Chuck Levin's
WASHINGTON MUSIC CENTER

11151 Veirs Mill Road | Wheaton, MD 20902

Located a few miles north of Washington DC in Wheaton, Maryland, Chuck Levin's Washington Music Center is the largest single music store in the USA. We have been in business for over fifty years, working with school districts, government agencies, and purchasing cooperatives. We are committed to helping schools get more out of their increasingly tight budgets in today's economy.

We carry hundreds of Band and Orchestra brands such as Bach, Selmer, King, Conn, Gemeinhardt, Pearl, Buffet, Ludwig, Musser, Yamaha and many many more. We are also the leading supplier of Pro Audio, Guitars, Percussion, Keyboards, Digital Planos, Recording, Lighting, DJ Equipment and anything you dream of in the Music Industry. You name it we've got it! Our \$13 million inventory is breathtaking. Call, email or fax us for any and all of your musical needs, we've got an incredible dedicated bid department to assist you.

Please contact Melody O'Neil
 by phone at 301-946-8808,
 email at bids@chucklevins.com,
 or fax at 301-946-0487, for all
 your school band needs.

RICO RESERVE

Designed to meet the needs of the most discriminating players, Rico Reserve reeds are the result of more than 75 years of reed making expertise. The high density, lower internode cane is precision cut with natural diamond cutters. Optical laser measuring, color video inspection, as well as state-of-the-art polishing come together to produce an artist quality reed that can't be overlooked. Sold 10 reeds per box.

RICO RESERVE CLASSIC

Designed for clarinetists by clarinetists in collaboration with Mark Nuccio, Acting Principal Clarinetist of the NY Philharmonic. Special cane treatment processes that help reduce reed warping include: a gradual tip shape adding more tonal warmth, traditional tip thickness for a quick articulation, and uses only the densest, lower internode cane for longer durability and consistency.

Superial

"For the player who demands the very best"

We have devoted years of research in design and extensive professional testing to pursue our dream of creating woodwind reeds which offer the highest standards of performance and endurance possible. Our philosophy is to follow in the fine tradition of reed manufacturers from the past while at the same time utilizing advancements in technology which have added an element of precision unavailable years ago.

Original Superial

Clarinet Reeds

Vandoren, which began in 1905, is now one of the most popular makers of mouthpieces and reeds for clarinet and saxophone in the world. Began by Eugene Van Doren (1873-1940), a clarinetist for the Paris Opera, the company did not start really growing until his son, Robert Van Doren (1904-1996), took over the business in 1935. In 1967, Bernard Van Doren (b. 1945), grandson of Eugene, took over the company. During this time period, the company started making its most famous mouthpiece for clarinet, the B45. Still today, Vandoren continues to be a prominent manufacturer of reeds and mouthpieces.

Clarinet – Traditionals

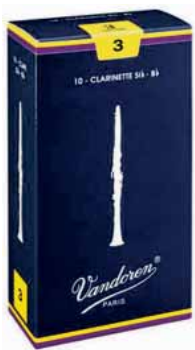

The most widely played reeds in the world with a superiority proven over the years. These reeds suit all styles of music. **Traditionals** are known for excellent response in all registers, allowing for a pianissimo attack in even the highest notes. Vandoren **Traditionals** are extremely flexible, allowing legato or staccato execution of large intervals while maintaining a richness of tone and clarity of sound – all hallmarks of Vandoren reeds.

Bb Clarinet – Special Cuts

The cut of the **White Master** and **Black Master** reeds are calculated to suit the characteristics of German system clarinet mouthpieces. **Black Master** reeds have a larger and thicker cut than **White Master** reeds. **V-12** reeds are cut with a thicker heel and tip plus a longer pallet resulting in a deeper, richer sound and increased the longevity of the reed. **56 Rue Lepic** reeds are designed from thicker cane with a heel taper similar to German-style reeds emitting a rich, centered, and extremely pure sound while providing maximum stability and quick response in all registers.

Saxophone Reeds

Soprano Saxophone

Java reeds are specially cut for the Jazz saxophonist. The New **Java RED** is made as the original Java but with a file cut. It offers more flexibility but retains a full, rich, centered sound. **ZZ** reeds have an immediate and responsive free-blowing characteristic without sacrificing the brightness or tone quality required for Jazz music. **V-12** reeds are a great classical reed. They offer precise attack, controlled high tones, and a warm velvety sound. **V16** reeds have a thicker tip and a longer pallet. Their sound tends to be more brilliant, percussive, and particularly adapted to all the new styles of music.

Classique & Excellence Reeds

The "Classique" reed has been developed to meet classical saxophone and clarinet players' expectations: consistency, strength and durability. A fuller and deeper tone can be produced on "classical" mouthpieces. It offers a perfect control of intonation and great stability in the high register.

The "Excellence" reed has been developed to meet jazz saxophone players' expectations: consistency, strength and durability. It's progressive flexibility on the longer portion helps to produce a fuller and deeper tone on most popular "jazz" mouthpieces while maintaining body and stability in the higher register.

* Must Purchase in Multiples of 5, same type, same strength

RICHARDS DOUBLE REEDS

Each Richards reed is hand made and shaped to a specific length with the finest cane, tested for pitch to A-440 and uses the long American scrape to provide a dark, stable, and centered tone with an even response throughout the full range of the instrument. Oboe reeds are available with wire which allows for varying the tip opening in response to temperature, season, and humidity.

Strength	Oboe	Bassoon

List	\$16.95	\$16.95

Jones Double Reeds

Made of the finest French cane available with the long scrape to ensure that the proper tip opening is obtained without using a wire. The cane is sorted for the correct diameter. Processed by skilled craftsmen using the world's most advanced reed machinery, each reed is individually tested and adjusted by hand with some hand scraping.

Strength	Oboe	Bassoon	English Horn

List	\$18.70	\$18.95	\$23.50

Jones Artist Model

Only the most select French cane is used in the Jones Artist Oboe reeds. The cane is tied on to a 47mm nickel silver tube and the tip receives extra refinement, while the heart and back are balanced with the tip after numerous tests. The "crow" of each reed is adjusted to an exact pitch, and the reed is played throughout the range on a professional Loree Oboe.

Synthetic Reeds

Légère Reeds

Légère Reeds Inc. has been producing state of the art synthetic clarinet and saxophone reeds since 1998. Légère reeds produce a warm powerful sound, but have all the advantages of a synthetic reed:

- ready to play instantly
- consistent and reliable quality
- last a long time
- have the properties of moist cane

Mouthpieces

Rico Royal Graftonite®

Rico put the Graftonite line of mouthpieces on the market in the 1980s, and it has remained a top seller ever since. They incorporate revolutionary materials to achieve ease of tone production and playability, a wide range of tonal colors, durability (they won't chip or crack). Graftonite mouthpieces are available in a variety of chambers and facings.

