ARTICLE 1 GENERAL PROVISIONS

§ 1.1 Basic Definitions

§ 1.1.1 The Contract Documents

The Contract Documents are enumerated in the Agreement between the Owner and Contractor (hereinafter the Agreement) and consist of the Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, Addenda issued prior to execution of the Contract, other documents listed in the Agreement, and Modifications issued after execution of the Contract. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive, or (4) a written order for a minor change in the Work issued by the Architect. Unless specifically enumerated in the Agreement, the Contract Documents do not include the advertisement or invitation to bid, Instructions to Bidders, sample forms, other information furnished by the Owner in anticipation of receiving bids or proposals, the Contractor's bid or proposal, or portions of Addenda relating to bidding or proposal requirements.

§ 1.1.2 The Contract

The Contract Documents form the Contract for Construction. The Contract represents the entire agreement between the parties hereto and supersedes prior negotiations, representations, or agreement written or oral. The Contract may be amended or modified only by a Modification. The Contract D hall not be erte construed to create a contractual relationship of any kind (1) between the Contractor and th Arch ltect or the Architect's consultants, (2) between the Owner and a Subcontractor or a Sub-subcontractor between the Owner and the Architect or the Architect's consultants, or (4) between any persons or entit er than the Owner and the Contractor. The Architect shall, however, be entitled to performance and enfor bligations under the of Contract intended to facilitate performance of the Architect's duties.

§ 1.1.3 The Work

The term "Work" means the construction and services required by the tract Documents, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the constitute the whole or a part of the Project. Contractor to fulfill the Contractor's obligations. The Work ma

§ 1.1.4 The Project

The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by the by Separate Contractors.

§ 1.1.5 The Drawings

The Drawings are the graphic and pictorial f the Contract Documents showing the design, location and tions dimensions of the Work, generally inclu elevations, sections, details, schedules, and diagrams. là

§ 1.1.6 The Specifications

The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, systems, standards workmanship for the Work, and performance of related services.

§ 1.1.7 Instruments of Se

Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Architect and the Architect's consultants under their respective professional service ces agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

§ 1.1.8 \n Decision Maker

acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity that would otherwise exist as to a party or person described in this Section 3.18.

§ 3.18.2 In claims against any person or entity indemnified under this Section 3.18 by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the indemnification obligation under Section 3.18.1 shall not be limited by a limitation on amount or type of damages, compensation, or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts, or other employee benefit acts.

ARTICLE 4 ARCHITECT

§ 4.1 General

§ 4.1.1 The Architect is the person or entity retained by the Owner pursuant to Section 2.3.2 and identified as such in the Agreement.

§ 4.1.2 Duties, responsibilities, and limitations of authority of the Architect as set forth in the Contractor Documents shall not be restricted, modified, or extended without written consent of the Owner, Contractor, and Architect. Consent shall not be unreasonably withheld.

§ 4.2 Administration of the Contract

§ 4.2.1 The Architect will provide administration of the Contract as described to the Contract Documents and will be an Owner's representative during construction until the date the Architect issues the final Certificate for Payment. The Architect will have authority to act on behalf of the Owner only to the exact provided in the Contract Documents.

§ 4.2.2 The Architect will visit the site at intervals appropriate to the stage of construction, or as otherwise agreed with the Owner, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general if the Work observed is being performed in a maner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the gality or quantity of the Work. The Architect will not have control over, charge of, or responsibility for the contract tion means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents.

§ 4.2.3 On the basis of the site visits, the Architect will keep the Owner reasonably informed about the progress and quality of the portion of the Work completer, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in a vordance with the requirements of the Contract Documents. The Architect will not have control over or charge of, and will not be responsible for acts or omissions of, the Contractor, Subcontractors, or their agents or employees, or an other persons or entities performing portions of the Work.

§ 4.2.4 Communications

The Owner and Contractor shall include the Architect in all communications that relate to or affect the Architect's services or professional responsibilities. The Owner shall promptly notify the Architect of the substance of any direct communication between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect. Communications by and with Subcontractors and suppliers shall be through the Contractor. Communications by and with Separate Contractors shall be through the Owner. The Contract Documents may specify other communication protocols.

§ 4.2.5 Based on the Architect's evaluations of the Contractor's Applications for Payment, the Architect will review and certify the amounts due the Contractor and will issue Certificates for Payment in such amounts.

§ 4.2.6 The Architect has authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect will have authority to require inspection or testing of the Work in accordance with Sections 13.4.2 and 13.4.3, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise

such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 4.2.7 The Architect will review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect's action will be taken in accordance with the submittal schedule approved by the Architect or, in the absence of an approved submittal schedule, with reasonable promptness while allowing sufficient time in the Architect's professional judgment to permit adequate review. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Contractor as required by the Contract Documents. The Architect's review of the Contractor's submittals shall not relieve the Contractor of the obligations under Sections 3.3, 3.5, and 3.12. The Architect's review shall not constitute approval of safety precautions or of any construction means, methods, techniques, sequences, or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 4.2.8 The Architect will prepare Change Orders and Construction Change Directives, and may order minor changes in the Work as provided in Section 7.4. The Architect will investigate and make determinations and recommendations regarding concealed and unknown conditions as provided in Section 3.7.4.

§ 4.2.9 The Architect will conduct inspections to determine the date or dates of Spostantial Completion and the date of final completion; issue Certificates of Substantial Completion pursuant to Section 8; receive and forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract and assembled by the Contractor pursuant to Section 9.10; and issue a final Certificate for Payment pursuant to Section 9.10.

§ 4.2.10 If the Owner and Architect agree, the Architect will provide one or more Project representatives to assist in carrying out the Architect's responsibilities at the site. The Owner shall notify the Contractor of any change in the duties, responsibilities and limitations of authority of the Project representatives.

§ 4.2.11 The Architect will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests will be made in writing within any time limits agreed poor or otherwise with reasonable promptness.

§ 4.2.12 Interpretations and decisions of the Architect will be consistent with the intent of, and reasonably inferable from, the Contract Documents and with the architect will be form of drawings. When making such interpretations and decisions, the Architect will endeavor to enter faithful performance by both Owner and Contractor, will not show partiality to either, and will not be hable for results of interpretations or decisions rendered in good faith.

§ 4.2.13 The Architect's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Rocupents.

§ 4.2.14 The Architect will review and respond to requests for information about the Contract Documents. The Architect's response to such requests will be made in writing within any time limits agreed upon or otherwise with reasonable promptoess. If appropriate, the Architect will prepare and issue supplemental Drawings and Specifications in response to the requests for information.

The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests tions, to correction of minor deviations from the Contract Documents prior to completion, and to spe if c qualifications expressed by the Architect. However, the issuance of a Certificate for Payment will not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or mantity of the Work; (2) reviewed construction means, methods, techniques, sequences, or procedures; (3) reviewed oppies of requisitions received from Subcontractors and suppliers and other data requested by the Ormer to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what perpe se the Contractor has used money previously paid on account of the Contract Sum.

§ 9.5 Decisions to Withhold Certification

§ 9.5.1 The Architect may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Architect's or inter the representations to the Owner required by Section 9.4.2 cannot be made. If the Architect is unable to cert five a ment in the amount of the Application, the Architect will notify the Contractor and Owner as provided in Section 9.4.1. If the Contractor and Architect cannot agree on a revised amount, the Architect will promptly issue a pertificate for Payment for the amount for which the Architect is able to make such representations to the Owner. The Architect may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may fulling the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from acts and omissions described in Section 3.3.2, because of

- .1 defective Work not remedied;
- - f ilure of the Contractor to make payments properly to Subcontractors or suppliers for labor, materials is requipment;
 - reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum; damage to the Owner or a Separate Contractor;
- .6 reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or
- .7 repeated failure to carry out the Work in accordance with the Contract Documents.

§ 9.5.2 When either party disputes the Architect's decision regarding a Certificate for Payment under Section 9.5.1, in whole or in part, that party may submit a Claim in accordance with Article 15.

§ 9.5.3 When the reasons for withholding certification are removed, certification will be made for amounts previously withheld.

§ 9.5.4 If the Architect withholds certification for payment under Section 9.5.1.3, the Owner may, at its sole option, issue joint checks to the Contractor and to any Subcontractor or supplier to whom the Contractor failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, the Owner shall notify the Architect and the Contractor shall reflect such payment on its next Application for Payment.

§ 9.6 Progress Payments

§ 9.6.1 After the Architect has issued a Certificate for Payment, the Owner shall make payment in the manner and within the time provided in the Contract Documents, and shall so notify the Architect.

§ 9.6.2 The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from ie Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payment Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropria nent with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in anner.

