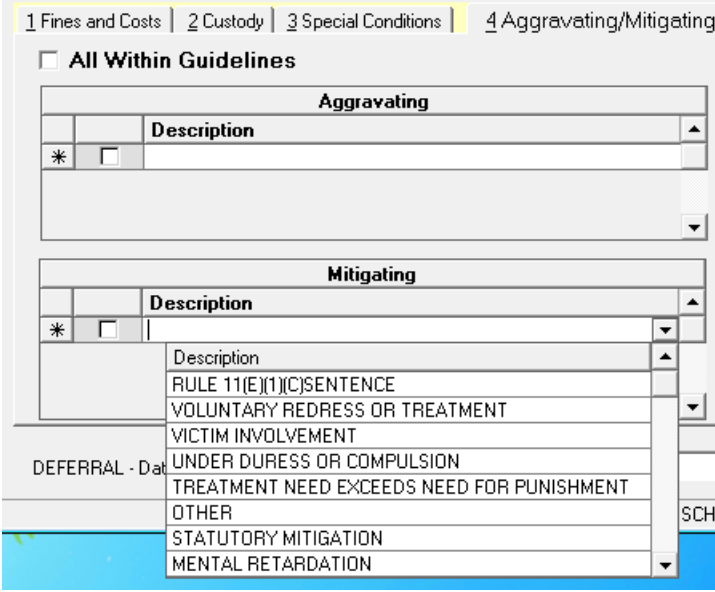

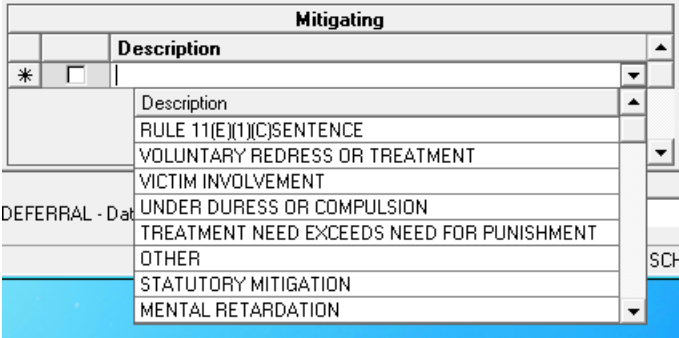

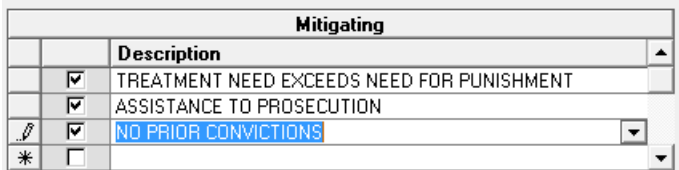

SOE-SC - 011	<p>Ability to have the currently selected Special Condition that contains User Input fields be Repeated by selecting the Repeat button. Pressing the Repeat button while a specific Special Condition with User Input fields is active and has been posted will clear the User Input Fields and allow the user to enter new field information to post another Special Condition of the same Condition and Category with different User Input.</p> 	
SOE-SC - 012	<p>Ability to display a short text preview or the description of the Special Condition selected from the Special Condition View Grid control.</p> <p>The Right Facing Arrow in the 1st column of the Special Conditions View Grid indicates the selected Special Condition.</p>

SOE-SC - 015	<p>Ability to scroll through the list of selected Special Conditions in the Special Conditions View Grid control.</p> 										
4 Aggravating/Mitigating Tab											
SOE-AM - 000	<p>The Aggravating/Mitigating Tab allows for the entry of Aggravating Factors and Mitigating Factors to an Order. If the Judge pronouces Sentencing outside of the Sentac Guidelines, the Aggravating Factors can be used to indicate the reasons for a harsher sentence than the guidelines state or the Mitigating Factors can indicate the reasons for a more lenient sentence than the guidelines state. Aggravating and Mitigating Factors apply to the overall order and are not charge specific.</p> 										
	<table border="1"> <thead> <tr> <th>Grid Column Name</th><th>Grid Column Description</th><th>Table / Field</th></tr> </thead> <tbody> <tr> <td>Aggravating Description</td><td>Description of the Exceptional Factor</td><td>JIC-SENTENCE-EXCEPTIONAL-FACTORS.DESCRPTION</td></tr> <tr> <td>Mitigating Description</td><td></td><td></td></tr> </tbody> </table>	Grid Column Name	Grid Column Description	Table / Field	Aggravating Description	Description of the Exceptional Factor	JIC-SENTENCE-EXCEPTIONAL-FACTORS.DESCRPTION	Mitigating Description

