

**Q&A (Revised)**  
**NAT\_15-001 Air Quality Forecasting**

1. Is it possible to provide who the previous/current contractor as well as the awarded contract price?

Answer: The current/previous contractor is Pennsylvania State University. The awarded contract price is \$21,907/year.

2. There are references to certain contract terms that our organization will likely try to negotiate if awarded a contract. Is that something that should be addressed now or upon time of award (if an award is made)?

Answer: A contract will be issued upon award. The details for the specific terms and conditions stated within this contract must be accepted by both the vendor and the State of Delaware. Vendors responding to this RFP must list all exemptions to any of the terms and conditions as stated within this solicitation using Attachment 3, otherwise the State of Delaware assumes vendor agrees to all solicitation terms and conditions.
