PROJECT INFORMATION

This Request for Proposal (“RFP”) issued by the Delaware Department of Transportation (“DelDOT”) is for the purpose of acquiring Proposals from interested firms (“Firms”) to provide subsurface investigation including obtaining samples, performing visual examination, documentation of observed samples, and testing services as needed.

PROJECT DESCRIPTION

General Description: Location and Work Area Conditions

The work shall be performed in locations Statewide and in any terrain. The work may be located within riverbeds, canals, fat clay areas, marshes, bedrock, weathered rock, sandy areas, etc. The anticipated equipment required to perform work under this Agreement may include: barge mounted equipment -

utilized approximately 0-5% of the time; all-terrain vehicles - utilized approximately 30-45% of the time; rock drilling - utilized approximately 20-25% of the time; and all other will be standard penetration testing (SPT), including undisturbed sampling (55-70%).

Testing Measures A: Drilling

Subsurface investigations shall be advanced through unconsolidated, partly consolidated sediment, and/or rock, or rock core drilling. In addition to these disturbed samples, undisturbed samples shall be taken as designated by the Engineer through the use of a thin-walled metal tube, also referred to as a Shelby tube. geo-probes shall be used when needed and as designated by the Engineer.

Testing Measures B: Miscellaneous Testing

This Agreement may also include the following tests: observation wells (for visual groundwater level purposes); infiltration testing through the use of the double-ring or borehole infiltration (to measure vertical infiltration rates for storm water management design purposes); and piezometer testing (to measure groundwater levels and pore water pressure.) The exact testing will be designated by the Engineer. Other testing that may be requested under this agreement may include Soil Index, Triaxial, Direct Shear, Unconfined Compressive Strength of Intact Rock Core and pH Resistivity.

Time Schedule: Typical Schedule

The completion time for a subsurface investigation varies depending upon the conditions and the scope of work. The steps that occur are as follows: selected firm notified of work, initial field meeting, budget proposal submitted by selected firm to Engineer, Engineer reviews budget (changes/modifications as needed), utility call-in by the selected firm, utility meeting held by the selected firm (based on the utilities involved in the drilling location), drilling and other tests, and sample and reporting drop-off. The exact time it takes for the above process to occur will depend upon the complexity of the work.

Other Requirements A: Maintenance of Traffic (MOT)

The selected firm shall be responsible for setting up MOT as defined in DelDOT's Traffic Control Manual for drilling and other testing procedures unless otherwise directed by the Engineer. The exact locations will dictate which type of MOT set-up is necessary (e.g., two-lane roadway (one lane closed) vs. shoulder closure). Department personnel will review the MOT plan. The selected firm is responsible for notifying the Transportation Management Center ("TMC").

Other Requirements B: Skill Set, Experience, and Special Equipment

Selection criteria include experienced staff in drilling throughout Delaware in sandy, rock, and clay soil conditions, as well as the testing methods mentioned above.

Other Requirements C: Licenses and Permits

Any employee of the selected firm that drills under this contract must possess a Delaware Well Driller's License. This is obtained through the State of Delaware's Department of Natural Resources and Environmental Control. Any required permits for drilling are the sole responsibility of the selected firm(s).

Item Descriptions: Appendices B, C

The Item Descriptions in Appendix B define the work and equipment included in each listed Item. Appendix C is to be submitted indicating the proposed pricing for each of the Items.

QUESTIONS

Questions must be submitted before the due date identified in the Procurement Schedule for this RFP. All inquiries must be submitted in the Q/A section of the project listing in the [Bonfire Procurement Portal](#).

DelDOT's response to questions will be posted, according to the procurement schedule, under the project listing in Bonfire and to the State of Delaware Bid Solicitation Directory Website: <http://www.bids.delaware.gov/>.

Direct contact with State of Delaware employees other than DelDOT's Contract Administration staff regarding this RFP is expressly prohibited without prior consent. Firms directly contacting State of Delaware employees risk elimination of their proposal from further consideration. Exceptions exist only for organizations currently doing business in the State who require contact in the normal course of doing that business.

DISADVANTAGED BUSINESS ENTERPRISE - TEMPORARY SUSPENSION OF DBE CONTRACT GOAL

Pursuant to the Interim Final Rule ("IFR") published by the United States Department of Transportation ("U.S. DOT") on September 30, 2025, and its immediate impact on the certification status of Disadvantaged Business Enterprises ("DBEs") previously certified by the Department, no DBE participation goal has been established for this solicitation.

At this time, DelDOT has no currently certified DBEs in its directory. Consequently, it is not possible to establish or enforce a meaningful DBE contract goal for this procurement.