§ 9.6.3 The Architect will, on request, furnish to a Subcontractor, if practicable, information percentages of completion or amounts applied for by the Contractor and action taken thereon by the Archi ct an Owner on account of portions of the Work done by such Subcontractor.

§ 9.6.4 The Owner has the right to request written evidence from the Contractor that ontractor has properly paid ontracted Work. The Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up, plus interest as provided for in the Contract Documents.

§ 9.8 Substantial Completion

§ 9.8.1 Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.

§ 9.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

§ 9.8.3 Upon receipt of the Contractor's list, the Architect will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the Architect's inspection discloses any item, whether or not included on the Contractor's list, which is not sufficiently complete in accordance with the Contract Documents to that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon recification by the Architect. In such case, the Contractor shall then submit a request for another inspection by the Architect to determine Substantial Completion.

§ 9.8.4 When the Work or designated portion thereof is substantially complete, the Archite t will prepare a Certificate of Substantial Completion that shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ 9.8.5 The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance, and consent of surety if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with he requirements of the Contract Documents.

§ 9.9 Partial Occupancy or Use

§ 9.9.1 The Owner may occupy or use any completed or artially completed portion of the Work at any stage when such portion is designated by separate agreem it. the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Project. When the Contractor considers a portion substantially complete Contractor shall prepare and submit a list to the Architect as provided under Section 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the W all b determined by written agreement between the Owner and Contractor or, if no agreement is reached by decision of the Architect.

§ 9.9.3 Uness therwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute accurate of Work not complying with the requirements of the Contract Documents.

§ 9.10 Final Completion and Final Payment

§ 9.10.1 Upon receipt of the Contractor's notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment, the Architect will promptly make such inspection. When the Architect finds the Work acceptable under the Contract Documents and the Contract fully performed, the Architect will promptly issue a final Certificate for Payment stating that to the best of the Architect's knowledge, information and belief, and on the basis of the Architect's on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Architect's final Certificate for Payment will constitute a further representation that conditions listed in Section 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

§ 9.10.2 Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to the Architect (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect, (3) a written statement that the Contractor knows of no reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) consent of surety, if any, to final payment, (5) documentation of any special warranties, such as manufacturers' warranties or specific Subcontractor warranties, and (6) if required by the Owner, other data establishing payment or satisfaction of obligations, such as receipts and releases and waivers of liens, claims, security interests, or encumbrances arising out of the Contract, to the extent and in such form as may be designated by the Owner. If a Subcontractor refuses to furnish a release or waiver required by the Owner, the Contractor may furnish a b satisfactory to the Owner to indemnify the Owner against such lien, claim, security interest, or encumbrand ien. claim, security interest, or encumbrance remains unsatisfied after payments are made, the Contractor sha und to the Owner all money that the Owner may be compelled to pay in discharging the lien, claim, sec or encumbrance, including all costs and reasonable attorneys' fees.

§ 9.10.3 If, after Substantial Completion of the Work, final completion thereof is materially d through no fault delay of the Contractor or by issuance of Change Orders affecting final completion, and the so confirms, the rc Owner shall, upon application by the Contractor and certification by the Architect Ithout terminating the Contract, make payment of the balance due for that portion of the Work fully comple orrected, and accepted. If ted, the remaining balance for Work not fully completed or corrected is less than regardless than the Contract Documents, and if bonds have been furnished, the written consent of the surgety to payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by actor to the Architect prior to certification of such payment. Such payment shall be made under term d conditions governing final payment, except that it shall not constitute a waiver of Claims.

§ 9.10.4 The making of final payment shall constitute a waiver of Clarms by the Owner except those arising from

- .1 liens, Claims, security interests, or encumbrance, arising out of the Contract and unsettled;
- .2 failure of the Work to comply with the requirements of the Contract Documents;
- .3 terms of special warranties required by the Contract Documents; or
- .4 audits performed by the Owner, if prmitted by the Contract Documents, after final payment.

§ 9.10.5 Acceptance of final payment by the contractor, a Subcontractor, or a supplier, shall constitute a waiver of claims by that payee except those previously mate in writing and identified by that payee as unsettled at the time of final Application for Payment.

#### ARTICLE 7: CHANGES IN THE WORK

- 7.1 The Owner, without invalidating the Contract, may order changes in the Work consisting of Additions, Deletions, Modifications or Sunstitutions, with the Contract Sum and Contract completion date being adjusted accordingly. Such changes in the Work shall be authorized by written Change Order signed by the Professional, as the duly authorized agent, the Contractor and the Owner.
- 7.2 The Contract Sum and Contract Completion Date shall be adjusted only by a fully executed Change Order.
- 7.3 The additional cost, or cedit to the Owner resulting from a change in the Work shall be by mutual agreement of the Owner, Contractor and the Architect. In all cases, this cost or credit shall be based on the 'DPE' wages required and the "invoice price" of the material accuipment needed.
- 7.3.1 "DPE" shall be defined to mean "direct personnel expense". Direct payroll expense includes prevailing wage rates plus a maximum multiplier of 1.35 times DPE. For example, if the prevailing wage rate is \$50/hour, the DPE would be \$67.50/hour (50 x 1.35).

"Invoice price" of materials/equipment shall be defined to mean the actual cost of materials and/or equipment that is paid by the Contractor, (or subcontractor), to a material distributor, direct factory vendor, store, material provider, or equipment leasing entity. Rates for equipment that is leased and/or owned by the Contractor or subcontractor(s) shall not exceed those listed in the latest version of the "Means Building Construction Cost Data" publication.

7.3.3 In addition to the above, the General Contractor is allowed a fifteen percent (15%) markup for overhead and profit for additional work performed by the General Contractor's own forces. For additional subcontractor work, the Subcontractor is allowed a fifteen (15) percent overhead and profit on change order work above and beyond the direct costs stated previously. To this amount, the General Contractor will be allowed a mark-up not

exceeding seven and one half percent (7.5%) on the subcontractors work. These markups shall include all costs including, but not limited to: overhead, profit, bonds, insurance, supervision, etc. No markup is permitted on the work of the subcontractors subcontractor. No additional costs shall be allowed for changes related to the Contractor's onsite superintendent/staff, or project manager, unless a change in the work changes the project duration and is identified by the CPM schedule. There will be no other costs associated with the change order.

#### ARTICLE 8: TIME

- 8.1 Time limits, if any, are as stated in the Project Manual. By executing the Agreement, the Contractor confirms that the stipulated limits are reasonable, and that the Work will be completed within the anticipated time frame.
- 8.2 If progress of the Work is delayed at any time by changes ordered by the Owner, by labor disputes, fire, unusual delay in deliveries, abnormal adverse weather conditions, unavoidable casualties or other causes beyond the Contractors control, the Contract Time shall be extended for such reasonable time as the Owner may determine.
- 8.3 Any extension of time beyond the date fixed for concletion of the construction and acceptance of any part of the Work called for by the Contract, or the occupancy of the building by the Owner, in whole or in part, previous to the completion shall not be deemed a waiver by the Owner of his right to annul or terminale the Contract for abandonment or delay in the matter provided for, nor relieve the Contractor of full responsibility.
- 8.4 SUSPENSION AND DEBARMENT
- 8.4.1 Per Section 6962(d)(14), Title 29 Delaware Code, "Any Contractor who fails to perform a public works contract or complete a public works project within the time schedule established by the Agency in the Invitation To Bid, may be subject to Suspension or Debarment for one or more of the following reasons: a) failure to supply the adequate labor supply ratio for the project: Dehadequate financial resources; or, c) poor performance on the Project."
- 8.4.2 "Upon such families for any of the above stated reasons, the Agency that contracted for Sproject may petition the Director of the Office of Management and the public **Budaet** or Suspension or Debarment of the Contractor. The Agency shall send a copy of the Contractor within three (3) working days of filing with the Director. If the pet tion t Director concludes that the petition has merit, the Director shall schedule and hold a g to determine whether to suspend the Contractor, debar the Contractor or deny hea the petition. The Agency shall have the burden of proving, by a preponderance of the vidence, that the Contractor failed to perform or complete the public works project within the time schedule established by the Agency and failed to do so for one or more of the following reasons: a) failure to supply the adequate labor supply ratio for the project; b) inadequate financial resources; or, c) poor performance on the project. Upon a finding in favor of the Agency, the Director may suspend a Contractor from Bidding on any project funded, in whole or in part, with public funds for up to 1 year for a first offense, up to 3 years for a second offense and permanently debar the Contractor for a third offense. The Director shall issue a written decision and shall send a copy to the Contractor and the Agency. Such decision may be appealed to the Superior Court within thirty (30) days for a review on the record."

