

NON-LICENSEES

Question: Appendix D. Can the State also provide a list of all non-license types?

Answer: Non-license types are not listed in Appendix D because, by definition (see Appendix E), they are not configured license types. However, #42 requires the new system to accommodate non-licensees, and they are mentioned in numerous requirements. Following is a list of non-licensees. Some are not in the L2K database because the current system does not accommodate them.
