KEY CONTRACT INFORMATION

1. MANDATORY USE CONTRACT:

[\(Return to Table of Contents\)](#)

REF: Title 29, Chapter 6911(d) Delaware Code. Every state department and agency within the Executive Branch and Judicial Branch of the state government shall procure all material, equipment and nonprofessional services through the statewide contracts administered by Government Support Services, Office of Management and Budget. Delaware State University, Delaware Technical and Community College, the operations funded by Public School Districts, Delaware Transit Corporation, the Legislative Branch and the Board of Pension Trustees and their consultants are specifically exempted from the requirements of this subsection.

Under Title 29 §6933, The State of Delaware is authorized to participate in, sponsor, conduct or administer a cooperative purchasing agreement for the procurement of materiel or nonprofessional services with 1 or more public procurement units either within the State or within another state in accordance with an agreement entered into between the participants.

2. CONTRACT PERIOD:

[\(Return to Table of Contents\)](#)

Each contractor's contract shall be valid through May 31, 2015.

3. VENDORS:

4. SHIPPING TERMS:

[\(Return to Table of Contents\)](#)

Price shall include all customs duties and charges and be net, F.O.B. destination any point within the State of Delaware, including tailgate deliver. Shipping costs may be added in accordance with the "Minimum Order" clause.

5. DELIVERY AND PICKUP:

[\(Return to Table of Contents\)](#)

- a. Delivery is expressed in number of calendar days required to make delivery after receipt of a purchase order. Product is required as soon as possible and guaranteed delivery may be considered in making purchases. Delivery shall be made in accordance with instructions on Purchase Order from each contract end-user. If there is a discrepancy between the purchase order and what is listed on the contract, it is the contractor's obligation to seek clarification from the ordering end user.
- b. Where installation by contractor is required, it is the responsibility of the end user to prepare the site for installation bringing all utilities to within 4 feet of the site.

6. **SCOPE:**

[\(Return to Table of Contents\)](#)

This multiple awarded contract with authorized distributors or manufacturers is for equipment that will qualify for Homeland Security Grant funding (SHSP) and the Law Enforcement Terrorism Prevention Program (LETPP) funding. See Office of Domestic Preparedness funding guidelines; <http://www.dhs.gov/xopnbiz/grants/#2>

It should be noted that there is equipment available on these contracts that may be used for emergency response related activities but does not qualify for grant funding.

The Authorized Equipment List based on the SHSP and LETPP Authorized Equipment List is used to determine whether a specific offering is appropriate for this contract:

- 1) Personal Protective Equipment (PPE)
- 2) Explosive Device Mitigation and Remediation Equipment
- 3) CBRNE Search and Rescue Equipment
- 4) Detection Equipment
- 5) Decontamination Equipment
- 6) Physical Security Enhancement Equipment
- 7) Terrorism Incident Prevention Equipment
- 8) CBRNE Logistical Support Equipment
- 9) Medical Supplies
- 10) CBRNE Reference Materials
- 11) Agricultural Terrorism Prevention, Response and Mitigation Equipment
- 12) Intervention Equipment
- 13) Other Authorized Equipment

A description of some of the products covered in each category is available on the Federal Emergency Management website: http://www.fema.gov/txt/government/grant/hsgp/fy04_hsgp_guidance.txt

Upon request, contractor must be able to justify why the products referenced meet the intent of the contract.

7. **DEFINITIONS:**

[\(Return to Table of Contents\)](#)

Authorized Equipment – Equipment that the Federal Government has accepted as suitable for purchase using Federal Grant Domestic Preparedness monies. Current lists of categories are available at Office of Domestic Preparedness funding guidelines - <https://www.rkb.us/mel.cfm?subtypeid=549>

Emergency Responder Guideline may be viewed at

<http://www.homelandsecurity.org/bulletin/emergencyresponderguidelines.pdf>

For questions regarding the procurement of equipment authorized under the Office of Domestic Preparedness grant guidelines, please refer to the Responder Knowledge Base website:

<https://www.rkb.us/>. The website has links to all of the current and prior year AEL (authorized equipment list), as determined by ODP.

