W.O. #: 19096

ADDENDUM NO. TWO (2) – FEBRUARY 27, 2020

RE: **Postlethwait Middle School – Chiller Replacement Project**
GAI # 19096 - Contract # SRS-20-002

FROM: Gipe Associates, Inc.
8719 Brooks Drive,
Easton, MD 21601

TO: Prospective Bidders

This addendum forms a part of the contract documents and modifies the original bidding documents dated 01/31/20 (Project Manual) and 02/03/20 (Drawings) as noted below. Acknowledge receipt of this Addendum on the Bid Form. Failure to do so may subject bidder to disqualification.

This Addendum consists of **one (1) page**.

REQUEST FOR INFORMATION AND RESPONSE:

1. On drawing M302 New Work Base Bid, the CHWR is terminated at a 90 degree turn prior to the chilled water pumps. On drawing M201 new piping is included from the air separator to the chilled water pumps. For bidding purposes are we to include this new piping, from the air separator to the chilled water pumps, in our base bid?

Response: No. Drawing M201 shows the base bid and alternate work on the part plan drawing. Details for base bid and alternate work provided on M302 clarify where to “connect to existing” systems/piping. Under base bid (Detail #1 on Dwg M302) the chilled water return piping is not replaced up to the air separator. Base bid connection of CHWR piping is on the discharge side of chilled water pumps as detailed.
