Subject: DE Dept. of Labor - Office of Workers' Compensation Contract

Dear Sirs:

Bob Radics shared with me the last piece we needed in your proposal to provide professional services to the DE Department of Labor (DOL) - Office of Workers' Compensation (OWC). These services will validate hospital blended rate changes submitted by the Delaware Health Care Association and individual ambulatory surgery center (ASC) rate changes, as well as calculate the next year's percent of charge rates for these entities, pursuant to 19 Del. C. §§2322B(8) and (9) - <http://delcode.delaware.gov/title19/c023/sc02/index.shtml>.

I would like to offer ParenteBeard this contract. Once you confirm ParenteBeard accepts the offer, we will prepare the contract and e-mail you a copy to review and approve. Please let me know the name and title of the person, who will sign the contract on behalf of ParenteBeard. Once we agree to the terms, I will ask the Secretary of the Dept. of Labor to sign two original contracts and forward them to you for your signatures. Once we receive our signed original back, the contract will be executed.

In the meantime, please let me know if you have any questions. I look forward to working with your organization.

Sincerely,

Donna Forrest
Medical Component Manager, Delaware Office of Workers' Compensation
