SUBJECT: ADDENDUM TO INVITATION TO BID - CONTRACT NO. NAT-17006-  
AIRPLSRVY FIXED-WING AERIAL SURVEYS

**ADDENDUM 1**

***Questions & responses regarding the RFP for services to perform fixed-wing aerial surveys.***

**What is DNREC's budget for this contract?**

Project costs may vary by year according to specific needs. Averaged over the past three years, approximately \$70K/yr has been budgeted to complete the three surveys (collectively). A portion of this budget includes data analysis, report preparation & presentation of results (not included in the scope of this RFP).

**Will the Scope of the contract be limited to Bald Eagle nest monitoring, waterfowl surveys, and artificial reef surveys, or may it include additional projects?**

Although the scope of this contract could conceivably allow for use of fixed-wing aircraft on other projects, the contract is only expected to include the Bald Eagle nest monitoring, waterfowl surveys and the artificial reef surveys.

**Is the use of fixed-wing aircraft in conducting a survey of Bald Eagle nests in Delaware a new requirement, or is there an incumbent currently providing these services to DNREC? If so, who is this incumbent?**

The use of fixed-wing aircraft in conducting a survey of Bald Eagle nests in Delaware is not a new requirement as there is an incumbent currently providing these services.

**Would the use of an alternative method of survey be acceptable?**

An alternative survey method is not acceptable.

All other terms and conditions remain the same.