Berg Larsen is synonymous with hand-crafted mouthpieces for saxophones and are used by some of the world's top professional saxophonists. Skilled craftsmen use ten machining processes to create each Berg Larsen mouthpiece. Every one is individually hand finished and inspected to ensure the Berg Larsen reputation for quality is maintained. Berg Larsen mouthpieces come in a comprehensive range of tip openings, so that there can be a mouthpiece for EVERYONE.

Portnoy

MOUTHPIECES

The masterpiece of renowned clarinetist Bernard Portnoy, Instructor, Juilliard School of Music; Former Instructor, Curtis Institute of Music; Former Solo Clarinetist, Philadelphia and Cleveland Orchestras, Professor of Music (Ameritas), Indiana University. He has created a new and innovative mouthpiece chamber design that uses four different tooling processes to complete. Years of research went into the design of these fine mouthpieces.

Original Models

All original models are still created with the same specs and care that the founder Claude Lakey defined. Each mouthpiece is carefully handcrafted to perform with various characteristics. Each model has differing overtone structures and plays differently.

Apollo Models

They all offer free blowing with a rich full tonal quality in all ranges of the horn which makes this mouthpiece popular for leads, straight ahead jazz, but also blends nicely in section work.

ROVNER -- THE ORIGINATOR

Innovators in Clarinet & Saxophone Ligature & Mouthpiece Technology for the last 36 years. Used by renowned Classical, Jazz, Blues and Rock artists. There are many imitations - but there is only one Rovner! Available for all saxophones and clarinets. Supplied with black caps. Unless ordered otherwise, are supplied with metal fittings that match the instrument or the mouthpiece with which it is likely to be used.

Dark ligatures give a darker, richer tone quality.

Light ligatures give a brighter more open tone quality.

Versa ligatures feature a metal cradle which can be altered to create six different tones. It is not designed to be inverted. In all positions, the cradle is designed to sit on the reed, and the screw will tighten against the mouthpiece. The versatility of this ligature provides the performer with complete tonal control and accurate intonation throughout all registers.

Legacy This ligature extends your performance boundaries with superior articulation, locked-in intonation, and unsurpassed harmonic richness. It can dominate amplified instruments even when unamplified and delivers great cut and projection. Play your softest notes with subtle nuance.

Platinum ligatures utilize our exclusive Mass Loaded TM technology, featuring weighted elements which tune the ligature's resonance band below the pass band of the instrument. Big, warm, and responsive tone with a phenomenal degree of control. Capable of converting a thin, bodiless sound into something with substance and warmth.

MARK III Ligatures are maximum performance types that yield the best response, clearest, biggest sound, and playability, of any ligature available.

Star Series This ligature represents the next generation Rovner. Born out of the desire to have "better performance, simpler design, less cost". This epitomizes, Less is More. It's beauty is it's simplicity. Now anyone can enhance their playing performance.

Sax Key Clamps

SAX KEY CLAMPS

HollywoodWinds key clamps are designed to lightly hold the pad against the tone hole which helps dry the pad to the shape of the tone hole and keeps the pad seated. Key clamps also help prevent damage to the pads and keys when the instrument is being transported. The **HollywoodWinds** key clamps are designed with a lighter wire to help prevent the possibility of over tightening the clamps. This lighter wire also makes it easier to adjust the clamps after replacing a pad.

Finger Rests

Bo-Pep™

Rests & Saddles for Flute

Bo-Pep makes your flute much more comfortable to play. The Flute Finger Rest, Finger Saddle and Thumb Guide build out the body of the flute at the two most critical points: the positions of the left-index finger and the right-hand thumb. They open the grip to reduce tension and improve balance.

Bo-Pep products are easy to snap onto the flute and may be adjusted up or down to suit individual hands. No adhesives required. Each part comes in a draw-string sack that can be tied to the case handle for easy storage.

Yamaha Silent Brass

Silent Brass is a complete soundproof electronic studio. Blow as hard as you like without disturbing others, but you will hear through the earphones a rich full sound. The electronics can enhance the sound digitally to mimic the acoustics of a larger room. You can play along with your favorite pre-recorded music by plugging an outside source into the auxiliary jack. Plus you can connect to an external source like an amplifier or recorder through the output jack. All systems come complete with mute, Personal Studio, locking cable, belt loop/strap, mini stereo headphones, and 9 volt battery.

110HE List \$20.97

Maintenance Supplies

Silk Swabs

Hodge silk swabs are made from 100% China silk a very absorbent, lint free material - better than cotton or chamois. Silk is very compressible, making it possible to pull through instruments with variations in bore size. Indicate your color choice by adding the number letter code after the model number: Black(1), Blue(2), Burgundy(3), and Purple(P).

The H.W. Brass-Saver™ set has revolutionized the way brass players clean their instruments. These brushes can be used wet or dry, contain absolutely no metal, and they won't scratch or get stuck. Their unique design is so flexible, they reach parts of the horn never before accessible. Clean out your entire trombone slide in one simple step with the H.W. Brass-Saver™ set. The thin brush with a long leader will clean the outer slide and leadpipe while larger brush with a short leader will clean all the other slides. The trumpet set includes the lead pipe pull thru brush, designed to fit through the narrowest of lead pipes, the slide pull thru brush that fits even the third valve slide, and the valve and tubing brush, so rugged it gets in and really scrubs the tubing and valve casings. The tuba and baritone sets include a lead pipe pull thru brush, a slide pull thru brush, and a valve and tubing brush, which together make the ultimate cleaning system.

Pocket Sax

The Maui Xaphoon

The Maui Xaphoon (pronounced “za foon”) is the original “Pocket Sax”. It’s sound falls somewhere between a saxophone and a clarinet – a much richer sound than it’s size would suggest. The experienced player will find the Xaphoon capable of all the subtle shadings and vibrant power of a saxophone. The beginner will find it fun, easy and good practice for other reed instruments. They are made in the key of C and possess a 2-octave, fully chromatic scale.

The pocket sax is available in standard Black, Emerald Green, Wine Red, and Cobalt Blue.

Instruments

At Last, An Instrument That Truly Prepares A Child For Band.
Introducing The All New

CLARINÉO

BY
nuvo

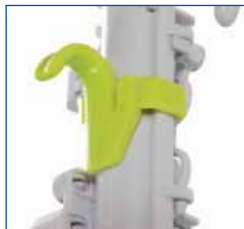

Clarinéo with Case, CD, DVD, and Book

Available Exclusively From St. Louis Music

For decades elementary schools have taught our children the rudiments of music on the recorder. This has proven to be an incredible success, but the transition from recorder to band class has never been addressed with a real wind instrument that 6 to 10 year olds can play.

The Clarinéo bridges this critical stage in music education. It is a real instrument, fully chromatic with a professional sound and the only instrument in the world that can truly prepare a young child for the clarinet, saxophone and flute.

Being in the key of 'C', the Clarinéo is a general music instrument, it can be played easily alongside the piano, guitar or other non-band instruments and sounds incredible; it really has to be heard to be believed. Although designed for children, sized for children and taught to children, the Clarinéo is a serious instrument that is being used by adult players and even professionals around the world.