3.2.17 Court Requested Fixes

	Form Affected	Description	System
1	Sentence Order Entry / Overall / Form Loading	There is an issue with ASOP Order generation when there are a significant number of charges on a case. While ASOP will only allow sentencing on charges with guilty dispositions, all charges on the case are loaded into ASOP. The Sentence Order generation will not be completed when there are too many charges on a case. No threshold has been determined for the number of charges that will cause the issue to occur. The current solution is to remove the NOLP dispositions on a number of the charges on the case. Charges with NO disposition will not be loaded into the Sentence Order Entry form.	ASOP
2	Sentence Order Entry / Overall	The Notes section of the form where the user adds free-form text will only allow for a certain amount of information to be entered. This needs to be increased to an unlimited amount or at the very least, a much larger amount of text.	ASOP/CMS
3	Calendar Event/Charge Disposition	There is currently functionality in ASOP to add VOP and Contempt of Court charges to a case through the Calendar Event / Charge Disp screen. When adding the charges through this screen, error messages are displayed and the information added may not be complete. NO DISPOSITION RECORD IS CREATED. The VOP charge is not added correctly, as there is no Long Description for the charge.	ASOP/CMS
4	Amended Charge Fix	The process to Amend a charge works very similar to the LIO process. Both the Original Charge and LIO/Amended Charge fields in the JIC-CHARGE file are updated with the charge information. When ASOP processes the Amended Charge, it list Amended Charge as an LIO of the original charge. This should not happen.	ASOP
5	Sentencing History Form	Need the ability to add new order TYPES to ASOP. There are existing templates for various types of orders - STD, BCD, VOP, VCR, CMT, etc. There may be a need to update either ASOP or the CMS ETB programs to allow for the creation of new Sentence types.	ASOP/CMS

6	Sentence Order Entry / Fines and Costs Tab	There is currently no ability to update a FEE in the ASOP program to make the fee active and added to a specific case based on the Offense Date of the charge. Fees are currently assessed on all charges or certain charges based on Statute. When legislation is passed and signed by the governor, the legislation may only be assessed if the offense occurred on or after the effective date of the legislation. The clerks are currently manually assessing certain fees for charges where the offense date occurred prior to the effective date of the legislation.	ASOP/CMS

3.3.1.3 ASOP Data from ADABAS

Below are the source ADABAS mainframe files feed the population of the sentencing tables displayed above in section 3.3.1.2.

4.0 Technical Environment

4.1 Details

Use of a development platform other than VB.Net 2017 will require prior approval from JIC. JIC maintains development platform standards that are a subset of DTI standards.

A user will access the ASOP application while logged in to a desktop, most likely at their desk or in a courtroom. They will connect to the ASOP server via a Terminal Service connection. On that server, they will run the ASOP application, logging in with their mainframe username and password.

The server will have Windows Server Enterprise 2008 Service Pack 1 installed. The application must be able to run in that environment as well as Windows Server 2012 & 2016 and Windows 7 & 10. The application must also be able to print to a user session defined mainframe printer.

