Subject: DNREC RFP for Chemical Analysis of Osprey Egg and Fish Samples

Dr. Hale,

This email is to inform you that VIMS has been selected as the contractor for the DNREC RFP Chemical Analysis of Osprey Egg and Fish Samples. Currently your proposal is being reviewed by our Attorney Generals office in regard to your proposed alternatives to the two exceptions that VIMS had with the RFP. Once we have approval from the AG's office we will be forwarding you a Professional Services Agreement for your signature. If you have any questions please contact me.

Thank you,
Bob