Thumb Rest

Mouth Piece

Key Detail

- **Almost indestructible - ideal for youngsters, always playable, no overhaul or repair costs**
- **Key work is made of Delrin – completely waterproof, no re- padding costs - ever!**
- **Uses two “O” rings instead of mouthpiece cork - easier to tune and never wear out.**
- **Enables children from six or seven years old to begin playing - giving them a four or five-year musical advantage**
- **Very affordable - vital for parents and schools to make music playing accessible to all**
- **Uses simplified fingering of a clarinet - easier to learn and can be taught by any clarinet teacher**
- **Easily plays along with normally pitched instruments; guitar, piano, flute, violin, recorder etc**
- **Fits in with all levels from Elementary school music to Secondary school orchestras and beyond**

 - Lifetime USA WarrantyList \$34.95

DB-30 pocket-sized metronome can lay down a variety of rhythm patterns and time feels for practice.

- Handles time signatures up to 17 beats per measure
- Rhythmic beat patterns in various styles
- Headphone output with volume control

DB-60 provides a menu of rhythmic patterns, a note-mixing feature to create rhythms that match the feel and style of your music.

- 17 beats per measure.
- Create original patterns with the Note-Mixing function
- Loop Play for calling up memory settings and repeating the patterns
- Memory function for storing independent tempos for each song
- Tap Tempo, Timer, and Stopwatch
- Standard Pitch function for tuning
- Backlit display

The DB-90 is loaded with features. There's a Rhythm Coach function with an onboard mic, reference tone function for tuning and Instrument input, MIDI input.

- Trigger input to access unique Rhythm Coach exercises
- MIDI in for syncing to external sequencer tempos
- PCM sounds with "drum machine" style patterns
- 50 memories
- Human-voice count

Mighty Bright LED

Orchestra Light! The ultimate light for all low light and controlled light situations. The white LED light increases the contrast and readability so you will see every note on your sheet music more clearly!

Features:

- Nine Light Emitting Diodes (LEDs) illuminate up to four pages of sheet music.
- Rugged, solid state lighting technology lasts up to 100,000 hours.
- Powered by three AA batteries or a long AC adapter cord (both included).
- Offers up to 16 hours of continuous use on the high setting or 24 hours on the low setting using three new AA alkaline batteries.
- Easy access power switch on top controls two brightness levels.
- Strong and flexible gooseneck arm that moves in as many directions as needed.
- Sturdy clip attaches to music stand or sits freestanding.
- Shade on back of lamp head directs more light on music and reduces glare towards audience.
- Illuminates your sheet music at 54 Lumens on the high setting or 36 Lumens on the low setting.
- Complete with 3-AA batteries, AC adaptor & Gig Bag.

Knilling

Founded in 1922,

Knilling String Instruments has long been recognized as a premier supplier, providing string instruments of superior value and performance along with exciting and innovative products such as the revolutionary Perfection Planetary geared pegs, to dealers throughout North America.

The acquisition of Knilling String Instruments by U.S. Band & Orchestra Supplies Inc. opens a new chapter for school music dealers, string shops and luthiers. The synergy resulting from our combined experience and resources brings you some of the most powerful opportunities and strongest lines in the industry. And, it reunites many familiar faces committed to serving you with the dedication and passion which has been the hallmark of Knilling for over 89 years.

For more information on the complete line of Knilling String Instruments, please request our #KNVC full color catalog or #KNPL pocket price list.

For distribution and availability, please call or contact your Knilling representative.

Knilling Product Highlights

VIVACELLO™ Endpin Rests

One of the best compact endpin rests available! Unique tripod design and replaceable rubber feet ensure an incredibly secure, non-slip grip on almost any surface! And, VIVACELLO comes in six cool colors!

See page 97

JADE™ Rosin

A best-selling premium rosin for classical musicians! From symphony players to concert artists, JADE rosin for violin, viola and cello has met with enthusiastic acclaim.

See page 103

Viva® Compact and Standard Shoulder Rests

The shoulder rest string players love!

VIVA® shoulder rests are designed for superior fit and performance by a string educator FOR string teachers and players.

Unique features include:

- An innovative, patented, lateral adjustment system provide for proper fit for a wide variety of shoulder widths, ensuring superior comfort and proper playing posture.
- Stepped and grooved padded rubber feet provide an incredibly secure grip with minimal sound dampening contact.
- Thickly padded, ergonomically designed BASF composite frame provides complete and comfortable support without tipping.
- Exciting, bright colors make VIVA one of our most popular shoulder rests with players of all ages!

See page 100

Knilling Deluxe Shoulder Rest Pouch

Finally! A practical solution to the age-old dilemma of how to store a shoulder rest in a shaped thermoplastic case! The Knilling Deluxe Shoulder Rest Pouch attaches neatly and securely to almost any shaped thermoplastic violin or viola case and offers a practical, convenient and stylish solution!

See page 100

Marshmellow® Shoulder Rests

Dual density foam provides superior comfort and stability. Knilling Marshmellow rests are ideal for children and beginning students, encouraging correct posture and flexibility.

See page 100

Knilling Classic™ Polish

An exceptional cream polish for all string instruments, Knilling Classic Polish is effective yet non-abrasive and gentle on varnish, ideal for one-step cleaning and polishing any instrument.

Paradigm ~~shift~~ turn.

For generations, the temperamental friction peg has presented a periodically frustrating challenge for players at every age and level of accomplishment. It has been one of the few problems of the instrument which, despite various attempts and workarounds, has not yielded to a genuinely acceptable solution.

Finally, enter Perfection® Planetary pegs, at whose heart is a permanently scaled, precision gear mechanism, offering extraordinary ease, phenomenal accuracy, instrument-friendly installation, and life-long, maintenance-free operation. Their advantages and benefits are numerous. Remarkably, they introduce no new problem or challenge.

Best of all, Perfection is now available for your own violin, viola or cello – and of course, on any Knilling. Enjoy tuning. It's your turn.

Perfection Planetary Peg®

- Eliminates All Fine Tuners
- Eliminates Slipping or Sticking
- Unaffected by Humidity Changes
- Conventional Weight, Diameter & Taper
- Simple Installation or Removal
- Maintenance-Free Operation
- Lifetime Mechanical Warranty

Engelhardt Basses and Cellos

Engelhardt cellos and basses are made to conform to the rigid standards drawn up by the String Committee of the Music Educators National Conference. All Engelhardt basses and cellos feature lightweight laminated construction for the finest tone and serviceability. They are moisture, temperature and climate proofed. All instruments have rock hard maple necks which resist warping. The tops and backs are fully arched, properly sized and aligned for sensitive response to make the Engelhardt instrument easier to play. Made in U.S.A

Economy Cello

An extremely durable cello available at a budget price. This instrument is especially suited for the beginning student. The body is constructed of maple top and back that will stand up to rough student use. Mahogany finish and hard maple fingerboard and tailpiece.