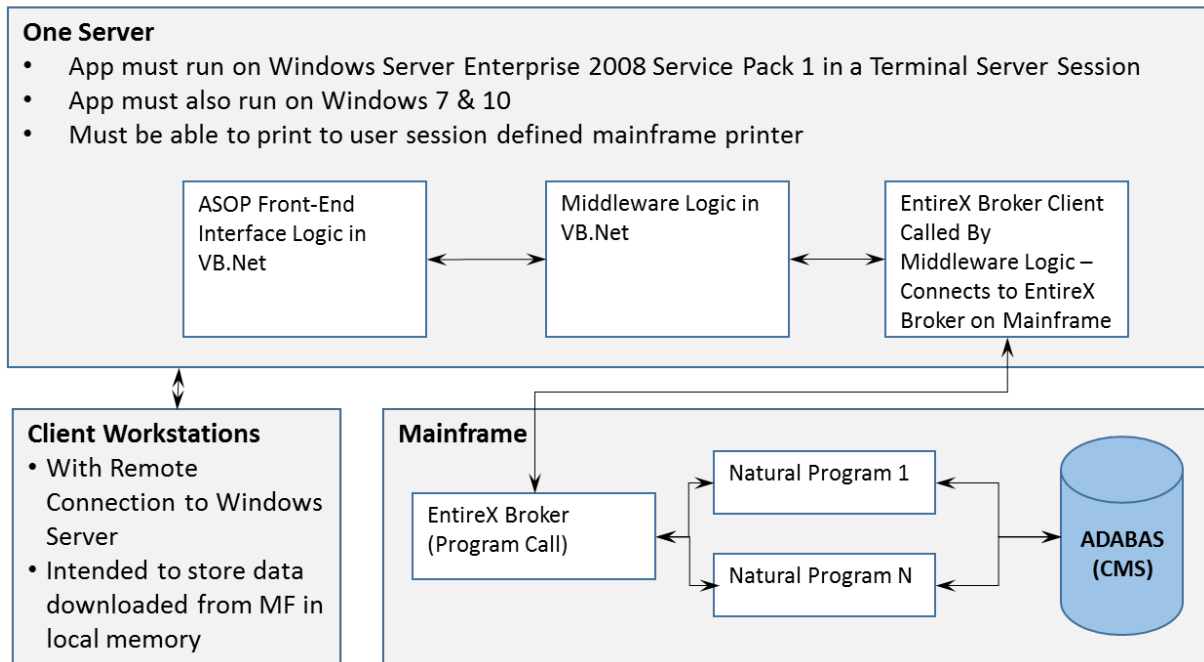

The ASOP server will have an EntireX Broker client that connects to a broker on the mainframe to obtain and save case data to and from the mainframe. This broker will connect to a Natural program and/or another broker to connect to the mainframe ADABAS database. This ADABAS database is the ultimate (authoritative) record store for the ASOP system.

It is intended that EntireX will be upgraded from current its current 5.x version to latest version which, as of now, is 9.12. Then integration of the ASOP front-end with the EntireX Broker client will require some custom development.

Data currently stored in ACCESS (for drop lists in the end user interface and for population of the sentencing screens described above in Section 3.3.1.1 and 3.3.1.2) is intended to be downloaded from the mainframe when the user logs in to the ASOP system. Rather than populating an intermediate database per the current architecture, it is intended to be stored in local memory. Temporary data currently stored in the ASOPWorkspace.MDB database will also be held in memory until it is uploaded to the mainframe.

The above is summarized in the following diagram.

Future ASOP Architecture

4.2 Deliverable Requirements

Technical knowledge transfer, including technical documentation of the design of the application must be provided to JIC by the development vendor.

5.0 Operational Requirements

5.1 Fault Tolerance and Recovery Requirements

5.1.1 Single Points of Failure in Future ASOP Environment

- Network
- Terminal Server
- EntireX Mainframe Broker
- Remote Access License Server
- ASOP Print Server

5.1.2 Requirements for Enhancing Fault Tolerance and Recovery

The following are requirements for enhancing ASOP fault tolerance and recovery capability:

- Perform regression testing prior to installing patches/upgrades on terminal servers

- Maintain the existing separate development environment for testing of any upgrades (server, application, etc.)
- Per JIC Requirements, the system must run on a Windows Server 2008 Service Pack 1 Terminal Service client as well as Windows Server 2012 & 2016 and Windows 7 & 10
- It is intended that EntireX will be upgraded to latest version (currently 9.12)
 - Ensure that upgrade (from current 5.x) is fully compatible with the upgraded ASOP application
- Maintain a virtual environment if possible
- Continue with current backup schedule (Weekly full backups with daily incremental backups)
 - Restoring to a new Terminal Server can be done quickly since all data is stored on the mainframe

5.1.3 System Availability Requirements

- The ASOP application must be available to the court between the hours of 8:00 AM and 6:00 PM Monday through Friday.
 - Any hardware or software maintenance will need to be completed between the hours of 6:01 PM and 7:59 AM or on Saturday and Sunday with advanced notice and approval from the court.
 - The court would like a 3-day advanced notice on any scheduled maintenance, fixes or updates to the application or the hardware along with a description of the work to be performed.
 - The JIC standard maintenance window is 8:30 PM to 10 PM EST daily.
- Acceptable downtime for unplanned outages is 4 hours.
 - This does not include the mainframe or other hardware that is not under JIC control. Failure could occur at points outside of JIC's control.

