In the event the General Assembly fails to appropriate the specific funds necessary to enter into or continue the contractual agreement, in whole or part, the agreement shall be terminated as to any obligation of the State requiring the expenditure of money for which no specific appropriation is available at the end of the last fiscal year for which no appropriation is available or upon the exhaustion of funds. This is not a termination for convenience and will not be converted to such.

49. CHANGES

Both parties may, from time to time, require changes in the services to be provided by the Vendor under the Scope of Work. Such changes, including any increase or decrease in the amount of the Vendor's compensation, which are mutually agreed upon by and between the Agency and the Vendor shall be incorporated in written amendments to the Purchase Order or contract.

Any notice to the State of Delaware required under the contract shall be sent by registered mail to:

**State of Delaware

600A S. Bay Road
Dover, DE 19901-4604**

54. VENDOR EMERGENCY RESPONSE POINT OF CONTACT

The awarded vendor(s) shall provide the name(s), telephone, or cell phone number(s) of those individuals who can be contacted twenty four (24) hours a day, seven (7) days a week where there is a critical need for commodities or services when the Governor of the State of Delaware declares a state of emergency under the Delaware Emergency Operations Plan or in the event of a local emergency or disaster where a state

STATE OF DELAWARE
Office of Management and Budget

governmental entity requires the services of the vendor. Failure to provide this information could render the Bid as non-responsive.

In the event of a serious emergency, pandemic or disaster outside the control of the State, the State may negotiate, as may be authorized by law, emergency performance from the Contractor to address the immediate needs of the State, even if not contemplated under the original Contract or procurement. Payments are subject to appropriation and other payment terms.

55. SUBCONTRACTS

Subcontracting is permitted under this ITB and contract. However, every subcontractor shall be identified in the Bid (Subcontractor Form) and agreed to in writing by the State or as are specifically authorized in writing by the Agency during the performance of the contract. Any substitutions in or additions to such subcontractors, associates, or consultants will be subject to the prior written approval of the State.

The Vendor(s) shall be responsible for compliance by the subcontractor with all terms, conditions and requirements of the ITB and with all local, State and Federal Laws. The Vendor shall be liable for any noncompliance by any subcontractor. Further, nothing contained herein or in any subcontractor agreement shall be construed as creating any contractual relationship between the subcontractor and the State.

If a company elects to be a subcontractor for another vendor, the subcontractor may not independently Bid on this solicitation.

56. AGENCY'S RESPONSIBILITIES

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings, and other documents presented by the Vendor to the Agency and render to the Vendor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Vendor.
- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.
- c. When an ordering agency first experiences a relatively minor problem or difficulty with a vendor, the agency will contact the vendor directly and attempt to informally resolve the problem. This includes failure to perform by the date specified and any unacceptable difference(s) between the purchase order and the merchandise received. Ordering agencies should stress to vendors that they should expedite correction of the differences because failure to reply may result in an unfavorable rating in the execution of the awarded contract.
- d. The state has several remedies available to resolve non-performance issues with the contractor. The Agency should refer to the Contract Terms and Conditions to view these remedies. When a default occurs, the Agency should first review the contract to confirm that the issue is a part of the contract. If the issue is not covered by the contract, the state cannot expect the contractor to perform outside the agreement. If the issue is a part of the contract, the Agency or GSS - Contracting must then contact the contractor, discuss the reasons surrounding the default and establish a date when the contractor will resolve the non-performance issue.

- e. If there is a performance deficiency, a Corrective Action Report (CAR) may be used. Complete this form to report concerns with vendors or commodities. Be sure to furnish as much detail as possible.

57. CONFIDENTIALITY

Subject to applicable law or the order of a court of competent jurisdiction to the contrary, all documents submitted as part of the vendor's solicitation response (response) will be treated as confidential during the evaluation process. As such, vendor responses will not be available for review by anyone other than the State of Delaware Evaluation Team or its designated agents. There shall be no disclosure of any vendor's information until a fully executed contract is received unless such disclosure is required by law or by order of a court of competent jurisdiction.

The State of Delaware and its constituent agencies are required to comply with the State of Delaware Freedom of Information Act, [29 Del. C. § 10001, et seq. \("FOIA"\)](#). FOIA requires that the State of Delaware's records are public records (unless otherwise declared by FOIA or other law to be exempt from disclosure) and are subject to inspection and copying by any person upon a written request. Once fully executed contracts are received, the contents of all vendor responses are subject to FOIA's public disclosure obligations and exemptions.

The State of Delaware wishes to create a business-friendly environment and procurement process. As such, the State respects the vendor community's desire to protect its intellectual property, trade secrets, and confidential business information (collectively referred to herein as "confidential business information"). Responses must contain sufficient information to be evaluated. Through the [online bid submission portal](#), vendors will submit two copies of their solicitation response. One shall be marked original containing the full solicitation response. The second shall be marked redacted copy, redacting those items the vendor is looking to mark confidential.

The redacted copy must include the completed confidentiality form describing the items redacted, representing in good faith that the information is not "public record" as defined by 29 *Del. C.* § 10002, and briefly stating the reasons that each redaction meets the said definitions.