Suzuki Violins & Cellos

Suzuki NAGOYA
You Know Nagoya™

NAGOYA SUZUKI - A Brief History

Masakichi Suzuki was born in 1859 in Nagoya, Japan. By age 14, he had acquired experience in lacquer-ware, and ran a workshop that crafted traditional Japanese instruments. His future changed dramatically when he put his skills to work making his first instrument, a violin. A few months later he decided violin-making would be his life's vocation. By 1889, he opened a shop in Tokyo. The following year, Suzuki was able to begin construction on the first violin factory in Japan. Ten years later he developed and patented specialized machinery enabling him to begin mass production. At this time, Suzuki also started production of the first fractional-sized violins.

The increasingly high quality of Japanese workmanship was quickly discovered by the world after World War I, prompting a dramatic increase in demand, and Suzuki's work force rapidly swelled to over 1,000 employees. By 1916, Suzuki opened a second factory and subsequently, a third factory was constructed in 1918. In 1930, the Suzuki Violin Manufacturing Corporation became a publicly traded company with Masakichi Suzuki as President, and his son, Umeo, the Managing Director.

Today, Nagoya Suzuki string instruments continue to enjoy a well-deserved reputation around the world of producing the highest quality instruments. With over 100 years of instrument-making excellence and experience, Nagoya Suzuki has refined the process with unparalleled devotion to quality in materials, workmanship, tone and overall performance. It is the expert technology Suzuki has developed and handed down through generations of craftsmen that allows its manufacture of superior, easy-to-play, quality educational violins today. From start to finish, the Nagoya Suzuki is one of the most dependable and well-suited instruments for the progressing student*.

*A significant contributing factor to the world-wide success of Nagoya Suzuki Violins is the renowned Suzuki Method education system, developed by Masakichi Suzuki's son, Shinichi Suzuki (1898-1998). Shinichi Suzuki developed a method of teaching young children so that all could express exceptional potential, and devoted his life to the concept that ability is not born and that talent can be created. For the beginner or advancing student, there is no better choice than a string instrument from Nagoya Suzuki. Throughout the world today, children learn to play musical instruments using the Suzuki Method, and quality instruments by Nagoya Suzuki are often the first violins that beginners take in their hands.

For more information on the Suzuki String Instruments, please request our #KNNSB Nagoya Suzuki Brochure.

NAGOYA SUZUKI Instruments & Outfits

Model 220 Nagoya Suzuki Violin Outfit

The most popular Nagoya Suzuki outfit, the Nagoya Suzuki Model 220 violin has a proven track record of consistent quality for over 30 years. First introduced in 1972, the Nagoya Suzuki Violin Model 220 rapidly became the most popular and requested student violin in the world. The top spruce sound plate of each Model 220 is select solid spruce cut and shaped into its final contour. This process, along with their time-proven varnishing technique, solid ebony trim and quality steel-core strings create an instrument that is responsive in tone, more stable, and resistant to changes in humidity. Outfit includes Nagoya Suzuki wood bow with genuine horsehair, and deluxe shaped Suzuki case with cover.

Viola Only

2VLA15.5 15 1/2" Size.....List **\$1495.00B**

Meticulously crafted from superior materials to ensure optimum performance, the #2 Nagoya Suzuki viola features carved spruce top and maple back and sides for superior tone and projection, complemented by fine ebony fingerboard, pegs and tailpiece, and quality Nagoya Suzuki steel core strings.

Nagoya Suzuki Cello Outfit

Incremental sizes developed by Nagoya Suzuki are specifically designed to precisely meet the needs of young beginning students. Experienced teachers know that each of Suzuki's graduated sizes is optimally proportioned. Advancing and adult players are served by the traditional larger sizes as well. All sizes are made to the same exceptional quality standard. Nagoya Suzuki cellos feature fully carved and graduated construction, even grained spruce top, highly flamed maple back, sides and neck, all handcrafted of seasoned tonewood and carefully adjusted. High quality ebony is used for the pegs and fingerboard and the tailpiece has four integral string adjusters. The excellent quality endpin is an ideal length appropriate to each size and features handsome gold-tone hardware.

Cello Outfit

Outfits include a finely crafted genuine Nagoya Suzuki wooden bow with horsehair in its own bow case, which fits into a dedicated compartment on the front of the perfectly fitted, beautifully made cover.

Strings

Chromcor Steel Core Strings

Pirastro Chromcor strings are favored by students and educators alike, owing to their bright, clear tone quality, and durability. Recommended by many educators for their proven performance, economy, and easy maintenance. Fractional size singles available.

Violin	Model	List
319020	Set 4/4 Chrome/steel.....	\$74.25

Pirastro Tonica Synthetic Core Strings

Rich in overtones, these strings bring out the optimum in brilliance and power. In addition, Tonica soft and orchestra gauges are not simply thicker or thinner versions of the standard gauge, but have been expressly developed so as to allow the strings to match adjacent strings despite gauge differences, thus allowing even performance throughout all registers. Sets and singles are available in weich (soft), mittel (medium), and stark (orchestra) gauges. Fractional sizes come in ball end only.

Pirastro Oliv Gut Core Strings

Premium Pirastro Oliv strings were created to meet the increasing need for a string with greater warmth, volume, and brilliance. The high percentage of precious metals used in the construction of Oliv strings give them a higher specific gravity, resulting in the full, penetrating tone preferred by many of today's concert artists and professionals.

Pirastro Evah Multi-filament Strings

Evah strings feature an exclusive multi-filament, developed and made expressly for Pirastro. Unbelievable string power, range of modulation, and full, round sound and stability, coupled with easy response and playability meeting the high performance requirements of the modern player. Available in weich, mittel and stark. Fractional sizes are special order only.

Pirastro Permanent Carbon Steel Strings

Handmade chromesteel and tungsten wound, with carbon steel core; a powerful string that speaks easily, with great response, warm sound, clear brilliance and powerful projection. Cello G and C strings are wolfram (tungsten) on ropecore; cello A, viola A, and cello D are chromesteel on carbon steel. Permanent strings are available in stark, mittel, and weich gauges; weich (thin gauge) in lower tension and brightens with less bow pressure; stark (thick) is higher tension, more powerful, with higher bow pressure. Single strings available.

337020	4/4 Cello Set	\$415.95
--------	---------------------	----------

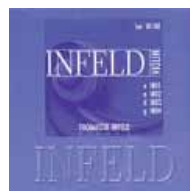

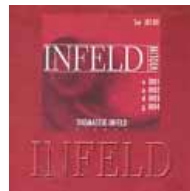

Thomastik Dominant Synthetic Core Strings

The core of Dominant strings is made of perlon, a synthetic material which retains the elastic nature of gut, while exhibiting superior response, durability and volume, remaining unaffected by changes in external conditions. Preferred for their superior performance and durability. 4/4 size available in soft (weich), orchestra (stark), and medium gauges. Fractional size singles available in medium gauge only. Fractional sets all come with ball ends; violin sets available with loop or ball end E-strings.