#### 8.5 RETAINAGE

8.5.1 Per Section 6962(d)(5) a.3, Title 29, Delaware Code: The Agency may at the beginning of each public works project establish a time schedule for the completion of the project. If

the project is delayed beyond the completion date due to the Contractor's failure to meet their responsibilities, the Agency may forfeit, at its discretion, all or part of the Contractor's retainage.

8.5.2 This forfeiture of retainage also applies to the timely completion of the punchlist. A punchlist will only be prepared upon the mutual agreement of the Owner, Architect and Contractor. Once the punchlist is prepared, all three parties will by mutual agreement, establish a schedule for its completion. Should completion of the punchlist be delayed beyond the established date due to the Contractor's failure to meet their responsibilities, the Agency may hold permanently, at its discretion, all or part of the Custation's retainage.

#### ARTICLE 9: PAYMENTS AND COMPLETION

9.1 APPLICATION FOR PAYMENT

- 9.1.1 Applications for payment shall be made upon AIA Document G702. There will be a five percent (5%) retainage on all Contractor's monthly invoices until completion of the project. This retainage may become payable upon receipt of all included closeout documentation, provided all other requirements of the Contract Documents have been met.
- 9.1.2 A date will be fixed for the taking of the monthly account of work done. Upon receipt of Contractor's itemized application for payment, such application will be audited, modified, if found necessary, and approved for the amount. Statement shall be submitted to the Owner.
- 9.1.3 Section 6516, Title 29 of the <u>Delaware code</u> annualized interest is not to exceed 12% per annum beginning thirty (30) days after the "presentment" (as opposed to the date) of the invoice.

#### A GUIDE TO THE PREVENTION AND REPORTING OF SEXUAL ABUSE AND MISCONDUCT WITH OFFENDERS

## PREA Information for Contractors, Vendors, and Volunteers with Limited Contact with Offenders

## Please Read, Sign, and Return this Acknowledgement Form with the Security Clearance Application

## Staff Sexual Misconduct

Delaware Department of Correction (DDOC) policy 8.60 specifically forbids any activity associated with or that promotes acts of sexual conduct, including sexual harassment between offenders and DOC start. Lethis definition, "staff" includes: contractors, vendors and volunteers of the DOC. An "offender' means someone incarcerated in a correctional facility or under supervision in the community. DDOC policy 8.60 contains detailed descriptions of what constitutes sexual misconduct and staff misconduct of a sexual nature (Policy 8.60 is available on the DDOC website at: <u>http://www.doc.dctaware.gov/downloads/policy_8-60.pdf</u>)

## Forms of sexual misconduct include, but are not limited to:

- 1. Any behavior of a sexual nature directed toward an offender by a Department staff, contract staff, or volunteer.
- 2. Inappropriate touching between offenders and staff.
- 3. All completed, attempted, threatened, or requested sexual acts between Department staff and the offender.
- 4. Sexual comments and conversations with exactly suggestive innuendos or double meanings.
- 5. Display or transmittal of sexually suggestive posters, objects, or messages.

Depending on the investigation findings of an Heged incident, the outcome may result in the loss of your job/assignment and the possibility of arminal charges. In addition, persons accused of sexual harassment in civil or criminal proceedings may be hed rersonally liable for damages to the person harassed.

## An Abuse of Power

Due to the imbalance of power between offenders and staff in correctional settings, sexual interactions between staff (who have power) and offenders (who lack power) are unprofessional, unethical and illegal. Some offenders the lack power may become sexually involved with staff in an effort to equalize the imbalance of nower Occasionally an offender may try to use sex to improve his/her standing or circumstances (e.g., better job, avoid disciplinary action, affect a release plan, gain privileges, etc.). As a DOC contractor, vendor or volunteer, your designated assignments place you in a position of authority over the offenders with whom you interact in a professional capacity. It is not possible to have a relationship as equals because you have a responsibility to maintain custody, evaluate work performance, and/or provide input to issues that affect release dates, return to prison, or other sanctions.

Because of the imbalance of power between offenders and staff, vendors, contractors and volunteers, there can never be a consensual relationship between staff and offenders. In fact, the law states "consent" is not a defense to prosecution. Here are some factors to consider.

#### **History of Victimization**

Some staff don't think of offenders as 'victims' of staff sexual misconduct, especially when the offender appears to be a willing participant or even initiated the sexual or 'romantic' interactions with a staff member. The offender is always the victim because of the imbalance of power. The consent or willingness of an offender to participate may be a survival strategy or a learned response to previous or current victimization. Many offenders have a history of victimization (physical and/or sexual abuse), which may make them especially vulnerable to the sexual overtures of persons in positions of authority. Their perception of affection/love may be skewed by this background of abuse, making it impossible for them to refuse advances of a staff member.

In some instances, particularly for female offenders, their survival in the community has been likecity related to using their sexuality to obtain the means to survive. Coupled with low self-esteem, this carries over into their conduct in prison and while under community supervision.

As the person in authority, it is your responsibility to discourage, refuse and report in evertures as well as maintain professional boundaries at all times. Boundaries in relationships can be difficult. If you question your professional boundaries with an offender or feel uncomfortable with dis/ er actions or advances toward you, talk to another person you respect and/or bring this matter to the attender of a DOC employee before it gets out of control.

#### Red Flags:

The following are behaviors or 'red flags' that may signal you or someone you work with is in danger of engaging in sexual misconduct with an offender:

- Spending a lot of time with a particular offer de
- · Change in appearance of an offender or staff member
- Deviating from agency policy for the benefit of a particular offender
- · Sharing personal information with an offender
- · Horseplay
- · Overlooking infractions of c particular offender
- Doing favors for an offender
- · Consistently voluncering for a particular assignment or shift
- · Coming to work early staying at work late
- Flirting with an offender

# Some Other Things to Consider:

Amorous or nexual relationships with an offender are seldom a secret. Such behavior will subject you to disrespect and manipulation from other offenders that may be aware of your situation. Once in a relationship, professional judgment becomes clouded and the normal defenses that exist to protect you will be compromised. When acting on emotions, you may take actions that would otherwise be considered inappropriate in a correctional environment (either in custody or in the community).

Amorous or sexual relationships are inappropriate and illegal when they occur between an offender and any staff member, contractor, vendor or volunteer. Offenders depend upon staff to provide for their board and care, ensure their safety, address their health care needs, supervise their work and conduct, and act as role models for socially acceptable conduct. Your conduct and the decisions you make reflect not only on your own reputation, but also on that of your peers and the agency you represent.

#### How to Maintain Appropriate Boundaries:

Most staff/offender sexual misconduct occurs only after seemingly innocent professional boundaries have been crossed. The following behaviors will assist you in maintaining appropriate boundaries:

- Maintain professional distance
- Focus behavior on duties and assignments
- Do not become overly close with offenders
- Do not share your own or other staff person's personal information with or around offenders
- When speaking to offenders about other staff, refer to the staff by their title or as Ms. or Mr.
- . When speaking to offenders refer to them as Ms. or Mr. and their last name
- Do not accept gifts or favors from offenders
- Be knowledgeable of Departmental policy and procedure, rules of conduct and law gading sexual misconduct and sexual harassment.

## A Duty to Report

Staff must report any inappropriate staff/offender behavior immediately. The presence of illegal and unethical behavior by staff compromises the security and safety of the agency Staff that fail to report such behavior will be held accountable and sanctioned through dismissal. All efforts will be made to ensure the confidentiality of the reporting staff member.

#### **1.06 COORDINATION**

- A. See Section 01 10 00 for occupancy-related requirements.
- B. Coordinate scheduling, submittals, and work of the various sections of the Project Manual to ensure efficient and orderly sequence of installation of interdependent construction elements, with provisions for accommodating items installed later.
- C. Notify affected utility companies and comply with their requirements.
- D. Verify that utility requirements and characteristics of new operating equipment are compatible with building utilities. Coordinate work of various sections having interdependent responsibilities for installing, connecting to and placing in service, such equipment.
- E. Coordinate space requirements, supports, and installation of mechanical and electrical work that are indicated diagrammatically on Drawings. Follow routing shown for pipes, ducts, and conduit, as closed, as practicable; place runs parallel with lines of building. Utilize spaces efficiently to maximize accessibility for other installations, for maintenance, and for repairs.
- F. In finished areas except as otherwise indicated, conceal pipes, ducts, and wiring within the construction. Coordinate locations of fixtures and outlets with finish elements.
- G. Constinute completion and clean-up of work of separate sections.

H. After State of Delaware OMB - Division of Facilities Management occupancy of premises, coordinate access to site for correction of defective work and work not in accordance with contract Documents, to minimize disruption of State of Delaware OMB - Division of Facilities Management's activities.