DelDOT is actively conducting the DBE recertification process required by the IFR. Upon completion of recertifications, or in the event of subsequent amendments to the IFR, court orders, or further U.S. DOT guidance that restores or modifies DBE certification capacity, DelDOT reserves the right to establish, reinstate, or revise a DBE participation goal for this solicitation and any resulting contract in accordance with 49 CFR Part 26 and all applicable federal requirements.

Any future establishment, reinstatement, or modification of a DBE goal will be accomplished through a formal amendment to this solicitation or to the resulting contract. Proposers and the selected Consultant will be notified in writing of any such amendment and will be required to comply with the revised DBE provisions.

Until a DBE goal is formally established or reinstated by written amendment, no DBE participation goal applies to this solicitation or the resulting contract, and submission of good-faith efforts documentation is not required.

OVERVIEW OF SELECTION PROCESS –

- This is an indefinite-delivery/ indefinite-quantity agreement utilized for the performance of services for a number of projects under task orders issued on an as-needed basis. The dollar value of each individual agreement cannot exceed three million dollars (\$3,000,000.00). There is no guarantee of actual agreement value.
- This is a single-phase solicitation process with the availability for discussions with up to four (4) of the most highly qualified firms. Based upon the listed criteria and evaluation of each firm's submitted proposal, the Selection Committee may decide if a small sample task and/or discussions will be held with the most highly qualified consultants. If discussions are held, they will serve to clarify the technical approach, qualifications, and capabilities provided in response to the RFP, after which the committee will determine the ranking of the candidate firms.
- Selection Committee members will individually score each firm's submitted proposal which determines individual ranking. DelDOT's ranking is the combined ranking of all Committee members. Firms, in order of ranking, will have the opportunity to negotiate an agreement with DelDOT. If DelDOT cannot reach agreement with the highest ranked firm(s), DelDOT terminates negotiations and begins negotiations with the next highest ranked firm, and so on until an agreement is reached. DelDOT notifies via email the awarded firm(s) of the opportunity to enter into an agreement with DelDOT. This notification also includes information on the next steps for the agreement process.
- Selection Committee members, may consider the Firm's prior or ongoing performance on Projects for DelDOT in rating the Firm. The fact that a specific Selection Committee member or members have experience with a Firm while other Selection Committee members do not shall not be a reason to disqualify any Selection Committee member or members. Selection Committee members may consider a Firm's performance on currently assigned projects up to the closing date of the Selection Committee ranking process.
- After the ranking process has been completed, applicable price information will be requested from the successful candidate Firm(s), such as; salary rates for various classifications of personnel; and an indirect cost derivation for the most current accounting period.
- Payroll burden and overhead will be computed on direct salary costs only (not including overtime) at the consultant's audited rate, as per Federal Acquisition Regulations Part 31, and DelDOT policies. Computer and CADD costs are not allowable as a direct cost to this project. Rate determination and applicability is subject to audit by the DelDOT. Additionally, candidates should be prepared for

DelDOT to work with your current accounting firm to provide information and backup documentation. Full and immediate cooperation is required to avoid delays in execution of an agreement. Failure to cooperate may result in breaking off of negotiations and moving to the next ranked firm.

- Shortlist and Selection Committee membership appointments are confidential. DelDOT 's Professional Services Procurement Manual may be viewed [here](#).
- Each specific task order shall be awarded to the selected, qualified consultants:

Through an additional qualifications-based selection procedure, which may include, but does not require, a formal IDIQ RFP;

FEDERAL CONTRACT PROVISIONS

The Federal Transit Authority (“FTA”) Master Agreement contains a current, but not all-inclusive, description of statutory and regulatory requirements that may affect a recipient’s procurement (such as Disadvantaged Business Enterprise (DBE) and Clean Air requirements). The Master Agreement states that applicable Federal requirements will apply to project participants to the lowest tier necessary to ensure compliance with those requirements. The recipient will need to include applicable Federal requirements in each sub-agreement, lease, third party contract, or other document as necessary. For specific guidance on cross-cutting requirements administered by other Federal agencies, FTA recommends that the recipient contact those agencies. The requirements listed herein must be adhered to by any firm selected to perform work required under these agreements.