Red & Blue Thomastik Infeld System Strings

The Infeld Violin System enables musicians to customize their sound with a full complement of matched and balanced strings covering the entire tonal spectrum. Musicians can now select matched strings with darker or lighter overtones to bring out the best response in their particular instrument. Greater flexibility and sustain, superior projection and power, plus exceptionally even tension and balance across all strings, swift break-in period, and enhanced longevity make hybrid core Infeld System Strings by Thomastik are an exceptional choice for many professional players, from soloist artists to symphony musicians.

Thomastik Vision and Vision Titanium Strings

Designed for advanced and professional players, all Vision strings feature a rich, brilliant, complex sound and are exceptionally easy to play. Wound on advanced synthetic cores, these strings have a rapid 2 to 4 hour break in and unparalleled tuning stability.

Vision Titanium strings incorporate a unique titanium coating for the more focused, expressive and powerful response particularly desired by soloists. Vision Titanium Orchestra are warmer and more gut-like, and were specifically designed for the acoustic and performance characteristics preferred by the Vienna Philharmonic.

Packaged in moisture-proof blister packs with security seal.

So easy, even a child can tune a cello!

Teachers, students, and professionals are all raving about the extraordinary Perfection planetary pegs, which feature revolutionary application of tried-and-true planetary gears, to ensure non-slip, non-stick tuning so smooth and effortless, that even a beginner can learn to tune (and stay in tune) without fear of slipping or sticking pegs.

- 4:1 gear reduction ensures easy and fast precision controlled tuning. Educators love the time-savings, seconds as opposed to minutes per instrument for tuning!
- Advanced engineering and materials, plus sealed gears for smooth, maintenance-free function and durability.
- Easy to install (uses exactly the same reamer that is used for conventional peg installation), safe for the instrument, and eliminates the need for fine tuners which improves instrument response.
- Perfection pegs look virtually identical to conventional pegs when installed, for aesthetic appeal.
- Extensively field tested to ensure reliable performance and long life.
- Terrific for older players with arthritis or weakened hand grip.

GelRest™

The ultimate in chin protection. Gelrest™ gently molds to your chin making your violin feel like it was made for you. The GelRest is even molded with special contouring that make holding the violin in the correct position much easier, without bruises or scarring.

Comfort is important, but looks are important too. That's why the GelRest™ is designed to blend in with the classic look of the violin. Since the GelRest™ is molded, we were able to base our molds on the classic chinrest shapes: Strad, Teka, Flesch no-hump, Guarneri 1/2 size, Mulko, and the ever-popular Guarneri.

Shoulder Rests, Pads & Pouches

VIVA® Shoulder Rests

The rest string players love!

VIVA® shoulder rests were designed for superior fit and performance by a string teacher for string players and educators. Unique features include:

- Innovative, patented lateral adjustment system ensures proper fit for all shoulder widths for comfort and to encourage proper playing posture.
- Ergonomically designed BASF composite frame provides complete and comfortable support without tipping, with locked end members to prevent over-extension.
- Stepped and grooved rubber padded feet provide an incredibly secure grip with minimal sound dampening contact.

JADE™ Rosin

From symphony musicians to concert artists, JADE rosin has met with enthusiastic acclaim. JADE rosin produces a smooth yet firm grip, with remarkable control.

- Exceptional adhesion, with virtually no noise or dust.
- No metallic residues, which do not contribute to adhesion and may scratch fine varnishes.
- Fire polished surface is specially designed to provide a mirror-flat surface which allows the bow hair to evenly pick up rosin.
- Attractive POP display with striking green marbled wrap-around color graphics.

Don't Fret™ Finger Position Decals

Patented Don't Fret Finger Position Indicators are decals which apply quickly and easily to string instrument fingerboards, and are mathematically designed, and precision-printed, to help beginning students quickly learn where to put their fingers. Extremely durable, yet removes cleanly from the instrument. Students love Don't Fret because they have easily identifiable markers, and teachers find it a flexible tool, responsive to numerous pedagogies. Don't Fret decals are also perforated, allowing the teacher to remove any of 3 sections separately.

2002 Classic Series

The legendary series that defined the sound of generations of drummers since early days of Rock. The present 2002 is built on the foundation of the original classic cymbals and is expanded by modern sounds for today's progressive popular music.

Formula 602 Series

Legendary cymbal line for soft, delicate to medium loud volume settings that require precise playing – relaunched in 2010. Formula 602 cymbals produce a true, pure sound of unique clarity.

Cymbals

Our Cymbal program is designed to keep up your musical needs. We continually create new sounds. We create cymbals with more potential for variation and versatile application. We design more sound and function into individual models. We research and develop methods to bring more satisfying sound to lower priced ranges. In short - we work hard to make our cymbals do more to satisfy drummers and percussionists.

For the full line of Paiste Cymbals and accessories, check out:

PAiSTE RUDE SERIES

These definitely different cymbals were inspired by the revolution of punk and metal during the late 1970s. RUDE continues to be the leading choice of sound for raw, merciless and powerful musical energy in Rock, Metal, and Punk.

GIANT BEAT

These innovative cymbals – developed during the 1960's rapid expansion of Rock music – were faithfully recreated and re-launched by Paiste in 2005. From today's perspective, Giant Beat cymbals offer a big, warm, brilliant vintage sound that takes you straight back to the roots of Rock.

EC2 Coated Drumhead

The EC2 features a Sound Shaping Technology ring mounted underneath two plies of 7mil film. By controlling edge vibration (instead of eliminating it), the ring isolates and damps higher overtones, enhancing low-end and attack, and enabling a broader tuning range. The coated version delivers additional warmth, focus, and depth, plus a unique translucent appearance.

Pro•Mark The Natural

It's natural to play The Natural®.

No finish of any kind is applied to the Natural drumsticks... just premium grade American hickory like you've come to expect from Pro-Mark. Each stick has a more textured, "natural" feel... sticks you can really hold on to. Available in four popular models with wood or nylon tips.

American Hickory Nylon Tip

All Pro•Mark nylon tips are guaranteed not to crack, chip, break or fall off. Pro•Mark's own in-house engineers have designed special machinery to permanently "lock" the nylon tip on the stick. You have total assurance that the tip will stay on, even under the most demanding conditions.

Pro Mark Stick Depot

This handy stick holder keeps sticks in perfect position. Clamps on easily to any cymbal stand or other hardware. Comes in one pair or two pair models.

		List

Diversity Series "System Blue"

Designed by The Blue Devils percussion staff to be a diverse line of mallets for indoor or outdoor percussion. Four graduated marimba mallets designed for use on synthetic marimbas as well as rosewood! This line is perfect for ensembles seeking clarity, articulation, and a mallet that can hold up to any musical demand while still maintaining a true, fundamental tone from the keyboard.

pro-mark®

Rods™

Pro-Mark started a trend when we introduced the original Rods®. Over the years, other companies have tried unsuccessfully to duplicate their unique sound and feel. Voted one of the top 15 percussion products of the last 25 years, the Rods family produces a lower volume than sticks, but more attack than brushes...perfect for a variety of applications. When regular sticks are too loud, and brushes are too soft, Rods are just right. Handmade in the USA of select birch dowels.