5.2 Security Requirements

5.2.1 Authentication

Authentication will be handled by verification through the mainframe. The following is the foreseen high level process:

- The user will open the ASOP application.
- They will be prompted for their mainframe (ACF2) credentials
 - NOTE: These will not be same as their network credentials. A message/warning should be displayed indicating that.
- The user's credentials will be validated against the mainframe and access will be granted if the credentials entered match the credentials from the ACF2 system. The validation across the network must be encrypted since it will be transferring a user ID and password.
 - NOTE: The vendor will be responsible for proposing the solution and JIC will assist in validating it with the Delaware Department of Technology and Information (DTI) security standards.

All transactions will require all users to be authenticated. The current system does not require this authentication. It is preferred that authentication and determination of the application access level for users be performed at the mainframe level.

5.2.2 Authorization and Access Controls

If the user successfully passes the authentication process outlined above, their access level in the mainframe will be returned and used by the user interface code to provide the proper access. Current access levels available to users are:

- F – Full Access - Read, write, and view all data in the application
- G – View Only for sentencing data; users have the ability to update other sections of the application
- P – Presentence Investigation Unit - Full access is provided with the exception of the ability to approve orders based on information from reports.
- A – *Very few people have this. During system design, rights associated with this level need to be investigated and specified.*

The existing process for providing access control management already exists and need not change. The process consists of:

- The Court Information Security Office (ISO) sending requests for new or modified access to the JIC ISO.
- The JIC ISO reviewing the requests and modifying the mainframe security record as needed.

5.2.3 System Integrity

System protection will be supplied by current system protection applications. Databases will be required to exist in the State DMZ and the system will need to be available to users through a Two-Tier Architecture Landscape. Here the user will not access the database directly, but rather accesses the application which in-turn accesses the database.

The architecture of any system must protect the assets which comprises that system including but not limited to, physical hardware, operating system, business software and the data information contained within.

First the system will need to consider the classification of the data and information. The classification will determine the amount of security that must be applied not only to the static components and data at rest, but also to the system's data while it is in transit between client and server. Data classifications consist of:

- State of Delaware Public – Information available to the general public and accessible by the public.
- State of Delaware Confidential – Information covered by one or more laws. The disclosure of this information could endanger citizens, corporations, business partners and others. The types of information might be covered under non-disclosure agreements or safeguarded by a general reference in law or best practices.

- State of Delaware Secret – Information that, if divulged, could compromise or endanger the people, or assets of the State such as Public Safety Information. This includes data that is specifically protected by law (e.g. HIPAA).
- State of Delaware Top Secret – Information that could, if divulged, expose the State’s citizens and assets to great risk.

Second the system will need to consider the audience(s) requiring access to the system.

- Authorization and Authentication needs to be in place as this is a security process in which the user provides a means of identification proving that the person is who they say they are.
- Password Standards and Management needs to be enforced, strong password standard requirements and support user authentication.
 - Users shall be required to enter their old password prior to changing.
 - The system will require the user to change their password upon first logon.
 - Admin interfaces will not display user passwords while managing a user’s account.
 - Administrative interfaces shall allow a system admin to reset or change password.
- The system will need to check access control permissions.
 - Users will need to be restricted to the information and functionality based on their role.

Third the system will need to consider the security controls that must be designed into the system.

- Software coding standards includes considerations for development of secure software and features within the application to enhance security.
- Auditing and Logging Capabilities. The system must, at a minimum, log the following events:
 - Successful and failed authentication attempts
 - Authorization and access failures
 - Application errors
 - Account lockouts
 - Insert, Update, Delete
 - Time/Date stamp
 - Requestor’s Username

5.2.4 Audit

Currently, a shared connection string using a static user ID transmits the same user ID to the mainframe regardless of who is using the ASOP application. Only the Add User ID and the LAST Update User ID for the user making the most recent update is captured for any records and stored on the mainframe. There is no complete audit trail history for all users stored on the mainframe.

As part of system design, it should be determined whether the system should be enhanced so that the user ID of the person using the application is sent to and stored on the mainframe for audit purposes to track who performed the most recent update to the record. If the enhancement is undertaken, it would predominantly require mainframe programming to be performed by JIC.

6.0 Attachment A - Module Details and References Report for Current System

This attachment is contained in a separate document.