# PART 2 PRODUCTS

# 2.01 PATCHING MATERIALS

- A. New Materials: As specified in product sections; match existing products and work for patching and extending work.
- B. Type and Quality of Existing Products: Determine by inspecting and testing products where necessary, referring to existing work as a standard.
- C. Product Substitution: For any proposed change in materials, submit request for substitution described in Section 01 60 00 Product Requirements.

#### PART 3 EXECUTION

#### 3.01 EXAMINATION

- A. Verify that existing site conditions and substrate surfaces are acceptable for subsequent work. Start of work means acceptance of existing conditions.
- B. Verify that existing substrate is capable of structural support or attachment of new work being applied or attached.
- C. Examine and verify specific conditions described in individual specification sections.
- D. Take field measurements before confirming product orders or beginning fabrication, to unit lize waste due to over-ordering or misfabrication.
- E. Verify that utility services are available, of the correct characteristics, and in the correct characteristics.
- F. Prior to Cutting: Examine existing conditions prior to commencing work, including elements subject to damage or movement during cutting and patching. After uncovering existing work, assess conditions affecting performance of work. Beginning of cutting or patching means acceptance of existing conditions.

#### 3.02 PREPARATION

- A. Clean substrate surfaces prior to applying next material of substance
- B. Seal cracks or openings of substrate prior to applying dex material or substance.
- C. Apply manufacturer required or recommended substrate orimer, sealer, or conditioner prior to applying any new material or substance in contact or bond.

#### 3.03 PREINSTALLATION MEETINGS

- A. When required in individual specification sections, convene a preinstallation meeting at the site prior to commencing work of the section.
- B. Require attendance of parties directly affecting, or affected by, work of the specific section.
- C. Notify DEDC, LLC four days in advance of meeting date.
- D. Prepare agenda and preside at meeting:
  - 1. Review conditions of elemenation, preparation and installation procedures.
  - 2. Review coordination with related work.
- E. Record minutes and estribute copies within two days after meeting to participants, with two copies to DEDC LLC, State of Delaware OMB Division of Facilities Management, participants, and those affected by decisions made.

# 3.04 GENERAL INSTAL ION REQUIREMENTS

A. Install products as specified in individual sections, in accordance with manufacturer's instructions and recommendations, and so as to avoid waste due to necessity for replacement.

B. Make virtical elements plumb and horizontal elements level, unless otherwise indicated.

Install equipment and fittings plumb and level, neatly aligned with adjacent vertical and nonzontal lines, unless otherwise indicated.

Make consistent texture on surfaces, with seamless transitions, unless otherwise indicated.

Make neat transitions between different surfaces, maintaining texture and appearance.

#### 3.05 ALTERATIONS

- A. Drawings showing existing construction and utilities are based on casual field observation and existing record documents only.
  - 1. Verify that construction and utility arrangements are as shown.
  - 2. Report discrepancies to DEDC, LLC before disturbing existing installation.
  - 3. Beginning of alterations work constitutes acceptance of existing conditions.

- B. Maintain weatherproof exterior building enclosure except for interruptions required for replacement or modifications; take care to prevent water and humidity damage.
  - 1. Where openings in exterior enclosure exist, provide construction to make exterior enclosure weatherproof.
  - 2. Insulate existing ducts or pipes that are exposed to outdoor ambient temperatures by alterations work.
- C. Remove existing work as indicated and as required to accomplish new work.
  - 1. Remove items indicated on drawings.
  - 2. Relocate items indicated on drawings.
  - 3. Where new surface finishes are to be applied to existing work, perform removals, petch, and prepare existing surfaces as required to receive new finish; remove existing finish if necessary for successful application of new finish.
  - 4. Where new surface finishes are not specified or indicated, patch holes and damaged surfaces to match adjacent finished surfaces as closely as possible
- D. Services (Including but not limited to HVAC, Plumbing, Fire Protection, Diestrical, and Telecommunications): Remove, relocate, and extend existing system to accommodate new construction.
  - 1. Maintain existing active systems that are to remain in operation; maintain access to equipment and operational components; if necessary modify installation to allow access or provide access panel.
  - 2. Where existing systems or equipment are not active and Contract Documents require reactivation, put back into operational condition; repair supply, distribution, and equipment as required.
  - 3. Where existing active systems serve occupied facilities but are to be replaced with new services, maintain existing systems in service until new systems are complete and ready for service.
    - a. Disable existing systems ony to make switchovers and connections; minimize duration of outages.
    - b. See Section 01 10 00 for the limitations on outages and required notifications.
    - c. Provide temporary connections as required to maintain existing systems in service.
  - 4. Verify that abandone services serve only abandoned facilities.
  - 5. Remove abandones pipe ducts, conduits, and equipment, including those above accessible ceilings; remove back to source of supply where possible, otherwise cap stub and tag with derdification; patch holes left by removal using materials specified for new construction
- E. Protect existing work to remain.

F.

- 1. Prevent increment of structure; provide shoring and bracing if necessary.
- 2. Perform cutting to accomplish removals neatly and as specified for cutting new work.
- 3. Repair adjacent construction and finishes damaged during removal work.
- Adapt existing work to fit new work: Make as neat and smooth transition as possible.

Patching: Where the existing surface is not indicated to be refinished, patch to match the surface finish that existed prior to cutting. Where the surface is indicated to be refinished, patch so that the substrate is ready for the new finish.

Refinish existing surfaces as indicated:

- 1. Where rooms or spaces are indicated to be refinished, refinish all visible existing surfaces to remain to the specified condition for each material, with a neat transition to adjacent finishes.
- 2. If mechanical or electrical work is exposed accidentally during the work, re-cover and refinish to match.
- I. Clean existing systems and equipment.

HOWARD R. YOUNG CORRECTIONAL INSTITUTION AUGUST 2020

- Remove demolition debris and abandoned items from alterations areas and dispose of off-site; J. do not burn or bury.
- K. Do not begin new construction in alterations areas before demolition is complete.
- Comply with all other applicable requirements of this section. L.

#### 3.06 CUTTING AND PATCHING

- A. Whenever possible, execute the work by methods that avoid cutting or patching.
- See Alterations article above for additional requirements. B.
- C. Perform whatever cutting and patching is necessary to:
  - Complete the work. 1.
  - 2. Fit products together to integrate with other work.
  - Provide openings for penetration of mechanical, electrical, and other services 3.
  - Match work that has been cut to adjacent work. 4.
  - Repair areas adjacent to cuts to required condition. 5.
  - Repair new work damaged by subsequent work. 6.
  - Remove samples of installed work for testing when reques 7.
  - Remove and replace defective and non-conforming wor 8.
- D. Execute work by methods that avoid damage to other work and that will provide appropriate surfaces to receive patching and finishing. In existing w mize damage and restore to min original condition.
- Employ original installer to perform cutting for weather exposed and moisture resistant E. elements, and sight exposed surfaces.
- F. Cut rigid materials using masonry saw or core neumatic tools not allowed without prior approval.
- G. Restore work with new products in age ace with requirements of Contract Documents.
- H. Fit work air tight to pipes, sleeves, ducts, onduit, and other penetrations through surfaces.
- At penetrations of fire rated ways, partitions, ceiling, or floor construction, completely seal voids ١. with fire rated material in acc with Section 07 84 00, to full thickness of the penetrated nc element.
- J. Patching:
  - Finish patchers reacted to match finish that existed prior to patching. On continuous 1. To nearest intersection or natural break. For an assembly, refinish entire surfaces, refi unit.
  - 2. xture, and appearance. Matchec
  - 3. Regain patched surfaces that are damaged, lifted, discolored, or showing other mpenections due to patching work. If defects are due to condition of substrate, repair substrate prior to repairing finish.

# 3.07 PROCRESS CLEANING

Mai tain areas free of waste materials, debris, and rubbish. Maintain site in a clean and orderly ondition.

Remove debris and rubbish from pipe chases, plenums, attics, crawl spaces, and other closed or remote spaces, prior to enclosing the space.

- C. Broom and vacuum clean interior areas prior to start of surface finishing, and continue cleaning to eliminate dust.
- D. Collect and remove waste materials, debris, and trash/rubbish from site periodically and dispose off-site: do not burn or burv.

#### 3.08 PROTECTION OF INSTALLED WORK

A. Protect installed work from damage by construction operations.

- B. Provide special protection where specified in individual specification sections.
- C. Provide temporary and removable protection for installed products. Control activity in immediate work area to prevent damage.
- D. Provide protective coverings at walls, projections, jambs, sills, and soffits of openings.
- E. Protect finished floors, stairs, and other surfaces from traffic, dirt, wear, damage, or movement of heavy objects, by protecting with durable sheet materials.
- F. Prohibit traffic or storage upon waterproofed or roofed surfaces. If traffic or activity is necessary, obtain recommendations for protection from waterproofing or roofing material manufacturer.
- G. Remove protective coverings when no longer needed; reuse or recycle plastic covering if possible.