Vater Stick and Finger Tape

Vater's Stick and Finger Tape is the world's first drumming tape to be designed for use on both sticks and fingers. The tape helps prevent blisters and hand fatigue, while still allowing a sense of "feel" to maximize dexterity and grip.

At St. Louis Music, we have an awesome selection of High Quality Instruments and Accessories to meet the needs of even the most discerning professional musicians, and for musicians at every level.

The New Austin Guitar lineup offers a great value and features both acoustic, and electric models and bass guitars in classic styles with beautiful finishes.

SLM Stage Hardware and SLM Stage Gear are our lines of instrument cases and hardware for stage and studio. Heavy duty construction and quality materials are the standard for this excellent line of gear.

All the big names in Guitar Strings and Accessories are available from our huge selection of electric, acoustic, and folk instrument strings. D'Addario, Fender, Everly, Dunlop, Dean Markley, C.F.Martin, Augustine, John Pearse, La Bella, Thomastik, etc.

Audio-Technica is one of the many great brands you will find in our extensive stock of audio equipment, cables, mics, wireless systems, power conditioners, equipment racks and more. St. Louis Music offers a humongous selection of tuners and also effects pedals of every style, from all of the big names you'd expect; Boss, Danelectro, Pedal Train, MXR & Morley.

All prices in this catalog are up to date as of the printing date. Prices are subject to change without notice. Please confirm prices with your sales representative or our customer service department.

A close-up photograph of an acoustic guitar, showing the fretboard, strings, and the body. The body is made of a light-colored wood with a prominent grain. The neck is dark wood with metal frets. The background is a dark, textured surface.

**Superb design,
construction and value
for all players.**

We believe two things are needed to make great acoustic guitars, knowledge and wood – and that's exactly how we built the new Austin® line. We sourced the best woods we could possibly find and we built them with the help of world-class guitar manufacturers and designers. From the AA20 through to the AA50 Series, all of the new Austin acoustics feature specifications that are not usually found at this price point.

These instruments are inspirational, entry-level guitars that offer superb value for the money. They look and play just right and you can be confident they will arrive to your store, or to your customer, ready to play and impress, straight out of the box.

Folk Instruments & Q Chord

The Q Chord contains the latest technological advancements that now enable everyone to play or create music. It offers the ultimate combination of musical instrument and technology in a light weight, portable and dynamic sounding package never before available. Suzuki Corporation, MIDI Hit and Tune 1000 have worked together to combine the latest sound card technology with your favorite songs. These professionally produced song cartridges now enable you to have a truly interactive musical experience right out of the box. The Q Chord owner's manual contains easy to follow, step-by-step instruction for all Q Chord functions.

Chromaharp

The Chromaharp (autoharp) has a sweet resonant sound and is one of the easiest instruments to play, making it a great choice for singing lullabies during quiet time or family sing-alongs. Our top-of-the-line Chromaharps will last a lifetime and there's no need to read music or learn fingerings. Just press the chord buttons and strum full, perfect chords, ready-made for singing along. Great for kids too!

Strap Locks and Strap Buttons

Dunlop StrapLok Sets

The Dunlop Straplok System is designed with the artist in mind. 360° groove-and-ball design allows the unit to rotate without catching. The strap retainers are easy to install and operate. The case-hardened steel skin guarantees long life. The same strap can be used with several guitars as the strap button is interchangeable. Release-tested up to 800 lb. of pull; it won't come loose. Complete set (2 units for instrument and strap) adapts to instrument by replacing existing strap pins and screws with special Straplok System brand buttons and screws. 2 strap attachments are included. Dual design provides wider flange button for extra security.

Clayton Guitar Picks

Acetal Polymer

Strength is key to the ultimate performance. The composition of this pick gives you just enough stiffness to give you those killer power chords, but has just enough give so that you're not busting strings left and right. Plus this pick has a matte surface that prevents it from moving or slipping in-between your fingers.

Zookies by Dunlop

Zookies feature 3 angle tip options 10 degrees, 20 degrees, 30 degrees for personal preference. These angles allow the player a more natural hand position and better string contact by keeping the tip parallel to the string. Zookies' contoured shape allows greater comfort, "zero wear-in-time", and secure fit.

 2009

THE G7TH NASHVILLE CAPO

The Nashville Capo is for really fast changes on stage.

Easily applied and adjusted with one hand, its spring-loaded design is equally at home on acoustic or electric guitars, and can be conveniently 'parked' on the headstock when not in use.

THE G7TH NEWPORT CAPO

With its light weight and low profile, the G7th Newport allows for fast, accurate capoing with fine tune adjustment – in position – on the fretboard of your instrument.

Guitar Parts

Sounds so good it must be illegal! Man made ivory. Compared to standard materials, you'll hear crystal clear bell-like high end, big open lows, and a noticeable increase in overall sustain. Unlike natural materials such as bone and ivory, TUSQ is consistent from piece to piece. Without a doubt, this is the best synthetic material on the market, and it cuts and files beautifully.

IMT202

IMT301

IMT1000

5-in-1 Chromatic Tuner With Dual Metronome, Thermo-Hygrometer and Reference Tone Generator

- Dual metronome feature with 30 to 250 bpm range, wide screen LCD meter, with three tones for strong-weak beat and rhythm indicators
- Digital chromatic and 6 tone (gtr) auto tuner, suitable for all instruments and voice, with 3 color LED, quartz crystal accuracy
- +/- .5 cent, 8 octave tuning range
- 88 note reference pitch generator with pitch shift capability A430 to 449
- input jack
- Thermo-hygrometer with high-low range memory
- Continual max to mute adjustable volume control knob

IMT301List \$89.95

Pitch Generator / Metronome
Pitch Generator (Pitch Pipe) Features:

- 88 Notes A0- C8 - pitch is changed in the center of the unit.
- Pitch shift 430 Hz to 449Hz in 1Hz steps.
- Pause button - simply press the button to start the pitch.

Metronome Features:

- Tempo Range - 30 to 250 beats per minute
- 8 subdivisions of beats- eighth notes, triplets, sixteenth, triplet and sixteenths with middle rests.
- Accented beats 0,1, 2,3,4,5,6,7 with 3 different tones
- Two memory channels for storing rhythms and tempos.

IMT1000List \$69.95

SEIKO

Guitar/Bass Tuner

The Seiko SAT101 Guitar/Bass Tuner is easy to use. It's specifically designed to accommodate 7 string guitars and 6 string basses. Input and output jacks enable you to insert the tuner in your signal chain for instant fine-tuning. The SAT101 can also emit pitches to practice tuning by ear.

SAT101BList \$26.95

Chromatic Guitar/Bass Auto Tuner

- Tuning Method: Auto mode, Manual mode, Sound mode
- Tuning Range: A0~C8
- Reference Tones: C4~B4 (12 tones)
- Pitch Shift: A4=410~450Hz (1Hz step)
- Terminal: Built-in microphone, 6mm input jack, 6mm output jack, speaker
- Power Supply: AAA batteries x 2
- Auto power off after 20 mins
- Memory back up
- 105.6(W) x 64(H) x 17.7(D)mm
- 90g (including batteries)

SAT501SList \$36.95

Stringed Orchestral Tuner

Especially designed for orchestral stringed instruments, It will tune violin, viola, cello, and double bass through a pickup that clips on the bridge of the instrument.

