

CONTRACT NO. NAT201306-LIT.RIVER
PROJECT NAME: LITTLE RIVER CHANNEL DREDGING PROJECT
ADDENDUM NO. 1
MAY 26, 2015

The following are revisions to the specifications for the project. The revised pages are included.

1. Specification Section 35 20 23.23, Paragraph 3.3.2 shall be revised to state:

3.3.2. Placement of dredged material at the Little Creek Wildlife Area shall conform to the requirements and procedures set forth in these specifications and as shown on the Contract Drawings.
2. The Section 3A Proposal Form has been revised to state that dredging will be paid per cubic yard, with an estimate of 79,000 cubic yards to be dredged.
3. The Section 3A Proposal Form has been revised to state that removal of timber piles will be paid Per Each, with an estimate of 30 piles to be removed within the channel dredging limits.
4. The Section 3A Proposal Form has been revised to add a Lump Sum Bid Item to remove the derelict vessel within the channel dredging limits.
5. The completion date for the project has extended from November 30, 2015 to December 31, 2015. Specification Section 1-J Special Provisions, Paragraph 1J.18 COMPLETION DATE and Section 3A Proposal Form have been revised accordingly.