#### 3.09 SYSTEM STARTUP

- A. Coordinate schedule for start-up of various equipment and systems.
- B. Verify that each piece of equipment or system has been checked for proper lubrication, drive rotation, belt tension, control sequence, and for conditions that rule cause damage.
- C. Verify tests, meter readings, and specified electrical characteristics agree with those required by the equipment or system manufacturer.
- D. Verify that wiring and support components for equipment are complete and tested.
- E. Execute start-up under supervision of applicable Contractor personnel and manufacturer's representative in accordance with manufacturers instructions.
- F. Submit a written report that equipment or system has been properly installed and is functioning correctly.

#### 3.10 DEMONSTRATION AND INSTRUCTION

A. See Section 01 79 00 - Demonstration and Training.

#### 3.11 ADJUSTING

A. Adjust operating products and equir ment to ensure smooth and unhindered operation.

#### 3.12 FINAL CLEANING

- A. Use cleaning materials that are nonhazardous.
- B. Clean interior and exercise glass, surfaces exposed to view; remove temporary labels, stains and foreign substances, polish transparent and glossy surfaces, vacuum carpeted and soft surfaces.
- C. Remove all labels that are not permanent. Do not paint or otherwise cover fire test labels or nameplates on mechanical and electrical equipment.
- D. Clean equipment and fixtures to a sanitary condition with cleaning materials appropriate to the surface and material being cleaned.

Clean filters of operating equipment.

Clean debris from roofs, gutters, downspouts, scuppers, overflow drains, area drains, and drainage systems.

- G. Clean site; sweep paved areas, rake clean landscaped surfaces.
- H. Remove waste, surplus materials, trash/rubbish, and construction facilities from the site; dispose of in legal manner; do not burn or bury.

#### 3.13 CLOSEOUT PROCEDURES

- A. Make submittals that are required by governing or other authorities.
  - 1. Provide copies to DEDC, LLC.

- B. Accompany Project Coordinator on preliminary inspection to determine items to be listed for completion or correction in the Contractor's Correction Punch List for Contractor's Notice of Substantial Completion.
- C. Notify DEDC, LLC when work is considered ready for DEDC, LLC's Substantial Completion inspection.
- D. Submit written certification containing Contractor's Correction Punch List, that Contract Documents have been reviewed, work has been inspected, and that work is complete in accordance with Contract Documents and ready for DEDC, LLC's Substantial Completion inspection.
- E. Conduct Substantial Completion inspection and create Final Correction Punch List containing DEDC, LLC's and Contractor's comprehensive list of items identified to be completed or corrected and submit to DEDC, LLC.
- F. Correct items of work listed in Final Correction Punch List and comply win requirements for access to State of Delaware OMB Division of Facilities Management oc upied areas.
- G. Notify DEDC, LLC when work is considered finally complete and real wor DEDC, LLC's Substantial Completion final inspection.
- H. Complete items of work determined by DEDC, LLC listed in executed Certificate of Substantial Completion.

# 3.14 MAINTENANCE

- A. Provide service and maintenance of components indicated in specification sections.
- B. Maintenance Period: As indicated in specification sections or, if not indicated, not less than one year from the Date of Substantial Completion on the length of the specified warranty, whichever is longer.
- C. Examine system components at a frequency consistent with reliable operation. Clean, adjust, and lubricate as required.
- D. Include systematic examination activitient, and lubrication of components. Repair or replace parts whenever required. Use parts produced by the manufacturer of the original component.
- E. Maintenance service shall not be assigned or transferred to any agent or subcontractor without prior written consent of the state of Delaware OMB Division of Facilities Management.

#### SECTION 01 74 19

#### CONSTRUCTION WASTE MANAGEMENT AND DISPOSAL

#### PART 1 - GENERAL

#### 1.01 SUMMARY

A. Section includes: Administrative and procedural requirements for construction waste management activities.

#### 1.02 DEFINITIONS

- A. Construction, Demolition, and Land clearing (CDL) Waste: Includes all non-hazardous solid wastes resulting from construction, remodeling, alterations, repair, demolition and and clearing. Includes material that is recycled, reused, salvaged or disposed as garbage.
- B. Salvage: Recovery of materials for on-site reuse, sale or donation to a third party.
- C. Reuse: Making use of a material without altering its form. Materials can be reused on-site or reused on other projects off-site. Examples include, but are not limited to the following: Crushing or grinding of concrete for use as sub-base material. Chipping of land clearing debris for use as mulch.
- D. Recycling: The process of sorting, cleaning, treating, and recursively materials for the purpose of using the material in the manufacture of a new product.
- E. Source-Separated CDL Recycling: The process of separating ecyclable materials in separate containers as they are generated on the job-site. The separated materials are hauled directly to a recycling facility or transfer station.
- F. Co-mingled CDL Recycling: The process of collecting mixed recyclable materials in one container on-site. The container is taken to a material recovery facility where materials are separated for recycling.
- G. Approved Recycling Facility: Any of the following:
  - 1. A facility that can legally accept CDL waste materials for the purpose of processing thematerials into an alterer form for the manufacture of a new product.
  - 2. Material Recovery Facility. A general term used to describe a waste-sorting facility. a. Mechanical, hand senal tion, or a combination of both procedures, are used to
    - recover
    - b. recyclable material

#### 1.03 SUBMITTALS

- A. Contractor shall develop a Waste Management Plan: Submit 3 copies of plan within 14 days of date established for the Notice to Proceed.
- B. Contractor shall provide Waste Management Report: Concurrent with each Application for Payment, submit 3 copies of report.

# 1.04 PERFORMANCE REQUIREMENTS

- General: Divert a minimum of 75% CDL waste, by weight, from the landfill by one, or a combination of the following activities:
  - 1. Salvage
  - 2. Reuse
  - 3. Source-Separated CDL Recycling
  - 4. Co-mingled CDL Recycling
- B. CDL waste materials that can be salvaged, reused or recycled include, but are not limited to, the following:
  - 1. Acoustical ceiling tiles
  - 2. Asphalt
  - 3. Asphalt shingles
  - 4. Cardboard packaging

- 5. Carpet and carpet pad
- 6. Concrete
- 7. Drywall
- 8. Fluorescent lights and ballasts
- 9. Land clearing debris (vegetation, stumpage, dirt)
- 10. Metals
- 11. Paint (through hazardous waste outlets)
- 12. Wood
- 13. Plastic film (sheeting, shrink wrap, packaging)
- 14. Window glass
- 15. Wood
- 16. Field office waste, including office paper, aluminum cans, glass, plastic, and cardboard.

#### 1.05 QUALITY ASSURANCE

- A. Waste Management Coordinator Qualifications: Experienced firm, with a boord of successful waste management coordination of projects with similar requirement, that employs a LEED Accredited Professional, certified by the USGBC as waste management coordinator.
- B. Refrigerant Recovery Technician Qualifications: Certified by ERA approved certification program.
- C. Regulatory Requirements: Conduct construction wasterminagement activities in accordance with hauling and disposal regulations of all authorities having jurisdiction and all other applicable laws and ordinances.
- D. Preconstruction Conference: Schedule and confluct releating at Project site prior to construction activities.
  - 1. Attendees: Inform the following individuals, whose presence is required, of date and time of meeting.
    - a. Owner
    - b. Architect
    - c. Contractor's superintende
    - d. Major subcontractors
    - e. Waste Management Coordinator
    - f. Other concerned parties.
  - 2. Agenda Items: Review methods and procedures related to waste management including, but not limited b, the following:
    - a. Review and discuss waste management plan including responsibilities of Waste Management Coordinator.
    - b. Beview requirements for documenting quantities of each type of waste and its disposition.

Review and finalize procedures for materials separation and verify availability of containers and bins needed to avoid delays.

- Review procedures for periodic waste collection and transportation to recycling and disposal facilities.
- e. Review waste management requirements for each trade.
- 8. Minutes: Record discussion. Distribute meeting minutes to all participants. Note: If there is a Project Architect, they will perform this role.

# 1.06 WASTE MANAGEMENT PLAN - CONTACTOR SHALL DEVELOP AND DOCUMENT THE FOLLOWING:

A. Develop a plan to meet the requirements listed in this section at a minimum. Plan shall consist of waste identification, waste reduction plan and cost/revenue analysis. Distinguish between demolition and construction waste. Indicate quantities by weight throughout the plan.