SR1000VList \$31.75

Chromatic Clip Tuner

The Seiko STX2 Clip-On Chromatic Tuner is a vibration-sensing tuner that includes a sensitivity-modulate function to eliminate background interference. Simply switch from Solo to Band mode when you're in a noisy environment. The STX2 clip-on tuner lights up automatically with each input of a note or press of the Pitch button, reducing its brightness gradually if left untouched.

STX2.....List \$65.95

Clip-on Tuner Pickup

Multi-Temperament Tuner

- 0.1 Cent Virtual Strobe Accuracy
- Lightning Fast Real-Time Operation
- 40 Different Temperaments & Sweetened Tunings
- 8 User Programmable Temperaments
- Includes Presets for Buzz Feiten Tuning System®, Guitar, Bass, Dobro, Steel Guitar, Violin, Viola, Cello
- Adjustable Root, Selectable
- Auto-Off
- Sensitive Built-In Mic
- Practical, Compact Flip Display Design - Bright, LCD Screen
- Runs on 3 AA Batteries or DC Power Supply.

VSF.....List \$329.00

AutoStrobe™

The ultimate in professional tuning accuracy.

P590List \$1,130.00

Clip On Tuning Pickup

Includes a more sensitive piezo pickup than to improve the signal transmission into your tuner. The larger opening can now accommodate even the most challenging placement. Higher gripping tension ensures that the TP-3 stays in place.

TP3.....List \$16.95

Tuners

Intellitouch

The Intellitouch CT1 Capo Tuner combines vibration-based tuning with a single-action capo. It is automatic, chromatic, and displays the measured pitch on a large, backlit display for easy tuning. Designed to tune 6 and 12 string, electric and acoustic guitars without interference from background noise, the CT1 feels the instrument's vibration instead of sound.

CT-1..... **List \$54.95**

Intellitouch PT30 Classic Clip On Tuner

Features:

- Four-position backlight color selector
- Eight-arrow display
- Dual ball-and-socket arm
- Recalibrates from 430 Hz to 450 Hz
- Limited lifetime manufacturer's warranty
- Battery Type: CR2032 3-volt lithium coin cell included.

PT30..... **List \$54.95**

The PT10 tuner features include a needle display, calibration from 430Hz to 450Hz, elegantly simple controls, aggressive pricing levels and a multicolor backlight that makes tuning easier than ever by turning red when out of tune and green when in tune.

PT10MIINI **List \$39.95**

Compact version of the classic Intellitouch tuner. Vibration based chromatic/automatic tuner with no background noise interference.

PT20 **List \$39.95**

Rechargeable lithium ion battery and a USB charging cable included for fast charging.

PT40..... **List \$49.95**

- Extremely accurate seven-octave response
- Arrow-styled display
- Color-changing backlight: red = out of tune; green = in tune
- Calibration from 430Hz to 450Hz
- Elegantly simple controls
- Microphone and 1/4" guitar inputs
- Manufacturer's limited lifetime warranty
- Tuning range: 7 octaves: 27Hz - 6,000 Hz
- Tuning precision: > one cent

PT10XL..... **List \$29.95**

John Pearse Pickup

Full-spectrum transducer system is designed to accurately reproduce the sound of an acoustic stringed instrument while not changing its acoustic nature. The John Pearse® Acoustic Pickup is appropriate for any instrument with a vibrating soundboard.

Pickup may be mounted permanently inside an instrument, on the underside of the soundboard, using the peel-off adhesive backing already on the Pickup—or temporarily mounted on the topside and removed after each use, using the special non-marring adhesive included.

Dean Markley

DM3015A

DM3000

ProMag Plus

Dean Markley's ProMag Plus™ acoustical pickup has become an industry standard. ProMag's perfect balance and maple wood housing give it that smooth, high-end response that you want from an acoustical pickup. Being a single coil pickup, the ProMag Plus has bell-like harmonics that sing like no other acoustical pickup. 15' solderless cable is attached.

- DM3010A..... **List \$109.95**

ProMag Grand

The ProMag Grand™ Humbucking Pickup has been re-voiced for better string balance, and enhanced low-end, midrange, and highs with sparkling harmonics. Finer winding wire has been used to provide improved magnetics, plus an efficient, low-noise, slim line cable and a solderless, quick-mount jack.

- DM3015A..... **List \$129.95**

Artist Model Pickup

The Dean Markley piezo reacts through compression rather than just bending. This unique patented design gives Dean Markley's Artist Transducer its high quality sound at an affordable price. Artist Transducer's special mounting adhesive allows the Artist to be mounted and removed many times without hurting the finish.

- DM3000 **List \$79.95**

Martin

24CTSG

24CTAJ

Thinline 332 Acoustic Pickup

The Martin Thinline 332 is a string-sensitive, piezo-ceramic under-saddle pickup. It senses individual string vibrations via six fully-shielded piezo elements. The pickup includes a Fishman designed Switchjack endpin jack and can be used without a preamp.

- 24CTSG..... **List \$115.99**

FISHMAN®

PROREP103

Rare Earth

PRONEODO1

Rare Earth

The Fishman Rare Earth acoustic guitar pickup was designed for unequalled sound quality and ease of use. The Rare Earth is available as single coil or humbucking pickup. Cutting-edge neodymium magnets provide excellent string-to-string balance while the pickup's active electronics and low-noise, discrete circuitry design keep the sound pure and clean.

List

PROREP101	Single Coil	\$184.54
PROREP103	Blend	476.85

NEO-D Series

This value-priced cousin of the Rare Earth pickup shares the same neodymium magnet structure for exceptional string balance and sparkling acoustic clarity. The Neo-D's low-profile, high-impedance design needs no battery. Easy installation with no alteration.

List

PRONEODO1	Neo-D, Single Coil	\$76.85
PRO-NEO-DO2	Neo-D, Humbucker	138.38

PROMANINF

EL2

PROSBTEND

Undersaddle Pickups

The Fishman Classic under-saddle ceramic guitar pickup. AG Series pickups do not require a battery. An impedance matching preamp is recommended, but not required. Available in a variety of widths and string spacings.

GIGPRO

PARADI

VENUEDI

Gigpro

The Gigpro™ is a single-channel belt-clip preamp that will work with almost any pickup. It also provides 9v phantom power for mini-mics and other phantom-powered onboard electronics. Based on the Para D.I.'s award-winning circuitry, we have pared the features down to the essentials – nevertheless, it has everything necessary to get the best possible sound from your pickup.

GIGPRO	List \$139.00
--------------	----------------------

Pre-Amps

The Para Acoustic D.I.™ is a studio-quality direct box, featuring a five-band equalizer with tunable notch and midrange controls, adjustable gain and phase inversion. Our proprietary quasi-passive EQ circuitry is totally transparent and allows control over voicing without sacrificing tone—a big advance over conventional equalizers.

