ADDENDUM #2

RFI Questions:

1. In the bid documents there is a section listed for an electrical subcontractor. But there does not seem to be an electrical scope of work for this project. Does an electrical contractor still need to be listed on the bid form?

Response: The electrical contractor needs to be listed as there may be minor electrical work involving the disconnection/reconnection of the (3) existing circulation pumps when installing the new hot water return lines.