- Indicate anticipated types and quantities of demolition, site-cleaning and construction waste B. generated by the project. List all assumptions made for the quantities estimates.
- C. List each type of waste and whether it will be salvaged, recycled, or disposed of in an landfill. The plan should included the following information:
  - 1. Types and estimated quantities, by weight, of CDL waste expected to be generated during demolition and construction.
  - 2. Proposed methods for CDL waste salvage, reuse, recycling and disposal during demolition including, but not limited to, one or more of the following:
    - a. Contracting with a deconstruction specialist to salvage materials generated
    - Selective salvage as part of demolition contractor's work, b.
    - C. Reuse of materials on-site or sale or donation to a third party.
  - 3. Proposed methods for salvage, reuse, recycling and disposal during con including, but not limited to, one or more of the following:
    - Requiring subcontractors to take their CDL waste to a recycling facily a.
    - Contracting with a recycling hauler to haul recyclable CDL b. an approved recycling or material recovery facility:
    - Processing and reusing materials on-site; C.
    - Ь Self-hauling to a recycling or material recovery facility
  - 4. Name of recycling or material recovery facility receiving the DL wastes.
  - Handling and Transportation Procedures: Include at will be used for separating 5. nd t recyclable waste including sizes of containers, container labeling, and designated location on project site where materials separation will be located.
- D. Cost/Revenue Analysis: Indicate total cost of waster sisposal as if there was no waster management plan and net additional cost or her savings resulting from implementing waste management plan. Include the following:
  - Total quantity of waste. 1.
  - Estimated cost of disposal (cos 2. unit). Include hauling and tipping fees and cost of collection containers for each t waste. e o
  - Total cost of disposal (with no 3. aste management).
  - 4 Revenue from salvaged m
  - Revenue from recycles m 5. lals.
  - Savings in hauling and tipping fees by donating materials. Savings in hauling anothoping fees that are avoided. 6.
  - 7.
  - Handling and tra eportation costs. Including cost of collection containers for each type of 8. waste.
  - 9. Net additional cost or net savings from waste management plan.

#### PART 2 - PRODUCTS NOT USED)

# PART 3 - EXECUTION

# 3.01 CONSTRUCTION WASTE MANAGEMENT, GENERAL

- Provide containers for CDL waste that is to be recycled clearly labeled as such with a list of Α ptable and unacceptable materials. The list of acceptable materials must be the same as acc the materials recycled at the receiving material recovery facility or recycling processor.
- The collection containers for recyclable CDL waste must contain no more than 10% non-recyclable material, by volume.
- C. Provide containers for CDL waste that is disposed in a landfill clearly labeled as such.
- D. Use detailed material estimates to reduce risk of unplanned and potentially wasteful cuts.
- To the greatest extent possible, include in material purchasing agreements a waste reduction E. provision requesting that materials and equipment be delivered in packaging made of recyclable material, that they reduce the amount of packaging, that packaging be taken back for reuse or

recycling, and to take back all unused product. Insure that subcontractors require the same provisions in their purchase agreements.

F. Conduct regular visual inspections of dumpsters and recycling bins to remove contaminants.

#### 3.02 SOURCE SEPARATION

A. General: Contractor shall separate recyclable materials from CDL waste to the maximum extent possible.

Separate recyclable materials by type.

- 1. Provide containers, clearly labeled, by type of separated materials or provide other storage method for managing recyclable materials until they are removed from Project site.
- 2. Stockpile processed materials on-site without intermixing with other material. Place, grade, and shape stockpiles to drain surface water and to minimize pest attraction. Cover to prevent windblown dust.
- 3. Stockpile materials away from demolition area. Do not store within drip line or remaining trees.
- 4. Store components off the ground and protect from weather.

#### 3.03 CO-MINGLED RECYCLING

A. General: Do not put CDL waste that will be disposed in a landfill ato a co-mingled CDL waste recycling container.

# 3.04 REMOVAL OF CONSTRUCTION WASTE MATERIALS

- A. Remove CDL waste materials from project site on a regular basis. Do not allow CDL waste to accumulate on-site.
- B. Transport CDL waste materials off Owner's property and legally dispose of them.
- C. Burning of CDL waste is not permitted.

#### PART 1 GENERAL

#### **1.01 SECTION INCLUDES**

- A. Project Record Documents.
- B. Operation and Maintenance Data.
- C. Warranties and bonds.

#### 1.02 RELATED REQUIREMENTS

- A. Division 00 Documents
- B. Section 01 30 00 - Administrative Requirements: Submittals procedures, sho product data, and samples.
- C. Section 01 70 00 Execution and Closeout Requirements: Contract d out rocedures.
- D. Individual Product Sections: Specific requirements for operation an maintenance data.
- E. Individual Product Sections: Warranties required for specific p Work.

#### 1.03 SUBMITTALS

- A. Project Record Documents: Submit documents to DEC rior to final payment application. The following documents must be submit 1.
  - Red line drawings (As-Builts)
  - a. One original paper copy
  - Two copies of the original. b.
- extreme documentation on two long duration archival cd The following electronic data shall be included on each Electronic Documentation: Submit the electronic В. storage devices with gold lacquer finish. CD:

  - 2. operated by State of Delaware OMB - Division of Facilities Management, submit competed documents within ten days after acceptance.
  - Submit one copy of completed documents 15 days prior to final inspection. This copy will b reviewed and returned after final inspection, with DEDC, LLC comments. Revise content of all document sets as required prior to final submission.

Submit two sets of revised final documents in a 3-ring binder in final form within 10 days after final inspection.

Warranties and Bonds:

- For equipment or component parts of equipment put into service during construction with 1. State of Delaware OMB - Division of Facilities Management's permission, submit documents within 10 days after acceptance.
- 2. Make other submittals within 10 days after Date of Substantial Completion, prior to final Application for Payment.
- For items of Work for which acceptance is delayed beyond Date of Substantial 3. Completion, submit within 10 days after acceptance, listing the date of acceptance as the beginning of the warranty period.

### PART 2 PRODUCTS - NOT USED

#### PART 3 EXECUTION

#### 3.01 PROJECT RECORD DOCUMENTS

- A. Maintain on site one set of the following record documents; record actual revisions to the Work:
  - 1. Drawings.
  - 2. Addenda.
  - 3. Change Orders and other modifications to the Contract.
  - 4. Manufacturer's instruction for assembly, installation, and adjusting.
- B. Ensure entries are complete and accurate, enabling future reference by State of DelawareOMB Division of Facilities Management.
- C. Store record documents separate from documents used for construction.
- D. Record information concurrent with construction progress.
- E. Record Drawings : Legibly mark each item to record actual construction including:
  - 1. Field changes of dimension and detail.
  - 2. Details not on original Contract drawings.

#### 3.02 OPERATION AND MAINTENANCE DATA

- A. Source Data: For each product or system, list names, addresses and telephone numbers of Subcontractors and suppliers, including local source or supplies and replacement parts.
- B. Product Data: Mark each sheet to clearly identify specific products and component parts, and data applicable to installation. Delete inapplicable information.
- C. Drawings: Supplement product data to illustrate relations of component parts of equipment and systems, to show control and flow diagrams. Do not use Project Record Documents as maintenance drawings.
- D. Typed Text: As required to supplement product data. Provide logical sequence of instructions for each procedure, incorporating manufacturer's instructions.

# 3.03 OPERATION AND MAINTENANCE DATA FOR EQUIPMENT AND SYSTEMS

- A. For Each Item of Equipment and Each System:
  - 1. Description of unit or system, and component parts.
  - 2. Identify function normal operating characteristics, and limiting conditions.
  - 3. Include performance curves, with engineering data and tests.
  - 4. Complete manufacture and model number of replaceable parts.
- B. Where additional instructions are required, beyond the manufacturer's standard printed instructions, have instructions prepared by personnel experienced in the operation and maintenance of the specific products.
- C. Partsboard Circuit Directories: Provide electrical service characteristics, controls, and communications; typed.

Operating Procedures: Include start-up, break-in, and routine normal operating instructions and bequences. Include regulation, control, stopping, shut-down, and emergency instructions. Include summer, winter, and any special operating instructions.

- Maintenance Requirements: Include routine procedures and guide for preventative maintenance and trouble shooting; disassembly, repair, and reassembly instructions; and alignment, adjusting, balancing, and checking instructions.
- F. Provide servicing and lubrication schedule, and list of lubricants required.
- G. Include manufacturer's printed operation and maintenance instructions.
- H. Include sequence of operation by controls manufacturer.
- I. Provide original manufacturer's parts list, illustrations, assembly drawings, and diagrams required for maintenance.

- J. Provide control diagrams by controls manufacturer as installed.
- K. Include test and balancing reports.
- L. Additional Requirements: As specified in individual product specification sections.