PARADI w/ 3 way switch & stereo jack.....	List \$249.00
---	----------------------

Venue DI

The Venue DI is an acoustic preamp that combines a transformer-coupled DI output for maximum isolation, an EQ specifically tuned for acoustic instruments, a volume boost footswitch to complement your playing styles, and an easy to read chromatic tuner with a mute/tune footswitch. Combining the features from 3 stompboxes into 1, the Venue DI brings a new level of fidelity and usefulness to performing acoustic musicians.

VENUEDI	List \$399.00

Pickups & Cables

L. R. Baggs

Anthem

This revolutionary new amplification system features our patent pending Tru-Mic microphone technology. The mic is mounted to the bridge plate inside of the guitar to capture the majority of your guitar's true voice in a way that only a microphone is capable of - plus it is amazingly feedback resistant. Our Element Under Saddle Pickup carries only the lowest frequencies for punch and authority. A sound hole mounted controller has volume, mix and phase controls with a battery check feature so you can always be sure of your battery at any gig.

ANTHEM **List \$429.00**

EAS

The Element delivers performance previously unattainable from an undersaddle pickup. The streamlined and efficient design removes every unnecessary internal component to improve the coupling between the transducer and the guitar. This substantially improves the sensitivity of the transducer for a robust, lively and open sound with great dynamics and a delicate high end. The Element Active System pairs the Element undersaddle transducer with a pre-contoured all-discrete class A endpin preamp and includes a small, removable soundhole-mounted volume control for added convenience and versatility. The entire system is designed to install easily and features plug-and-play performance. Also included is our battery bag for secure battery storage.

EAS **List \$189.00**

iBeam

The iBeam Active System combines our patented bridge plate transducer with an all-discrete class A endpin preamp that enables you to simply "plug-in-and-play". The user-installable iBeam reproduces the natural tone of an acoustic guitar while maintaining perfect string balance and providing full dynamic range. The iBeam preamp is made up of class A discrete circuitry and built on our stereo Strapjack Plus. Pre-tuned to deliver that great L.R. Baggs performance from the iBeam in any situation, it is ultra-quiet and faithfully amplifies the sound and dynamics of the iBeam. There is even a second passive channel available if you would like to add a magnetic or undersaddle pickup to compliment the iBeam.

ATM250
Hypercardioid Dynamic
Instrument Microphone
A natural with high SPLs, the ATM250
hypercardioid dynamic is tailored for
kick drum, percussion, brass and other
highly dynamic instruments. Equipped
with a neodymium magnet and a tight
hypercardioid polar pattern. Includes a
professional isolation clamp.
..... **List \$329.00**

ATM350
Cardioid Condenser Clip-On Microphone
A low-profile and exceptional cardioid con-
denser microphone designed to clip to
brass, reeds, piano, snare, toms, and violin.
Features an integral 80 Hz hi-pass filter.
..... **List \$489.00**

ATM410
Cardioid Dynamic Handheld Microphone
This cardioid dynamic workhorse is designed
for smooth, natural vocal reproduction and
low noise. Equipped with a neodymium
magnet.
..... **List \$169.00**

ATM450
Cardioid Condenser
Instrument Microphone
One of the stars of the Artist Series re-
make, the ATM450 cardioid condenser
offers an innovative side-address stick
design for endless placement options
and minimal obstructions. Equipped with
integral 80 Hz hi-pass filter and switchable
10 dB pad.
..... **List \$449.00**

AT2010
Cardioid Condenser
Handheld Microphone
..... **List \$169.00**

AT2020
Cardioid Condenser Microphone
Its low-mass diaphragm is custom engi-
neered for extended frequency response
and superior transient response.
..... **List \$169.00**

AT2035

Cardioid Condenser Microphone

This side-address cardioid studio condenser delivers exceptional detail and low noise. Equipped with a switchable 80 Hz high-pass filter and 10 dB pad, the AT2035 handles high sound pressure levels with ease. **List \$249.00**

AT2050

Multi Pattern Condenser Microphone

This microphone provides consistent, superior performance in switchable cardioid, omnidirectional and figure-of-eight polar pattern settings. Its dual large diaphragms are gold-vaporized and aged to achieve optimum characteristics over years of use. Equipped with a switchable 80 Hz high-pass filter and 10 dB pad. **List \$369.00**

AT829CW

Cardioid Condenser Lavalier Microphone
Terminated with locking 4-pin connector for A-T UniPak® body-pack wireless transmitters. 55" (1.4 m) cable. **List \$88.00**

AT-GcW

Guitar Input Cable for Wireless

1/4" phone plug to locking 4-pin connector for use between instrument and A-T UniPak® body-pack wireless transmitters. 36" (0.9 m) cable. **List \$24.00**

AT8538

Power Module

Power module only for AT831R, U853R(W), U853R(W)U, U857R(L), U857R(L)U. Phantom power only in-line power module, with bass roll-off, input on TA3M, output on integral XLRM 3-pin. Furnished with U853R, U857R, PRO35. **List \$99.00**

AT8646QM

Shock-mount plate. XLRM connector mount. **List \$64.00**

AT8647QMS

Shock-mount plate. XLRM type with mute switch. **List \$130.00**

ATH-M20

Closed-back Dynamic Stereo Monitor Headphones.

Offer clarity and comfort for hours of listening. 10-foot (3.0 m) coiled cable, 3.5 mm stereo connector with snap-on 1/4-inch adapter. **List \$89.00**

ATH-M2X

Mid-size Open-back Dynamic Stereo Headphones

Engineered for digital program materials, the mid-size open-back dynamic ATH-M2X stereo headphones are equipped with high-performance drivers and low-mass diaphragms for maximized power handling capability. 3.5 mm plug with 1/4" adapter **List \$39.95**

ATH-M3X

Mid-size Closed-Back Dynamic Stereo Headphones

Engineered for digital program materials, the ATH-M3X mid-size closed-back dynamic stereo headphones are equipped with high-performance drivers and low-mass diaphragms for maximized power handling capability. 3.5 mm plug with 1/4-inch adapter. **List \$49.95**

AT8801

Provides 48V phantom power for a single microphone. **List \$79.00**

MB1K

It features Audio-Technica's Hi-ENERGY® neodymium magnet structure for maximum output and fast transient response, lockable MagnaLock™ switch design for silent on/off operation, and a corrosion-resistant gold-plated XLRM-type connector. **List \$49.00**

MB2K

Hi-ENERGY® neodymium magnet for improved output and transient response. MagnaLock™ switch design for silent on/off operation, and a corrosion-resistant gold-plated XLRM-type connector. **List \$69.00**

MB3K

Its Hi-ENERGY® neodymium magnet structure provides improved output and extremely fast transient response. Other features include A-T's MagnaLock silent switch, soft-touch finish, and gold-plated XLRM-type connector. **List \$69.00**