Certified Equipment – Equipment that has been tested and meets appropriate industry standards that have been set by the government or other professional organizations such as NFPA – National Fire Protection Association, UL – Underwriters Laboratory, etc. For questions regarding the procurement of equipment certified under the Office of Domestic Preparedness grant guidelines, please refer to the Responder Knowledge Base website: <https://www.rkb.us/mel.cfm>

8. HOW TO USE THIS CONTRACT:

The basis for selection among multiple contracts at the time of purchase shall be the most economical alternative that meets form, function, and utility unless there are overriding practical issues, and should be in the best interests of the State, taking into consideration:

- Form, function and utility needs of the purchaser
- Price
- Overhead associated with storage and inventory of the goods
- Note that construction costs are not covered under installation in this award

It is recommended that contract users shop wisely:

1. NOTE: If a purchase is being made using Homeland Security, Law Enforcement Terrorism Prevention Federal, or other grant monies, end-users must notify vendor at time of ordering (place information on Purchase Order) that these funds are being used. This is required to meet grant tracking requirements.
2. If you are purchasing a large volume of a specific piece of equipment or costly item and know the manufacturer of the product, you may want to go to the manufacturer line spreadsheet. This sheet lists the manufacturer lines carried by each vendor. Obtain pricing from more than one vendor, if possible, and compare.
One of the simplest ways to do this is to send one email to all of the possible suppliers of the equipment you are looking to purchase. The "*Ordering/Quotes contact information*" button on this web-site will give you the email addresses and phone numbers you will need. We suggest you supply as much information as possible to the vendors. If possible- the manufacturer, manufacturer name and/or manufacturer item number, descriptions and quantity. Ask for best pricing on the items you wish to buy (pricing may be lower than the contract price list on this web-site but must not be higher). If you do not have a specific manufacturer in mind simply supply as complete a description of the item and quantity you will need.
3. Go to vendor web-site to view equipment handled or contact contractors for copies of the catalogs with the equipment specified therein. Contact contractor to set up account and registration for entry into contractor's website for those vendors that have listed this service on their award pages if you wish to access their web catalog for these contracts.
4. When using this web-site, select vendors offering the type of equipment you wish to purchase. So that you may check pricing, a price list for each vendor, is located at the contract Award Notice homepage.
5. Compare pricing and availability of items you wish to purchase. If you are purchasing- or expect to purchase- a large quantity of any one item or a large quantity of items from any one manufacturers' line during the course of one year, contact vendor contract administrator (name listed on vendor page to expedite contract purchases) and request additional discounts.
6. It is recommended that end-users seek pricing from more than one vendor, if they are purchasing costly equipment. An example of this would be the command vehicles. There are presently 3 manufacturers (as of 1/10) on contract. While each has vehicles listed, frequently modifications can be made or new vehicles are being added to the offerings. We recommend that you contact all of the suppliers, discuss what it is you need and whether or not they feel they can meet that need. If possible, request pricing so that you can compare. We also recommend that you try to view their vehicles and get input from others who have purchased from those vendors.
7. For purchases of a large number of items, purchase from the vendor meeting your equipment needs who has offered the best pricing on the majority of the equipment (the highest dollar value) being ordered.
8. In case of emergency, go to the vendor able to supply the equipment in the most timely manner.
9. Choose the most cost effective option meeting your needs; document your choice and proceed with the purchase.

NOTE: Certain equipment must be certified to be purchased with grant monies.

- Check with vendor if you have any questions on whether or not equipment is certified. If vendor has asserted equipment is certified and you find after delivery that this is not the case, vendor is obliged to replace with certified equipment or to refund purchase price.
- You may also go to the Responder Knowledge Base website; <http://www.rkb.mipt.org/>

9. PRICING:

[\(Return to Table of Contents\)](#)

- Price list updates, including price changes, are allowed once per year. This price list update may include the addition or deletion of products. Product additions are allowed up to 2 times per year. The contract prices may be subject to increase or decrease during the contract period in accordance with changes made by the manufacturer or distributor in their established, nationally distributed price list or published catalog. Catalog or price lists may indicate increases or decreases in pricing, but the percentage discount originally accepted for award should not be decreased during the contract period. Discount reduction will not be generally allowed unless specific documentation from the manufacturer is provided showing that a distributor cannot support the discount on that equipment without undue hardship. Reduction in discount from that originally accepted may result in deletion of item from award. Decision will be made on a case-by-case basis. Price decreases or discount increases are permitted and encouraged at any time.
- Minimum order is \$100.00. Contractor may elect to honor orders for less than the minimum order. For such orders, at the contractor's option, shipping costs from the contractor's address (as stated in bid) may be added to invoice with a copy of the freight bill. End users must be notified before the purchase of shipping charges. Shipping costs are to be prepaid by contractor and such orders are to be shipped on an F.O.B. destination basis. All such orders must be shipped by the most economical method for the proper delivery of the product unless special instructions are stated on the order by the agency. See individual vendor award pages for additional information.
- Volume discounts may be applied per purchase order, cumulatively per customer agency as listed under vendor information. Volume discounts shall be defined and applied as follows:
 - Purchase order volume discounts shall be additional discounts applied to individual purchase orders over a specified dollar amount.
 - Cumulative agency volume discounts shall be additional discounts applied to all future orders made by an individual agency once an established volume has been met by that agency.