#### 3.04 ASSEMBLY OF OPERATION AND MAINTENANCE MANUALS

- A. Assemble operation and maintenance data into durable manuals for State of Delaware OMB -Division of Facilities Management's personnel use, with data arranged in the same sequence as, and identified by, the specification sections.
- B. Where systems involve more than one specification section, provide separate tabled under for each system.
- C. Binders: Commercial quality, 8-1/2 by 11 inch three D side ring binders with datable plastic covers; 2 inch maximum ring size. When multiple binders are used, correlate data nto related consistent groupings.
- D. Cover: Identify each binder with typed or printed title OPERATION AND NAINTENANCE INSTRUCTIONS; identify title of Project; identify subject matter of contents.
- E. Project Directory: Title and address of Project; names, addresses, and telephone numbers of DEDC, LLC, Consultants, Contractorand subcontractors, with names of responsible parties.
- F. Tables of Contents: List every item separated by a divider using the same identification as on the divider tab; where multiple volumes are required, include a volumes Tables of Contents in each volume, with the current volume clearly identified.
- G. Dividers: Provide tabbed dividers for each separate product and system; identify the contents on the divider tab; immediately following the divider tab include a description of product and major component parts of equipment.
- H. Text: Manufacturer's printed data, or typewritten data on 24 pound paper.
- I. Drawings: Provide with reinforced puncted binder tab. Bind in with text; fold larger drawings to size of text pages.

#### 3.05 WARRANTIES AND BONDS

- A. Obtain warranties and bonds, executed in duplicate by responsible Subcontractors, suppliers, and manufacturers, within 10 tays after completion of the applicable item of work. Except for items put into use with State of Delaware OMB Division of Facilities Management's permission, leave date of beginning of time of warranty until Date of Substantial completion is determined.
- B. Verify that documents are in proper form, contain full information, and are notarized.
- C. Co-execute submittals when required.
- D. Retain wahanties and bonds until time specified for submittal.

#### **SECTION 01 79 00**

#### **DEMONSTRATION AND TRAINING**

#### PART 1 GENERAL

#### 1.01 SUMMARY

- A. Demonstration of products and systems to be commissioned and where indicated in specific specification sections.
- Β. Training of State of Delaware OMB - Division of Facilities Management personnel in ope and maintenance is required for:
  - 1. All software-operated systems.
  - 2. HVAC systems and equipment.
  - Plumbing equipment. 3.
  - 4. Electrical systems and equipment.
  - Items specified in individual product Sections. 5.
- C. Training of State of Delaware OMB Division of Facilities Manager nel in care. cleaning, maintenance, and repair is required for:
  - Items specified in individual product Sections. 1

#### 1.02 RELATED REQUIREMENTS

- A. Section 01 78 00 Closeout Submittals: Operation and ince manuals.
- B. Section 01 91 13 General Commissioning Requirer Additional requirements applicable to demonstration and training.

#### 1.03 SUBMITTALS

- A.
- See Section 01 30 00 Administrative Requirements, for submittal procedures; except:Make all submittals specified in this section, and elsewhere where indicated for commissioning purposes, direction the Commissioning Authority.
  - 2. Submit one copy to the Commissioning Authority, not to be returned.
  - 3.
  - Make commissioning submittals or time schedule specified by Commissioning Authority. Submittals indicated as "Draft" are intended for the use of the Commissioning Authority in 4. preparation of overall Transing Plan; submit in editable electronic format, Microsoft Word 2003 preferred.
- Draft Training Plans: State of Delaware OMB Division of Facilities Management will designate personnel to be trained: tailor training to needs and skill-level of attendees. В.
  - , LLC for transmittal to State of Delaware OMB Division of Facilities Submit to 1 Management
  - 2. Submit to missioning Authority for review and inclusion in overall training plan.
  - not less than four weeks prior to start of training. 3. Sub
  - Revise and resubmit until acceptable.
  - covide an overall schedule showing all training sessions.
  - Include at least the following for each training session:
    - Identification, date, time, and duration. а
    - Description of products and/or systems to be covered. b.
    - Name of firm and person conducting training; include gualifications. C.
    - Intended audience, such as job description. d.
    - Objectives of training and suggested methods of ensuring adequate training. e.
    - Methods to be used, such as classroom lecture, live demonstrations, hands-on, etc. f.
    - Media to be used, such a slides, hand-outs, etc. g.
    - Training equipment required, such as projector, projection screen, etc., to be provided h. by Contractor.
- C. Training Manuals: Provide training manual for each attendee; allow for minimum of two attendees per training session.

- 1. Include applicable portion of O&M manuals.
- 2. Include copies of all hand-outs, slides, overheads, video presentations, etc., that are not included in O&M manuals.
- 3. Provide one extra copy of each training manual to be included with operation and maintenance data.
- D. Training Reports:
  - 1. Identification of each training session, date, time, and duration.
  - 2. Sign-in sheet showing names and job titles of attendees.
  - 3. List of attendee questions and written answers given, including copies of and references to supporting documentation required for clarification; include answers to questions that could not be answered in original training session.
  - 4. Include Commissioning Authority's formal acceptance of training session
- E. Video Recordings: Submit digital video recording of each demonstration and training session for State of Delaware OMB Division of Facilities Management's subsequent use.
  - 1. Format: DVD Disc.
  - 2. Label each disc and container with session identification and d

#### 1.04 QUALITY ASSURANCE

- A. Instructor Qualifications: Familiar with design, operation, maintenance and troubleshooting of the relevant products and systems.
  - 1. Provide as instructors the most qualified trainer or these contractors and/or installers who actually supplied and installed the systems and exponent.
  - 2. Where a single person is not familiar with a spects, provide specialists with necessary qualifications.

#### PART 2 PRODUCTS - NOT USED

#### PART 3 EXECUTION

#### 3.01 DEMONSTRATION - GENERAL

- A. Demonstrations conducted during system start-up do not qualify as demonstrations for the purposes of this section, unless approved in advance by State of Delaware OMB Division of Facilities Management.
- B. Demonstrations conducted duing Functional Testing need not be repeated unless State of Delaware OMB Division of Pacilities Management personnel training is specified.
- C. Demonstration may be combined with State of Delaware OMB Division of Facilities Management personnel training if applicable.
- D. Operating Equipment and Systems: Demonstrate operation in all modes, including start-up, shut-down, reasonal changeover, emergency conditions, and troubleshooting, and maintenance procedures including scheduled and preventive maintenance.

. Perform demonstrations not less than two weeks prior to Substantial Completion.

For equipment or systems requiring seasonal operation, perform demonstration for other season within six months.

. Non-Operating Products: Demonstrate cleaning, scheduled and preventive maintenance, and epair procedures.

1. Perform demonstrations not less than two weeks prior to Substantial Completion.

#### 3.02 TRAINING - GENERAL

- A. Commissioning Authority will prepare the Training Plan based on draft plans submitted.
- B. Conduct training on-site unless otherwise indicated.
- C. State of Delaware OMB Division of Facilities Management will provide classroom and seating at no cost to Contractor.
- D. Do not start training until Functional Testing is complete, unless otherwise specified or approved by the Commissioning Authority.

HOWARD R. YOUNG CORRECTIONAL INSTITUTION AUGUST 2020

- Provide training in minimum two hour segments. E.
- The Commissioning Authority is responsible for determining that the training was satisfactorily F. completed and will provide approval forms.
- G. Training schedule will be subject to availability of State of Delaware OMB Division of Facilities Management's personnel to be trained; re-schedule training sessions as required by State of Delaware OMB - Division of Facilities Management; once schedule has been approved by State of Delaware OMB - Division of Facilities Management failure to conduct sessions according to schedule will be cause for State of Delaware OMB - Division of Facilities Management Charge Contractor for personnel "show-up" time.
- H. Review of Facility Policy on Operation and Maintenance Data: During training dis
  - The location of the O&M manuals and procedures for use and preservat 1. copies.
  - 2. Typical contents and organization of all manuals, including explanat nation, system narratives, and product specific information.
  - Typical uses of the O&M manuals. 3.
- Product- and System-Specific Training: I.
  - Review the applicable O&M manuals. 1.
  - For systems, provide an overview of system operation, desig 2. parameters and constraints. and operational strategies.
  - Review instructions for proper operation in all modes 3. including start-up, shut-down, seasonal changeover and emergency procedures and for maintenance, including preventative maintenance.
  - 4. Provide hands-on training on all operational mod es possible and preventive maintenance.
  - 5. Emphasize safe and proper operating requirements; discuss relevant health and safety issues and emergency procedures
  - Discuss common troubleshooting pro 6. ms and solutions.
  - Discuss any peculiarities of eccipment installation or operation. 7.
  - Discuss warranties and gu including procedures necessary to avoid voiding 8. coverage.
  - Review recommended tools 9. d spare parts inventory suggestions of manufacturers.