1. AUDIT AND INSPECTION OF RECORDS

The Firm retained pursuant to this RFP (“Consultant”) agrees to provide the DelDOT, the FTA Administrator, the Comptroller General of the United States or any of their authorized representatives’ access to any books, documents, papers and records of the Consultant which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts and transcriptions. Consultant also agrees, pursuant to 49 C. F. R. 633.17 to provide the FTA Administrator or his authorized representatives including any PMO Contractor access to Consultant's records and construction sites pertaining to a major capital project, defined at 49 U.S.C. 5302(a)1, which is receiving federal financial assistance through the programs described at 49 U.S.C. 5307, 5309 or 5311. By definition, a major capital project excludes contracts of less than the simplified acquisition threshold. The Consultant agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

2. ACCESS REQUIREMENTS FOR INDIVIDUALS WITH DISABILITIES

The Consultant agrees to comply with all applicable requirements of the Americans with Disabilities Act of 1990 (ADA), 42 U.S.C. Section 12101 *et seq.* And 49 U.S.C. Section 322; Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. Section 794; Section 16 of the Federal Transit Act, as amended, 49 U.S.C. App. Section 1612; and implementing regulations, as may be amended.

3. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS – Lower Tier Covered Transactions (Third Party Contracts over \$25,000)

- a) By signing and submitting this bid or proposal, the prospective lower tier participant is providing the signed certification set out below.
- b) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DelDOT may pursue available remedies, including suspension and/or debarment.
- c) The prospective lower tier participant shall provide immediate written notice to DelDOT if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- d) The terms “covered transaction,” “debarred,” “suspended,” “ineligible,” “lower tier covered transaction,” “participant,” “persons,” “principal,” “proposal,” and “voluntarily excluded,” as used in

this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549 [49 CFR Part 29]. You may contact DelDOT for assistance in obtaining a copy of those regulations.

- e) The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized in writing by DelDOT.
- f) The prospective lower tier participant further agrees by submitting this proposal that it will include the clause "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction", without modification, in all lower tier covered transactions.
- g) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the No procurement List issued by the U. S. General Service Administration.
- h) Nothing contained in the foregoing shall be construed to require establishment of system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- i) Except for transactions authorized under Paragraph E of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to all remedies available to the Federal Government, DelDOT may pursue available remedies including suspension and/or debarment.
- j) The prospective lower tier participant certifies, by submission of this bid or proposal, that neither it nor its "principals" [as defined at 49 CFR §29.105(p)] is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
- k) When the prospective lower tier participant is unable to certify to the statements in this certification, such prospective participant shall attach an explanation to this proposal.

4. CLEAN WATER REQUIREMENTS

The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 *et seq.* The Consultant agrees to report each violation to DelDOT and understands and agrees that DelDOT will, in turn, report each violation as required to assure notification to FTA and the appropriate EPA Regional Office. (2) The Consultant also agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FTA.

5. FEDERAL CHANGES

Consultant shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement between DelDOT and FTA, as they may be amended or promulgated from time to time during the term of this contract. Consultant's failure to comply shall constitute a material breach of this contract.

6. CLEAN AIR

The Consultant agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 *et seq.* The Consultant agrees to report each violation to DelDOT and understands and agrees that DelDOT will, in turn, report each violation as required to assure notification to FTA and the appropriate EPA Regional Office. (2) The Consultant also agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FTA.

8. CONTRACT TERMINATION

a) Termination for Convenience

DelDOT may terminate this contract, in whole or in part, at any time by written notice to the Consultant. The Consultant shall be paid its costs, including contract close-out costs, and profit on product delivered up to the time of termination. The Consultant shall promptly submit its termination claim for payment. If the Consultant has any property in its possession belonging to DelDOT, the Consultant will account for the same and dispose of it in the manner DelDOT directs.

b) Termination for Default

If the Consultant does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Consultant fails to perform in the manner called for in the contract, or if the Consultant fails to comply with any other provisions of the contract, DelDOT may terminate this contract for default. Termination shall be affected by serving a notice of termination on the Consultant setting forth the manner in which the Consultant is in default. The Consultant will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

If it is later determined that the Consultant had an excusable reason for not performing, such as a strike, flood, events which are not the fault of or are beyond the control of the Consultant, DelDOT, after setting up a new delivery or performance schedule, may allow the Consultant to continue work, or treat the termination as a termination of convenience.

In the event DelDOT exercises its right of termination for default, and liquidated damages are chargeable pursuant to the Standard Specifications, the Consultant shall be liable to DelDOT for excess costs and, in addition, for liquidated damages in the amount set forth, as fixed, agreed, and liquidated damages for each calendar day of delay, until such time as DelDOT may reasonably obtain delivery or performance of similar supplies or services.

If the contract is so terminated, the Consultant shall continue performance and be liable to DelDOT for such liquidated damages for each calendar day of delay until the supplies are delivered or services performed.

The Consultant shall not be liable for liquidated damages resulting from delays such as acts of God, strikes, fire or flood, and events which are not the fault of, or are beyond the control of the Contractor.