ADDITIONAL TERMS AND CONDITIONS

[\(Return to Table of Contents\)](#)

10. BILLING:

The successful vendor is required to **"Bill as Shipped" to the respective ordering agency(s).** Ordering agencies shall provide at a minimum the contract number, ship to and bill to address, contract name and phone number.

11. PAYMENT:

The agencies or school districts involved will authorize and process for payment each invoice within thirty (30) days after the date of receipt. The contractor or vendor must accept full payment by procurement (credit) card and/or conventional check and/or other electronic means at the State's option, without imposing any additional fees, costs or conditions.

12. PRODUCT SUBSTITUTION:

All items delivered during the life of the contract shall be of the same type and manufacture as specified unless specific approval is given by Government Support Services to do otherwise. Substitutions may require the submission of written specifications and product evaluation prior to any approvals being granted.

13. ORDERING PROCEDURE:

Successful contractors are required to have either a local telephone number within the (302) area code, a toll free (800) number, or agree to accept collect calls. Each agency is responsible for placing their orders and may be accomplished by written purchase order, telephone, fax or computer on-line systems. The contractor or vendor must accept full payment by procurement (credit) card and/or conventional check and/or other electronic means at the State's option, without imposing any additional fees, costs or conditions.

The Vendor contract award number **MUST** be shown on all Purchase Orders issued against contract and entered in appropriate box on the First State Financial (FSF) form.

14. PURCHASE ORDERS

Agencies that are part of the First State Financial (FSF) system are required to identify the contract number **GSS10594-HIRE** on all Purchase Orders (P.O.) and shall complete the same when entering P.O. information in the state's financial reporting system.

15. PRODUCT RETURNS:

- a. Problem Product
Products returned because of quality problems, duplicated shipments, outdated product, etc., shall be picked up by the contractor within five business days after notification with no restocking charge and shall be replaced with specified products or the agency shall be credited-refunded for the full purchase price.
- b. Agency Error

Standard stock products ordered in error by agencies must be returned for credit within 15 days of receipt. Product must be in resalable condition (original container, unused). There shall be no restocking fee if returned products are resalable.

16. INSTRUCTION MANUALS:

Simultaneous with delivery, the contractor(s) shall furnish to the authorized user a complete instruction manual for the product and for each component supplied, if appropriate. The manual shall include complete instructions for unpacking, inspecting, installing, adjusting, aligning, and operating the product, together with layout and interconnection diagrams, preventive and corrective maintenance procedures, and complete parts lists, manufacturer's catalog numbers, and ordering information, if applicable.

17. HOLD HARMLESS:

The contractor agrees that it shall indemnify and hold the State of Delaware and all its agencies harmless from and against any and all claims for injury, loss of life, or damage to or loss of use of property caused or alleged to be caused, by acts or omissions of the contractor, its employees, and invitees on or about the premises and which arise out of the contractor's performance, or failure to perform as specified in the Agreement.

18. NON-PERFORMANCE:

In the event the contractor does not fulfill its obligations under the terms and conditions of this contract, the ordering agency may purchase equivalent product on the open market. Any difference in cost between the contract prices herein and the price of open market product shall be the responsibility of the contractor. Under no circumstances shall monies be due the contractor in the event open market products can be obtained below contract cost. Any monies charged to the contractor may be deducted from an open invoice.

19. FORCE MAJEURE:

Neither the contractor nor the ordering agency shall be held liable for non-performance under the terms and conditions of this contract due, but not limited to, government restriction, strike, flood, fire, or unforeseen catastrophe beyond either party's control. Each party shall notify the other in writing of any situation that may prevent performance under the terms and conditions of this contract.

20. AGENCY'S RESPONSIBILITIES:

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings and other documents presented by the Contractor to the Agency and render to the Contractor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Contractor.
- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an

unfavorable rating in the execution of the awarded contract.

- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.
- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible. <http://gss.omb.delaware.gov/divisionwide/forms.shtml>.

20. NEW YORK STATE AWARD DOCUMENT

The State of New York awarded the Hazardous Incident Response Equipment (HIRE) contract as the lead state for the National Association of State Procurement Officials. The New York State [Award Document](#) is updated periodically.