  - Review spare parts and toos required to be furnished by Contractor.
     Review spare parts storiers and sources and procurement procedures.
- Be prepared to answel questions raised by training attendees; if unable to answer during J. vide written response within three days. training sessio

#### SECTION 01 91 13

#### GENERAL COMMISSIONING REQUIREMENTS

#### PART 1 GENERAL

#### 1.01 SUMMARY

- A. Commissioning is intended to achieve the following specific objectives; this section specifies the Contractor's responsibilities for commissioning:
  - 1. Verify that the work is installed in accordance with the Contract Documents, the manufacturer's recommendations and instructions, and that it receives adequate operational checkout prior to startup: Startup reports are utilized to achieve this.
  - 2. Verify and document that functional performance is in accordance with the Confact Documents: Functional Tests such as manufacturers startup reports, balancins and site demonstrations executed by the contractor and witnessed by the Commission ng Authority are utilized to achieve this.
  - 3. Verify that operation and maintenance manuals submitted to State of Delaware OMB -Division of Facilities Management are complete: Detailed operation and maintenance (O&M) data submittals by Contractor are utilized to achieve this.
  - 4. Verify that the State of Delaware OMB Division of Facilities Menagement's operating personnel are adequately trained: Formal training conducted by Contractor is utilized to achieve this.
- B. The Commissioning Authority is the State of Delawarc ONB Division of Facilities Management

#### 1.02 SCOPE OF COMMISSIONING

- A. The following are to be commissioned:
- B. HVAC System, including:
  - 1. Major and minor equipment items.
  - 2. Piping systems and equipment.
  - 3. Control system.
  - 4. Variable frequency drives,
- C. Other equipment and systems explicitly identified elsewhere in Contract Documents as requiring commissioning.

# 1.03 RELATED REQUIREMENTS

- A. Section 01 70 00 Execution and Closeout Requirements: General startup requirements.
- B. Section 01 78 09 coseout Submittals: Scope and procedures for operation and maintenance manuals and project record documents.
- C. Section 01 79 09 Demonstration and Training: Scope and procedures for State of Delaware OMB Division of Facilities Management personnel training.
- D. Servin 23 08 00 Commissioning of HVAC: HVAC control system testing; other requirements.
- E. Contion 23 09 59 BAS System Commissioning

# 1.04 SUBMITTALS

See Section 01 30 00 - Administrative Requirements, for submittal procedures, General Requirements:

- B. Make all submittals specified in this section, and elsewhere where indicated for commissioning purposes, directly to the Commissioning Authority, unless they require review by DEDC, LLC; in that case, submit to DEDC, LLC first.
- C. Manufacturers' Instructions: Submit copies of all manufacturer-provided instructions that are shipped with the equipment as soon as the equipment is delivered.
- D. Product Data: If submittals to DEDC, LLC do not include the following, submit copies as soon as possible:

- E. Product Data: Submit to DEDC, LLC:
  - 1. Manufacturer's product data, cut sheets, and shop drawings.
  - 2. Manufacturer's installation instructions.
  - 3. Startup, operating, and troubleshooting procedures.
  - 4. Fan and pump curves.
  - 5. Factory test reports.
  - 6. Warranty information, including details of State of Delaware OMB Division of Facilities Management's responsibilities in regard to keeping warranties in force.
- F. Startup Plans and Reports.

#### PART 2 PRODUCTS

#### 2.01 TEST EQUIPMENT

- A. Provide all standard testing equipment required to perform startup and initial sheckout and required Functional Testing; unless otherwise noted such testing equipment wil NOT become the property of State of Delaware OMB Division of Facilities Management
- B. Calibration Tolerances: Provide testing equipment of sufficient quality and accuracy to test and/or measure system performance with the tolerances specified. If not otherwise noted, the following minimum requirements apply:
  - 1. Temperature Sensors and Digital Thermometers: Certified calibration within past year to accuracy of 0.5 degree F and resolution of plus/mines of degree F.
  - 2. Pressure Sensors: Accuracy of plus/minus 2.0 present of the value range being measured (not full range of meter), calibrated within the last year.
  - 3. Calibration: According to the manufacture's racommended intervals and when dropped or damaged; affix calibration tags or keep ten ficales readily available for inspection.
- C. Equipment-Specific Tools: Where special esting equipment, tools and instruments are specific to a piece of equipment, are only available from the vendor, and are required in order to accomplish startup or Functional Testing provide such equipment, tools, and instruments as part of the work at no extra cost to State of Delaware OMB Division of Facilities Management; such equipment, tools, and instruments are to become the property of State of Delaware OMB Division of Facilities Management;

#### PART 3 EXECUTION

# 3.01 STARTUP PLANS AND REPORT

- A. Startup Plans: For each item of equipment and system for which the manufacturer provides a startup plan, submit the plan not less than 2 weeks prior to startup.
- B. Startup Reports: For each item of equipment and system for which the manufacturer provides a startup decklist (or startup plan or field checkout sheet), document compliance by submitting the completed startup checklist prior to startup, signed and dated by responsible entity.
- C. Submit directly to the Commissioning Authority and DEDC,LLC.

# 3.02 FUNCTIONAL TESTS

A Enctional Test is required for each item of equipment, system, or other assembly specified to be commissioned, unless sampling of multiple identical or near-identical units is allowed by the final test procedures.

- B. Commissioning Authority is responsible for witnessing results of Functional Tests.
- C. Contractor is responsible for correction of deficiencies and re-testing at no extra cost to State of Delaware OMB - Division of Facilities Management; if a deficiency is not corrected and re-tested immediately, the Commissioning Authority will document the deficiency and the Contractor's stated intentions regarding correction.
  - 1. Deficiencies are any condition in the installation or function of a component, piece of equipment or system that is not in compliance with the Contract Documents or does not perform properly.

- 2. When the deficiency has been corrected, the Contractor completes the form certifying that the item is ready to be re-tested and returns the form to the Commissioning Authority; the Commissioning Authority will reschedule the test and the Contractor shall re-test.
- 3. Identical or Near-Identical Items: If 10 percent, or three, whichever is greater, of identical or near-identical items fail to perform due to material or manufacturing defect, all items will be considered defective; provide a proposal for correction within 2 weeks after notification of defect, including provision for testing sample installations prior to replacement of all items.
- 4. Contractor shall bear the cost of State of Delaware OMB Division of Facilities Management and Commissioning Authority personnel time witnessing re-testing.
- D. Functional Test Procedures:
  - 1. Some test procedures are included in the Contract Documents; where Functional rest procedures are not included in the Contract Documents, test procedures and be determined by the Commissioning Authority with input by and coordination with Contractor.
  - 2. Examples of Functional Testing:
    - a. Test the dynamic function and operation of equipment an systems (rather than just components) using manual (direct observation) or monitoring methods under full operation (e.g., the chiller pump is tested interactively with the chiller functions to see if the pump ramps up and down to maintain the differential pressure setpoint).
    - b. Systems are tested under various modes, such as during low cooling or heating loads, high loads, component failures, unoccapited, carying outside air temperatures, fire alarm, power failure, etc.
    - c. Systems are run through all the HVAC control system's sequences of operation and components are verified to be responding as the sequence's state.
    - d. Traditional air or water test and balanced (TAB) is not Functional Testing; spot checking of TAB by demonstration to be Commissioning Authority is Functional Testing.
- E. Deferred Functional Tests: Some tests may need to be performed later, after substantial completion, due to partial occupancy, equipment, seasonal requirements, design or other site conditions; performance of there tests remains the Contractor's responsibility regardless of timing.

# 3.03 TEST PROCEDURES - GENERAL

- A. Provide skilled technisians to execute starting of equipment and to execute the Functional Tests. Ensure that they are available and present during the agreed upon schedules and for sufficient duration to complete the necessary tests, adjustments and problem-solving.
- B. Provide all necessary materials and system modifications required to produce the flows, pressures, temperatures, and conditions necessary to execute the test according to the specified conditions. At completion of the test, return all affected equipment and systems to the test condition.
- C. Simulating Signals: Disconnect the sensor and use a signal generator to send an amperage, resistance or pressure to the transducer and control system to simulate the sensor value.

# 3.04 OPERATION AND MAINTENANCE MANUALS

- See Section 01 78 00 Closeout Submittals for additional requirements.
- B. Add design intent documentation furnished by DEDC, LLC to manuals prior to submission to State of Delaware OMB Division of Facilities Management.