A vendor's allegation as to its confidential business information shall not be binding on the State. The State shall independently determine the validity of any vendor designation as set forth in this section. Any vendor submitting a response to the solicitation herein expressly accepts the State's absolute right and duty to independently assess the legal and factual validity of any information designated as confidential business information. Accordingly, Vendor(s) assume the risk that confidential business information included within a response to a solicitation may enter the public domain.

58. NO PRESS RELEASES OR PUBLIC DISCLOSURE

The State of Delaware reserves the right to pre-approve any news or broadcast advertising releases concerning this solicitation, the resulting contract, the work performed, or any reference to the State of Delaware with regard to any project or contract performance. Any such news or advertising releases pertaining to this solicitation or resulting contract shall require the prior express written permission of the State of Delaware.

The State will not prohibit or otherwise prevent the awarded vendor(s) from direct marketing to the State of Delaware agencies, departments, municipalities, and/or any other political subdivisions, however, the Vendor shall not use the State's seal or imply preference for the solution or goods provided.

This contract is intended to meet the various needs of the State for refined petroleum oil and lubricants, which are suitable for use in internal combustion engines, transmissions, and grease applications.

2. DEFINITIONS

API Certification – The American Petroleum Institute Engine Oil Licensing and Certification System (APIEOLCS) requires that re-refined oils pass the same cold-start, pumpability, rust-corrosion, engine wear & high temperature viscosity tests as virgin oils, so that consistent performance standards for all engine oils are met. Certifications submitted in response to this RFP must be for the finished product (s) to be provided under the contract.

ASTM Standards – The American Society for Testing and Materials specifies the exact way in which a product is to be tested, including the rule, techniques and conditions which must be adhered to in engineering design so that all manufacturers are working with the same procedures and values.

DEF – Diesel Exhaust Fluid is a blended aqueous solution of 32.5% high purity urea and 67.5% deionized water.

ILSAC – The International Lubricant Standardization and Approval Committee, which in 2004 established GF-4 as the minimum performance standard for gasoline-fueled passenger car engine oils.

Recyclability – The ability of a product or material to be recovered from or otherwise diverted from the solid waste stream for the purpose of recycling.

SAE – The Society of Automotive Engineers works with API and ASTM in developing and maintaining testing and licensing requirements for various oils and lubricants.

Synthetic Blend Motor Oil – In the context of this solicitation, synthetic blend motor oil consists of a base minimum 30% synthetic composition with the remainder consisting of mineral oil.

Urea – Is a compound of nitrogen that turns to ammonia when heated. It is used in a variety of industries, including as a fertilizer in agriculture.

Virgin – Virgin products are those made with 100% new/raw materials and contain no recycled content.

N. DIESEL EXHAUST FLUID (DEF)

In order to meet new more stringent EPA requirements to reduce diesel exhaust emissions, many manufacturers have introduced Selective Catalytic Reduction (SCR), a technology that reduces nitrogen oxides in diesel exhaust emissions to two safer byproducts, nitrogen and water vapor. To be effective, the DEF mixture needs to meet specific performance standard. The standard published by ISO (International Organization for Standardization) is intended to confirm that DEF products used in SCR equipped vehicles meets the exacting standards necessary.

Therefore, any DEF products bid in response to the State contract solicitation will need to be API certified to be considered. API certification confirms that the DEF supplied meet the ISO 22241 compliance standards established. Additionally, lab samples and test data have previously been submitted to API to ensure the specific standard adherence. By selecting this standard, the State does not have to independently judge, or review submitted sample tests and reports.

All DEF products bid shall be on the API list of approved Diesel Exhaust Fluid brands, and documentation which confirms adherence to the API certification standards must be provided.

Since DEF requires product specific equipment to pump from the drums and totes, the State requests the awarded vendor supply one (1) hand pump for each ordering location. The awarded vendor may require a refundable deposit to protect against misuse, theft, or damage.

O. INTENT TO LOAD CONTRACT AWARD IN STATE EMARKETPLACE SOLUTION

Upon award this contract will be loaded into the State's eMarketplace solution as a catalog contract.

As a catalog contract, awarded vendor(s) are required to identify a point of contact for implementation. This contact will assist with catalog configuration, product catalog submission, testing, and go-live. Upon submission of the enablement ticket by Government Support Services, vendor(s) will receive an invitation to join the Delaware marketplace, which must be accepted within 14 days. The initial product catalog must be ready for review by Government Support Services within 14 days of invitation acceptance.

Vendors using CXML must be able to accept receipt of both ship to and bill to address details from the orders for proper delivery of products and invoices.

Those with punchout functionality must support "shop at the top" functionality, where searches are conducted on the main eMarketplace page. Orders must capture both ship-to and bill-to addresses.

Additionally, vendors must work with the eMarketplace provider to allow functionality within the test environment, ensuring full functionality is tested. This may require vendors to make their API available (if they have one) or participate in a site assessment to determine alternate search configurations. It may also necessitate submitting a CSV catalog file to supplement the punchout catalog. The API utilized within the test environment will be for production data retrieval.

The failure and/or inability to comply with the eMarketplace requirement(s) may subject the awarded vendor to corrective action, up to and possibly including termination of the contract.
